## BOMBAY.

PRINTED AND PUBLISHED FOR THE PROPRIETORS,
AT THE COURIER PRESS.

EMJEDBHOY BYRAMJES.

No. 9, CHURCH LANE.

In presenting the following rock to the public the Editor, sensible the great support which the Curier Calender has received for the last fifty years, has endeavoured to uphold its former character and to infuse into its pages new vigour. In order to render the work useful and easy of reference, it has benthought desirable to divide it into two parts instead of one as formerly: by adopting a new arrangement and extending its sphere of compiliton each part is made distinct in itself-

The greater part of the present work is entirely new and is made to meet the growing demands of is Bombay community. The compilation of a General Directory, easern and western, will no doubt be found of considerable utility, forming as it does a complete Gazetteer and epitome of the world. The ditor is sensible that the work is not free from the errors incidental tall compilations: much care has been used, but as several communications came to hand too late, their adoption is necessarily postponed for a second year. The stations in each of the Indian Presidencies were disigned to appear after the manner of those already given, including iformation of use to every one whose business or inclination gave to my of the stations a temporary interest. The communications from out-stations were in some cases either scanty of intelligence or prolix in irrevent matter as to render them of no present service:—these defects: is hoped will be supplied timeously for the next publication.

The Editor considers it necessary to add that the compilation has been effected by occasional snatchs from other and more ephemerals employment, which will accoun for if not excuse its desultory character.

# NOTE.

It may be proper first to premise, that the Phases of the Moon, the rising and setting of the Sun, the Lunar Eclipses, and the time of the Tides, are all calculated for mean Solar Time, or that shewn by a true clock at Bombay.

Those who may wish to avail themselves of the columns of the Sun's using and setting, for the purpose of rectiving a Clock or a Watch, should observe, that at the time given in the Almanack (which is that when the Sun's centre is really in the Horizon) either at rising or setting, the upper or lower high of the Sun, will appear to be at least the Sun's diameter above the edge of the water; the Watch, &c., should therefore, be set to the time as shewn in the Almanack, when this appearance is seen at sun-rise or sun-set, when it will shew the true Mean time at Bombay.

The Sun's Right Accession in Time, Declination, and the Equation of time, are adopted to apparent Youn, or the metant when the Sun's centre is on the Meridian of Greenwich.

### INTRODUCTION.

HE only explanation which is conceived necessary, to render the scheme of the following Calendar fully understood, is that the Christian months indicated at the top of each page, divide the Native months as they appear, represented in the space below allotted to their names; January, for example, partakes of the Hiudoo months, Marroo, Poush and Magh; Guzeratt, Duxun and Concan, Margashirsh and Poush; and Malabar, Dhanuh and Magaram; the Parses months Shaenshoyee, Teer and Amwordad; Kudmee, Amoordad and Sharaver; and the date of Nowroz 126 to 156; and the Mahommedan months Zilhuz and Mohurrum.

From the Columns is to be collected that the 1st of January corresponds with the 8th of Poush Vud, Maroo; and the 8th of Margashirsh Vud, Guzeratt, Duxun and Concun; and the 20th of Dhanuh Malabar; the 6th of Teer Shaenshoyee, the 6th of Amoordad Kudmee; and the 126 day of Nowroz, or Kudmee; and the 21st of Zilhuz Mahomme-

dan : and so throughout the year.

'It may here be observed that the Hindoo Lunar months invariably consist of 30 Tithees, or Lunar days; and the whole month is divided into two equal parts, of 15 Tithees each: the one called Shookla Puksh, or Shood : bright half or increase of the moon . the other, the Krishna Puksh, or Vud, the dark half or decrease of the Moon .-The Lunar month begins on the western side of India, and south of the Nurvuda river, with the first day of the Shookla Puksh, (shood prutipuda) or bright half of the Moon. - At Benares, Oojain, and the countries north of the Nurvuda, the lunar month begins with the first day of the Krishna Puksh, (Vud prutipuda) or dark half of the Moon. -The first, is designated the Shookladee mode of reckoning: and the latter, the Krishnadee .- The lunar year begins with the first day of the Shookla Puksh, or bright half of the Moon in Chytr, both north and south of the Nurvuda, in every country in India: but as the dark half of the Moon precedes the other, or Shookla Puksh, at Benares, the half lunar month of Chytr is taken from the last lunar month of the year preceding, and considered to belong to it.

It has been already stated the lunar month invariably consists of 30 Tithees or lunar days, but it has been customary with all eastern nations, in order to regulate their fasts and Pestivals, to drop certain lunar days, and to reckon others twice, to make up the deficiency: the first of these are termed by the Hindoos, Kshuvu Tithees (perishable days,) and the days repeated twice are called Vridh Tithees, (additional days.) The rule of these is exceedingly simple.—Those lunar days on which the sun does not rise, (Sooryoduyu nuheen) are struck out, those in which it rises twice are vridh, or additional: and it is obvious that such circumstances will occur about 6 times in the course

of the lunar year,

There are at present two Branches of the Parsees, who differ one month in the year from each other; those that forward one month in

their year are styled Kudmees, and the rest Shaenshoyees.—The present scheme embraces the Parsee Æra of Yezdezerd, commonly styled Kudmee or Dureeayee Nowroz, or Sea reckoning the same being made use of in all nautical calculations among the Asjatic Mariners, the new year of which always commences on the 1st day of Furverdeen, the Kudmee reckon the new year and the Dureeayee Nowroz to fall on the 29th of August, one month earlier than the commencement of the Shaenshoyees' new year.—It also embraces the Parsee Æra of Yezdezerd, commonly called Shaenshoyee, the new year of which generally begins on the 1st day of Furverdeen, the Shaenshoyee compute the new year to commence from the 28th of September, a month later than the commencement of the Kudmees new year.

The first day of Mohurrum, or the commencement of the year, is ordinarily reckoned from the first appearance of the Moon after the conjunction observed from eminences of any sort, or even in cloudy weather from the time at which, but for these obstacles, it would be visible: and this can scarcely happen earlier than 24, or later than 48 hours after the conjunction.—After this manner, each several month is reckoned, and the lapse of 12 such months, constitutes the Mahomme-

dan year.

We have also endeavoured to discriminate the Feasts and Festivals of each Nation by different sorts of Type; the Hindoos for example, we have distinguished by Roman small letters, as Poush Shood; the name of the Malabar month by Roman capitals, as MAGARAM; the Parsees by the small capitals, as AMOGRDAD; and the Mahommedan, by Italic small letters, as Mohurrum.

# The Presidency of Bombay.

GOVERNOR .- Colonel Sir George Arthur, Bart., E. C. H.

COMMANDER-IN-CHIEF. - Lieut., General Sir Thomas W. McMahon, Bart.

- SITUATION AND EXTENT.—The presidency of Bombay comprises the Western part of the British possessions in India. It is bounded on the West by the Arabian Sea, on the south by Canara, on the north by Rajpootana, and on the east by the dominions of the Nizam and the Maliratias. It contains 59,438 square miles and 6,261,546 Inhabitants.
- GOVERNMENT.—The affairs of Government are conducted by the Governor and three Members" of Council, one of whom is Commander-in-Chief. In every thing the presidency of Bombay (like Madras,) is subordinate to the Supreme Government, namely, the Governor General of India in Council.
- CLIMATE.—It is in general healthy and in one respect possesses advantages over the other presidencies, in nearly its whole extent being under the genial influence of the Sea breeze. The annual mean temperature is less than prevails in Bengal and Madras. The hills called Mahableshwur form the Sanatarium of the presidency and constitute a delightful retreat during the hot season. During the mensoon, Poona, situated above the Ghauts, is also an agreeable place of resort from the unhealthiness which prevails at low altitudes during the rains.

Remarks on Bombar

BONDAY .-- The capital and seat of Government is situated on the island and In the Presidency of the same name. It is distant 1,300 miles from Culcutta. 270 from Madras and 965 from Dethi.

Bombay owes its whole importance and advancement to the English and the disadvantages both in respect of Geographical situation and the political circumstances of Surat, for many years the emporium of British india. The latter cause indeed operated most strongly in directing the selection of Bombay, as the exactions of the great Mount and his officers, notwithstanding the firman possessed by the Company, were so expensive and the incursions of the Mahrattas, at which the great Mogul winked, so frequent, that to save themselved from oppression on the one hand and Mahratta aguression on the other, the English were solleitous to possess a place which they could fortify and render secure

by the aid of European tactics and works.

The island of Bombay originally consisted of several smaller ones which were tributary to the Rajah of Salrette, and derived their chief value from being the resort of various kind of fishes then esteemed and still considered valuable articles of food, which resorted to the shouls that, at the period in question, (more than eight handred years ago,) distinguished Bombay, and afforded to the finny tribes ample and secure retreats for the purposes of spawning. At that peried the several leles new intersected were comparatively insignificant. Salsette and Makim were the principal Islands of the archipelago. The latter island, and several smaller ones, of which not even the names have been preserved, are new united; the low lands formed by the retrocession of the sea constitute one la-land of several thousand acres, through which range two irregular hills that stretch across the leland nearly longitudinally; and near these run a few distributed lines of laterite extending from point to point. The clevated spots between which the sea used to pass freely, leaving an extended bank at low water, are connected by a fertile plain of rich alluvia, of moderate depth, covered with

Cocoamht, male date trees, and other exotics peculiar to the meinland.

We have remarked that the situation of Bombay strongly recommended it to the discernment of Europeans as an emporium for trade : internal resources, it possessed scarce my; the inhabitants being chiefly dependant on Salsette and the Concans for grain and other articles of domestic consumption. For commercial operations it was considered to possess emiment advantages. Its proximity to the mainland giving to it a facility of communication with all the different points of the extensive western coast, with the chores of Persis and Arabia, and an intra-ludus communication with central Asia. Its local advantages are no less valuable, since it is easily defended, possesses a commodious and safe harbour, whilst the rise of the tide is so superfor to what prevails in any other part of British India as to allow the construction of docks only excelled by the Royal establishments in England.

The derivation of Houbby is usually considered to owe its origin to the appellution by which its principal Hindoo pagoda was known, namely Moomba-daves, which was situated on what is now called the Esplanade, and was removed to or rather rebuilt on the present site shout eighty years ugo, we believe at the cost of the raling Government at whose instance the old building was demolished. The most probable way of accounting for its same is afforded by the Portuguese, who were he first European visitors at the end of the fifteenth century and by whom it was then called, and still retains the appellation, HOMBAIN, or good. Buy, a signification which singularly enough not only accords with its hydrographical character, but is also allotted to it by the Gustrattees, and one which mbether from accident or design corresponds with the nutive name of the place, supposing it to have been called after the Chief pagods, -a practice which generally obtains in India.

The constant intrigues of the Portuguese, who were more successful than the English in forming alliances with the natives, directed them to obtain possession of Rombay: for in addition to the security which the place afforded from the piracies of the English, who were much alarmed at the buccaneering conduct of the natives then in alliance with the Portuguese, it also possessed the advantage of a sale haven where to repair their vessels and served as a depot for the Merchandize procured at Smar, Din and the coast of Arabia. The Portuguese were desirous to obtain possession of the Island permanently. At this period it belonged to or was subject to a Chetree Chief of Salsette, residing at Tannah. This negotiation was successful, and Bombay was ceded to the Portuguesc in 1536 together with the Island of Salsette, by the ruling chief who was an usurper and periously afraid that his conduct would be visited with death at the instance of the Mahonimedaus who were in paramount pessession of nearly the whole of Western India. The acquisition of Bombay was viewed by the English with much jealousy, and served as a thorn in the side of the latter almost irremediable. .. An opportunity he wever offered for obtaining what had been long regard-" ed as a desideratum, and in the negotiation with Portugal for the alliance of the Infanta Catherine to Charles II, the cession of the island of Bombay, in dowry with that Princess was urged as a sine qua non. The terms were accepted and in 1681 the island was formally ceded to Great Britain. The Portuguese residents were resolved not to comply with the terms of the cession; and in consequence, the Duke of Marlborough was despatched on the part of the King. That nobleman took with him a regiment of troops as well to enforce the act of cession as to retain a permanent Garrison in the place. In September 1662, the King's representative arrived, and in a formal manner demanded of the Portuguese Governor the unconditional surrender of Bombay and its dependencies, Mahim and Salsette. The Governor refused compliance with the latter part of the demand and insisted that the cession of the dependencies was neither stipulated nor contemplated by his master, the King of Portugal. The Duke handed his troops on Caranjah and departed with the view of obtaining a reinforcement from any of His Majesty's or the Company's Ships at Surat. In the meantime the miasma of the island attacked the troops so seriously and was followed by such alarming mortality, that the surviving officer in command, Mr. Cooke, Secretary to Sir A. Shipman the appointed Governor, abandoned the constructive terms of the cession and accepted the island of Hombay as the extent of the grant. In February 1664 the survivors were admitted into Bombay, but rightful possession was not accorded uptil the orders of the King of Portugal were received. In 1666 Sir Gervase Lucas, the first Governor, of royal nomination, arrived: he commenced a prosecution against Mr. Cooke, the late acting Governor, for pec-

The King of Fingland who looked to his newly acquired possession to provide him the means for carrying on his liusons was disappointed; the Company, by being compelled to carry freight-free the King's merchandize were undersold, complained loudly and objected to minister to the King's necessities unless an arrangement was made favorable to their trade. The "Merry Monarch" could not resist the allurements which offered, and, it is said, in opposition to his wily minister, yielded to the pressure of an empty purse; and to gratify the demands of the fair Duchess of Portland made over the island in perpetuity to the Company on the 23rd of September 1668 for a handsome donceur in ready cash and a small annual payment, since greatly augmented, for the benefit of the national Treasury!

In 1687 The Company abandoned Surat, as the emporium of their trade, and removed their establishment to Bombay; which was constituted a regency and corporation under the direction of Sir John Child—the first Governor of the Presidency of Bombay, whose remains, on his death, were interzed in the English Burisl Ground, in all probability at Colaba.

To observe the progress of Bombay, from the first selection of the spot to its present attained elevation in the scale of political and commercial importance, eminently rece emends itself to our notice in all the connections in which we stand as infinitionate enjoying social security and happiness, as commercialists resping the benefits its peculiar situation and ambient resources present for our undertakings, or indeed in whatever respect its present position and into a prosperity concern us.

What Bombay was during the reign of its native princes, its first conquerors and their successors the Bhongules and Mahomedans, alternately exercising sovereignty within its limits and the islands immediately surrounding it, we have such scanty materials to which access can be obtained through the medium of the native languages that its state, resources, and commercial transactions, if any were carried on, are beyond our means of ascertaining. It was not qutil 1530 when its cession was granted to the Portuguese by a Bhongule Chief of Salsette, of whose principality or State it formed a subordinate part, that it forces itself upon our attention; and even at that early period in the settlement and trade of the Portuguese its importance for commercial purposes, was unknown. save as a haven distinguished for its safety, the hospitulity and the good feeling evinced by its native inhabitants to the Merchant-Captains of the Viceroys of Portugal. This desideratum recommended it to the attention of the English, who negotiated with the Portuguese for the newly acquired settlement and it was made over to Great Britain in 1661; but seven years after, it was transferred to the East India Company. From the period of its latter cession, 1668, we may date the era of the commercial prosperity of Rombay, and which doubtless under the fostering erre and enterprize of the English would have soon obtained a higher degree of importance had it not been for the existence of a factory at Surat, added to the circumstance of the nature of the Company's investments being such as were either supplied directly from the weavers or by the native Surat Merchants, who carried to that city the produce of the Coast of Malabar, the East Coast of Africa and the ports of Arabia and the Persian Gulf. In all probability Bombay would have continued to occupy a second-rate importance but for the duplicity of the Mogul's officers at Surat, added to the political effects which followed the rising power of the Mahrattas and the trifling importance of Bengal as the stene of commercial and political operations. At the time of its cession to the Company, the official returns exhibit but £2,833 per annum as its gross revenue, - being the pay of the present Collector of Customs, or about the Three thousandth part of its present annual revenue!

The facilities which Bombay offered as a haven recommended it as a depot for the repairing and constructing of vessels; and accordingly we find that in the year 1671, but three years after the Company had obtained possession of it, it received significant distinction by the establishment of a Mintand the commencement of building two ships, and the same number of brigatines. Its celebrity

for shipbuilding has kept pace with its progress in every other respect.

The wars between Sivajee and the Breat Mogul materially affected trading operations, and necessarily involved the Company's establishments in Western India. Literally driven from Surat in 1685 the Government was removed to this island, and the jeulousies which had existed between the Governor of Surat , and the Deputy Governor of Bombay being happily destroyed, (by the removal stille executive to Bombay) the latter found in the administration of Sir John Chi'd, an able promoter of commercial enterprize; and by the protection he, as Governor General and Admiral, afforded to the native traders from the peratical uttacks of the Mahrattas, Arabs and Dutch, the country-trade received a new impetus, thereby constituting Bombay the emporium of the west and north-west Coasts of the peninsula, and of the Persian and Arabian gulphs. The annual revenus was now augmented to seven thousand pounds sterling, equal to the present smoluments of a single member of Council, or the Chief justice of the Supreme Court of Judicature! The growing prosperity of Bombay marked it for the scene of piratical plumer: upon the death of Sir John Child, after humbling the Mogul navy at Surat, Bombay was blockeded by the notorious Siddee preste whose fleet and army produced such consternation that recourse was had to the payment of a large sum, on which the Siddee withdrew The presidency had scarcely recovered from the disastrous effects of the blockade than the appearance of European pirates again arrested the progress of commerce. The depredations of these freebooters were not confined to despoiling the English vessels, but extended to native craft: that commerce, rendered unsafe, a severe falling off in the annual revenue was the result. By the union in 1702 of the rival East India Companies, the pirates chiefly in the service of one or other of these rivals were amalgamated in the legitimate trade; and, by this means, the united operations imparted sugreat an impulse to commerce that, notwithstanding the Mo-

gul disturbances and interruptions, the trade made satisfactory pragress; and in the course of forty years the annual revenue of Bombay, derived chiefly from The political events commercial sources, amounted to treble its former sum. which followed the struggles of Ruropean aspirants for dominion in India are se fully detailed in the pages of Mill, Tad, Malcolm, Elphistone and other celebrated writers, that we must refer the reader to these sources for details of their progress; suffice it to abserve that on the termination of these protracted wars we found ourselves in possession of an immense territory which opened new sources for enterprize and any nented the revenue of Bombay and the other presidencies to an astounding amount. The political power of the English Rast India Company commenced in 1748 but as its operations were chiefly confined to Bengal and Madras, whilst these places were involved in the disturbances that ensued, Bombay was yearly increasing its commercial importance. political supremacy obviously opened other sources of revenue than those deriveable from mercantile speculations so as to increase the gross annual revenue of India to its present enormous sum of twenty three millions of pounds sterling.

When we consider what Hombay was at the time we have indicated, nearly two centuries ago, this ly populated, insulated, and having so trifling a revenue cato afford its distinguished English Governor but the insignificant sum of £220 as a yearly salary; and compare the Bombay of that period with what it presented at the beginning of the nineteenth century, when the value of goods which passed through the Contom House with the view of levying the, duties was ascertained by a Panchayet formed of the European and native merchants, and the amount levied paid are morths subsequent to the importation of the goods; when the solary of the Collector of Costoms of that day was rated at a per centage upon the gross receipts; when prescribed Costoms regulations were promulgated by the dictum of the head of the department! Contrast such a state of things with the improved though very imperfect state of mercantile usage and regulation manifest in the commercial transactions of 1843 A4, how surprizingly are we startled by the gigantic strides trude has made at this Port, and how changed is its present aspect!

As a laconic sketch of the state and progress of Bombay, from the arrival of Bir George Oxendon to the union of the two Companies, cannot fail to possess a me interest we extract the following from Hamilton. "Sir George Oxendon died on the 14th of July, 1609, and was succeeded by Mr. Gerald Augier, as

Chief of Sura' and Governor of Bombay, which continued extremely unhealthy, and much infested by the depredations of the Maharatta pirates.

"In 1672-3, a strong Detch fleet appeared off Bombay, and created great alarm; but, after reconnotiving it, disa peared without making any attack. In the succeding year there were 100 pieces of cannon mounted in the fortifications, and the guarison consisted of 460 regulars, of which the greater propertion were topasses, and 300 militia. In 1676, letters patent were obtained from the king to establish a mint at Bombay, at which they were empowered to coin rupees, pice, and bulgerooks.

"Mr. rugler died in 1677, and was succeeded at Bombay by Mr. Henry Oxinden. At this time Bombay continued of very little political or commercial importance, which in part proceeded from the vigorous government of Auronyzebe on the Delhi throne, and the rising power of the Maharotas, under the martial Sevajee. 1670, the Island of Kenery was occupied by the troops of Sevajee, and the b ginning of the next year the Island of Kenery was seized on by the siddes, or Mogul Admira!, the Bombay government not do ing to oppose cirker, and from their proximity being kept in a state of continual alasm.

"In 1481, Mr. John Child, the brother of Sir Josiah Child, was appointed President at Surat, one of the junior equipments being appointed to act us deputy-governor of Bombay. In 1683-1, the Court of Directors, in consequence of the capture of Bantam by the Dutch, constituted Bombay un independent English settlement, and the seat of the power and trade of the English aution in the East

Indies.

"On the 23rd of December, 1683, Captain Richard Kegwin, who commanded the Company's garrison, assisted by Ensign Thompson and others, seized on Mr. Ward, the deputy-governor, and such members of the council as adhered to him, and sesumed the government. The garrison, consisting of 150 English soldiers,

and 200 topasses, were joined by the inhabitants of the island, who elected Captain Kegwin governor, and declared they would only acknowledge the long's authority, although, in the interval betwixt the acquisition of the island and this period, the East India Company had expended 300,000l, at Bombay on fortifica-

tions and improvements.

"In 1684-5, Captain Kegwin negociated a treaty with Rajah Sambajee, from whom he recovered 12,000 panodas due to the Company; and on the 10th of November, 1684, he surrendered the island to Sir Thomas Grantham, on condition of a general pardon to himself and his adherents. He had not, it appears, embezzied and of the Company's money in the fort, which was restored to them entire, but had subsisted on the revenues of the island.

"In 1686, the seat of the Enlish government was ordered to be transferred from Surut to Bombay, and next year. Sir John Child dying, the office of President devolved on Mr. Harris, then a prisoner at Surat, but released by the Mogul go-

verior next year.

"In 1688-9, the siddhee's flect (Mogul's admiral) invaded Bombay, and got possession of Mahein, Mazagon, and Sion, and kept the governor and garrison besieged in the town and castle. An order was soon after obtained from Aurangzebe, directing the sidhee to withdraw his troops; but the evacuation did not take place until the 22d of June, 1690, when the lands belonging to the Portuguese Jesnits were seized, they having been active in promoting the views of the

siddee during the invasion.

"In 1691-2, the population of Rombay was much reduced by the plague, of the civil servants only three remaining alive; and in 1694, Sir Jushua Guyer arrived, as Governor at Bombay, which he found in a disastrous state, principally caused by the depredations of the English pirates on the Blogul ships, Aurengaebe insisting that all the less austained by his subjects should be made good by the East India Company. Three pirates in 1698 possessed two frigates, of 30 guns, off Cape Comorio, under Captain Kidd, who was afterwards taken and hanged; one of 50, one of 40, and one of 30 guns, off the Malabar Coast.

"In 1698-9, Sir Nicholas Waite was appointed resident at Surat, on the part of the New or English Company; and in 1700, by his intrigues, procured the imprisonment of Sir John Gayer and Mr. Colt, the Oldor London Company, servants. At this time Bombay was in a very weakly state, and under constant alarm of invasion from the Maharattas, Arabs, or Portuguese. In 1702-3, it was again visited by the plague, which carried off many hundreds of the natives,

and reduced the garrison to 76 men.

"In 1708, the two rival Companies having united, Sir Nicholas Walto was dismissed, but Sir John Gayer, the legitimate governor, still continuing in confinement at Surat. Mr. Alslable was appointed; and such was the continued families sees of the settlement, that the Bombay government this year declined receiving an envoy from the King of Persia, for lear he should observe the weakness of the

place, both by sea and land"

The changes which Bombay has undergone both in its external appearance and internal management have been many; but the old walls and ways continuedchiefly to exist till within the last eighty or ninety years. About eighty years ago the residences of Europeans within the Fort-scarce one was without--were low bungalows now used as Godowns; above these reared, in what was then considered majestic magnificence, Government House (the present Secretarials) and the Second House, called so in consequence of the Second member of Council occupying it. What are now used as the offices of the Civil pay department, Commissariat &c. was formerly the Secretariate in which the Chief Secretary resided. There were then two Custom Houses, one situated where it is at present: the other, which was used for the collection of Petty Customs, is now the Fort Barracky. Until the commencement of the present century the rate of Costoms duty was fixed at 61 per cent; but rarely more than 2 per cent. was paid as the rate was fixed on the market value, and the latter was determined by a Punchayet of the Merchants. The Collector of Customs received no fixed Salary, but was allowed in lieu a small percentage on the amount of duties collected. In these " old times" the business of all public offices comigenced at 8 A M. was carried on until 12 at noon, when principals and subordifiates settred to their dinners, returned to the offices at 2 ? M, and

continued at their daily avocations until 6 r m. The Dinner hour was usually at one, and such Europeans in the service as could afford it indulged themselves with a supper at the hour now considered bon ton for the pleasurable exercise of gastronomy. The Bazar was not regarded as very unfashionable for the distinguished unmarried visitors that occasionally resorted here. In the Bombay Courier for June 8th 1793. We read the following, which, from subsequent issues would appear to have been a standing advertizement, for the guidance of griffins in searching out respectable quarters.

Bombay, W. & K. Act Office 1st March 1820.

To live without the fort of Bombay, eighty or even fifty years ago was considered as insecure as to reside in the land of the Uzbecs. The Poice arrangements were scarce worthy of that appellation, being under the superintendence of one of the twolve members of Council, each in turn undertaking for one month to preserve the peace and property of the good lieges! This Council partook of the character of a roving con mission, for during one month a member was Chief of the Police and directed other municipal arrangements, the successive months found him at Surat, thincdabad, &c. almost as regular in his movements, as the signs in the Zodiac were visible in the heavens. Some were good peace protectors; others indifferent, or bad; until about 1790 when Mr. Tod was appointed High Constable or Chief of the Police. At that period the esplanade and parts beyond were chiefly jungle; it was always unsafe to travel beyond the fort walls, and at night nothing would induce a native to go without the gates of the fort. About 1802 a fire occurred in the Hindoo section of the fort, which consumed nearly the whole of the native houses, excepting the Parses dwellings. The Hindoo population then creeted a new town outside, in the neighbourhood of the Moomi adayce pageda which now exceeds, both in the number of houses and the amount of inhabitants, the fort itself.

The great dread in which the authorities were kept in from fears of French invasion led to some great improvements and alterations in the town and its approaches. The part which now forms the esplanade was cleared of jongle, the houses which 'and been erected were removed, and an old windmill which imparted to the adjacent country an idea of the rural simplicity which prevaited in the mother country tell beneath the operations which calculated on causing the land approaches to the fort to be wholly submerged or laid bare on the appearance of an enemy!

Bombay and the adjacent country offered as little inducement to the tourist as it did variety to its inhabitants. Beyond the immediate vicinity of Bombay

entrance and the import frepartment on the left hand of the building. This arrangement will be exceedingly judicious. The business of the customs department has greatly augmented: the value of goods which passed during the year 1843-44 amounted to Rs. 12,19,21,343 for Imports, and Rs. 10,46,34,715 for Exports.

BOXBAY GREEN.-This is the only open space within the fort of Bombay, and is about the same size as Training ar square at Charing Cross. It formerly constituted the place of rendezvous now supplied by the Esplanade; here, until the introduction of carriages at the commencement of the present century, were wont to assemble the elite of Bombay. About 1810, the green was little better than a Metal the Cotton store; for here were deposited Iron bars, &c. and bales of Cotton, which now are either placed in private godowns or on the esplanade near the Apollo pier. Bombay Green formed the rendezvous until that which is now called the Esplanade was cleared of the jungle which until 1705 covered its whole extent, from the place of the "two tombs" at Colaba to the Marine Lines. The abandonment of the present Secretariate by the 'Clovernor for the more commodious building at Parell gave a blow to the dignity of the green sward within the fort. Its importance, notwithstanding the erection of the statue in its centre, became less; but it now promises to revive under the surveillance of the Agri-Horticultural Society of Bombay, which has taken it under its protection and under the sanction of Government is about to convert it into a flower garden, with public walks, &c. thus constituting it once more a place of retreat for the residents within the fort, equal to the growing and improving importance of Bombay.

THE TOWN HALL.-This is a comparatively new and noble building, erected in 1821-33 and devoted to Government and municipal purposes. It is from a design of Colonel Cowper of the Engineer's. The Town Hall occupies the eastern side of Bombay Green and imparts a commanding appearance to the view. In 4793 an attempt was made at general improvement and in particular to orect a Town Hall from the proceeds of a Lottery scheme, but the plan failed and the scheme was abandoned. The Town Hall consists of a frontage of about 120 feet; the centre is a preliment supported by six fluted columns, below the base of which there are 30 steps. In the centre of the building is a large Hall used accasionally, for public ussemblages on a requisition made to the Sheriff. On the right hand is a marble statue of Sir t harles Porbes, executed by Chantrey at the east of the natives of Bombsy, who, to mark their sense of Sir Charles approved ervices as a fellow citizen, subscribed towards a monument to be erected to his memory. On the right hand of the Hall is the Council Chamber and other offi-ces of the Government. On the left are the rooms of the Asiatic Society, con-taining the Library and Museum, which for compactness, completeness and interesting contents, equal any establishment of the kind. On the ground floor, in the centre and at the rear of the building is the Civil pay office, and the Court of Requests. To the right are the rooms, of the Geographical Society the Horticultural Society : to the left the offers of the Medical Board, &c. The inspection of the building, we believe, is patent to visitors.

THE CASTLE. - In the rest of the Town Hall is the Castle, which originally constituted a building of vast importance to the inhabitants of Bombay, who on the incursions of the Mahrattan sought security within its precincts. Here are nominally passed all the decress and official transactions of Government, which bear date. Bombay Castle. The fort that staff is placed near one of the turrets. The Castle is chiefly used as the arsenal; here are also the offices of the Government Saving's Bank.

THE MINT.—This is a large, commodious but dingy-looking building, situated between the Town Hall and the King's Barracks.

PAY AND COMMISSARY GENERAL'S OFFICES.—These are situated on the opposite side of Bombay Gigen and originally formed the Secretariate, until the Covernor changed his place of residence to Parell. On the East part, near the old Bombay Theatre, stand the Commissary General's Offices, where are kept in

large vats spirits. Beer &c. for the department. The south front is occupied as offices for the Military and Marine pay departments. To the right hand are the offices of the master in Equity, of the Supreme Court and at the left extremity are the offices of the Ecclesiastical Registrar of the Supreme Court.

CATHEDRAL OF St. Thomas.—This is the only protestant episcopal building within the fort. Its consists of a very plain building with two entrances. The Church is surmounted by a steeple, containing a clock with four faces. The church is an old erection; the steeple, however, has been built within the last ten years, but owing to the state of the walls of the edifice, no bells of any weight were suspended in it, lest the Church should give way, the large bell is situated on the right hand of the church, immediately under the vestry, and about three feet from the ground. The church is dedicated to St. Thomas and was converted into a Cathedral on the appointment of a protestant Bishop at Bombay. Within the building are several neat but interesting monuments some from the chisely of the two great modern masters. The building itself is inferior to many parish churches in England and possesses neither ornament nor grace to recommend it.

THE SECRETARIATE.—This building situated on the western side of Bombay Green formed the Government House of "olden time," it was converted into the offices of the Secretariate on the completion of the new residence at Parell. It is a plain and uninteresting building, surrounded by a garden in the north east angle of which stands the office of the Town Major. Here are transacted the executive business of Government in the political, civil and revenual departments. The secretaries in each department are assisted by Europeans now designated unconvenated assistants, but formerly called Clerks; and in each department there is a great number of sectioners and examiners: many of the latter are Europeans. To the establishment has been added several book-binders to arrange and bind up the records. The garden is planted with mulberry trees, the leaves of which are given to the silk worms belonging to Mr. de Ramos, the assistant superintendent of silk culture in the Konkan.

SIR JAMSETIRE JERIFERHOY'S -The residence of this wealthy and enterprising Parsee gentleman is situated in/Hornby row, fronting the esplanade. It is one of the neatest buildings within the fort; the interior arrangements are elegant and complete. The above distinguished individual whose benevolence is neither shortened by the extent of the misery he beneficently relieves nor precluded by distance from exercising its most genial influence has received the warmest and most signal approbation of the Queen of Great Britain, to whom his benevolence and enterprize, indicated a fit object for Royal distinction. This was marked by creating Jamsetjee Jeejeebhoy, a Knight of the United Kingdom. Sir Jamsetjee Jeeleebhoy, the founder of his family's fame and fortune, was brought up with his father-in-law, who was an extensive merchant. Young Jamsetjee made several voyages to China, and it is said in one of these trips, formed a friendship with the Nacoda, Mahomed Ali Rogay, which time has served only to cement. The trade of the house increased greatly, owing in great measure to the exertions of the supercargo, Jamsetjee. 1813-14 his father-in-law died and Jamsetjee Jejeebhoy, the heir, carried on trade and has continued to do so on his own account, in connection with Mahomed All Rogay and latterly his sone, until the extent of his commercial transactions and the amount of credit attached to his reputation is without a parallel in modern times.

EUROPEAN GENERAL HOSPITAL.—This admirable institution which has so largely contributed to relieve the sufferings of that portion of humanity which form its objects, is situated next to Sir Jamsetjee Jejeebhoy's in Hornby Rew. It is a low old fashioned building, having much the resemblance of old alms houses in England. It is nevertheless airy and the arrangements are very effinit. The institution is as its name implies a general hospital, no other recommendation, on the part of Europeans is required than that they stand in need of adical assistance. During the past year the Government has resolved to remove the Hospital to some more eligible situation. It is said Government intends to erect the new Eur, General Hospital at Colaba, opposite to the Grant buildings.

# REMARKS ON BOMBAY.

it was not possible to proceed without a passport. Even within the recellection of twenty years the toils of trade or the pressures of the sportsman could not be pursued beyond the limits of the island without special passport. The following order may be contrasted with the liberty which at present prevails.

## PUBLIC DEPARTMENT.

1. It having been judged necessary that a daily report should be made to the Right Konorable the Governor, of the names and descriptions of all European travellers, acroing at or departing from this presidency, either by sea or land, notice is hereby given, that, from and aft r this date, all persons not military, who will as us full report themselves to the Town Major, are expected immediately on their arrival at Bombay to report themselves, either personally, or in writing, at the office of the senior magnitude of the police within the fort, specifying at the same time, their intended places of abode during their stay at the presidency. And previously to their departure, they are expected in like manner to report to that officer, for the information of the Right Honorable the Governor.

2. It is to be understood that the above order is considered to be applicable to persons usually residing at Bombay, who may preced occasionally to any place beyond the Islands

of Bombay, Salsette, Caranjah or Elophanta.

8. And Europeans of whatever rank, description, or country, who shall be discovered passing through the territories under this presidency, beyond the islands above mentload, without being furnished with a regular passport, will be taken into custody, and confined

until the pleasure of government shall be known.

4. The only exception which the Right Honorable the Governor in Council has been pleased to make to the foregoing resolution, is in favor of officers commanding parties of his Majes: y's orthe Honorable Company's troops, or of officers of the civil, or military establishments, proceeding from station to tation on duty, or known to the Magistrates, Collectors, or Senior Civit, or Military authorities of the divisions, to be in the actual employ of Government.

5. For the more strict execution of this order, notice is hereby further given, that a reward of ten Rupees, will be paid to any person, who shall take up, and bring into the mearest garrison, or to the magistrate of the division, any European deserter, or vagrant of any description.

6. Passports will be granted at Bombay by the senior magistrate of police, or in his absence, by the junior magistrate; and at the on stations by the ungistrates, collectors, or

senior civil or military authorities there residing.

European articles for the table were formerly almost beyond the reach of junior Merchants and subalterns; a taste of good light wine was more than an Ensign's daily pay. In those days fortunes were made, but luxuries were scarce ever known even at the tables of the affluent. The following exhibits the prices of a few articles, which, from their cost, could not be appropriately called necessaries although now generally viewed as such. The Commerce of Bombay, has been wonderfully an enceted and the progress almost uninterrupted from the period of its cession to the East India Company to the present time. The principal commodities, which, as staple articles pecu-. liur to Bombuy, have contributed largely to its prospecity, are Cetton and Opium 5 the former being shipped in great quantities to G cat Britain and China, and the drug to China and Singapore. Formerly this trade was almost wholly in the hands of the Company, but of late y are fire Merchants and Natives have entered extensively into mercantile speculations; and since the cossation of the Company's Charter of sole trade it has been almost doub of There is now a large amount of shipping belonging to European and Native Merchants which is wholly engaged in the country trade, and maintain constant communication between Bombay, and the ports of India, China, Singapore, the Straits, Australia, Mauritius, East Coast of Africa, the Red Sea, and the Persian Gulph. Some ships carry on trade with Europe, being entitled to all the priveleges of British bottom's. Most of the vessels are manned by Native Seamen, with Luropean Officers, and some possess Native Captains called Nakodas. The other articles which constitute the products shipped from Bombay consist of Sandalwood, Pepper and Coffee from the Malabar Coust; Cours, Drugs, Pearls, and Coffee from Arabia, Persia, and the East Coast of Africa; Shark lins, fish maws, horns and dyes from the Persian Gulph, the Madlives and Laccadives.

Notwithstanding the present Commercial prosperity of Bombay it has not been without its vicusifudes and changes, especially during the long and unfortunate wars with France and the frequent interaption occasioned by the disturbances amongst the pative princes in the surrounding Countries. This will be observed in reference to the event's b fore 1700. In the year 1793 to such a state of Commercial inactivity and depression was Bombay reducen, that in November of that year a meeting was held of the Mercantile community, unconnected with the Company, at which it was resolved, in consequence of the distressed state of trade and the impracticability or employing money in safe channels as investments, to reduce the rate of interest I om three quarters per cent monthly to one half per cent. The following is the resolution which appeared in the newspapers at that time.

At a meeting of the Merchants and Agents, in consequence of the Advertisement in the Bombay Courier, of the 234 Instant, the following Resolution was unanimously agreed to :-November, 30th 1793.

Prouthe great Stagnation in the Trade of this Port, occasioned by the present War, the unprotected state of our Shipping, the overflow of money mixing from the Hon'ble Compamy being snubled to make a rapid progress in the discharge of their Bonded Debt, the dif-Moulty and insocurity in simpleying money, except by investment in Company's Paper, which now bears an Interest only of six per cent per annum, and that subject to the Inconventence of not being realizable when wanted; We, the undersigned, find it necessary, to zesolve on a reduction, for the present, of the Interest on money mour hands, belonging to our Constituents, from the hitherto current rate of per cent. per month, to of per cent. permonth, of thirty days to commence from the list of August last.

A similar state of attairs occurred about fifty years later, owing to the wars in Affighanistan and China, the market previously deluged with Europe manufactures, and the absence of the usual remittances of Sycee Silver from China. Still the crisis was not so severe as to induce a reduction of the usual rate of interest, a circumstance which added to the difficulties and less easy of being carried than

in 1793, owing to the great competion which has of late prevailed,

Under the company's rule, for many years after the cession of the island of Bombay, its gross annual revenue would not detray one fourth part of the expenses incurted in maintaining an adequate establishment for its protection, and to conduct the daties of offices belonging to the government inevenue the year 1680 when its ainual revenue had increased eight-fold, the pay of a member of Councir was injusted to the sum of £70 per annual,—being the amount now pand to subordinate updates clerks? In 1842-13 the commercial revenue alone of Hombay (an close updathe sum of half a Million sterling; the total imports and exports, including the Concan and Couzerat, exhibit £18,079,865 as the value of merchandize and treasure; but this obviously is only an approximate account of the value of merchandize—it is put down at what it is curred at the Costom House. Perhaps we do not over estimate the total invested capital if we set down the actual value at £25,000,000.

The batter to form in estimate of the anymented trade of Bombay will be a re-

The barter to formen estimate of the augmented trade of Rombay will be a reference to figures, and we take the annexed as exhibiting the lucrease of trade since the expiration of the Company's Charter of exclusive trade-extending

over a period of nine years.

Having afforded a few particulars relating rather to what Rombay was, we

will now proceed to offer some observations on what it is at present,

The city of Bombay is situated on the narrowest part of the island near its south eastern extremity. The town within the form is about and in length from the Apollo Gata to the Bazar Gate, and a quarter of a mile in breadth, it is surrounded by fortifications which have been gradually improved in proportion to the growing importance of the place. The principal part occupied by Europeans is at the north end-of the town: the houses are built in a semi-European style equally commissions but less elegant than the residences of Europeans at Calcutta or Madrass. The houses are lefty but have a dingy and

gloomy appearance.

The streets of Bombay are of moderate width; they are macademized; some are watered twice each day during the hot weather. There are no lumps in the streets at night; during the time of new moon the fort has a dark and melancholy aspect. In the centre of the streets run a line of sewers; these are near the surface and become frequently injured and stopped up. The houses of business are usually in convenient situations, the lower part of the buildings being conerally used as godowns. The shops for Europe articles are tew, but are well furnished with merchandize as Tyabjee Bhoymeans, Bennett and Co., Robert Frith & Co., Thomson and Co., Mechajec Alunchhoy, &c. The interior of these bazars, for so they may be called, contrast strangely with their external cellar-looking appearance; their contents however will furnish a paper of pins or a carriage by the best English maker, a pair of kid gloves or a bundle of cloth. All the departments of carriage repository, Jewellery, Bijouterie, Millinery, Staffonory, &c. &c. meet, without confusion, a place of embence in each store. In the way of shap fronts but little progress has been made. A beginning however, was set by Messrs. Lloyd Joseph and Co., Druggists, whose warehouse outside and within is not far behind Butler's in St. Paul's Church yard. The murch of improvement has been followed by Messrs. Treacher and Co who appear resolved not to be outdone by their new rivals. The carpenters and work- Box makers' shops are worthy of remark, these are confined to Medows and Forber's streets, and their busy inmates impart at all times a business like appearance to the town.

The population of Bombay is uncertain and varied. On the opening and during the trading season there is an influx of the merchants or their Agents from the Deccan, Conkans, Scinde, Marwar, Mooltan, Cabool, Persia, Arabia, Lahore, and Central Asia; who resort to Bombay and return to their native countries with the produce of the civilized Globe. The number of this uncertain or temporary residents varies from 50,000 to 70,000. The ordinary inhabitants consist of Europeans, East Indians, Hindoos of all castes and Mahommedan from every Country where Islamism is professed. There are also about 18,000 Parsees (of which number more than one third are priests)

Jews, Chinese, Armenians, Malays, &c. Nearly every country on the Globs has its representative at Bombay, each dressed in the costume of his country and imparting to the whole scene a degree of interest and ethnological variety no where else to be seen. In 1833 a census was taken of the population of the island of Bounday, which exhibited 117,016 as the number of the permanent adult population. In a letter from Mr. Warden to the Secretary of Government in the Judicial Department, No. 199 of 1835: "The population of the Island Bombay" observes Mr. Warden "is computed in common conversation at 250,000 souls. It will be observed from the annexed abstract of the census (No. 1) that it gives \$17,016 adults, to which in a country where everybody is married we may add at least an equal number of children, making the whole population by the census 234,032. Or the census may be proved thus. There are 22,000 houses in Bombay, with at least ten persons, on an average, in each house; which gives the population at 220,000 persons."

The number of the population is now in 1844-5 about 300,000. The Government is about to take a fresh census, which will put us in possession of more satisfactory information. In the meantime we submit the following copy of the official census-abstract of 1833, which possesses some interest and many be relied on as correct. The number of men was 68,570.

Since the above period the increased trade of Bombay has caused the inhabitants to be greatly augmented, in all probability the amount has been increased by at least one fourth.

The Parses inhabitants live chiefly within the fort or in the immediate neighbourhood of the Agiary without the fort The Hindoos live at the Bazar extremity of the fort or congregate as near to the temples of Mombadavce and Bholawer, as they can. The Mahommedan part of the population reside to the right and left of the Bendy Bazar road.

On entering Bombay from the sea the appearance is captivating : The number of ships and small craft in the harbour, the extensive pile of buildings lately erected by the Merchants on Colaba, and the town and surrounding hills in the distance, impart to the scene an extremely picturesque appearance, hardly borne out on closer inspection. On the land front of the town is the esplanade, a place of agreable resort, on which in the hot season bungalows and tents are erected and occupied by civilians and military visitors at the Presidency. Beyond this, at the distance of a mile is the native town, in which the principal part of the Hindoos and Mohomedans reside, and which extends nearly two miles by more than a mile in breadth. Beyond this, European residents generally reside in de-tached Bungalows or neat villas surrounded by gardens. The objects of interest will be heat described by presenting each in detail, and this we will do as nearly as possible in the order which they present themselves to our view, commencing with.

THE LIGHTHOUSE.—This is situated at the bighest part and at the extremity of the island of Colabs. The light is visible nearly forty Miles distant, at sea.

THE LUNATIC ASYLUM .- Is situated near the lighthouse on the opposite side of the road and consists of the institution, which is built with due regard for the security and health of its unfortunate inmates; the house occupied by the surgeon in charge and outhouses necessary for the establishment. Every care is exercised and all human means resorted to for the cure of the mental diseases of the patients or the miligation of their sufferings, by a system of kind treatment. In addition to the wards for patients sent here by Government there are rooms for the accommodation of private individuals labouring under mental affliction, which for cleanliness and general superintendence, are not surpassed by similar establishments in England. The arrangements of the Asylum may we believe be seen by visitors on application to the Resident Surgeon. There is also a smaller saylum about a mile nearer the fort and not far from the gun-carriage,

manufactory.

THE OBSERVATORY .- This building is close to the Lighthouse and separated from the compound of the latter by a slight fence. The observatory has been greatly improved since its institution by the addition to the building of a Lecture room, in which Scientific Lectures are given weekly, to the junior officers of the navy, and open to the public free. For this valuable addition, and various important improvements in the general arrangement of the establishment, the merit is due to George Buist, L.L. D. who is in charge of the Observatory and delivers the Lectures accompanying his remarks by experiments and demonstrations. Both duties are performed cheerfully and efficiently without cost to the Government. The Lectures owe their origin to some remarks made by Mr. Jenkius and the officers under his charge at the Observatory. Government caused a Lecture room to be constructed and ordered a sufficiency of apparatus to be supplied The regular course, it was proposed, to commence on Wednesday, the 2nd of Oct. and close on the 14th of Dec., 1844, beginning at 5 r. m., on the Wednesdays and 5 P. M. on Saturdays, and to be repeated, with such alterations as were considered expedient, three times a year : the third term ending in May. Chemistry was designed to form the subject of the Wednesday and Natural Philosonhy of the Saturday Lectures. Natural History with the application of science to the arts, form the subject for Wednesday and Saturday at the conclusion of the

The Observatory consists of two well fitted up buildings for the separate purposes of Astronomical, Magnetic, and Meteorological observation. The Astronomical Observatory was erected 10 or 15 years since and placed in charge of Mr. Curnin, now of the Calcutta Mint. It was rather indifferently supplied with instruments from the first, and the best of them were subsequently withdrawn. Those presently in use are a three feet transit telescope, by which the transits of from two to six stars are taken every evening; an Altitude and Azimuth Circle; an Astronomical Clock; and a couple of Refractio Telescopes. A self registering Rain and Wind Guage on Mr. Ostler's principle, belonging to the Melegrological department, is in use at the Astronomical observatory. The work performed chiefly relates to the rating of the chronometers of the Indian Navy, of which there are generally from five to fifteen in charge, and giving time to the shipping in the port. This last is effected by two different plans so as to afford as much accommodation as possible to ship Captains . the flush of Gunfire is observed, and its error noted and published in the newspapers, and also written out and hung up daily in the Master Attendant's Office, and commercial Reading Rooms, to Correct a watch on board ship by this, it is only necessary that the Gun fire should be observed and its error noted by the chronometer on board: the following will give the result.

Time of tun fire as seen from the observatory noted by a Chronometer for true time say 8-59-5. Time of gun fire as noted from on board by ship's Chronometer, say OH. IM 28. This gives error of gun fire OH OM. 55s; error of ship's Chronometer 0 H. 1 M. 57s. The other method of giving time to the shipping is by a board 3 feet square hoisted to the top of a tall spar seen from the harbour over the cupola of the Ohservatory: it is dropped precisely at one o'clock Bombay mean time. Dr. Buist is at present in charge of the establishment with one permanent and one occasional native Assistant; the latter being chiefly employed in the other department of the observatory. The Superintendent resides under the same roof, about two thirds of the building being occupied as a dwelling Howa, one third as observatory or office: - The appointment is unsalaried, and

The Magnetic and Meteorological Observatory occupies a different building within the compound: It is, like the other Observatory, under charge of Dr. Bulst. It was erected in 1840 and first put in operation, in November 1841. The periginal assistants were Non Commissioned Officers of the Sappers and Miners Corps. Two of these having in absence of Mr. Orlebar on a tour of inspection

misconducted themselves, the regular observations in the shape prescribed by the Royal Society were for a time interrupted. Three Native Assistants having been sanctioned on 28th August 1842, operations were resumed on the 1st September and have since then been conducted regularly. The instruments for magnetic purposes : are a horizontal and vertical force magnetometer, with horizontal and vertical declinometers : these are read hourly day and might The dipping needle (Major Sahine's instrument) for determining magnetic intensity are registered at stated periods. The Meteorological instruments consist of a large Standard Barometer by Newman with a Tube of half an luch diameter; Simplesometer by Adie, wet and dry bulb Thermometers; Maximum and Minimum self-registering, Thermometers; for a solar and terrestrial radiation, and for standard reference and for the purpose of experiment. An Actinometer, and & Hygrometer by Daniell, are read at stated periods. Two rain guages on the open ground, with a self-registering tube are used during the wet scaron.

The whole of these instruments are read hourly day and night. Betwixt the hours of 2 and 4, and 8 and 10 A. M. and P M., the Barometer and Simplesometer are read every ten minutes. The number of readings registered daily amount to above 280; hesides about half as many occasional readings, all of which are afterwards corrected, tabled, and lithographed at the observatory, by the Assistauts. These consist of one European non-commissioned officer, three constant and one occasional native observers. The instruments were intended for an observatory proposed to have been erected at Aden, which is nearly under the magnetic equator. They were transferred to Bombay, which is within eleven minutes of the meridian of no variation. The institution is one of 51 new in operation on the same plan in various quarters of the globe. Of these there are six in India, viz. at Simla, Madras, Singapore, Trevandrum, Lucknow, and Colaba. To these as well as to the Royal Society of London, to the Government of Bombsy, the Royal Asiatic Society of Culcutts, the Bombay branch of the Royal Asiatic Society and to Mr. Puddington Carator of the Museum of Economic Geology of the Museum of Calcutta, capies of the reports of the Observatory are forwarded every month by order of Government.

GHANT AND COLABA BUILDINGS. - These buildings but were recently erected and form one of the great Mercantile improvements at the Presidency undertaken at the cost of some of the merch into of Bombay largely engaged in the shipment of raw Cotton. They were commenced about two years ago and are now nearly completed. These buildings are the largest erections of the kind near Bombay, they are situated on small Colaba, at about one mile distant from the Fort, and were called after the minily name of a former Governor, Sir Robert Grant. The Mercantile firms whose offices are in the principal building are: McVicar Burn and Co ,- W. and T. Edmond and Co., - Dirom Hunter and Co., -T. R. Richmond, -- and Cursetjee Cownsjee Sons and Co. There is a very commodious Bunder here, lately erected and called Arthur Bunder, after our present worthy Governor Sir George Arthur. There are also improved cranes

for landing and shipping of Cotton.

COLABA CAUSEWAY - This Causeway which connects the Islands of Colaba with Bombay was creeted in the year-1338 previous to which time a terry was established here. The construction of this work is a great improvement, but it is said that as it denies a free passage to the tyle at high water ; the sea has in consequence made and continues to make very serious encreachment on the esplanade and Back Bay, where it has completely swept away the sea wall which formerly existed along the Beach. The causeway is nearly half a mile in length by about fifty feet in width, and on each side is a raised footpath for the convenience of frot passengers. There is no toll and free passage is allowed to every kind of vehicle proceeding to or from the town.

APOLLO RUNDER.—This is a soucious pier built of stone, and, next to the Custom House Bunder, is the general place where passengers and merchandize are lauded or proceed on ship board. Each side or curb is protected by iron posts and chains to prevent persons from falling into theses. Here also are several large and powerful cranes for the lading or unlading of small craft which are usually moored alongside the Bunder and convey cotten, &c. to the ship or land it for the purpose of its being screwed prior to final shipment. This useful undertaking was constructed at the joint expense of the Government and merchants of Bombay, and completed in 1840.

The Fortifications.—These are considered extremely strong, except on the land side where they would offer but feeble resistance to an enemy, once landed and capable of making regular approaches: the high range of land at Mazagon once in the possession of an enemy it would be extremely difficult to displodge the foe. However there is but little expectation of land attricks so long as we possession of the sea, and in that conviction it has often been suggested to fill up the most extending along the land side of the fort, and to erect buildings on the explanade—a suggestion, acver likely to be put in execution. Near the Apolio gate is the saloting battery, and adjuding the gate is the powder magazine. There are three gates; two of these are new, spacious and even elegant; the other is old and narrow. To each there are excellent drawbridges and outworks.

THE DOCKYARD .- This establishment has more than any thing else contributed to the importance of Bombay and raised it to its present degree of eminence Ms an entrepol of commerce. The establishment until recently was almost entrely under the superintendence of Parsee Builders, who still exercises large share in the operations carried on. The accommodation is so ample and the skill of the artizans so far matured that the largest description of vessels have been built here without the aid of European working a the family particularly distinguished as shipbuilders is that of Nowropee Jamsetjee; the latter has lately retired at an advanced age. His sons have recently, sought the advantages to be derived from restructions in England in navel Architecture and Steam machinery. About twenty ships of war have been wellt here: at the present time three large vessels are in coarse of construction for Her Mujesty's Navy, for which purpose some additional stips have been built or are in course of completion. The establishment has been improved by the addition of a building in which inschinery is now made under the direction of an eminent engineer. Within the Docky and, are the offices of the Superinfendent of the Indian Navy who has also the direction of the Dockyard Establishment, and is an other of H. M. Navy. The gentleman at present holding the appointment is Commodare Pepper, I. N. Acting for Sir Robert Oliver, R. N. who, in consideration of his long and able Superintendences was knighted by Her Majesty in 1811.

ST. ANDREW'S CHURCH. - The Scotch Church is a neat edifice with a pedliment front. The Churchs surmounted by a neat and pointed spire. It is in connexion with the established Church of Scotland. The building was commenced, in (18

and completed in 18.)

THE ICE HOUSE.—Is close to St. Andrews Church. It was built by publicaubscription and finished a few months back. The ground was given by the authotics conditionally that it should be restored if at any future period the site were required by the Government. The total cost of the building amounted to hearly fifty thousand rupees. Its circumference is 130 feet; the depth of the Ice well is about to feet. An iron railing is placed on three sides of the building; the entrance is from Rampart Row.

THE COURT HOUSE. - In this building Her Majesty's Supreme Court of Judicature is held, in supercession of the Recorder's Court which formerly existed. The Court House was creeted by Colonel Hornby for his own use. It is not eminently adapted for a Court of Law in consequence of the frequent interruption occasioned by noises in the Dock Yard This has of late been remedied during the Criminal Sessions by scopping the operations of the workmen, employed immediately in front of the Court. The sum of Rupees 2000 is paid monthly for renting the building. The lower part of the edifice is occupied by the Clerk of the Crown and the Sherid as offices. On the first floor, in the largest room, the Court usually with to hear and adjudicate Civil and Criminal causes; and above on the second floor are the offices of the Judges who sit here hi Chambers and dispose or public business. The officers of the Court consist of the Chief and a Puisne justice who generally sit alternately during Term and quarter Sessions, unless cases of importance require the attendance of both judges. The duties of the judges are extremely haras. ming; the cases are sometimes protructed and intricate, requiring the undivided attention of the presiding judge for several days without intermission,

and this too with the temperature usually from 80° to 90° Fahr. In the same building also are held Courts of Admiralty, ecclesiastical and Insolvent debtors Courts, and a small cause Court for actions under 350 rupees and not less than 90 ;--- any suit above the latter amount not being cognizable by the Court of Requests. Besides the usual officers of an English Court of Justice there are luterpreters and translators, European and mative, to make known to the Court, the evidence and other matters of the suitors, witnesses, &c. Whose testimony or matters are brought before the Court. There are at present eight gene tlemen practising as Barristers and nine attornies, solicitors and proctors The officers and practitioners of the Court are chiefly sons of the Emerald isle, and for talents, zeal and integrity would do honor to any Court of law at home.

DADY's BUILDING. -This large pile of buildings, the several parts of which form mercantile offices, the Police office, &c., was formerly called Admiralty house, the garden of which joined that of old Government House, now the Secretariate. Dady's Buildings were erected by a Parsee, Dady Nasserwanjee, the Grandfather of the present Cursetjee Ardaseer. The proprietor was a merchant and it is said accumulated wealth by trading largely, and by enterprising projects, which contributed greatly to the improvement of Bombay. This same Dady Nasserwanice built also, the large bouse at Ambrolie, known as the Rev. Dr. Wilson's and now used as a Mission House of the Free Church of Scotland. Dady likewise built the house at Breach Candy, called the Crow's Nest, at pre-

sent occupied by Professor Orlebar.

COTTON SCHEWS. - There are several Screws employed for Pressing Cotton which are chiefly under the management of Companies. Various improvements have from time to time been introduced in perfecting the machines employed. Dady Nasserwanjee established Screws of which the father of Jeejeebhoy Dadablioy Esq., was manager. Dr Scott introduced several alterations, and of late the Cotton Screws have been brought to a state of comparative perfection under the scientific skill of Mr. Cardwell of the firm of Higginson and Cardwell, merchants. The Screws are worked by means of capstans and employ a great number of hands. It may suffice to enumerate the establishments, which consist of

the Company's Screws, the Apollo Screws, Remington's Screws.

GENERAL POST OFFICE. - I his is a neat and well arranged building ; the several departments are kept distinct, thus avoiding all confusion. Betwixt the Europe and India Departments is a court yard, in the rear of which stands the office of the Postmaster General. The old post office, now the office of the Naval Store keeper, was as ill suited to the purposes of a post office as it was possible to be. The new building has been completed more than a year. Much of the improvement visible in the arrangements of the establishment are due to Mr. Gordon, the present Postmaster General, and Deputy Postmuster W. Blowers, under whose able direction, on the arrival of the Steamer from Europe, the **English overland Summaries are delivered to the editors of the Courier and Times** in less than five minutes after their arrival at the Post Office. Such are the admirable arrangements that on the departure of the mail for Europe, the letters and packets are assorted, packed in iron or wooden boxes and placed on board the Steamer in less than two hours from the time of closing the receiving office, even when the mail includes so great a number of covers as 45,000 or 50,000—a degree of celerity equal to most post offices in Europe!

THE CUSTOM HOUSE.—This is a large but heavy looking building, and is now one of the oldest Government elections in Bombay. It was built in 1714, At the time of its erection it was considered a large and extensive building adequate to the increasing business of Bombay. Under the Company's rule, prior to the expiration of the Charter in 1834, the arrangements of the Custom House were somewhat different to what are now in existence, as the Company carried on here the whole of their retail as well as wholesale trade, the collection of custom dues, &c. The petty Customs, as remarked elsewhere, were collected in the building which now is used as burracks. The land front of the Custom House is at present occupied as the offices for the collection of Land revenue, and the Harbour front as offices for the collection of Sea Customs. The arrangements of the latter are about to undergo certain judicious alterations, which, when completed, will localize the export department on the right hand from the harbour

entrance and the import idepartment on the left hand of the building. This arrangement will be exceedingly judicious. The business of the customs department has greatly augmented: the value of goods which passed during the year. 1843-44 amounted to Rs. 12,19,21,343 for Imports, and Rs. 10,46,34,715 for Exports.

BONBAY GREEN. This is the only open space within the fort of Bombay and is about the same size as Trafaigur square at Charing Cross. It formerly constituted the place of rendezvous now supplied by the Esplanade; here, until the introduction of carriages at the commencement of the present century, were wont to assemble the elite of Bombay. About 1810, the green was little bettar than a Metal and Cotton store, for here were deposited Iron bars, &c. and bales of Cotton, which now are either placed in private godowns or on the esplaned near the Apollo pier. Bombay Green formed the rendezvous until that which is now called the Espianade was cleared of the jungle which until 1795 covered its whole extent, from the place of the "two tombs" at Colaba to the Marine Lines. The abandonment of the present Secretariate by the Governor for the more commodious building at Parell gave a blow to the dignity of the green sward within the fort. Its importance, notwithstanding the erection of the statue in its centre, became less; but it now promises to revive under the surveillance of the Agri-Horticultural Society of Bombay, which has taken it under its protection and under the sanction of Government is about to convert it into a flower garden, with public walks, &c. thus constituting it once more a place of retreat for the residents within the fort, equal to the growing and improving importance of Bombay.

THE TOWN HALL.—This is a comparatively new and noble building, erected is 1821-33 and devoted to Government and municipal purposes. It is from a design of Colonel Cowper of the Engineer's. The Town Hall occupies the eastern side of Bombay Green and imparts a commanding appearance to the view. In 1798 an attempt was made at general improvement and in particular to erect, a Town Hall from the proceeds of a Lottery scheme, but the plan failed and the scheme was abandoned. The Town Hall consists of a frontage of about 130 feet; the centre is a pediment supported by six fluted columns, below the base of which there are 30 ate; a. In the centre of the building is a large Hall used occasionally, for public assemblages on a requisition made to the Sheriff. On the right hand is a marble statue of bir Charles Forbes, executed by Chantrey at the ecat of the natives of Boulbay, who, to mark their sense of Sir Charles approved services as a fellow citizen, subscribed towards a monument to be erected to his memory. On the right hand of the Hall is the Council Chamber and other offices of the Government. On the left are the rooms of the Asiatic Society, containing the Library and Museum, which for compactness, completeness and interesting contents, equal any establishment of the kind. On the ground floor, in the centre and at the rear of the building is the Civil pay office, and the Court of Requests. To the right are the rooms, of the Gergraphical Society the Horticultural Bociety: to the left the offices of the Medical Board, &c. The inspection of the building, we believe, is patent to visitors.

THE CASTLE. - In the rear of the Town Hall is the Castle, which originally constituted a building of vast importance to the inhabitants of Hombay, who on the incursions of the Mahrattas sought security within its precincts. Here are nominally passed all the decress and official transactions of Government, which bear date "Bombay Castle". The fort flag staff is placed near one of the turrets. The Castle is chiefly used as the arsenal; here are also the offices of the Government Saving's Bank.

THE MINT.—This is a large, commodious but dingy-looking building, situated between the Town Hall and the King's Barracks.

PAY AND COMMISSARY GENERAL'S OFFICES.—These are altituded on the opposite side of Bombay Green and originally formed the Secretariate, until the Governor changed his place of residence to Parell. On the East part, near the old Bombay Theatre, stand the Commissary General's Offices, where are kept in

large vata spirits. Heer &c. for the department. The south front is occupied as offices for the Military and Marine puy departments. To the right hand are the offices of the master in Equity, of the Supreme Court and at the left extremity are the pifices of the Ecclesiastical Registrar of the Supreme Court.

UATREDRAL OF ST. THOMAS.—This is the only protestant episcopal building within the fort. Its consists of a very plain building with two entrances. The Church is surmounted by a steeple, containing a clock with four faces. The church is an old eraction; the steeple, however, has been built within the last ten years, but owing to the state of the walls of the edifice, no bells of any weight were suspended in it, lest the Church should give way, the large bell is aituated on the right hand of the church, immediately under the vestry, and shout three feet from the ground. The church is dedicated to St. Thomas and was converted into a Cathedral on the appointment of a protestant Bishop at Bombay. Within the building are several neat but interesting monuments some from the chiscle of the two great modern masters. The building itself is inferior to many parish churches in England and possesses neither ornament nor grace to recommend it.

THE SECRETARIATE.—This building situated on the western side of Bembuy Green formed the Government House of "olden time," it was converted into the offices of the Secretariate on the completion of the new residence at Parell. It is a plain and uninteresting building, surrounded by a garden in the north east angle of which stands the oice of the Town Major. Here are transacted the executive business of Government in the political, civil and revenual departments. The secretaries in each department are assisted by Europeans now designated unconvenated assistants, but formerly called Clerks; and in each department there is a great number of sectioners and examiners: many of the latter are Europeans. To the establishment has been added several book-binders to arrange and hind up the records. The garden is planted with mulberry trees, the leaves of which are given to the silk worms belonging to Mr. de Rames, the assistant superintendent of silk culture in the Konkan.

SIR JAMSETJES JEEJHEBHOY'S -The residence of this wealthy and enterprising Parsee gentleman is situated in Hornby row, fronting the esplanade. It is one , of the peatest buildings within the fort; the interior arrangements are elegant and complete. The above distinguished individual whose benevolence is neither shortened by the extent of the misery he beneficently relieves nor precluded by distance from exercising its most genial influence has received the warmest, and most signal approbation of the Queen of Great Britain, to whom his benevolence and enterprize, indicated a fit object for Royal distinction. This was marked by creating Jamsetjee Jeejeebhoy, a Knight of the United Kingdom. Sir Jamsetjee Jeeleebhoy, the founder of his family's fame and fortune, was brought up with his father-in-law, who was an extensive merchant. Young Jamsetjee made neveral voyages to China, and it is said in one of these trips, formed a friendship with the Nacoda, Mahomed Ali Rogay, which time has served only to cement. The trade of the house increased greatly, owing in great measure to the exertions of the supercargo, jamsetjee. 1813-14 his father-in-law died and Jamsetjee . Je jeebhoy, the helr, carried on trade and has continued to do so on his own account, in connection with Mahomed Ali Rogay and latterly his sons, until the extent of his commercial transactions and the amount of ercdit attached to his reputation is without a parallel in modern times

EUROPEAN GENERAL HOSPITAL.—This admirable institution which has so largely contributed to relieve the sufferings of that portion of bumanity which form its objects, is situated next to Sir Jamsetjee Jejeebhoy's in Hornby Row. It is a low old fashioned building, having much the resemblance of old alms houses in England. It is nevertheless airy and the arrangements are very efficient. The institution is as its name implies a general hospital, no other recommendation, on the part of Europeans is required than that they stand in need of madical assistance. During the past year the Government has resolved to remove the Hospital to some more eligible situation. It is said Government intends to erect the new Eur, General Hospital at Colabs, opposite to the Grant buildings.

The Esplanape, -The formation of the Esplanade has more than anything else contributed to the healthfulness and security of Bombay. Prior to the removal of the jungle which surrounded the fort on the land side. Bombay was reputed one of the unhealthiest places in India, not excluding the City of Pa-luces on the Hongly. In the adjudication of the question for the settlement of land, in lieu of that at present occupied as the explanade, the Government were extremely liberal. At that time there were several residences just without the fort, on the goot where the temporary Bungalows and the Sanatarium are new located, and extending almost as lar as the Dh bies' Tanks, which were then situated on the spot now used for the Murine Lines. The Beach at Back Bay then formed the race courte, extending from the verge of the Esplanade to the "Arbour" near the cooperage. The Beach as far as the Wood Bunder at Chowparty was secured by a sea wall of great strength, the only vestige of which remains to be seen a little beyond the burgalow now occupied by Dr. Burnes. On the Raplanade there are several wells of good water, resorted to by the Parsees and every caste of diadous - the mostems use those on the right hand on the South E stern verge of the Es lanade, near which the thick s at present carry on their avocation. These wells have been chiefly constructed at the expense of private individuals of charitable dispositions, the great part of them have lapsed to government in consequence of their four ders neglecting to keep them in a state of ep.ir - On the Esplinade, during the hot selson, the civil and military resid ats at Bomb y usually resort. Living either in tents or in temporary dwellings cons rooted of word and covered with cudjans. These temporary creations continge from the end of Sepiember to the belining of June, when the rains aciting in render a temp rary shelter of no avail from the boisterous nature of the weather.

NATIVE EDUCATION SOCIETY --- ELPHINGTONE COLLEGE.—The admirable institution known as the Elphinstone College, with which the Native Education Society is now united stands on the verge of the Esplanade, near the Kulkadavee road. The building is large and of late an adjoining house formerly the Backet

Court Hotel, has been engaged as a Mahratta School.

BIR JAMSETJEE JEJEEBHOY HOSPITAL,—This is an elegant semi-Gothic building elected by the munificence of its transfer after whose name it is called. Attached to the edifice in the Grant Medical Codlege. The building is large and commodious; the principal front is facing the Bendy Bazar road; the second front is opp sile to the Baboola Innk. In the lear of the building stands the Badder Adawlut, a Court of appeal from the Zillah Courts of the Bonday Presidency. The building is near completion, so soon as it is finished the Native General Hospital will be removed bither and the Coll ge founded in memory of Sir Robert Grant be opened as a medical "chort for the instruction of the natives. The institution is in every way warthy of its dissinguished benefactor and forms a great ornament to the Western Metropolis of India.

BYCULLA CHURCH.—This is a next and modern edifice, built in a style somewhat after the celebrated Church in Langh in Place, London. It is surmounted is a clock with four faces. The interior of the building is plain but affends exceed a same enclosure are the Byculta for Girls and Boys, and in the rear of the latter stands the House of its accommodation to the congregation. Within the same enclosure are the Byculta for Girls and Boys, and in the rear of the latter stands the House of its modious building it situated on the Bellenia.

BYCULLA CLUB --- This modious building is situated on the Bellasis road in rear of Byculia Chu ch. Its consists of a centre building and one wing, the right wing not baving been at present completed. Near the principal building is the Billiard room, and fronting the road the stables are situated. The privileges of the Club are confined wholly to members.

THE RACE COURSE - Is situated at the back of the Byculla Club House and is in good condition. The ground is even and the distance within easy reach of the eye from the Club House. The races are held here in the month of March,

and are in general fraught with much interest to the lovers of the turf.

THE THEATER.—This building is situated on the Grant road at the distance of two and a half miles from the fort. The edifice, the design of Lieut. Suart of the Engineers is a neat building, and has been erected by public subscription, including the amount realized by the sale of the old theatre which the Court of Directors ordered to be made over for the benefit of the institution. The exterior and interior parts of the edifice are now nearly completed; when there are neithed the theatre will in all probability be opened.

GOVERNMENT HOUSE, PARELL.-Although not an elegant this is a neat and eligible residence for the Governor and contains suitable offices for It is nearly six miles distant from the fort and the establishment commands an extensive but not very interesting view. The edifice has been erected within the last fourty years; it possesses many udvantages over the old residence within the fort, whilst the accommodation for the reception of visitors at a Durbar or entertainment is very ample. It is, however, within forty minutes drive from the Town Hall in the fort where Government Councils are usually held.

At a short distance beyond Parell are the gardens of the Horricultural Society and the Silk establishment of Mr. Ramos; both these places are worthy of a se-

cond or even a third examination.

MAHIM CAUREWAY .--- This is another of the great improvements for which Bombay is indebted to the great benefactor of his race, Sir Jamsetjee Jejeebhoy, who has contributed several thousand pounds to the completion of this object, which will unite Bombay with Salsette and admit of safe and constant communication unattended with expense to all who experience its benefits. The work which is not yet completed is under the able direction of Captain Cruickshank of the Bombay Engineers. The cost is estimated at about £15,000.

MISCRLIAN POUS WORKS. -- Of these may be mentioned the docks at Maz-

agon, the gaol of Bombay, projected great Eastern Ruilway, Parsee, English, Hindoo and Mahommedan Burial grounds; also the Nutive General Rospital, the alog Hospital, the Assembly's Schools, and other places of note, the particulars of

Which will appear in our next.

The Bombay Government in mediately extended to the Society that liberal patronage which it univers by bestows on all institutions of utility connected with the Presidency. The Colaba Ob crystory was appropriated to its accommodation, and the in periant privilege conferred of allowing the Society's communications to be transa tited throughout the territories of the Pre idency free of postage, \* -- a privilege subsequently extended to tudis at large, an application having been made for permission to inspect or have made over to them, copies of papers supplied to Government on Geographical subjects by officers of the service, the subject was referred to the court of a mectors, without whose sanction the wi hes of the Society could not be complied with . Covernment strongly reconnecting the concession desited. A very tovourable answer was received to this by return of post; ever since which the Society has been nost liberally supplied with every variety of document bearing on the subject of their researches which it was in the power of Oovernment to bestow. At this time also (June 1833) the fore ation of a 1 ibrary was commenced, and the whole of the elaborate reports of the Secretary, contained in their records, give note in deable information as to the progress of the Seciety's labours. A set of meteoroa great and some su veying instruments for geographical purposes were also purchased and placed in der charge of the Secretary, for the use of the members of the Screen in March 855 a letter was received from London, acceding to the two oselformerly made that the Bombay Association should be considered a bus coof that at home, to The following resolutions explant the relatio: s subsisting between the parent society and its branches :-

Regulari has respecting recogniquent Societies in the British Colonies or Dependencies of secretar of connecting themselves with the Royal Geographical So-

ciety of London.

<sup>+</sup> Minute of 15th March, 1888

1. "Resgraphical Societies established in any af the British Colonies or Dependencies, and expressing a wish to be admitted as Branches of the Royal Geo-

graphical Society in London, may be so admitted by the Council.

2. "The members of all such of these Societies as shall correspond with the Para it Society, and forward to it reports of the Proceedings, shall be considered corresponding numbers of the Society while out of England; and on their return home snall be eligible, by ballot with other corresponding members, to be admitted ordinary men bers with at payment of the entrance fee.

3. "One copy of every volume or part of a volume of the Society's Journal, as successively published, shall be sent to each Branch Society, to be placed in its library; with other copies for the authors of communications which may appour in such volumes; and any additional numbers which may be ordered shall be delivered in England, at two thirds of the price to any agents duly authorized

to receive and forward them."

The Colabula Observatory having been found inconveniently distant from the Firt, the Government, in 1535, was pleased to assign the room on the groundfloor of the Court House for the use of Society ; this having afterwards been found unsuitable, the present handsome apartment, under the town it Room in the Town Half buildings, adjoinings the room of the Medical Board, was subequently assigned to them; the Government afterwards, with the approbation of the Court of Directors, granted for defrayment of the expenses of the Society Rs. 100 In 1836 it was resolved to commence the publication of the Transactions of the Society in quarterly issues, or as frequently as the amount of accumulated matter in the archives permitted . Aletter was at this time received from the Royal Geographical Society of Par: intimating the desire of that institution- the oldest and most distinguished of the kind in Europe to enter into correspondence, and to exchange papers and transactions with the Bombay establishment,—a proposal to gratifying to be otherwise the savourably received by the Soc, my: ; and the two associations have accordingly ever since maintained a close and cordial intercourse with each other The Society, in 1847, reduced the annual subscription from Rs. 22 to Rs.15, at which last rate it has ever since continued. In July, 1837, the Gove vor-General, Lord Auckland, with an attention to the interests of science and literature which distinguished his government, in from which had been for wordreturning thanks for copies of the Society's Traced for his use by the President, Sir C. Matcohn, . . . mated his wish to be admitted a member, and his anxiety to second their exertions in any way within his power : requesting that the President would at all times, and without reserve, point out to him any mode in which he might be able to promote the objects of the Institution. His Lordship was elected hororary patron of the Secrety; and in a faither communications to the Governor, Sa R. Grant, expressive of the gratification be experienced from his election, he requested a am that he should be on all occasions informed in what manner be could best assist them, express ing his anxiety to forward from Bengal, such papers on geo, expland science as might be reckoned competent for publication in the Society's Transactions. In 1841, the Bombay Branch of the Royal Asiane Society having resolved to establich a Museum, the want of which had been so greatly felt and so often complained of, memorialized the Geographical society on the inexpediency of attempting to carry on two collections where a general receptacle, epond for the diposit and exhitton of all the enriosities likely to be collected, would be so much more likely to suit the views of both establishments. By this means, a single centre of nesort would be obtained, in place of a variety of little known and comparatively unattractive points, some of which were likely to be missed by the enquirer, and must serve to distract public attention. On these grounds, the Geographical Society were selected to make ever the specimens then in their possession, together with doubtions which might hereafter be presented to them, to the Asiatic Society's Museum. The request was at once complied with, and the specimens made over accordingly. In March, 1842 an irreparable loss was sustained by the Society by the death of Dr. Heddle, who, The publication from the time of its establishment, had acted as its Secretary.

### THE MEDICAL AND PHYSICAL SOCIETY OF BOMBAY.

\* 1. The Society shall consist of two classes, viz. ordinary members and corresponding members.

2. The Society shall be under the direction of a Committee of management consisting of five members, and of a Secretary, the latter to be a member of the Committee, ex-officio.

Ordinary Members.

3. Under the head of ordinary members shall be classed all who contribute to the funds of the Society, and all who are admitted in accordance with regulation 7.

4. All medical men residing in India, who can produce certificates of a regular medical education, shall be eligible as ordinary members.

5. Any medical officer of Her Majesty's or the Hon'ble Company's service, will be elected an ordinary member of the Society, on his expressing a wish to that effect by letter addressed to the Secretary of the Society.

6. Any qualified person not belonging to Her Majesty's, or the Hon'ble Companay's service, proposed by six ordinary members of the Society by letter addressed to the Secretary of the Society, will be elected an ordinary member.

addressed to the Secretary of the Society, will be elected an ordinary member.
7. Assistant Surgeons on first entering the Bombay Medical Service will be considered ordinary members of the Society free of the payment of admission fee and annual subscription, and continue so for a period of two years, after which, should they not pay the regulated admission fee and annual subscription, they will be considered to have withdrawn from the Society.

8. Ordinary members to pay a fee of five rupees on election, and to contribute

twelve rupees annually, payable in advance.

The Society was instituted in March 1836. The proceedings connected with its establishment have been published in the 1st volume of the Society's transactions.

#### SCIENTIFIC SOCIETIES.

9. No member absent from India, shall be chargeable with his contribution for the period of his absence.

10. Any member neglecting to pay his annual contribution for two years, shall be considered to have withdrawn from the Society, and his name will be erased from the list of members.

Corresponding Members.

11. Medical men not residing in India, as well as Gentlemen of liberal education residing in India, but not belonging to the medical protession, to be eligible ascorresponding members.

12. Any qualified person proposed by twelve ordinary members, by letter addressed to the Secretary, to be considered a corresponding member of the Society.

#### Office Bearers.

13. The Committee of management to be elected annually from among the ordinary members resident in Bommay, by the general vote of the ordinary members residing under the Covernment of Bombay; the Secretary to be elected biennially in a similar way.

14. The voting list to be circulated in the first week of November of each year, that the result of the election may be determined before the beginning of the suc-

ceeding January.

15. The Chairman of the Committee to be elected by the members of the Committee, and to have a casting vote when the exercise of such privilege shall be

necessary.

16. In the event of vacancies occurring in the Committee between the periods of election, such vacancies to be filled up in rotation, by the individuals who commanded the number of votes next to those of the members returned at the last election.

#### Committee of Management.

17. The Committee of management shall have the general direction of the affairs of the Society, and shall decide on what communications are to be pub-

lished in the transac ions of the Society.

18. When questions of importance to the stability and interests of the Society shall arise, such shall be submitted by the Committee, to the decision of the ordinary members residing under the Government of Bombay. The majority of votes necessary to decide any question, to be determined according to its importance, and to be fixed at the time, by the Committee.

19. It shall form part of the duty of the Committee to give due consideration

to all suggestions offered by members of the Society.

#### Secretary.

20. The Secretary shall, in communication with the Committee of management, conduct all the details of business, and carry on the correspondence of the Society.

21 Ite shall receive and take charge of all communications presented to the Society, and shall in communication with the Committee of management publish from time to time, and circulate to members, an abstract of the proceeding of the Society.

22. The Secretary shall publish an annual statement of the receipts and dis-

bursements of the Society.

23. To enable the Secretary to perform these duties, he shall entertain such an establishment as the Committee of management shall sanction.

The Bombay Custom-House is open for the transaction of husiness every day (Sunday excepted) from half past 9 o'clock in the morning, until 5 in the evening. FORT WILLIAM. The 3d January, 1838.

The following Act is passed by the Hon'ble the President of the Council of India in Council, on the 3rd January, 1838, with the assent of the Right Hon'ble the Governor General of India which has been read and recorded.

ACT No. 1, of 1838.

I. It is hereby enacted, that from the 1st Pebruary 1838, all Regulations of the Bombay t'ode passed before the year 1827, and now in force, with exception, of Sections, I, II, and III, Regulation VI., 1799, and of Clause 2, Section VII. Regulation IX, 1800, and of Section XIV, XVII, XX, XXI, and XXV, Regulation 1, of 1805, and of the whole of Regulations II. 1810 and of VI. 1814, shall be

repealed.

II. And it is hereby enacted, that Chapters I, II, IV, VI, VIII, and IX. of Regulation XX, 1827 of the said Code, together with the Appendixes A. B. C. E. H. I. J K. of that Regulation, also Regulation 11, 1831, Regulation X111, 1831, Regulation I. 1832, Regulation IV. 1834, and Regulation IV 1838 of the said Code, and all such parts of any Regulations of the said Code as prescribe the levy of Transit or Inland Customs Duties, or as require the payment of any Feo whatever, on account of any vessel which may enter any port in the Territories subject to the Bombay Presidency and likewise the provisions of any kind contained in those or in any other Regulations for fixing the amount of Duty to be levied on Goods imported or exported by sea at any place within the limits, of the Bombay Presidency, or the Drawback payable on the same, shall be repealed. And it is further enacted, that Act No. 11. of 1836 shall likewise be repealed, except in so far as it repeals any Regulation of the Bombay Code.

III. Provided always, that nothing contained in the two preceding Sections of this Act shall be construed to prevent the levy of any Town duty, or of any Municipal Tax, or of any Toll on any bridge, road, or causeway, for repair and maintenance of the same, or of any lee for the erection and maintenance of light

IV. And it is hereby enacted, that Duties of Customs shall be levied on Goods imported by sea into any place in the territories subordinate to the Government of the Presidency of Bombay, after the said lat of February next, according to the rates specified in Schedule, A. annexed to this Act, and with the exceptions specified therein, and the said Schedule with the Notes attached thereto, shall be taken to be a part of this Act.

V. And it is hereby further enacted, that Duties of Customs shall be levied upon Country Goods exported by sea from any ports of the Bombay Presidency after the said 1st February next, according to the rates specified in Schedule B. annexed to this Act, with the exceptions therein specified, and the said Schedule with the Notes attached thereto, shall also be taken to be a part of this Act.

VI. Provided, however, that the ships of any European nations having firman privileges in the port of Surat, shall not be subject to further Duties of import or export than may be prescribed by their firmans respectively, any thing in the

Schedules or in this Act notwithstanding.

VII. And it is hereby enacted, that duties of Customs shall be levied on Goods passing by land into or out of Foreign European settlements situated on the line of Coast within the limits of the Presidency of Bombay, at the rates prescribed in the Schedules of this Act for Goods imported or exported on Foreign Bottoms

at any British port in that Presidency.

VIII. And it is hereby enacted, that it shall be lawful for the Governor in the Council of the Presidency of Bombay, to declare by notice to be published in the Gazette of the Presidency that the territory of any Native Chief not subject to the jurisdiction of the Courts and Civil Authorities of that Presidency such shall he deemed to be foreign territory and to declare goods passing into or out of such territory liable either to the Duty fixed for British or for Foreign Bottoms as the said Government in Council may think fit.

IX. And it is hereby enacted, that for the levy of Duties of Customs as above provided on Goods exported by land to, or imported by land from, such Poreign territories, Custom's Chokees may be established at such places as may be determined by the said Governor in Council, and every officer at every such Chokee shall have power to detain Goods passing into or out of any such Foreign territory, and to examine and ascertain the quantities and kinds thereof; and such Goods shall not be allowed to pass across the frontier line out of, or into the territory of the East India Compary, until the owner or person in charge thereof shall, produce and deliver a Certificate showing that the Custom's Duty leviable

there upon had been paid in full.

X. And it is hereby enacted, that it shall be lawful for the said Governor in Council to appoint such Officers as he may think fit to receive money on account of Customs Duties, and grant Certificates of the payment thereof, and to cross the frontier into or out of the East India Company's territories, provided that the Goods correspond in description with the specification thereof contained in such Certificate, and that the Certificate shew the entire amount of Duty leviable on those Goods to have been duly paid; and if upon examination the Goods brought to any Chokee be found not to correspond with the specification entered in the Certificate presented with the same, the difference shall be noted on the face of the Certificate, and if the payment of Duty certified therein shall not cover the entire amount of Duty leviable on the Goods as ascertained at such examination, the Goods shall be detained until a further Certificate for the difference shall be produced.

XI. And it is hereby enacted, that the said Governor in Council shall give public notice in the Official Gazette of the Presidency of Bombay of the appointment of every Officer appointed to receive Customs Duties on Goods crossing the land frontier of the said Foreign territories, and the Officers so appointed shall, on receipt of money tendered as Custom's Duty, be bound to give to any Merchant, or other person applying, for the same a tertificate of payment, and to enter therein the specification of Goods with the values and description thereof according to the statement furnished by the person so applying, provided only that the proper Duty leviable thereupon, according to the descriptions and values stated,

be covered by the payment unde.

XII. And it is hereby enacted, that no Certificate shall be received at any Chokee that shall be redate more than thirty days before the date when the Goods arrive at the Chokee. Provided, however, that any person who has taken out a Certificate from any authorized receiver of Customs Duties, shall at any time within the said period of thirty days, or on satisfying such receiver that such Certificate has not been used, and on delivering up the original, be entitled to receive a renewed Certificate, with a fresh date, without further payment of Duty-

XIII. And it is hereby enacted, that it shall be lawful for the said Governor in Council to prescribe by public notice in the Official Gazette of the Presidency of Bombay by what routes Goods shall be allowed to pass into or out of any such Foreign territory, as is described in Sections VII. and VIII. of this Act, and after such notice shall be given, Goods which may be brought to any Chokee established on other routes or passes than those so prescribed, shall if provided with a terrificate, be sent back, and if not provided with a Certificate, shall be detained, and shall be liable to confiscation by the Collector of Customs, unless the person in charte thereof shall be able to satisfy the said Collector that his carrying them by that route was from ignorance or accident.

XIV. And it is hereby enacted, that Goods which may be passed, or which an attempt may be made to pass, across any frontier guarded by Chokees between sun set and son rise, or in a claudestine manner shall be seized and confiscated.

XV And it is hereby enacted, that any Chokee Officer who shall permit Goods to pass across the frontier when not covered by a sufficient certificate, or who shall permit Goods to pass by any prohibited route, shall be liable, on conviction before the Collector of Customs, to imprisonment for a term not exceeding six months and to a fine not exceeding five handred Rupees, commutable, if not paid, to imprisonment for a further period of six months.

XVI. And it is hereby enacted, that if any Chokee Officer shall needlessly and vexatiously injure Goods under the pretence of examination, or in the course

This examination, or who shall wrongfully detain Goods for which there shall e produced a sufficient certificate, such Officer shall on conviction before the ollector of Customs, or before any Magistrate, orgoint Magistrate, be liable to imprisonment for a term not exceeding six months, and to a fine not exceeding five hundred Rupees, commutable, if not paid, to imprisonment for a further period of six months.

XVII. And it is hereby enacted, that all Goods, imported by Sea into any port of the Presidency of Bombay from any Foreign European Settlement in India or from any Native State, the inland trade of which has been declared by the (lovernor in Council of the Presidency of Bombay, under Section VIII of the Regulations, to be subject to the Duties levied on Foreign Bottoms, shall be liable to the same Duties as are imposed by Schedule A. on imports of Foreign Bottoms.

And it is hereby enacted, that no Goods whatsoever entered in either of the Schedules of this Act, as liable to the Duty, shall be exempted from the payment of such Duty or of any part thereof, except under special order from the Governor in Council of the Presidency of Bombay. Provided always, that it shall and may be lawful for the Collector of Customs, or other Officer in charge of a Custom House, to pass free of Duty any Baggage in actual use at his discretion; and if any person shall apply to have Goods passed as such Baggage, the Collector, acting under the orders of the Government, shall determine whether they be Baggage in actual use, or Goods subject to duty under the provisions of this Act.

YEL. Provided always, that when Goods are Imported at any port of the Bombay Presidency from any other port in the Presidency under certificate that the export ty specified in Schedule B. has been duly paid thereou, or that there has beer re-export, and that the Import Duty specified in Schedule A. has been

paid, the said Goods shall be admitted to free entry.

XX. Provided also, that when Duties of Customs shall have been paid on any Goods at any port in any part of the territories of the East India Company not subject to the Presidency at Bombay, and when such Goods shall subsequently bs \* imported at any port of the Presidency of Bombay, credit shull be given at such last mentioned port, for the sum that may be proved by the production of the certificate to have been so paid.

XXI. And it is hereby enacted, that it shall be lawful for the Governor in Council of the Presidency of Bombay, from time to time, by the notice in the Official Gazette of that Presidency, to fix a value for any acticle or number of articles to ad valorem Day, and the value so fixed for such articles shall, till altered by a similar notice, be taken to be the value of such articles for the purpose of levy-

ing Duty on the same.

XXII. And it is hereby enacted, that when Goods liable to Duty, for which a value has not been fixed by such a notice as is above directed, or for which a fixed Duty has not been declared by the Schedules annexed to this Act, are brought to any ustom House in the Presidency of Bombay, for the purpose of being passed for importation, the Duty leviable on such Goods shall be levied ad valorem, that is to say according to the market value of such Goods at the place and time of

importation as the case may be

XXIII. And it is hereby cuacted, that the market value for assessment of Duties on ad valorem Goods shall be declared by the owner, consignee, exporter or by the agent or factor for any of these respectively, upon the face of the application to be given in by him in writing for the passing of the Goods through the Custom House, and the value so declared shall include the packages or materials in which the Goods are contained, and the application shall truly set forth the name of the ship in which the Goods have been imported or are to be exported, the name of the Master of the said ship, the colours under which the said ship sails, the number, description, marks and contents of the packages and the Country in which the Goods were produced.

XXIV. And it is hereby enacted, that every such declaration when duly signed shall be submitted to the Officer of Custom appointed to appraise Goods at the Custom House, and if it shall appear to him that the same is correct, he shall countersignit as admitted; but if any part or the whole of the Goods shall seem to him to be undervalued in such declaration, he shall report the same to the Collector of Customs, who shall have power to take the Goods or any part thereof as purchased for the Government at the price so declared; and whenever the Collector of Customs shall so take Goods, for the Government, payment thereof shall be

made to the consignee or importer, if the Goods be imported within fifteen days from the date of the declaration, the amount of Import Duty leviable thereon being first deducted, and if the Goods he intended for exportation the entire value as declared shall be paid without deduction on account of Custom Duty.

XXV. And it is hereby enacted, that it shall be lawful for the Governor in Council of the Presidency of Bombay to declare by public notice in the Official Gazette of that Presidency what places within the same shall be ports for the landing and shipment of merchandise, and any Goods that may be landed, or which an attempt may be made to land, at any other port than such as shall be so de-

clared, shall be seized and confiscated.

XXVI. And it is hereby enacted, that when any vessel shall arrive in any port of the Presidency of Bombay, the Muster shall deliver a true Manifest of the cargo on hoard, made out according to the form annexed to this Act, and marked C. to the first person duly empowered to receive such Manifest that may come on board, and if no such person shall have come on board before the anchor of the said vessel is dropped, then the Manitest shall be forwarded from on board by the first boat that leaves the vessel after dropping anchor, and if the port be up a river at a distance from the land first made, then it shall be lawful for the said Governor in Council, by an order published in the Official Gazette of the Presidency, to fix a place in such river or port beyond which place it shall not be lawful for any inward bound vessel, except such country craft as are described in Section L1., and I.II. of this Act, to pass until the Master shall have forwarded in such manuer as may be ordered by the said Governor in Council such a Manifest as is required by this Act.

XXVII. And it is hereby enacted, that if the Manifest so delivered by the Master shall not contain a full and true specification of all the Goods imported in the vessel, the said Muster shall be limble to a fine of one thousand Rupees, and any Goods or Packages that may be found on board in excess of the Manifest so delivered, or differing in quality or kind, or in marks and numbers, from the specification contained therein, shall be liable to be seized by an y Customs Officer and confiscated, or to be charged with such increased Duties as may be determined by

the Collector of Customs under the orders of Government.

XXVIII. And it is hereby enacted, that if any inward bound vessel shall remain outside, or below the place that may be fixed by the said Governor in Council, for the first delivery of Manifest, the Master shall deliver a Manifest is herein before prescribed, to the first person duly empowered to receive such Manifest that may come on board, and if any vessel entering a port for which there is a Custom House established, shall lie at anchor the rein for the space of twenty four hours, the Master whereof shall refuse to deliver the said. Manifest in the manner above prescribed, he shall for such refusal be liable to fine not exceeding one thousand Rupees, and no Entry or Port Clearance shall be given for such vessel until the fine is paid

LVII. And it is hereby enacted that in all cases in which under this Act goods are liable to confiscation, the Collector of Customs of the place where those goods

may be, shall be competent to adjudge such confiscation.

LVIII. And it is hereby enacted, that if any person in charge of a vessel shall have become lightle to any fine on account of any act or omission relating to Customs, the Collector of Customs shall be competent, subject to the order of the Governor-in Council of the Presidency of Bombay, to refuse Port Clearance to such vessel until the fine shall be discharged.

LIX And it is hereby enacted, that it shall be lawful for any Collector of Customs; or other Officer who may be authorized to adjudicate Custom cases, if he shall decide that a seizure of Goods made under the authority of this Act was vexatious and unnecessary, to adjudge damages to be paid to the proprietors by

the Customs Officer who made such vexatious seizure, besides ordering the immediate release of the Goods; and if the proprietors accept such damages no action shall thereafter lie against the Officer of Customs in any Court of Justice on account of such seizures, and if such adjudicating Officer shall decide that the seizures was warranted but shall deem that the penalty of confiscation is unduly severe, it shall be tawful for him to mit igate the same to the extent of the levy of double Duty and if the said Officer shall adjudge confiscation, it shall further be lawful for him to order that from the propages of the sale of the Goods a proportion not exceeding one-half shall be distributed in rewards amongst such Officers as he shall deem entitled thereto, and in such proportion as he may direct to each respectively.

LX. And it is hereby enacted; that all Officers of Cus'oms shall as heretofore be ameable to the Civil Courts of the Presidency or Island of Rombay by action for damages on account of any executive acts done in their official capacity at the suit of the parties i jured by such acts. Provided however, that no suit shall lie against a Collector of Customs or other Officer for any Judicial award

in a matter of Customs, passed under the preceding Section of this Act.

LX4. And it is hereby enacted, that whoever intentionally obstructs any Officer in the exercise of any powers given by this Act to such Officer, shall be punished with imprisonment for a term not exceeding six months, or fine not exceed-

ing one thousand, Rupees or both.

EXII. And it is hereby enacted, that whoever, being an Officer appointed under the authority of this act, shall ascept, or obtain or attempt to obtain from any person any property as a consideration for doing, or forhearing to do any official act, shall be punished with imprisonment for a term not exceeding two

years or fine, or both

LXIII. And it is hereby enacted that whoever being an Officer appointed under the authority of this Act, practises, or attempts to practise any fraud for the purpose of injuring the Customs revenue, or abets, or connives, at any such

finud, or at any attempt to practice any such fraud, shall be punished with imprisonment for a term not exceeding two years, or fine, or both.

LXIV. And it is hereby enacted, that it shall be lawful for the Governor in Council of Hombay, by an order in Council to transfer any of the powers, given to a Collector of Customs by this Act to any other functionary, and to make any rules consistent with law for the carrying of this Act into effect, and to establish such Bunders and appoint such Officers as he shall think fit, and to fix rates of wharfage and of rent to be paid for Goods deposited or suffered to lie in the godowns of the Custom House.

## NEW INDIAN WEIGHTS.

The following Rules for the conversion of New Indian Weight into avoirdupois Weight and vice versa deduced from the foregoing date, are given in the volume of "Useful Tables" published by Mr. James Timsep, in Culcutta, in 1834, Page 66.

Rule 1st -To Convert Indian Weight into avoirdupois weight.

1st -- Multiply the weight in Seers by 72, and divide by 35, the result will be weight in 1bs avoirdupois

2nd - Or Multiply the weight in maunds by 36, and divide by 49, the result will be the weight in cwt. avoirdupois

Rule 2nd. To Convert avoirdupois weight into Indian Weight.

1st. -Multiply the weight in lbs. avoirdupois by 35, and divide by 72, the result will be the weight in secre-

2nd -Multiply the weights in cwts. by 49, and divide by 36, the result will be the weight in mounds.

- 1 To'a is equal to 180 Grains Troy.
- 80 Telas, or 1 Seer, equal to 14,400 Grains Troy, or 100 hs. Troy.

Then as 7,000 Grains Troy, is exactly equal to 1 lb. avoirdupois.

- 1 Seer of 14, 400 Grains Troy, is exactly equal to 2% lbs. avolidupois
- 1 Maural of 5,76,600 Grams Troy is exactly equal to 827 lbs. avoir-
- 35 Seers, are exactly equal to 72 lbs avoirdupeis.
- 7 In an maunds, are equal to 576 lbs, or 5 | 1 7 cwt.
- 49 Ditto do arecqual to 4.032 lbs or 36th cwt.
- 26 Pitto do. no equal to 180 cwt. or 9 Tons.

Duty on all Goods not enumerated in the Tariff to be levied on the market value.

Published by order of the Hon'ble the Governor in Council,

Hombay Castle, 29th December 1842

# Agents Advances on Goods.

FORT WILLIAM.

Flome Department, Legislative, the 26th October, 1944.
The following Act passed by the Governor General of India in Council, on the 26th October 1944, is hereby promulgated for general information.

Act No. XX. of 1844.

An Act to amend the Law relating to Advances bond fide made to Agents intrusted with Goods by extending to the Territories of the East India Company in cases governed by English Law, the Provisions of the Statute 5 and 6 Victoria C. 39, as altered by this Act.

Whereas by Act XIII. of 1840 the Provisions of the Statute 4, Geo. IV., C. 83, as altered and amended by the Statute 6, Geo. IV., C. 94, were extended to the Territories of the East India Company, in cases governed by English Law; and whereas by the Statutes and 6, Victoria C. 39, the said Statute 6, Geo. IV., C. 94, is altered and amended, and the Provisions thereofure extended.

It is he ely enacted, that the Statute 5 and 6, Victoria C. 39, as altered by this Act, shall from and after the passing of this Act, be extended to the Territories of the East India Company; provided always, that this Act shall not be construed to affect any case which would not have been governed by the Law of England before the passing of the last mentioned Statute, if this Act had not passed, or to extend or alter the jurisdiction of any of Her Majesty's Courts of Justice.

The Statute hereby extended to the Territories of the East India Company and

as altered by this Act, is as follows:

5 and 6 Vict. Cap. XXXIX. as altered by this Act.

An Act to amend the Law relating to Advances bonk fide made to Agents instrusted with Goods.

Whereas by an Act passed in the 6th year of the Reign of His late Majesty King George the Fourth, intituled an Act to alter and 6 G. 4, C. 94. amend an Act for the better protection of the property of Merchants and others who may hereafter enter into contracts or agreements in relation to Goods, Wares and Merchandize intrusted to Factors or Agents, validity is given, under certain circumstances, to contracts or agreements made with persons intrusted with, and in possession of the Documents of little to Goods and Merchandize, and Consigners, making Advances to persons abroad who are intrusted with any Goods and Merchandize, are entitled, under certain circumstances, to a lien thereon, but under the said Act, and the present state of the Law, Advances cannot safely be made upon Goods or Documents to persons known to have postession thereof as Agents only; And whereas by the said Act it is amongst other things further enacted, "that it shall be lawful to and for any person to contract with any Agent intrusted with any Goods, or to whom the sume may be consigned for the purchase of any such Goods, and to receive the same of and to pay for the same to such Agent, and such contract and payment shall be binding upon and good against the Owner of such Goods, notwithstanding such person shall have notice that the person making such contract, or on whose behalf such contract is made, is an Agent; provided such contract or payment be mide in the usual and ordinary course of busicess, and that such person shall not when such contract is entered into or payment made, have notice that nuch Agent is not authorized to sell the same, or to receive the said Purchase Morey;" And whereas advances on the Sccurity of Goods and Merchandize have become unusual and ordinary course of business, and it is expedient and n-cessary that ressonable and safe facilities should be afforded thereto, and thut the same protection and validity should be extended to bonk fide advances upon Goods and Merchandize as by the said recited Act is given to Sules, and that Owners intrusting Agents with the possession of Goods and Merchandize, or of Documents of Title thereto, should in all cases where such Owners by the said recited Act or otherwise would be bound by a contract or agreement of Sale be in like manner bound by any contract or agreement of pledge or lien for any advances bond fide made on the Security thereof. And whereas much litigation has arisen on the construc-

tion of the said recited Act, and the same does not extend to protect Exchanges of Securities boun fide made, and so much uncertainty exists in respect thereof,

that it is expedient to alter and amend the same and to extend the Provisions thereof and to put the Law on a clear and certain basis. Be it therefore enacted by the Queen's most excellent Majesty, by and with the advice and consent of the Lords Spiritual and Temporal, and Commons, in this present Parliament assembled and by the authority of the same, That from and after the passing of this Act

- VI. And it is hereby enacted, that whoever offers any resistance to any officers appointed under the authority of this act in the exercise of the lawful powers of such officer shall be punished in like manner as if the resistance had been of fered to the ordinary process of the Collector.

ROSS D. MANGLES, Offg. Secy. to Govt. of India.

Fort William, Home Department, Legislative, the 27th July, 1844.

The following act is brought up before the Legislative Council this day--The Governor General of India in Council being desirous that no time should be lost in passing the Act.--

Resolved, that the Rule requiring that no Draft of a Law should be ordered to be published till at least one week shall have elapsed from the day on which it was first laid before the Council of India in its Legislative Department, and that the Rules requiring that all Acts of the Governor General of India in Council shall be brought up for second reading in two months, or in three months from the date of the first reading, be suspended in respect to the following proposed Act, and that it be at once passed into Law.

### ACT NO. XVI. of 1844.

An Act for increasing the Excise and Import Duties heretofore payable to the Covernment on Salt manufactured within or imported into the Territories sub-

ject to the Government of the Presidency of Bombay.

Whereas by Act VI of 1844 all Inland, Transit and Town Duties levied on be-half of the Government of the East India Company, within the limits of the Territories subordinate to the Presidency of Fort St. George were abolished, and the impost on Salt manufactured and sold within the suid territories was raised to a rate more in accordance with the Tax on the ame article borne by other Divisions of the British Possessions: and whereasulthough enquires which have been instituted as to the origin and extent of certain Town duties and local cesses within the Presidency of Rombay with a view to their abolition have not yet been completed, it is nevertheless expedient in order to equalize the average prices of Salt within the Presidencies of Fort St. George and Bombay to increase as well the Customs duty on imported Salt as the Excise duty heretofore and at present payable on Salt that may be delivered from any Salt Work within the territories subject to the Government of the Presidency of Bombay.

I. It is hereby enacted, that from the First day of September 1844, Sect. I. of

Act XXVII. of 1837 shall be repealed.

11. And it is hereby enacted, that from the First day of September 1844, there shall be paid to the Government on every Maund of 3,200 Tolas weight of Salt that may be delivered from any Salt Work within the Territories subject to the Government of the Presidency of Bombay, a duty of One Company's Rupes.

III. And it is hereby enacted, that Sec. XLIII., Art. I. of 1838 shall be

IV. And It is hereby enacted, that on application by the Exporter from any Port of the Presidency of Bombay of any Salt that has paid the Excise duty fixed by Sec. II. of this Act, a Certificate shall be granted by the Collector of Customs at the place of Export, under authority of which Certificate the quantity of Salt specified therein shall be landed at any other Port of the said Presidency of Bomhay, and shall be passed from such Port into the interior under cover of the passes applicable to the free passage of Salt without the levy of any further duty either of Excise or Customs.

V. And it is hereby enacted, that so much of Schedule A. appended to Act. (. of 1838 as provides that no sait imported by Sea into any Port of the Presinency of Bombay and not covered by a Pass there shall be levied a duty of Eight Ansas per mained of 80 tolas per seer, and so much of Schedule B. appended to Act I. of 1838 as provides that Salt-having paid the Excise duty of Eight Annas a mound shall be permitted to be Exported free of duty from any Port or place in

the Prosidency of Bombay, shall be repealed.

VI. And it is hereby enacted, that on Salt. imported by Sea into any Port of the Presidency of Bombay, and not covered by a Pass, there shall be levied a duty of One Company's Rupce per mannd of 3,200 Totals weight, and that Salt having paid the Excise duty of One Company's Rupee per mound shall be permitted to be exported free from further duty from any Port of the Presidency of Lombay.

## NUTIFICATION.

## TERRITORIAL DEFARTMENT.-REVENUE.

The Government of India having directed, with reference to a despatch from the Hon'ble the Court of Directors, dated the 3rd of July last, that the Fxcise and import duty payable under Act XVI. of 1844, on Salt manufactured within, or imported into, the Ter itories subject to the Covernment of the Presidency of Rombay, shall be reduced from One Rupes to Twelve Annas per Maund of 3,200 Tolas, the Hon'ble the Governor in Council is pleased to notify that the said Excuse and import duty is hereby reduced accordingly.

By order of the Hon'ble the Governor in Council. E. H. TOWNSEND, Secy. to Goot.

Bombsy Castle, 14th September, 1844.

#### PROCLAMATION.

TERRITORIAL DEPARTMENT .-- REVENUE.

Whereas Act XVI. of 1844, which raises the Tax on Salt within the Presidency of Bombay from 8 annas to one Rupee per Indian Maund, has in view the abolition of Town Duties and other Cesses, which, from unavoidable circumstances, was not promulgated simultaneously with the said Act; and whereas the delay in this abolition renders the objects of this Government at present liable to the payment of both the increased Tax on Salt, and the said town Duties and Cesses, the Houble the Governor in Council is pleased, in order to afford relief from this double taxation, to suspend, pending decision of the Government of India, the collection of all Town Duties, Kusubverras, Mohoturta, Bulota, and all other Taxes on trades and professions, which form a part of the General Revenue of the State, and are not appropriated by Law or Custom to Municipal purpose.

By ord er of the Hon'ble the Governor in Council.

THE FOURTH BOMBLY LAUDAULE SOCIETY, established, on the 1st January 1834, and to close on the 31st December 1847, Directors Messrs. Charles Forbes, G. Parie, W. Frith, W. F. Hunter, R. F. Remington; Secretaries, and Treasurers Messrs. W. Nicol and Co.

REGULATIONS OF THE BOMBAY FOURTH LAUDABLE SOCIETY.—At a General meeting of the Subscribers to the third B mbay Laudable Society, held on the 21st December 1843, at the Office of the Secretaries, it was determined to establish a Fourth society in succession to the third which closes on the 31st December 1843.

The present state of the Funds of the Third Landable Society justify the expectation that holders of shares on lapsed lives will receive about Rs. 3,500 on each share in addition to the prescribed advance Rs. 4,000 already drawn.

The Fourth Bombay Landable Society will commence on 1st January, 1844, and the following regulations, are published for general information.

REGULATIONS OF THE FOURTH BOMBAY LOUDCHLE SOCIETY.

Article 1st. The object of this association is to provide a fund for the Insurance of Lives. This fund is to be portioned into abares, and an individual may subscribe for a certain number of shares either on his or ker own life or on the life of any other individual. In the former case, the general state of the deceased, or such person or persons as he, or she may, by will or assignment, have appointed, shall benefit in the event of a lapse; in the latter, the person who may have subscribed on the life of the deceased shall benefit to the extent of the shares subscribed, for unless in their case such shares be especially declared at the time of subscription to be for the benefit of any other persons, or be subsequently made over according to the form hereafter prescribed for the benefit of any other person or persons, in which case such person or persons shall be entitled to benefit, in the event of a lapse and no other.

2d. In the case of a person subscribing on the life of another, the party subscribing and not the party on whose life the sub-cription is made, shall be considered a Member of the society, and have a voice in the management of its concerns. Copartners or other bodies of individuals may hold one or more shares jointly on any given life, either for their own benefit or for that of others; but in such case the parties uniting in the subscription, should not be entitled each to a separate voice in the concerns of the Society, but must vote collectively, or by the departations of one of their member, on all matters thereto relating.

3d. The great principle of this Society is the equal division of its accumulated fund samong the parties cuttled to benefit by lapse of lives subscribed on according to the number of shares which those parties may respectively hold.

4th. The Fourth Landable Society shall commence on the 1st January 1844, and shall close on the 31st December 1848 at midnight.

ofth. Not more than four shares can be subscribed for on any life, whether

those shares be held by one or more individual.

6th. Persons shall be at liberty to subscribe for half, quarter or eight shares either on their can lives or on the lives of others, and in case of lapse the estate

of the desensed, or the parties for whose advantage the subscription is declared to be, or who may have become entitled to such advantages by Willor assignment, shall benefit by the find in a like fractional proportion.

7th. The following are the rates of subscription to be puld half yearly on each share, half quarter and eighth share, negording to the ages of the parties whose

lives are antiscribed on, at the time of admission into the Society, viz.

fires are subscribed on, at the time of admission into the Sugery, viz.

4th year 81 per cent on do.
5th year 80 per cent on do.

10th. Five persons residing in Bombay shall be nominated Directors of the Fourth Laudable Society, whose business it shall be to superintend and control the management of the 1 ands, to examine the accounts, to decide on all applications for admission, and generally to transact the current business of the society. The concurrent opinion of three of the five Directors shall be decisive on all matters relating to the concerns of the society, not at variance with these fundamental Regulations, which can be altered only by a majority of the Members residing in Bombay. No question, however, shall be proposed to the Members at large, without the concurrence of the whole of the Directors. In case of the death or removal from Bombay of any of the Directors, another or others shall be chosen by a majority of the Members of the Society then residing in Bombay or by a majority of such members residing in Bombay as may attend at a General meeting to be conveyed for that purpose.

11th. A meeting of the Directors of the Society shall be convened annually between the 1st of January and 30th April in each year, when a Statement of the Accounts of the Society shall be hid before them by the Secretaries, and no account, which shall once have been submitted to and passed by the Directors at such meeting, not less than three then attending, shall afterwards be called in question, unless for some special and manitest error to the amount of five hun-

dred Rupecsor upwards. A

12th. In the election of Directors as well as on all other questions relative to the concerns of the Society, which may be proposed for the decision of the Members at large, a Member holding four shares on any one. Life shall be entitled to three votes, one helding three shares to two votes, and holding any number of shares less than three to one vote only. Members holding shares on different lives shall be entitled to the number of votes proportioned to the number of shares which they hold on each life.

13th. Messes Win 'vice) and co., shall officiate as Secretaries and Trensurers to the Society, and shell charge a commission of five per cent. on all receipts of subscriptions to be paid out of the funds of the Society, and they shall charge a few of one Bombay Rupee on each certificate of admission, and one Rupee for the

Register of each assignment or shares or reduction of interest.

14th. The Secreti ries and Treasurers shall act in all cases according to the

orders of the Directors.

15th. All applications for admission into the Society from persons residing at any of the Queen's, or Company's settlements, shall be made by letter to the Secretaries and shall be accompanied by a certificate of health, signed by a Medical Gentleman in the Queen's or Company's Service, or a member of the Royal College of surgeors (those from all other places to be certified by a Medical Gentleman to the satisfaction of the Directors, and by an affidavit sworn to and signed by the individual on whose Life the shares are applied for) such Letter, Cartificate, and Affidavit to be according to the following forms, printed copies of which may be had on application to the Secretaries, viz.

The above Athdavit must be sworn to before a Magistrate, who shall attest the same by his counter-signature, or if the party be residue at a station where there is no Magistrate it may then be attested by the principal civil or Military Officer of the station. In case of an application for shares on the life of a minor under fourteen years of age, an athdavit to the same effect as above must be produced from the Parent; Guardian, or next of kin of the party or the person under whose projection happer she may be residing.

16th. All applications for admission, accompanied by the above prescribed forms of certificate and affidavit which may be transmitted to the Secretaries shall be submitted by them to the Directors for their decision, and the Directors shall in all instances be at full liberty to reject any such application without

assigning any reason to the applicant for so doing.

17th. In all cases it shall rest with the Committee to judge whether with reference to the circumstances of situation and distance, the interval which may elapse between the date of any certificate and attidavit of health, and the time of their presentment be reasonable or otherwise, and to admit or reject such certificate and attidavit accordingly. In no case, however, is the party subscribing to have any claim on the funds of the late Society in the event of the life lapsing between the date of the certificate and the date on which the applicant may be admitted a Member, unless where the bijectors may at the instance of such applicant have originally permitted the subscription to take effect from the date of the certificate and attidavit of health, which it shall at all times be in their discretion to do, on the arrear of subscription-being paid up. In the event, however, of person dying between the dates of his certificate and attidavit, the amount of premium paid for such Incurance shall be refunded.

Isib. No subscription on any life shall be considered as entitling the party or parties concerned to benefit by the Society until the life subscribed on shall have been approved by the Directors, the amount of the first subscription and premium of admission paid, and a certificate of admission granted under the signature

of the Secretaries, agreeably to the form annexed to these Regulations.

And If any applicant shall omit to pay the amount of such subscription and premium of admission within two months after the life subscribed on shall have been approved by the Directors, such applicant shall forfeit his claim to be admitted except on a fresh application accompanied by a new certificate and affidavit of health.

19th. All subscription (except the first which is to be paid on a dinision,) shall be paid within one month of the time at which they become due. If not paid within that time, a penalty of two per cent on the amount of the instalment shall be added, and any Member who shall not have paid his subscription together with the said penalty within two months of the day on which the subscription shall have become due, shall be considered to have absolutely and entirely forfeited his share or shares.

toth. Any vember shall be at liberty at any time, to pay up his subscription for the whole unexpired period between the time of such payment and the close of the Society, or for any part thereof, and in the event of lapse of the life subscribed on, such Member or his representatives shall be entitled to receive back any part of the subscription money so paid up, which would not have been due at the time of the lapse taken place, forfeiting, however, to the Society all interest which may have intermediately accrued thereon.

21st. No subsequent increase of shares on any life shall be allowed except on fresh applie from to be again approved of by the Directors, and accompanied by a certificate and additional shares to be according to the age of the party at the time making the new application.

2rd. Any number desiring to transfer his interest in any share or shares, which he may hold in the Society, shall be at liberty to do so by an endorsement to be written on the original certificate, which endorsement shall not be valid until the certificate hearing the same shall have been produced to the Secretaries and the transfer duly registered by them in a general book of registry to be kept in the office of the Society.

23d. As often as a sum exceeding Rupecs one thousand shall be collected, it shall be inideat in the purchase of Government paper, Bank, shares, or in Loans secured by a deposit of Government paper to be gravited under the control and anthority of the Directors, it being clearly understood that in all cases of Loan tho saleable value of the Directors shall be more than suit chart to cover the sum lent. All public securities purchased for the Society shall be especially endorsed to there or more of the Directors, and the interest only shall be made payable to the Secreta les and Treasurers.

24th. The person or persons entitled to benefit by the lange of a Life in this Society shall on making application to the Secretaries, in writing, accompanied by such proof of the casualty, as may be satisfactory to a majority of the Directors at the expiration of 3 years from the commencement of the Society receive the sum of four thousand Rupees on each share, two thousand Rupees on each half share, or one thousand Rupees on each quarter share, which he or they may have held, or be entitled to on the lapsed Life, provided that in the opinion of the Directors the state of the Funds of the Society will admit of so large a payment being made. Should the Directors think, however, that the Funds will not allow of an immediate payment of this amount, then such sum only shall be advanced as they may deem proper, and the balance of the prescribed advance shall be paid so soon as the Directors shall be of opinion that the Funds will sately admit of it.

Toth Arrears of subscription or any other sum due to the Society by the holders of any share or shares on a lapsed Life shall be deducted from the amount of the advances.

28th. At the expiration of this Society on the 31st December 1848, it is proposed that a new Society, on a similar plan, but subject to such alterations experience may suggest, shall be immediately instituted, into which Society, all similars then holding shares on unexpired Lives in the Third Laudable Society shall be at liberty to transfer those shares without any renewed certificate of health, in consideration of a sum of money to be said to such new Society, out of the Funds of Pourth Laubable Society, and without taking into account any proportion of the advances previously paid by the Society on account of the lapsed Lives, to entitle Members of Fourth Laudable Society to transfer the shares held by them into the curving or lifth Laudable Society, no regular form of

shall be immediately issued to them on the simple payment of the new society shall be immediately issued to them on the simple payment of the usual half fran's subscription in advance, subject, however to the established penalty of two per cent in the event of the payment being delayed beyond the term of one menth, from the commencement of the new society and to the entire fortsiture of the previlege of transfer (excepting on a new application to the Directors, accompanied by the regular certificate of health, &c.) it not made good within the second month from that period. The rates of subscription for Members transferring their shares from the Fourth to the Fifth I audable society shall be according to the respective ages of the parties on whose lives the shares are held an the first January 1849.

27th. It is proposed to render the institution of the Laudable society permanent by establishing a new society, in succession to each society as it expires.

23th. Upon the transfer to the Fifth Laudable society of any shares in the Fourth Laudable society, which may stand assigned by endorsement or otherwise, for the benefit of any other person or persons than the person or persons originally interested therein, or upon any subsequent transfer of any share or shares so assigned from the Fourth or any succeeding society, to the society next ensuing, such share or shares shall continue in all respect, subject to the lien of the is-lance, and shall be declared to stand for the benefit of such Assignee in the certificate of admission to be issued from the new society.

28th. Within one month and fifteen days after its termination, the accounts of the Third Landable society shall be made up and the balance of Funds actually hand after deducting for the new society 12 per cent, on the amount of subscriptions, received during the term of the society, be devided by the number of shares held on Lives subscribed upon in this society which may have lapsed between its commencement and its close, and the parties entitled to benefit by such lapses shall each receive his or their proportion of the said Funds, according to the number of shares respectively held by them on the several lapsed Lives, the holders of haif or quarter shares divided according to those fractional proportions. The 4 sum of Rs. 10,000 shall be considered as the maximum payable on any one lapsed share and any surplus shall be carried to the credit of

the new society."

30th. With respect to any lapses of Lives in this society which may not be gacertained on or prior to the 15th of February 1849, such lapses shall be ut the risk of the next ensuing or Pourth Laudable rociety, and the advances of Dividends to which the parties claiming to benefit by such lapses may be entitled, shall be paid out of the Funds, and sgreeably to the Regulations of the said ensuing society on the lapses being ascertained; but it is hereby expressly provided with respect to any lapses which may have occurred at any place to the east and of the Cape of Good Hope, that notice of such lapses accompanied by satisfactory proof of the same must be given to the Secretaries of the Fills Laudable society within one year from the expiration of the Fourth society on the 31st December 1848, or within two years if the lapse have occurred in Europe or elsewhere, be and the Cape of Good Hope and that in the event of the party or parties interested neglecting to prefer his or their claim on account of any such lapse within the period here prescribed, he or they shall entirely forseit all right and title to any benefit whatever, by reason of such lapse from the funds of the Fourth or any succeeding society.

31st. The following gentlemen have this day been nominated Directors of the

Pourth Laudable society, viz :-

CHARLES FORMES ESQ. R F REMINGTON ESQ. G. Farir Esq. William Prith Esq.

W. F. HUNTER Esq.

Any mis-statement in the Affidavit of health makes the Policy void as does micifa in cases when a person effects an Insurance on his own life, (unless the Certificate he specially endorsed over, for the benefit of a Creditor or Creditors and duly registered) but not so in case of Creditors effecting an insurance of the lives of their debtors.

The Directors of this Society have caused investigation to be made with great care into the existing Institutions for Life Assurance, &c. &c., and they trust they have been fortunate in selecting from each what, as a whole, will place their Establishment on the most judicions and satisfactory footing both to the Proprietors and the Assured. They request particular attention to the rates, which being founded on the most accurate observations of the duration of human life as moderate as is consistent with perfect security.

The plan of this Society is to transact all its business on such terms as 🐞 leave, in all human probability, a small, but certain excess of profit on the general result of its transactions. A small portion of that profit necessary for defraying the unavoidable expense of the Institution, and who have pledged the subscribed amount of their Capital in order to afford that responsibility which relieves the Assured from any contingency of loss to which they might be liable without the intervention of such a guarantee.

Advantages offered by this Society.

The profits are declared in each year, on the second Wednesday in May, on which date all persons assured in the Society for the whole term of life, whose Policies have been in existence five complete years are entitled to participate.

The practice of an annual division, as observed by Mr. Babbage, "distributes the profits with more regularity and justice than any other," and it is especially advantageous to persons of advanced years, who cannot hope to purticipate in many set tennial or decennial divisions.

Ore-fifth of the ascertained profits of the five preceding years is divided between the Policy-holders and Share-holdiers,—three fourths to the former, and ore-figures into the latter. The remaining four-fifths are set apart to enter into to average of the succeeding years, and thus to provide against unforeseen contingencies.

The first division of profits was declared on the 10th May 1840, in London, and on the 15th August in India, amounting to a reduction of 60 per cent, on the annual premium of all policies entitled to participation.

The following table will show the operation of the reduction made by the Society.

Onciony !

60	j :	1		10,000	080,[	l	618		241

This system of reduction in the Premiums affords immediate benefit to the Assured, or enables them to secure a considerable bonus by effecting a new Policy.

Separate tables, both Civil and Military, have been adopted for the whole of life, at reduced rates for such persons as may prefer a lower rate of Premium to

participation in the general profits.

The Society makes a natural distinction between persons exposed to the hazards of Military and Maritime occupations, and those whose occupations are of a Civil nature; but Members of the Military Service holding offices purely Civil and subject to no extra risk, will be charged the Civil rate of premium only while engaged in duties purely civil. It will be in the discretion of the Directors in each particular case to say whether the higher or the lower rate of premium shall be chargeable, and that discretion will be regulated by the particular circumstances of the case.

When application is made for assuring a life subject to more than ordinary hazard, an augmented Premion will be charged proportionate to the increased risk, the rate of which will be regulated by the strictest attention to justice be-

tween the Society and the Assured, according to the circumstances.

l'ieminus are ordinarily payable half yearly in advance; but Policy-holders are at liberty to make arrangements with the Society to pay their premiums in one amount, in annual or quarterly payments, or for a given number of years, viz: -5.10, 15, or 20. Some persons may wish to avail themselves of a present season of prosperity, and adopt the latter course, in which case (although their contributions will cease with the expiration of the term they may fix upon) their shure of the profits will continue to be added to their Policies annually during the remainder of life,

The Parent institution being in London, with a similar Establishment in Calcutta for granting Policies, Premiums, as well as claims, are pavable in either country at the opinion of the Policy-holder. The appointment of Sub-Committees at Madras and Bombay with power to grant Policies, affords similar faci-

lities to persons residing at either of the sister Presidencies.

All Policies becoming claims on the Society will be discharged within three months after satisfactory proof of the death, and cause of death, of the Assured shall have been furnished to the Directors either in London of Calcutta.

The Directors of the Indian Branch of the Society are empowered to treat for the purchase of Policies on which Premium shall have been paid for a period of not less than five years, or to advance, if required on such Policies, by way of loan,

two thirds of the estimated value.

The accounts of this Society, after being investigated by Auditors, chosen as well by the Asserted as by the Proprietors, are laid before General Meetings convened twice a year for that purpose: -- In like manner the accounts of the Parent Society are regularly transmitted to India for inspection, the Indian Branch enjoying reciprocal advantages with the Parent Society.

Where the application for Assurance makes no mention of the date from which the Assurance is desired to take effect, the Policy will be issued on the date of approval of the risk by the Directors, but no Assurance to be binding on the Society until the first Premium shall have been actually paid to the Agents.

Fivery preposal for Assurance will be immediately attended to, and the Assurance completed generally within a few days after the application is made.

All applications for Assurance must be accompanied by a Medical Fee of Eight Rupres.

The Tables, Blank Forms, and other particulars requisite to enable persons to effect Assurances, may be had on application to the Agents.

By Order of the Directors,

THE ALLIANCE BRITISH AND FOREIGN ASSURANCE COMPANY.
4, New Court, St. Swithin's Lane, London.

CAPITAL, FIVE MILLIONS STERLING; ESTABLISHED, MARCH 1824.
Persons effecting Assurances with the ALLIANCE COMPANY, will enjoy the following important and striking advantages.—

I. Perfect Security. The Capital of £5,000,000 under the immediate management of a highly respectable Board of Direction, pledged for the security of the

Assured.

II. Honor and liberality in the settlement of losses. The well known character of the members of the Direction affords, on this head, every possible security.

III Moderate premium of Assurance.

The Scale of premiums has been prepared expressly for India, and the rates are lower than those which have been hitherto required in the country.

IV. Participation of Profits by the Assured.

The Profits appropriated to the Assured, will be distributed at the close of each successive period of five years, in the form of a per-centage on the Premiums which have been paid.

V. Parties who obtain the settlement of losses from Fire are not thereby de-

prived of their right to participate in the profits of the Company.

VI. Losses by Lightning will be made good.

VII. The extended scale on which the Society is formed, gives rise to the expectation, that the profits to be divided will be large.

REMINGTON AND Co. Agents of Bombay.

### FIRE DEPARTMENT.

Persons who have made five successive Annual payments of their Policies previous to each division of profits, or who by one payment of the premium for five or more years have had their Property assured at the office, for no less than the above period, are to participate in the profits.

No charge is made for Policies when the sum assured amounts to £300 or upwords.

PREMIUMS.

On dwelling houses in the European part of the Fort, or detached houses in the country, 9 annus per cent, per annum.

On houses in the Native part of the Fort, 12 annas per cent. per annum. On houses in the Bazar, outside the Fort, 16 annas per cent. per annum.

On cadjanned Bungalows within a compound, and separated from the Cook Room, Rs. 2 per cent per annum, or if temporary Bungalows, for the fair season.

On goods hazardous, 16 annas per cent per annum, on property for a shorter period.

Hemp, Flax, Tallow, Pitch, Tar, Turpentine, Saltpetre, Rosin, Oil and Spirits, are denominated "Hazardous Goods."

In the Third Class assurances, are included the Stock and goods of Coopers. Shop-Makers, Bread Makers, Japanners, Sugar-Refiners, Sugar Grindlers, Distillers, Musical Instrument-makers. Likewise Factories worked by Steam-Engines, Cotton Screws, Chemists, Laboratories and Theatres.

1. It is incumbent on every person desiring Assurance from fire to describe clearly the construction of the building to be assured, or containing the property to be assured according to the distinctions noted above, also to state the nature of the goods or other property, of which Assurance is proposed; and whether

When a party applies to pay premiums in London for a continuance, he shall be required to state if he wishes to continue his policy in Rupees, in which case the premiums are to be received in such an amount as will purchase a Bill of the East India Company for the amount of premium due in Caclutta, according to the terms of the policy—or should he be entitled to be reduced to the English rate, the premium must still be calculated in Rupees and received in Sterling money according to the Exchange of the day.

The perferable course is for the party to leave the Policy at the office to be endorsed as covering a certain sum of Sterling money, to be calculated at the rate of 2s the Rupes, after which the premium will always be received in Sterling money without reference to the

state of the Exchange.

there be any Stove, Coakic. Furnace or other implement for producing fire heat by which the risk may be in any degree increased. After an assurance shall have been effected, it is necessary for the Assured to communicate immediately to the Company any alteration which may subsequently be made in the buildings, or in the description of the goods deposited, or of the trade or process carried on in them; and if any of these changes increase the risk which has been assigned in every other respect to be perfectly explicit in their communication with the Directors, as any omission or misre, rescutation vitiates the policy.

11. No claim will be allowed for has occasioned by the invasion of a foreign enemy, by civil commotion, or by any militury power; all Assurances on property in foreign countries are to be suspended during the continuance of any such

invasion or civil commotion.

III. Books of Accounts, written Securities, Bills, Bonds, ready money, Tallees, and Gunpowder, are not to be held assured by any policy granted by this Company.

IV. No description of property is to be considered insured by any policy un-

less specially mentioned in such policy.

V. Assurances, made with other Companies on property assured by this Company must be noticed either in or by indorsement upon the policies granted by this Company. Persons neglecting to notify such assurances with other Companies, will to feit their right of recovery on this Company.

VI. No Assurance proposed to this Company is to be considered in force, un-

til the premiun be paid.

VII. If property assured by the Company should pass by death, assignment, or otherwise, into new hands, the interest in the policy may be preserved to the successor, provided succession be allowed at the other, by indosement on the policy, and if the good-assured be removed to a new situation, the Assurance may be continued by indorsement on the Policy; an extra permium will be charged if

the risk be increased by the removal.

Vill. If any loss or damage by fire, he sustained on property assured with this Company, the person assured is forthwith to give notice of such loss or dumage at the Company's office, as soon as possible after within three months at the utmost, deliver in to the Company an exact account of the particulars and amount of such loss or damage, as the nature of the case may admit. If it be required, such account shall be supported by the oath or affirmation of the party assured; by the attestation of a certificate of some persons who reside within the parish, or in the in mediate neighbourhood of the sufferer, and who may be competent witness as to the character of the Assured and to the fairness of the claim, and further by the production of such books, documents, or vouchers, as may appear necessary. If there be tound to be any talse swearing, or if it shall appear that the fire shall have been occasioned by any wilful act or connivance on his pact the policy in such case shall be void and right of recovery fortested.

XI. Inevery case of loss, the Company will reserve to itself the right of reinstatement, in preference to the payment of claims, if it shall judge the former

course to be most expedient.

X. If any difference shall arise with respect to the amount of any claim for loss or damage by fire and no fraud be suspected, such difference shall be submitted to arbitrators, indifferently chosen, whose award or that of their umpire shall be conclusive.

Persons desirous of making Assurances for seven years, by one payment, will

be charged for six years only.

In animal Assurances, the premium will be calculated for the day on which the Assurance is proposed for one year. On Assurances for less than a year the premium will be reduced. In case of short period Assurances the policies will absolutely ceuse at six o'clock in the evening of the day specified in the policies

No acknewledgments for the assurances taken, will be issued except such as are on printed forms, and witnessed by one of the clerks or agents of the Com-

The renewal premiums must be paid annually within fifteen days after the expiration of each year, or the assurance will be soid.

Losses occasioned by lightning will be made good.

Reasonable expenses meurred in the removal of property from fire will be paid. Buildings on which Assurance are proposed will be surveyed free of any exrener to the party if required.

# LEGISLATIVE DEPARTMENT. THE 5TE JULY, 1841.

collowing Act passed by the Right Hon'ble the Governor General of in an in Council on the 5th of July 1841, is hereby promulgated for general information.

ACT No. X. of 1841.

An Act for prescribing the Rules to be observed, in order that ships or vessels belonging to ports within the territories under the Government of the Bast India Company, or belonging to Native Princes or States, or their subjects, may become entitled to the privileges of British ships under a proclamation of the Governor General of India in Council made in pursuance of the Stat.

3rd and 4th Victoria (h. LVI.

 Whereas by Statute passed in the 3rd and 4th years of Her Majesty Queen Victoria entitled an Act to regulate the trade of ships built and trading within the limits of the East India Company's Charter, it is enacted "that it shall be lawful for the Governor General of India in Council, by Proclamation, to declare that all ships or vessels built or to be built within the limits of the Churter of the East India Company being owned by Her Majesty's subjects for whom the said Governor General in Council has powers to legislate, and belonging, under the Regulations hereinafter provided for, to any ports in the territories under the Government of the said Company, shall be deemed to be British ships for all the purposes of trade within the said limits, including the Cape of Good Hope, and the territories and dependencies thereof; provided that upon such declaration being made the said Governor General in Council shall, and the said Governor General in Council is hereby accordingly empowered to make Rogulations, to be enforced by suitable penalties, concerning the registering, licensing, and ascertaining the admeasurement of the tonnuce and burden, and generully for the trading within the limits aforesaid of such ships or vessels." And whereas it is further enacted in the same Statute as follows, that is to say. "And whereas it may be expedient to admit to similar privileges and advantages any ships or vessels belonging to Native Princes or States in subordinate alliance with, or having subsidiary treaties with the East India Company, or owned by subjects of any such Princes or States, be it therefore enacted that the Governor General of India in Councial may by such Regulations as aforesaid, such regulations being subject as aforesaid, admit to the privileges and advantages of British ships for the purposes of trade within the limits of the charter of the said Company, including the Cape of Good Hope and the territories and dependencies thereof, or to any such privileges and advantages, any chips or vessels belonging to such Princes or States, or any of them, or owned by subject of any such Princes or States, but any such Regulations shall provide for the granting to such ships or vessels fit and convenient homees or passes, and generally for the trading within the limits aforesaid of such ships or vessels." And whereas in pursuance of such enactment it is expedient to france such Regulation as are mentioned therein the compliance with which shall be required in order that ships or vessels may be deemed British ships, or be admitted to the privileges and advantages of British ships under such Proclamation as aforesaid.

It is hereby enacted, that no ship or vessel shall be deemed a British ship under such proclamation as aforesaid (except as regards ships or vesse a registered before the passing of this Act, or having a pass at the time or passing thereof) unless the passing or persons claiming property therein shall have caused the same to have been registered at some one of the ports hereinafter mentioned within the territories of the East India Company, shall have obtained a certificate of such registry from the person or persons authorized to make such registry and grant such certificate as hereinafter directed; the form of which certificate shall be as follows.

This is to certify, that in pursuance of the Act No. X. of 1841, of the Governor General of India in Council (here insert the names and occupations and residence of subscribing owners) having made and subscribed the declaration required by the said Act and having declared that (he or they) together with (names, oc-

coupations and residence of non-subscribing owners,) (is or are) sole cowner or cowners, in the proportions specified on the back hereof, of the ship or veasel called the (ship's name) of (place at which the vessel shall be registered) which is (of the burthen of number of tons.) and whereof (master's name) is master, and that the said ship or vessel was (when and where built) and (name and enuployment of Surveying officer) having certified to us, that the said ship or vessel has (number) masts, that her (here insert the measurement as ascertained by the rules hereinafter mentioned) that she is (how righed) rigged with a (standing or running) bowsprit, is (description of stern,) sterned (carvel or clincher) built, has whether any or no) gallery, and (kind of head, if any) head: and the said subscribing owners) having consented and agreed to the above description, the anid ship or vessel called the (name) has been duly registered at the port of (name of port,) certified under our hands at the Custom House, in the said port, of (uan eef port,) this (date) day of (name of month) in the year (words at length.)

(Signed)——Collector or Registrar of Shipping.

And on the back of such certificate or registry, there shall be an account of the parts or shares held by each of the owners mentioned and described in such

sertificate, in the form and manner following.

(Signed)———Collector. II. And it is hereby enected, that the ports at which registration shall be made, shall be the ports of Calcutts, Madras, Bombay, Singapore and such other places subordinate to the local Governments of India, as such Governments respectively may, from time to time, declare to be registering ports under this Act. Provided, that ships or vessels built at any place other than any of such ports, shall be allowed to make their first voyage to any of such ports, being the ports at which it is intended they shall be registered, under a certificate to be granted by the principal British Other at the place where the abip is built, or if there be no British Officer in authority there, then by three merchants of such place. which certificate shall contain all the particulars with regard to the ownership, and description of the chips or vessels contained in a certificate of pegistry, and shall specify the parts at which it is intended that they shall respectively be registered, and which carrificate shall have all the effect of a certificate of registry under this act, during the first voyage from the place of building to the ports at which the ships or vessels respectively shall be afterwards registered. Provided that such ships or vessels so proceeding on their first voyage as aforesaid shall be deemed British ships only, whilst duly prosecuting such first voyage for the purpose of registry within a reasonable time after their arrival at the port of registry, the owners, or master or other person having or taking the command or charge of such ship or vessel shall be liable on information in any Court of Her Majesty or the East India Company by the Advocates General of the respective Presidencies to a penalty not exceeding 5,000 rupees.

III. And it is hereby enseted, that the persons authorized to make such registry, and to grant such certificate as aforesaid, shall be the persons now authorized to make registry of ships or vessels under the Statute 3 and 4, W. 4, Ch. 35, and such other or different persons as the local Governments may from time

to time appoint for the port under their respective Presidencies.

IV. And it is hereby enacted, that at every port where registry shall be made in pursuance of this Act a book shall be kept by the Registering Officer in which all the particulars contained in the form of the certificate of the registry berein before directed to be used shall be duly entered; and every registry shall be numbered in progression beginning such progressive numeration at the commencement of each and every year. And such Registering Officer shall forthwith or within one month at the furthest, send to to the Government of the Presidency to which he is subordinate a true and extract copy, together with the every certificate which shall be by

Y And it is hereby enacted, that no registry shall henceforth be made or certificate be granted, until the following declaration be made or subscribed before the Registering Officer, by the owner or major part of the owners of the ship or

vessel required to be registered.

I. A. B., (of place of residency and occupation) do truly declare that the ship or vessel (name) of (port or place) whereof (master's name) is at present master, being (kind of built, burthen, etcetera, as described in the certificate of the Surveying Officer) was (when and where) built and that I the said (A. B.) and the other owners (names and occupations if any and where they respectively reside) am (or are) truly and bona fide a subject (or subjects) of Her Majesty for whom the Governor General of India in council has power to legislate, and that no person not being subject as aforesaid, directly or indirectly both any share or part interest in the said ship or vessel. Provided that if the Registering Officer shall see occasion to doubt the truth of any of the facts contained in the above declaration he shall not deem such declaration to be conclusive, but may refuse the registry or certificate, and his discretion exercised in his behalf shall be subject only to an appeal to the local Government to which he is subordinate.

VI. And it is hereby enacted, that in case the required number of joint ewners of any ship or vessel shall not personally attend to make and subscribe the declaration herein before directed to be made and subscribed, then and in such case such owner or owners as shall personally attend and make and subscribe the declarations aforesaid, shall further declare that the part owners of such ship or vessel then absent, is or are not resident within twenty miles of such port or place, and hath or have not to the best of his or their knowledge or belief, wilfully absented himself or themselves in order to avoid the marking the declaration herein before directed to be made and subscribed, or is or are prevented by illness from attending to make and subscribe the said decla-

ation.

VII. And in order to enable the Registering Officer to grant a certificate truly and accurately describing every ship or vessel to be registered in pursuance of this Act, and also to enable all other Officers of Customs on due examination, to discover whether any such ship or vessel is the same with that for which a certificate is alleged to have been granted, it is hereby enacted, that previous to the registering or granting of any certificate of registry as aforesaid some one or more persons appointed by the local Governments respectively, taking to his or their assistance if he or they shall judge it necessary, one or more person or persons skilled in the building and admeasurement of ships, shall go on board of every such ship or vessel that is to be registered, and shall strictly and accurately examine and admeasure every such ship or vessel as to all and every particular contained in the form of the certificate herein before directed in the presence of the master, or of any other person who shall be appointed for that purpose on the part of the owner or owners or in his or other absence by the said master, and shall deliver a true and just account in writing of all such particulars of the build, desexiption, and admeasurement of every such ship or vessel as are specified in the form of the certificate above recited to the Officer authorized to make such registry and grant such certificate of registry as aforesaid; and the said master or other person attending on the part of the awner or owners is hereby required to sign his hame also to the certificate of such Surveying or Examining Officer, in testimomy of the truth thereof, provided such master or other person shall consent and agree to the several particulars set forth and described therein.

VIII. And it is hereby enacted, that from and after the commencement of this Act the tonnage of every ship or vessel required by law to be registered, shall previous to her being registered, be measured and ascertained while her hold is clear, and according to the following rule, (that is to say) divide the length of the upper deck between the afterpart of the stern and the forepart of the stern post into six equal parts. Depths: at the foremost, the middle, and the aftermost of those points of division, measure in feet and decimal parts of a foot the depths from the underside of the upper deck to the ceiling at the limber strake. In the case of a break in the upper deck, the depths are to be measured from a line stretched in a continuation of the deck. Breadths: divide each of those three depths into five equal parts and measure the inside breadths at the following points, videlicet, at one-fifth and at four-fifths from the upper deck of the fore-

most and aftermost depths, and at two-fifths and four-fiths from the upper deck of the midship depth. Length, at half the midship depth measure the length of the vessel from the afterpart of the stern to the forepart of the stempost, then to twice the midship depth add the foremost and the aftermost depth for the sum of the depths ; add together the upper and lower breadths at the foremost division, three times, the upper breadth, and the lower breadth at the midship division, and the upper and twice the low breadth at the after division, for the sum of the breadths; then multiply the sum of the depths by the sum of the breadths, and this product by the length, and divide the final product by three thousand, five hundred which will give the number or tons for register. If the vessel have a poop in half deck, or a break in the upper deck measure the inside mean length, breadth and height of such part thereof as may be included within the bulk head; multiply these three measurements together and dividing the product by 93,4 the quotient will be the number of tons to be added to the result as above found. In order to ascertain the tonnage of open vessels, the depths are to be measured from the upper edge of the upper strake.

IX. And it is hereby provided, that in each of the several rules hereinbefore prescribed when applied for the purpose of ascertaining the tonnage of any ship or vessel propelled by steam, the tonnage due to the cubical contents of the engine room shall be deducted from the total tonnage of the vessel as determined by either of the rules aforesaid, and the remainder shall be deemed the true register tonnage of the said ship or vessel. The tonnage due to the cubical contents of the engine room shall be determined in the following manner; that is to say measure the inside length of the engine room in feet and decimal parts of a foot from the foremost to the aftermost bulk-head, then multiply the said length by the depth of the ship or vessel at the midship division as aforesaid, and the product by the inside breadth at the same division at two-fifths of the depth from the deck taken as aforesaid, and divide the last product by 92,4, and the quotient shall

be deemed the tonnage due to the cubical contents of the engine room.

in the meaning of the said act for the registering of ships or vessels.

X. And it is hereby provided, that the tonnage due to the cubical contents of the engine room shall be set forth in the certificate of registry as part of the description of the ship or vessel, and that any alteration of such tonnage due to the cubical contents of the engine room or of such length of the engine room after registry, shall be deemed to be an alteration requiring registry de novo with-

XI. And it is hereby enacted, that for the purpose of ascertaining the tonnage of all such ships whether belonging to the United Kingdom or otherwise, as there shall be occasion to measure while their cargoes are on board the, following rule shall be observed and is hereby established; (that is to say,) measure first the length on the upper deck between the afterpart of the stern and the forepart of

length on the upper deck between the afterpart of the stern and the forepart of the sternpost; secondly, the inside breadth on the underside of the upper deck at the medical point of the length; and thirdly, the depth from the underside of the upper deck down the pump well to the skin, multiply these three dimensions together, and divide the product by one hundred and thirty, and the quotient will be the amount of the register tonnage of such ships.

XII. And it is hereby enacted that the true amount of the register tonnage of every merchants ship or vessel belonging to the United Kingdom, to be ascertained according to the rule by this act established in respect of such ships, shall be deeply carved or cut in figures of at least three inches in length on the main

beam of every such ship or vessel prior to her being registered.

XIII. And it is hereby provided that country Craft employed in coasting voyages not exceeding the burden of 200 tons may be registered and the tonnage marked according to rules to be prescribed from time to time by the respective local Governments.

XIV. And it is hereby enacted, that whenever the tonnage of any ship or vessel shall have been ascertained according to the rules herein prescribed such account of tonnage shall ever after be deemed the tonnage of such ship or vessel, and shall be repeated in every subsequent registry of such ship or vessel, unless it shall happen that any alteration has been made in the form or burden of such ship or vessel, or it shall be discovered that the tonnage of such ship or vessel had been a roneously taken and computed.

XV. And it is hereby enacted, that if such certificate as aforesaid shall be

sold, lent, or otherwise disposed of to any person or persons whatever than those for whose use it is granted, or shall be made use of for the service of any other ship or vessel than the ship or vessel for which it is granted, such certificate shall thenceforth be utterly void, and the marter or any owner of the ship or vessel who shall be proved to have sold, lent, or disposed of such certificate or made use of the same as aforesaid, or snall have concurred in or been privy to the committing any such offence, shall be liable upon conviction by information as aforesaid to a penalty not exceeding 10,000 rupers. And in case such ship or vessel shall be lost or taken by the enemy, burnt, or broken up, or otherwise prevented from returning to the port at which she is registered, or shall on any account have lost and forfaited the privileges of a British ship, or shall have been seized and legally condemned for illicit trading, or shall have been taken in execution for debt and sold by due process of law, or shall have been sold to the Crown or the East India. Company, or shall under any circumstances have been registered de novo, the certilicate, if preserved, shall be delivered up, within one month after the arrival of the master in any port or place in the territories of the East India Company to the Registering Officer at such port, in default whereof the master or any of the owners shall be liable on conviction by information as aforesaid to a penalty not exceeding 5,000 rupees. And if any person not being such subject as aforesaid shall purchase or otherwise become entitled to the whole or to any part or share or of any interest in such ship or vessel, and the same shall be within the limits of any port of the territories of the East India Company, then in such case the certificate of registry shull within seven days after such purchase or transfer of property in such ship or vessel, be delivered up to the Registering Officer at such port, and if such ship or vessel shall be in any place not within the territories of the East India Company when such purchase or transfer of property shall take place, then the certificate shall be delivered up within fourteen days after the arrival of such ship or ve sel, or of the master thereof in any port, of the territories of the East India Company to the Registering Officer at such port in default whereof the master or any of the owners shall be liable on conviction before any Justice of the Peace in a penalty not exceeding 5,000 rupees recoverable in the manner provided by Act No. 2 of 1839

and it is bereby enacted, that when and so often as the master of any ship or vessel regretered in manner herein before directed shall be changed, the master or owner of such ship or yessal shall deliver to the person or persons herem before authorized to in ke such registry and grant such certificates of registry at the port where such charge shall take place, it it be a port within the territories of the East India Company, the certificate of registry belonging to such ship or vessel, who shall thereupon indoise and subscribe a memorandum of such change and shall forthwith given notice of the same to the proper officer of the port or place where such ship or vessel was last registered, pursuant to this Act, who shall likewise make a memorandum of the same in the book of registers which is hereby directed and required to be kept, and shall forthwith give notice thereof in like manner as of the original entry. But if the change do not take place in any port within the territories of the East India Company, then such delivery, memorandum and indor-ement shall be made and notice given at the first port within the territories of the East India Company at which the new master shall arrive after such change. In default of which delivery of the certiacate such new master or any of the owners shall be liable on conviction before a Justice of the peace, to a penalty not exceeding 5,000 Rupees recoverable as aforesaid.

XVII. And it is here by enacted, that it shall not be lawful for any owner or owners of any ship or vessel, to give any name to such ship or vessel other than that by which she was first registered in pursuance of this Act, and that the owner or owners of all and every ship or vessel which shall be so registered, shall before such ship or vessel after such registry, shall begin to take in any cargo, paint, or cause to be painted, in white or yellow letters of a length of not less than four inches upon a black ground on some conspicuous part of the stern, the name by which such ship or vessel shall have been registered pursuant to this Act, and the port to which she belongs in a distinct and legible manner and shall so keep and preserve the same, and that if such owner or owners, or master or other person having or taking the charge or command of such ship or vessel, shall permit such ship or vessel to begin to take in cargo before the name of such

ship or vessel has been so painted as aforesaid, or shall wilfully after, erase, obliterate, or in any wise hide or conceal, or cause, or procure, or permit, the same to be done or shall in any written or printed paper, or other document describe such ship or vessel by any name other than that by which she was first registered pursuant to this Act, or shall verbally describe, or cause or procure or permit such ship or vessel to be described by any other name to any officer or officers of Revenue in the due execution of his or their duty, then and in every such case the certificate of registry shall thenceforth become utterly void, and such owner or Master or other person having or taking the charge or command of such ship or vessel shall be liable on information as aforesaid to a penalty not exceeding 10,000 rupees.

XVIII. And it is hereby enacted, that all and every person and persons who shall apply for a certificate of the registry of any ship or vessel shall, and they are hereby required to produce to the person or persons authorized to grant such certificate, a true and full particular under the hand of the builder of such ship or vessel, or in case the want of such certificate can be satisfactorily accounted for, then to produce other sufficient evidence of the proper denomination, and of the time when and the place where such ship or vessel was built, and also an exact account of the tomage of such ship or vessel, and shall also make and subscribe a declaration before the person or persons hereinbefore authorized to grant such certificate that the ship or vessel for which such certificate is required

is the same with that which is so described by the builder as aforesaid.

XIX. And it is hereby enacted, that if the certificate of registry of any ship or vessel shall be lost or misland, so that the same vessel when needful, and proof thereof shall be made to the satisfaction of the Registering Officer of the port at which the ship is registered, such Officer shall and may, where the certificate shall have been foot or mislaid, permit such ship or vessel to be registered de novo and a certificate thereof to be granted. Provided always that if such ship or vessel be absent and far distant from the port to which she belongs or by reason of the absence of the owner or owners, or of any other impediment, registry of the same cannot then be made in sufficient time, such Registering Officer shall and may grant a license for the present use of such ship or vessel, which license shall for the time and to the extent specified therein and no longer, be of the same force and virtue as a certificate of registry granted under this Act. Provided always that if the certificate of registry shall at any time afterwards be found, the same shall be forthwith delivered to the proper Officers of Customs to be cancelled, and that no illegal use be made of the same in default whereof the original certificate and the renewed certificate and license shall thenceforth become urterly void, and any person wilfully detaining the certificate so required to be cancelled, or making any illegal use thereof, shall be liable on conviction before any Justice in a penalty not exceeding 5000 rupees recoverable as aforesaid.

XX. And whereas it is not proper that any person under any pretence whatever should detain the certificate of registry of any ship or vessel, or hold the same for any purpose other than the lawful use and navigation of the ship or vessel for which it was granted, it is therefore hereby enacted, that in case any person who shall have received or obtained by any means or purpose whatever the certificate of the registry of any such ship or any vessel (whether such person shall claim to be the master or to be the owner or one of the owners of such ship or tassel, or not,) shall wilfully detain and retuse to deliver up the same to the proper Officers of Customs, for the purposes of such ship or vessel, as occasion shall require, or to the person or persons having the actual command possession, and management of such ship or vessel as the oatensible and reputed owner or owners thereof, it may and shall be inwinite and for any such last mentioned person to make complaint on eath of such detainer and relusal to any Justice of the Peace residing near to the place where such detainer and refusal shall be, and on such complain the said Justice shall and is hereby required by warrant under his hand and seal, to cause the person so complained against to be brought before him to be examined touching such actainer and refusal, and if it shall appear to the said Justice on examination of such person or otherwise that the said certificate of registry is not lost or misland, but is wilfully detained by the said person, such persons shall be subject on conviction before such Justice to a penalty not

exceeding 1,000 rupees, recoverable as aforesaid and the anid Justice shall, and he is here by required to certify the aforesaid detainer, refusal, and conviction to the person or persons who granted such certificate of registry for such ship or vessely who shall on the terms and conditions of law being complied with, make registry of such ship or vessel de novo, and grant a certificate thereof conformably to law notifying on the back of such certificate the ground upon which the ship or vessel was so registered de novo; and if the person who shall have detained and refus-, ed to deliver up such certificate of registry as aforesaid, or shall be verily believed to have detained the same, shall have absconded so that the said warrant of the Justice cannot be executed upon him, and proof thereof shall be made to the satisfaction of the Registering Office of the port at which the ship or vessel was regisfered, it shall be lawful for the said officer to punish such ship or vessel to be registered de novo, or otherwise, in his discretion togrant a license for the present use of such ship or vessel in like manner as is hereinbefore provided in the case wherein the certificate of registry is lost or mislaid.

XXI. And it is bereby enacted, that if any ship or vessel after she shall have been register d pursuant to the directions of this Act, shall in any manner whatever be altered so as not to correspond with all the particulars contained in the certificate of her registry, or if any alteration shall take place in the ownership of any ship or vessel, or of any shares thereof, in such cases such ship or vessel shall be registered de novo in manner hereinbefore required as soon as she returns to the port to which she belongs, or to any other port within the territories of the East India Company, on failure whereof such ship or vessel shall be decided to be a ship or vessel not duly registered, and any person making use of a certificate for the purposes of any ship or vessel which has been granted in respect of the same, after the same ought to have been registered, de novo, shall be liable on conviction before any Justice to a penalty not exceeding 5,000 rupees recoverable

as aforesaid.

XXII. And whereas great inconvenience may arise from the Registering Officers being served with subpoenas requiring them to bring with them and prod uce, on trials in Courts of Law relative to the ownership of vessels, or otherwise the declaration required to be taken by the owners thereof prior to the registering thereof, and the books of registry, or copies or extracts therefrom. And whereas it would tend much to the dispatch of business if the attendance of such registering Officers with the same upon such trials were dispensed with, it is therefore hereby enacted, that the Registering Officer at any port or place and the person or persons acting for them respectively, shall upon every reasonable request by any person whomsoever, produce and exhibit for his, her or their Inspection and examination any declaration made by any such owner or owners, and also any register or entry in any books of registry required, and shall upon every reasonable request by any person or persons whomseever, permit him, her or them to take a copy or copies of an extract or extracts thereof respectively, be allowed and received as evidence upon every trial at law, without the production of the original or originals, and without the testimony or attendance of any Registering Officer, or other person or persons acting for them respectively, in all cases, as fully and to all intents and purposes as such original or originals if produced by any Registering Officer, or other person or persons acting for them, could or might legally be admitted or received in evidence.

And it is hereby enacted, that if any person or persons shall falsely he declaration to any of the matters he inhefore required to be verified by sectaration, or if any person or persons shall counterfeit, crase, alter or falsify any certificate or other instrument writing required or directed to be obtained, granted, or produced this Act, or shall knowingly or wilfully make use of any certificate or other instrument so counterfeited, erased, altered, falsified or shall wilfully grant such certificate or other instrument writing, knowing it to be false, such person or persons shall for every such offence be hable on conviction upon information as atorsesaid to a penalty not exceeding 10,000 rupees. And if any such offence be committed by the owner of any ship or vessel, the certificate

of such ship or vessel shall benceforth be wholly void.

XXIV. And it is hereby enacted, that when any ship or vessel duly registered under this actor sailing under the British Navigation Law, shall come to be owned by a Native Prince or State, or by any subject of such Native Prince or State

as aforesaid, it shall be lawful for the Governor of Fort William in Bengal, or for the Governor in Council of any Presidency, to continue to such or vessel the privileges and advantages of a British ship for the purposes aforesaid by a pass to be issued under the Company's Sent and subscribed by a Secretary to Government stating the voyage or voyages for which the same is to have effect, and the period for which it is to last: and it shall be lawful for the Governor of Fort William in Bengal, or the Governor in Council of any Presidency, to issue a similar pass conferring the privileges and advantages of a British ship for the purposes aforesaid under this Act to any ship or vessel built within the dominions of such Native prince or State, and owned by such Prince or State, or by any of their subjects, provided always, that the ships belonging to Native Princes or States, or their subjects, in respect of which passes may be granted under this Act shall during the voyage or toyages, or the period for which any such pass shall be granted be commanded by a subject of Her Majesty for whom the Governor General in Council has power to legislate.

XXV And it is hereby enacted, that the fees demandable in respect of the granting any certificate or pass under this Act shall be fixed from time to time according to the directions of the Governor General in Council, but so that the same shall not exceed the amount of fees now payable for registering or granting

passes to ships or vessels at the different Presidencies.

XXVI. And it is hereby declared, and enacted, that all ships or vessels registered under this Act, shall be deemed to belong to the ports at which they shall be respectively registered. And all ships or vessels being registered or in respect of which passes may have been granted which are unexpired at this time of passing this Act, shall for the purpose of being deemed British ships be deemed to belong to the ports at which they may have been registered or when passes shall have been granted which are unexpired, at which such passes may have been respectively granted. And such ships or vessels built and owned as required by the Statute 3 and 4 Vict. Ch. 56, shall continue subject to all the rules in force at the respective Presidencies before the passing of this Act, or any provisions of the Statute law, a compliance with which may heretofore have been necessary in order that ships, vessels built and owned as aforesaid might be deemed British ships for the purposes of trade.

T. 11. MADDOCK, Secy. to the Govt. of India.

#### PROCLAMATION.

The Governor General of India in Council hereby declares that all ships and vessels built or to be built within the limits of the Charter to the East India Company (as these limits are defined by the Statute 3d and 4th of Queen Victoria, Cap. 56 entitled "An Act, turther to regulate the trade of ships built and trading within the limits of the Fast India Company's charter,") being owned by Her Majesty's subjects for whom the said Governor General in Council has power to legislate and belonging under the provisions of the Act passed by the Governor General in Council No X of 1841, to any ports in territories under the Government of the East India Company shall be deemed to be British ships for all purposes of trade within the said limits, including the Caps of Good Hops and the territories and dependencies thereof.

, l'Tule=6s. Pd.Sterling 10 Maces Cash is the only kind of Money made in China, which is not coined but cast, and is used for small payments; it is composed of 6 parts of copper and 4 parts of lead; it is round, marked on one side, and rather raised at the edges, with a square hole in the middle.

These pieces are commonly carried.

like beads, on a string or wire.

A Tale of fine Silver should be worth 1000 Cash; but on account of their convenience for common use, their price it sometimes so much raised that only 750 Cash are given for a Tale.

Foreign Coins, however, circulate here, particularly Spanish Dollars; and for small change they are cut into very exact proportions, but afterwards weighrally earry scales called Dotchin, made somewhat after the plan of the English ateel yards. The value of the Tale varies, and as generally computed according to the price paid per Ounce for Spanish Dollars in London. The fineness of Told and Silver is expressed by dividing the weight into 100 parts called Toques or Touch, Thus it an ingot be 93 Teuch, it is understood to contain 7 parts of Alloy, and 93 parts of fine Metal, making the whole 100. Pure Gold or Silver Ingots are used as money, and weighs from 1 to 100 Tales, their value being determined by their weight. These Ingots are of the best sort of Silver, that is, about 94 Touch Gold is not considered as money, but as Merchandize; it is sold in regular Ingots of a determined weight, which the English call shoes of gold; the largest of these weighs 10 Tales each, and the Gold is reckoned 94 without Alloy is called by the Chinese,

## EXCHANGE.

Nature of Exchange, Bills on England and vice versa, Exchange Tanles at Bombay, Bengal, Madras, China and America. Sicca Rupees converted into Company's Rupees

The fact is indisputable that mere crude metal was weighed as money long anterior to its formation into com. " Abraham weighed to Ephren the silver, four hundred shekels, current with the merchant;" now, the shekel was a weight centuries before it was a com; 3000, according to Arbuthnot, being equal to a talent; and the word "current" may be understood more fully by sterling, as being unalloyed, of right assay; the word "sterling," as we need hardly remark, being a corruption of Easterling, so termed from the money of Eastern Germany, which was remarkably pure, and therefore in request, at a period when our own comage was excessively corrupt We all temember too how brennes the Gual flung his heavy sword into the scales, that were too penuriously weighing the ransom of Rome; and similar instances need not be multiplied. Unminted bullion, as a legalized medium of exchange, is not less a modern than it has been an uncient expedient ; for it has been revived in our own times by Mr. Ricardo, although the project was abortive and dropped immediately, only one brick of gold weighing sixty onners, and impressed with a sovereign stamp, having been assued for foreign commerce; a leaden model of this, gilt to resemble, the original, is now in the British Museum We are informed, on such authority as that of Sunlas, that money of leather and of shells was once used by the Romans; and by Cedrenus that wood was also employed by them for the same purpose. Aristoles, says, that leather money was once current at Carthage, and Seneca makes the same remark on Sparta. We are told, on authority somewhat more considerable, that iron was used in the same manner at Sparts, at Clazomenic, at Byzanthum, and at Rome and imalse, by Dionysias A Syracuse. The Dutch have minted pastedboard ; our old exchequer tallies nu thi becalled in so ne sort wooden money ; James 11, coinco gun-metal , in 1690 we had a fin columne to the extent of £70,000 , lead and powter have engulated largely as tradesmen's tokens; the Maluys have a currency of betchurts, the Madagascar people of almonds, the African tribes cowire shells, the inhabitants of Yucatan certain seeds of plants, and the original settiers in Massachusetss accounte i " musket-balls, full bore," å legal tender (so lately as in 1803, leste Captain Maryatt, deer-skins at the stated value of 40 cents per pound were a legalised menn of barter ut. Cincinati, and if proffered instead of money could not be retraid.

The word comes derived from the Greek word signifying common or chrrent, and occurs on some Greek money, nominally of edexander but really of the Roman Laperor Phrip. It is a remarkable fact that, notwithstanding high explication, there appears to have existed no money in Lgypt anterior to the Persian occupancy. Cash down to seem to have entered into the calculations of Pharaoh, and nothing like a come is found upon sculptures or papyre, Jeseph's money for the cere received not have been other than personal ornaments; and although there are extent an abundance of crecular scales or carronches stamped on burnt clay, we nowhere see the idea carried on to the precious metals

The earliest known coms, or at least those now in being, bore the indented square, as the moneys of Argina; to this soon succeeded simple incision, as the wheat car of Metapontum, and the buil's head of Phoers. In the progress of comage, silver seems to have taken precedence, and to have been in its authors purity at Athens, which had no gold coins of her own, but contented hereelf with the Cyzicenes and Daries of her neighbours, and giverned the money market of the aucient world by the standard of her own just currency. Copper to lowed at an early period—perhaps almost simultaneously—to answer the demand for subdivision, though Athens issued silver coins no heavier than two grains; and gold, in a race almost equal, was probably the last, all being of very pure standard, for exceeding medern notions of a just assay.

By degrees an improvement was made even in coined money, and the mode of

remittances and exchanges by Rills was adopted.

The subject of Exchanges is by many considered abstruse, if not unintelligible. In itself if is neither. It is a plain, straightforward matter, as simple as the dealings in corn or sugar. It is merely an affair of adjusting prices between the buyer and selier, as in the common markets; with this exception, that as the buyers and sellers of different countries use the moneys of those countries to pay an exact som, a calculation must be made to what the amount in the one sort is equal, at

such time, in the other. When the Exchange between two places, such as London and Paris, is at Par, it is said to be a sign that the debts due from London to Paris are compensated by those due from Paris to London. On the contrary, when a Premium is paid at London for a bill upon Paris, it is said to be a sign that the debts due from London to Paris are not compensated by those due from Paris to London, but that a balance in money must be sent out from the latter place; for the risk, trouble, and expense of exporting which the premium is both demanded and given. But the ordinary state of debt and credit between those two cities must necessarily be regulated, it is said, by the ordinary course of their dealings with one another. When neither of them imports from the other to a grearer amount than it exports to that other, the debt- and credits of each may compensate one another. But when one of them exports to that other, the former necessarily becomes indebted to the latter in a greater sum than the latter becomes indebted to it. The debts and credits of each do not compensate one another, and money must be sent out from that place of which the debts overbalance the credits. The ordinary course of exchange, therefore, being an indication of the ordinary state of debt and credit between two places, must likewise be an indication of the ordinary course of their exports and imports, as these necessarily regulate that state.

The ordinary state of debt and credit between any two places is not always entirely regulated by the ordinary course of their dealings with one another; but it is often influenced by that of the dealings of either with many other places.

The just and true exchange for moneys, by bills, is par pro pari, or value for

valuk

Inforeign exchange, one place always gives another a fixed sum or piece of mondy for a variable price. The former is called the certain price, and the latter uncertain price. Thus, London is said to give to Paris the certain for the uncerkain, that is, the pound sterling for a variable number of Irancs; and to Spain the uncertain for the certain, that is, a variable number of pence sterling, for the dollar of exchange. The uncertain price, as quoted at any time, is called the Rate, or Course of Exchange.

When the demand in London for bills on Paris is great, a smaller number of francs is given for the pound sterling, and the contrary; and when there is a demand for hills on Spain, a greater number of pence sterling must be given for the

dollar, and the contrary.

The Par of Exchange may be considered under two general heads, viz, the Intrinsic Par, and the Commercial Par, each of which adm to of subordinate divisions.

The Intrinsic Par is the value of the money of one country compared with that of supther, with respect both to weight and fineness.

The Commercial Par is the comparative value of the moneys of different coun-

tries, according to the weight, fineness, and market prices of the metals.

Thus two sums of different countries are Intrinsically at par, when they contain an equal quantity of the same kind of pure metal; and two sums of different countries are Commercially at par, when they can purchase an equal quantity of the same kind of pure metal.

RULE.

REDUCING MONEY INTO ENGLISH, AND vice versa.

Dutch money is reduced to Engling by saying, -us the given rate of exchange to £1 sterling, do the given Dutch to the sterling sought; and sterling is reduced

This rule will apply in all cases by merely substituting the money of other

countries with the rate of exchange.

#### EXAMPLES.

Reduce 8, 132 guilders or florins, 16 stivers, into sterling; exchange at 10 current flories, 8 stivers, per pound sterling,

Pope's Journal of Trade, 1844.]

The origin of Bills of Exchange, Drafts, &c., must in the most extended sense, have been nearly coeval with the invention, or at least with the general employment, of written; request from a creditor to a debtor to pay the bearer so many pieces of silver or gold, or even so many sheep or bullocks, which are the standard of value among many rude nations, would constitue a draft payable at sight. And if the debtor was desired to pay the bearer at some future date, as after an approaching fixed festival, fair or market day, that would be an order payable so many days after date.

Such simple modes of transferring personal property must have been in uso from the earliest periods, when men began to dwell together under any degree of civilisation, and were doubtlessly of a much earlier origin than the date commonly assigned to them.

It is generally said that the Jews of Lombardy, or other great Italian dealers in money, who in the dark ages were the almost exclusive bankers of Europe, were the inventors of bills of exchange; and that necessity was also the parent of this scheme, since the difficulty and danger of transferring money to any distance in the precious metals was in those days extremely hazardous, more especially if the owner happened to be a Jew.

In spite, however, of the opposition of the courts, promissory notes still continued to be more and more employed, until at length the Act of the 3 & 4 Anne, c. 9 (1704), made perpetual by the 7 Anne, c. 25 (1708), declared that a holder of a promissory note "shall and may maintain an action for the same, in such manner as, &c., upon any inland bill of exchange".

By 9 & 10 William 3, c. 17 (1698), the holders of inland bills were desired, in cases of non-payment, to protest them within three days of their becoming due, and the form of the protest is given.

By the 3 & 4 of Anne, c. 9 (1704), made perpetual by the 7 Anne, c. 25 (1708), promissory notes were declared to be assignable in the same manner as bills of exchange, "to the intent to encourage trade and commerce," and directs that bills refused acceptance shall be protested, but that no protest shall be necessary, either for non-payment or non-acceptance, unless the amount shall be for 20% or upwards, and for "value received."

The legislature and the courts of Westminister, instead of directing the law of bills of exchange, have wisely endeavoured to further and promote the Lex Mercatoria, or customs of merchants; and this is not a modern doctrine; for a century and a half since the celebrated Holt, C. J., remarked, in the case of Cramlington v. Evans (1688), I Show. 5, "An universal custom is a law, and I knew no distinction between Lex Mercatoria and Consuctudo Mercatorum."—

Johnson on the Law of Bills of Exchange.

The statutes relating to Bills of Exchange, &c., are numerous, will be seen in the annexed list. A more abridgment of them would occupy by far too great a space for work of the nature of the "Journal of Trade." Besides, there are able treaties on the subject, by Bailey, Johnson, and others. More than is done here it would not therefore be rudent to attempt.

# COURT OF COMMON PLEAS, WEDNESDAY, JAN. 11, 1843. (Sittings in Banco.) WARWICK V. ROGERS

Lord Chief Justice Tindal delivered judgment in this case, which was argued in Trinity Term last. The action was brought upon a bill of exchange for 300%, of which the plaintiff was the endorsee, and one Richard Jericho, the acceptor, and the jury found a special verdict, which set out the facts, and left it to the Court to declare the mode in which the five issuses raised by the pleadings should be entered. The defendants, Messrs. Rogers, Towgood, and Co.; of Lombard-street, were, on the 26th of January, 1836, when the bill became due, the bankers of the acceptor, Jerricho, and had on that day funds in their hands belonging to him sufficient to pay the bill, which was duly presented by the plaintiff's bankers in the mode usual with bankers using the clearing-house-namely, by putting it that morning into the defendants' drawer there. The defendants cancelled the accentance, thereby signifying their intention to pay the bill at 5 o'clock that evening on the behalf of the acceptor; but in the course of that day, Jericho, having determined to stop payment, sent the requisite instructions to his bankers, who thereupon wrote upon the cancelled bill, " cancelled by mistake, orders not to pay," and in that state the bill was returned. The jury found that it was usual so to mark bills which were cancelled by mistake. The intermediate parties to the bill refused to pay it, upon the grounds of the cancellation; and the plaintiff accordingly brought the present action against the detendants, alleging that they were bound either to have returned the bill uncancelled, or to have paid the money due on the bill. Upon this point, which was the main question between the parties, the Court now expressed then opinion, stating, that in their view of the case, no such duty was imposed upon the defendants as that alaged in the declaration. It had, however, been contended for the plaintiff, that although he might not succeed on the special count in the declaration, he was entitled to recover on the count for money had and received; but it had often been determined that no action for money had and received would be against a party who had funds in his hands to pay a bill, unless he had communicated his assent to the person applying for payment, and no such assent had been given in this case. The verdict on the first, second, and fifth issues must be entered for the detendants, and for the plaintiff upon the third and fourth issues; but as the issues found for the defendants went to the whole cause of action, the judgment of the Court must upon the whole be for them.

Judgment for the defen laut.

COURT OF EXCHEQUER, Tubsday, May, 2, 1843. (Sittings in Banco — New Trial Paper.)

RIDGE P. BHERBURN.

This was an action by the endorsee of a promissory note, which purported to be payable by instalments, and at the trial it was objected, on the part of the defendant, that such an instrument was not negotiable; but the verdet having gone for the plaintiff, under the direction of the learned judge then presiding, this rule was afterwards obtained for a new trial on the ground of misdirection.

Mr. R. V Richards and Mr. Whitehurst were to-day heard in opposition to, and

Mr. Knowles in support of, the rule.

At the close of the argument, which was of a lengthened character,

Mr. Baron Parke gave judgment in favour of the plaintiff:—The first question for the consideration of the Court is whether this instrument is a promissory note within the statute of Anne which puts such securities on a footing with bills of exchange, allowing them to be assigned by the original parties; and the next is, whether the instalments were to be paid on the day named or after the usual "days of grace." Upon the latter point there will be little difficulty if the trial benousanted. Now, in reference to the language of the statute in question, it appears that this instrument is properly speaking, a promissory note. The words of the statute are very large indeed; they speak of a security for the payment of " any sum," and there is no limit fixed as to the mode or times of repayment. It may be therefore an entire sum or by instalments, and there is no doubt but that an instrument payable by metalments would be valid in the hauds of the original party. Are such securities then assignable? Of this I have no doubt, for we find authorities for such a proposition in the universal practice of the profession and the world at large, while we have cases which deal with other objections taised on such security, and speak of them as "promissory notes," but never breathe a hint that they were open to any objection such as this. These, coupled with the usage of the profession and the world, are quite sufficient to stamp such instruments with validity in the hands of endorsees. We are next to consider, whether "days of grace" ought to be allowed upon the time specified for the payment of each instalment, and I am of opinion that they ought so to be. These instruments being put upon the same footing as bills of exchange, must be so for all purposes whatever, and therefore days of grace being observable in the one class of securities, ought to be adopted in the other.

Air. Baron Alderson was of the same opinion. It had been well observed that, at all events, universal practice had established these securities. All the text wooks which treated of the subject had moreover entirely omitted to raise any objection to promissory notes payable by instalments on that ground, and it was not to be supposed that, if they were objectionable, the point would have escaped their acute minds. There was a maxim that communis consensus facilities, and it might be that communis error might have the same effect after a long source of

years, and it was too late now to question the practice.

Mr. Baron Rolfe assented, and the rule was accordingly discharged.

SHORT METHOD TO FIND THE SIMPLE INTEREST OF ANY SUM.

FOR ANY NUMBER OF DAYS, AT ANY RATE PER CENT, PER ANNUM.

#### Formula.

Let p denot the principal.

.. d the number of days.

" r the rate per cent.

and ,, ithe interest.

Assume 100,000 (3 p d r X & 2 p d r X 3\ 2 p d r X 100 2 p d r | a

Then a-10.00=i very nearly.

Rule.

Multiply the principal by the number of days, and that product by double the rate per cent. Then divide the amount by 3,30, and 300; add these quotients to it; and, substracting the 10,000th part at the sum, the remainder divided by 10,000 will be interest required.

#### Example

Required the interest of Rs. 180,000 for 146 days at 9 per cent. per annum? Answer, Rs. 6, 480.

Principal 180,000 X 146 days.

Product.. 26280000 X 18 (double) the rate per cent.

40000

210240000 26280000

Sum...... 648064800

Deduct 1-10,000th part 64800 (remaining fractions)

Remainder ......6480,00000 divided by 100,000, (by Inserting the decimal point befor the fifth figure to the right hand) shows, that the Interest is Rs. 6,480.

#### THE USE OF THE FOREGOING TABLE.

1. To find the number of days from the end of the year to any day in any month of the year following:—Rule:--Opposite the given day in the margin look under the given month, which will show the number of days required. Thus from 31st December till 18th August following are 230 days, and to 30th October 303 days.

11. To find the number of days from any particular day, to the end of the year.—Suppose 27th July.

take the number answering to 27th July, viz 208.

### Remaider 157

III. To find the number of days from any day in one month to any day in another month suppose from 5th April to 28th November -- Rule: Take the difference between the numbers corresponding to these days.

28th November 332 5th April . . . . . 95

Answer..... 237

IV. To find the number of days between any day in one year to any day in the year following.—Suppose from 21st August, 1822, to 27th May, 1828—(See Rules 1 and 2.)

From 365 Days in a Year. Take the number of 21st August 233

232 days in 1822.

Add the number of 26th May 147

### Times, Meights and Measures.

#### NEW WEIGHTS & LIQUID MEASURES.

## COMPILED BY THE HON'BLE J. H. CRAWFORD, Esq. LATE ACCOUNTANT GENERAL.

New Indian Weights established in Bengal by Regulation VII of 1813, and adopted by the Government of Bombay, at the recommendation of the Taria Committee in the New Tariff valuation, about to come into operation throughout the Bombay Presidency; with a few memoranda, intended to facilitate the conversions of old weight into new, that may become necessary in Custom House transactions under the new system of valuations mentioned about it th December 1840.

1 Tola = 180, Grams Troy 80 Tolas == 1 Seer. = 14,400 30 Seers == 1 Indian Maund = 5,76,000

Then as = 7,000 Grains Troy are exactly equal to

I seer of = 14,460 Grains Troy are exactly equal to

I md. of = 576,000 Grains Troy are exactly equal to

82 2 7

And it follows therefore, Ibs. Avoirdupois.

The following simple and accurate Rules for the conversion of new Indian weight into avoirdupois weight, and vice-versa, deducted form the foregoing data are given in the volume of useful Tables published by Mr. James Prinsep, in Calcutta in 1834, Page 66.

Rule 1. To convert Indian weight into Avoirdupois weight.

1. Multiply the weight in seers by 72 and divide by 35, the result will be the weight in 16s. avoirdupois.

Rule 2. To convert Avoirdupois weight into Indian weight.

1. Multiply the weight in libs. avoid dupous by 35 and divide by 72, the result will be the weight in Seers.

2. Or, Multiply the weight in cwt. by 49 and divide by [36, the result will be the weight in maunds.

Since the foregoing Memoranda and calculations were made, I have been able to obtain a copy of the Bengal Regulation VII of 10.33, on which the new system of Indian weight is founded, and subjoin the following further memoranda, connected therewith, in the belief that they will be found useful at this time

The first Section of the Regulation in question, after reciting the reasons that render it expedient to adopt the weight and standard of the Turrackabad Rupee (which are the same as that of Madras and Bombay Rupee) in the Calentia Mint as well as in the Saugor Mint, where they had been introduced as far back as the year 1824 | 25, continues as follows: "It is further convenient to introduce the weight of the Furrackabad Rupee as the unit of a general system of weights for Government transactions throughout India, under the Native and well known denomination of the Tola."

And Section IV. In ordering the discontinuance of the use of the Sicea weight of 172,666 grains beretofore employed for the receipt of Bullion to the Calcutta Mint, states that, " in its place the following unit to be called the Tola (shall be introduced, which form its immediate connection with the Rupes of the upper Provinces, and of Madras and Bombay, will easily and speedst become universal throughout the British Territories

The Tole, or Sicca weight to be equal to 1809 Grains Troy and the other denominations of weight to be derived from this unit, according to the following scale.

8 Huttees= 1 Masha == 15 Troy Grains.

12 Masha = 1 Tola = 186 ditto.

80 Tolus (or Sicca weight)= 1 Seer= 2, lbs. Troy.

40 Seers = 1 Mun (or Bazar Maund) 100 lbs. Troy.

Mr. James Prinsep says, with reference to the foregoing change, in Pages -- 62 and 63 of his very useful Tables already alluded to in these memorands. The Tola is chiefly used in the weighing of the precious metals and Coin; all Bullion at the Mints is received in this denomination, and the Tables of Bullion produce are calculated per 100 tolas It is also used at the Mints to make the subdivision of

the Tola into annas (sixteenths) and pie, in lieu of Mashas and Ruttees.

Mashas, Ruttees, and Dhans are used chiefly by native Goldsmiths and Jewellers. They are also employed in the native valuation by assay of the precious metals; thus 10 Mushus fine, signifies 10-12ths, pure and corresponds to "10 oz. touch." of the English assay report of Silver There is a closer accordance with the English Gold assay scale, masmuch as the 96 Ruttees in a Tola exactly represent the 96 Surat grains in the Gold assay pound, and the Dhan the quarter Grain, and the Ruttee, of which eight go to the Masha as the above, is not an exact divisor of the latter weight, the following further Table may not be without use in calculations connected with the conversion of precious metals from the Trey weight of Great Britain, into the I ola weight of India.

1 Rutter-Grains Troy 1. 875 decs-or 1 Grains Troy exactly. 5. 750 ,, 2 do 31 do.

5173 5. 625 " 3 do \*\*\* do. 4 do. **7.** 500 do == do. " 91 do. 9, 375 b do == do. 1, 6 фo = do. 11. 250 111 do. " da do. 13. 125 131 == do. 77 do do. 15. 15 do. =

It will be observed, that the preceding observations, whether extracted from the Regulations of Government (VII.) of 1833 Bengal, Mr. Prinsep's Tables, or made by myself, relate chiefly to the Buillion or Mint weights Specking on the Tola in connection with Indian weights generally Mr. Prinsep says, Page 61, "The unit of the British Indian ponderary system is called the Tola. It weighs 180 Grains English Troy weight. From it upwards are derived the heavy weights, viz'. Chittack, seer, and mun (or Maunds,) and by its subdivision the small or. Jeweller's weights, called Mashas, Rutters, and Dhans.

These last mentioned weights having already been disposed of, it will be suffi-

cient to give the following Table of the larger or Buzar weights

b Tolas or sicca weight, I Chittack, or Grs. Troy 900 16 Chittack .... = 1 Seer or lbs. Troy 21 40 Seers.... 1 Maund or lbs. Troy 100

and to add with reference to the Chittack that it is the lowest denomination of the Gross weights; and in Buzar transactions is commonly divided into halves and quarters (called in Bengalee Kacha,) thus marking the line between the two series which are otherwise connected by the relation of the seer, &c. to the Tola. (Prinsep's Table Page 62) whilst the Government of India, appear by the Tables prepared by their authority for the transactions of the Commissariat and other public Establishments in Bengal, to have sanctioned the introduction of a smaller denomination of great weight than the Chittack called tenth parts in the Ta-

bles in question

It appears to me, however, that neither of the above subdivisions of the Chittack are so correct in principle, and certainly not more convenient in practice, than the Tola, the unit on which, as observed by Mr. Prinsep, the whole nondetary system of india is founded. In the practice adopted in the Bazar transactions as above subdivisions of one half and one quarter, are not only in themselves fractional parts of Chittack, but represent Tolas and their fractional parts also half a Chittack being equal to two aid half Tolas, and the quarter of a Chittack to 11 Tolu and neither of them carries the subdivision so low in actual quantity as the weight represented by the unit itself, whilst in the Transactions of Covernment though the actual quantity represented by the newly

created tenth parts, carries the weight as low as half Tolas, it does so by the adoption of weight not recognized in the general dealings of commerce or by law, and as it appears to me without sufficient cause, for it a Tola, which is considerably less than half an ounce avoirdupois, is a weight not sufficiently small for the purpose of Government, its transactions may be carried out in the next lower subdivision to Tolas, Masha and Ruttees, viz. Grains Troy. But, I believe it will be admitted by mercantile men in general, that the ounce avoirdupois is the lowest denomination of English weight to which recourse need be had in the ordinary operations of commerce, and it therefore seems to me, that the Tola which, as already stated, is not equal to one half that weight, is as low a standard, as need be noticed in Indian mercantile dealings generally, the more especially as the subdivisions of the Tola (Masha and Ruttees and Grains) afford the means of the most minute culculations in retail transactions, as well as in the adjustment of weights connected with the more valuable article of Trade such as Musk, Opium, Silk, &c. &c. &c., and in all dealings indeed where reflect accuracy is considered necessary or desirable.

The weights of the several Presidencies of India, Travancore, China, and England compared with the new Indian Maund introduced into Bengal by Regulation VII of 1833, and adopted in the New Tariff valuation above to come into operation under the Bombay Presidency, (10th December 1840.)

Making the proportion between the old Wine Gallon and the Imperial Gallon so early as 10 are to 12, 5 are and to 6, that the difference between converting the

former description of Gallon into the latter, according to the proportions just quoted, or working the conversion to the greatest nicety of calculation, will, only occasion a difference of 222 decimal parts of an Imperial Gallon (or say, rather more than 1-5th, of an Imperial Gallon) in every one thousand (1000) old Wine Gallons converted as above

To convert old Wine Gallons, therefore, into Imperial Gallons, we may either multiply by 5 & divide by 6 or deduct 16th, from the frumber of old Wine Gallons given.

Again, taking the converse of this proportion from the date above given, we have the proportions between the Imperial Gallon and old wine Gallon so nearly as 12 are to 10, or as 6 are to 5, that the difference between converting Imperial Gallons into old Wine Gallons, according to the proportions just quoted, or working the conversion to the greatest nicety of calculation will only occasion a difference of 320 decimal parts of Wine Gallon (or any rather less than one third of such Gallon) in every one thousand (1000) Imperial Gallons converted above.

To convert Imperial Gallons therefore into old Wine Gallons we may either multiply by 12 and divide by 10 or multiply by 6 and divide by 5 or add 1-6th, to the numbers of Imperial Gallons aven.

Memorandum intended to show the check against fraudulent weights in the Bazar, and elsewhere, which the introduction of the New Indian Maund and its several subdivisions, will prove, where soever adopted, to all classes of the community.

6. It has been stread in the 4th para of this Report, the Revenue Accountant would recommend indian Manuels, Scers, and Tolas, in preference to his, avoirdupois, as the weight to be adopted in Opium purchases and sales hereafter and he would now respectfully state, in support of this opinion, that however much manuels differ in their actual weight, and in their several sub-divisions in different parts of India, still the manuel is a weight familiar to the Native population in every portion of it, and that whilst the Company's or head Rupee, which

#### WEIGHTS AND MEASURES.

Extracts from the Appendix to the Itinerary of Western India.

By Captain John Clunes.

Throughout India, and particularly the Deccan, a very considerable diversity orderable, not merely in every district, but in every village, in measures whether if weight, length or capacity; nor are the subdivisions to be found in a deter-

To whatever this may be owing, whether to minate proportion of each other. the want of a common or universal standard in former times, the decay or abrasion of the measures and weights, the knavery of the owners of them, or to the apathy or consistence of the Native district authorities, is probably immaterial, but the present ill defined system must be felt by all the class of buyers as a hardship, and they doubtless would be greatful for any beneficial amendment.

There are three kinds of weights in use in India; the first are for weighing drogs, gold, silver &c .- second for all bulky articles, - and the third, for pearls

and precious stones.

Those of the first class seem to be founded on the weight of a Tola through India and the tola under most Governments, seem to confirm with the Rupce, or principal current Coin of accounts; in towns, the weights generally are of Iron or, Lead, sometimes in a determinate form, but oftener as a shapeless mass. In many Villages however, the shopkeepers have only callast stones as weights, which are met with in beds of rivers. Indeed, when great weights are required they are generally made of stones, and under any circumstances, considerable advantage would be derived by the people, were the use of stones as weights prohibited under severe enactments. The table of weights annexed, will show the great variety of the first class, (and corresponding English weights) which exists throughout western and central India. Nor are the weights at the Presidency less multifarious than they are in the interior. In the following table of the various weights, with which goods are sold in Bombay, it will strike one as a singular incongruity, that varying as those weights do, with almost every variety of goods, and that serving as such they must cloy commerce; this system should be submitted to when the fact is known, that actually every article is sweighed by one weight, vizt, the English Avoirdupois, afterwards reduced by calculation, into the great variety of local weights, which are merely nominal.

ed on the Goonj or Ruttee, or the Musturd seed : the Goonj or Ruttee is the
small red seed, whether of the white or red species, of the abros precutorious;
these seeds are very uniform in size, and the plant producing them, grows wild
allover India. Two serds, otherwise Gooni, make one Wasl, a weight repre-
 sented by a seed of the Cheelur This weight is further subdivided as follows.
                     8 Mustard seeds= 1 Barley Corn.
                     2 Barley Corns= 1 Goonj.
Under different Governments of India, the Tola is composed of different proportions of the Goonj, or of the massa. The Bengal Tola being of 100 Goonj, or 12½ massa, the Malwa Tola of 96 Goonj or 12 massa. The Bombay Tola, of 92 Goonj, or 11½ massa, several districts in the Southern Concur of 92 Goonj or 11½ massa, several on 100 Goonj or 11½ massa, several on 100 Goonj or 11½ massa, several on 100 massa, several on 100 massa, several on 100 massa, several on 100 massa, several on 100 massa, several on 100 massa, several on 100 massa, several on 100 massa, several on 100 massa, several on 100 massa, several on 100 massa, several on 100 massa, several on 100 massa, several on 100 massa, several on 100 massa, several on 100 massa.

 to 18 massa, so that from these we may hope to obtain something approaching to
 the common weight of the massa or Goonj; the fundamental measures of weight.
   The weight of the Bengal Massa, in Troy grains, is 15,353-being 191.916 troy
 grains, the weight of a Calcutta Sicca Rupee, divided by 125, gives the number
 of Massa in one tola. The weight in troy grains of the total in Mulwa is 190 Grains; which being divided by 12, (the number of massa is one tola) gives 15.8333 troy
 grains, for the weight of the massa.

MRASURE OF CAPA	

Whether of measures of capacity in India are derived from those of length, agreeably to the notions of many able theorists in Europe, and in which they are borne out by very ancient writings amongst the Hindoos, or whether they were invented originally merely to save trouble in weghing grains and liquids, is a subject of enquiry for the philosopher. I am much inclined to the latter opinion, as far as regards Western India, from observing that the same denominations refer to the measures of weight as to the measures of capacity, and so relatively to the subdivision. In this case it seems to me highly probable that the Tunka or Tukka, a small silver Com, current during the period of the Mogul supremacy, and in which the Revenue was collected and reckoned throughout the Western Provinces of their Empire, and particularly in the Nizam Shahee's Territories, was the foundation of the weights at present in practice throughout the Deccan. Seventy-Two of these Tukkus go to the Seer which makes it nearly similar to the Tola and the now-Tunks, or nine tanks is still a measure for liquids in very general use. The Ghetak, or 6 tanks, is the 16th part of a seer or weight in the Deccan; but my enquiries regarding the weights that are in use, and not those that have been. The most popular of the actual measures of capacity are

the NOWTANK, the SEER the PUNSERREE, and the ADHOLES. DRY MEASURE.

The ADHOLEE. --- The dry measure, called Adholee of two seers, which is the largest in use in the Decean, is, in Towns and large villages made of wood turned in a lathe and lackered. It is in form nearly smiller to that of an hour glass, and a laser, and form and factoring. In small villages where the dealers are poorer, these measures are made from large bamboos sawed through at the joint.

The Adholes in the Northern Konkun consists of 31 and 4 Kutcha seers, and the number of Adholess to the Konkun Maund varies in different towns in the Collectorate from 17 to 24. Where the 4 seer Adholes obtains, there the Maund contains 20 Adholes, and where the Adholes is 35 seers, there the Maund consists of 24 Adholes, is obtained to Adholes and not the Maunds, differs; the 17 Adholes Measures, is perhaps confined to Salsettee. The Kokun and Arabic Candy are both in general use in this Collectourte, the first consists of seven maunds the other of eight maunds. The Catti or Decean Candy, is also in use and is used for measuring Salt.

The large dry measure in Rombay for Salt is the Phara containing.

log Adholee = 1 Phara. 100 Phara = 1 Anna.

16 Annas = 1 Rash or 40 Tons.

The Phara measure when used, is struck off even with a run by a rod made for the purpose

The small dry measure for grains is the seer, whereof

4 Seers = 1 Puheelee.
17 Puheelees = 1 Phara.
8 Pharas = 1 Candy.

Batty or rice in the Husk is reckoned by Moora of 25 Pharas.

LIQUID MEASURE

The liquid seer Measure used in Bombay for Spirits, Arrack, and Milk, is equal in weight to 60 Rupees, or 1 lb. 10 oz. 7 dwts 12 grains troy. The maund con-

sist of 40 of these seers, and the seer is subdivided into half seers, quarter seers, and latter into two measures called now-tanks, or nine-tanks tuchka. The measures of Oil, corresponds with the Maund of 28 lb. that is, the contents weigh that, and the contents of the seer consequently weigh 11 oz. 4 dwts.

LONG MEASURE. The Measures of length, are the KATHEE, the GUZ and the CUBIT, the first is only used as a land measure, the other two are most used by artificers, and sometimes used in measuring piece Goods, Clothes, Silks, &c., are not sold by the piece. In most of the provinces under this presidency, the Guz is divided into 20 Tussoo. In Guzerat it measures 27.5 inches, making the cubit of 14 Tussoo, equal to 19.25 inches. At Bombay and in Malabar it is 28 inches, and the Cubit 19. 6 mehes In the Decean, the Docab, the Southern Conkan, Surat, and also in Kutch, the Goz is divided into 24 Tussoo, but of a greater variety of length, and the cubit mto 11 tuesco. The Peshwa's Guz, which is in use in the Public Departments at Po ma is 33.86 mches. At seven of the principle towns in the Dooah the Guz varas from 34 75 inches, to 34.75 inches, and broad cloth velvet chaitz, and other articles of burope Manufacture are measured by it. An average accurately taken at 12 of the chief towns in the Southern Konkan makes the Guz 22, 438 inches and the cubit 15 08 inches.

The length of the Cubic bowever, almost every where, is usually determined by the mean length of five different men's arms, measured from the elbow to end of the middle finger; turbans, &c. are sold by this measure, but it is seldom met without of Surat as a measure, onless with failors; purchasers usually measure by their own arm's length. The English yard is in common use at Bombay in measuring Europe manufactures, and indeed in many places in the interior.

SUPLETICIAL AND SOLID MEASURES.

SUPERFICIAL measure, for the measurement of land, solid measures for ascertaining the quantity of timper, and many kind of artificers, works, are obtained from the same date as the neasure of length

Artificer's work, superficial measurement throughout Guzerat, Deggan, Konkun, and at the presidency, the reckoning is made by 100 in length, whether Guz, or cubit by one in breadth. This rule applies also to the manufacture of carpets, mats, &c.

Masonry is calculated by the brass, which is 25 cubits in length by one in breadth, and one in hen, bt. The cubits in use among Masons in Bombay is 20 inches (being 4 longer than the timber Guz,) so that a brass of Masonry contains 115. 74 cubic feet.

Timber is measured by the Guz, and the rule for determining the contents is, by the square of the quarter got multiplied into the length. A sawver's Guz, is 32 inches in length, and 9 melies in breadth; 32-9-88 square inches 2 square feet.

BONDAY AND CANARA MEASUREMENT OF TIMBER AND PLANK.

Timber 20 vissvassa == 1 Vassa,

20 Vassa == 1 Covit or Candy

Plank is measured by the Guz of 28 English inches, or 24 Borels, 24 Borles in length, 12 Borels in breadth, and one Borel in thickness, make Guz. A Borel is equal to 1. 666 English inches

3 P. M. and the Banghies as soon after as possible.

XXVI. At Provincial Post Offices, the packet shall be made up at 5 p. m. for all Mails to be dispatched in the course of the night; but for mails which usually pass in the course of the day, the packets shall be made up half an hour before the expected arrival of such mails, which are in no case to be subjected to any detention. Notice of the hour at which each packet is closed, shall be hung up outside the Office, both in the English and in the language of the Districts, after which hour, letters, papers or parcels received, shall not be forwarded till the following day.

the following day.

XXVII. The Post musters at any station or person in charge of the Office, shall have power to refuse letters, papers or parcels, bearing the appearance of having been opened and closed, or otherwise improperly dealt with, unless the writer or sender thereof shall attest with his full signature that they were sent in

that state.

XXVIII. In order to protect as far as possible the public mails from the chance of robbery. Officers in charge of post offices shall not knowingly receive money,

bullion, precious stones, or Jewels for dispatch, by Letter or Banghy post.

XXIX. Letters once delivered into any Post Office cannot be recalled by the sender under any circumstances whatever. But Newspapers and parcels may be recalled, on the person claiming the return of the same, satisfying the Post Master that he was the sender thereof, and on his paying the postage, which

would have been due on such paper of parcel if forwarded.

XXX. "Forward Latters" or parcel, i. e. those which follow the persons addressed from Station to Station, shall be considered as so many fresh dispatches and shall be liable to postage as such, from each station whence they are for-warded in succession. But Newspapers, which follow persons in like manner and letters forwarded to Officers and persons, murching with Corps and detackments on duty, shall not be deemed to be a fresh despatch, or be chargeable with fresh postage beyond the maximum rate as leviable thereon, unless the former shall have been opened, letters and parcels also forwarded to Corps or Detachments or march by any cross or temporary Dawk shall not be charged separately for the increased distance.

XXXI. The servants at the several Post Offices are not bound to give change to

parties sending or receiving letters in any case.\*

XXXII. Receipts will not be granted for letters, papers or parcels received at any post Office, for dispatch unless they are presented ready written either in Hooks or in separate slip of paper, along with the letters, papers or parcels. Receipts so presented will be duly stamped in all cases, and will also have the weight, whether single, double &c. and the amount of postage is paid in advance.

XXXIII., In order to obviate as far as practicable all delay or mistake in the delivery of letters, it is particulary recommended that all persons arriving at or quitting any station, or changing their residence at the same, will send to

the post Office, a Notification thereof in writing.

SHIP AND HARBOUR LETTERS.

COUNCIL CHAMBER, FORT WILLIAM, ) 30TH AUGUST, 1837.

The following Rules for Stamping Letters have been submitted to the Gorernor General of India in Council, and being approved are appended for the guidance of the officers, of the Department.

RULES FOR USING POST OFFICE STAMPS.

All letters and Packets whatever (save and except Newspapers, and Ship and steam Letters hereafter specially provided for,) received at any Post Office in India for dispatch by Post, whether Free or post Paid, or liable to pustage, as the case may be, are to be marked with the appropriate Stamp bearing the name of such Office of dispatch, and when slide stamps are not provided, where the date of the month and year forms part of the stamp itself the said oate most be entered in writing across the middle of the face of the stamp. If the letter or packet received for dispatch be Post paid or Bearing postage the amount of postage so paid or due must be entered in writing on the face of the stamp afterward "Paid" or "Bearing" as the case may be.

2. All letters and packets, whatever, received at any Post office by post for delivery at such Office, are in like manner to be stamped with the appropriate Office stamp, and marked with the date of the month, and year but the amount of postage, paid or due is not to be entered on the stamp of delivery as the stamp of dispatch regulates the levy of postage.

3. The stamp, for all service, soldiers or other Free letters or packet, is an oval I inch long by I inch wide bearing the name of the Office and the word free and must be stamped red.

4. The Stamp for all letters or packets, on which postage has been paid, as an oblong. It inch long by I inch wide, bearing the name of the Office and the word paid, and must also be stamped red.

5. Stamp for all letters of packets, on which postage has not been paid in advance is an oblong 1½ inch long by 1 inch wide, bouring the name of the Office and the world Bearing and must be stamped black.

6. Forward letters or packets, i.e. those which follow a party addressed from station to station, are to be stamped at each Office of fresh dispatch, and marked with the additional postage due on such fresh dispatch.

7. When a Letter exceeds in weight, double, treble &c., must be entered in writing on the face thereof and on Banghy parcels, the exact weight must in all cases be entered in writing on the same.

8. All service soldiers or other free letters, or packets, received from senward at any General Post Office, are to be stamped with the ship Letter Free stamp. This stamp in circular, 11 inch in diameter bearing the name of the General Post Office, the date of the month and year, and word "ship Letter Free" and must be stamped red.

9. All other fetters or packets received from scaward at any General Post Office, are to be stamped, if received by ship, with the ship letter Bearing stamp, and if by a Government steamer with the steam letter Bearing stamp. The former is a square stamp I, men in diameter, bearing the name of the General Post Office, the date of the mouth and year, the word 'ship Letter Bearing.' The letter is an octagonal stamp of similar dimensions, but with the words 'steam letters' Bearing.' Both these stamps must be stamped black.

### GENERAL DEPARTMENT.

The Hon'ble the Governor in Council is pleased to publish for general information, the following Notification of the Government of India, under date the 17th of January last.

No 3 General Department, Fort William, the 17th January 1838.

The Government of India having received from the Hon'ble the Court of Directors copy of a letter addressed by the Servants to the Post Master General in England, to the Hon'ble Court, dated 11th September 1857, from which it appears that in Act (I Victoria, cap. 76) had been passed by the British Parliament for regulating the Postage to be levied on letters transmitted between the United Kingdom and India, by Her Majesty's Mediterranean Packets, the President in Council deems it accessary to publish for general information, the rates of postage established thereby in supercession of those establishments by clause XXXIV per Rules for the management of the Post Office Department passed by the Right Hon'ble the Governor General of India in Council of the 30th August 1837.

The following is the order contained in the letter above referred to, to which the Post Muster General and Post Masters in the different Presidencies of India,

are hereby directed to give attention.

The Act lst Victoria, Cap. 76, having authorized a Postage of 1s. single, 2s. double, 3s. treble, and 4s. for an ounce weight, and for every quarter of an ounce beyond that weight, the Postage of a single letters upon all letters passing between any Port in the Red Sea, or Persian Gulph, and the East Indies which are not conveyed to or from the United Kingdom by Her Majesty's Mediterranean packets, I am commanded by the Post Master General to request you will move the Court of Directors, to give instructions to their Post Musters india, to demand this rate upon all letters, which shall not be enclosed in the mails des-

patched from Falmouth for the East Indies, which will be made up in boxes marked East India Mail from the United Kingdom by Her Majesty's Mediter-faneau Packets, which the exception of Letters put into the Post Offices of the United Kingdom, which shall be addressed to India, via Marseilles, and upon which as the postage alluded to, would have already been paid in this country, no addition drate should be demanded, letters of this description can be easily distinguished from their having the Post mark of the Town in the United Kingdom at which they were posted in addition to the address of via Marseilles. With the exception of these two classes, namely, letters contained in the Mail boxes and those addressed vie Marseilles, all letters conveyed to the East Indies by packets, will be liable to the charges in question, which can only be collected by the Company's Post Masters from the persons to whom they are addressed in India.

With respect to the return correspondence, this rate must not be taken in India on either of the two classes of letters before mentioned, whether they shall be simply addressed to the United Kingdom, or passing throughit to countries beyond, or whether directed to it via Marseilles, as the Postage can be collected in this country. On all other letters however the rate must be demanded at the time the letter is posted in India as the only means of securing the charge, the Post office having no method of collecting it in the countries to which

the letters will be addressed.

Under the above orders, Inland Postage only will be leviable in India on letters arriving from or received for transmission to the United Kingdom via any Port in the Red Sea or Personn Gulph. If letters arrive from, or are addressed to any other place then the United Kingdom so that the Postage will not be liable therein, the following rates will be levied in India, as the place of delivery or of receipt for transmission.

Letters or see	aled Packets of a	my description.	
Single.	Double.	Treble.	
Not exceeding I Tola weight.	14 Tola weight	Not exceeding 2} Tolas weight.	
8 Annas.	l Rupee.	1 Rupee 8 Annas.	Single postage being added for each additional 4 Tola weight.

Note.—8 Annus has been assumed as equal to I shilling. A scale according to weight has been substituted for the rule regarding single and double letters for uniformity with the system generally in force in India, and because the Post M esters have not the means of discriminating between single and double sheets, 3 Tolas also have been assumed as equivalent to an ounce.

No ship Postage under Schedule B. Act No. XVII, 1837, will be leviable in India on letters transmitted in the manner provided for in these rules, notwithstanding that they may have been conveyed or may be forwarded between India

and the Red Sea or Persian Gulph in sailing vessels.

The orders received hitherto containing no provision in respect to Newspapers, Pamphlets or other unsealed packets of printed papers transmitted via the Red Sea, or the Persian Gulph, these will be subjected in India to no charge beyond, that of inlend postage duty.

By order of the Hon'ble the President in Council (Signed)

H. T. PRINSEP, Secy. to Gogt.

By order of the Right Hon'ble the Governor in Council.

### GENERAL DEPARTMENT.

NOTIFICATION.

The Hon'ble the Governor in Council is pleased to publish for general information, the following extract paras. Ist and 2nd of a letter from the Hou'ble Court, No. 33 of the 19th Dec. last.

Extract of a letter from the Hon'ble the Court of Directors, in the Public De-

partment-No. 33, of the 19th Dec. 1838.

Para 1st. Complaints have been made in this country of the expense occasioned by the practice of the indiscriminate transmission of letters and packages of the Overland Mails. This is a practice which independent of the private inconvenience which it occasions, has a tendency to impede the public service by overloading the daks, and we desire that in future no letters, or packages be forwarded Overland, unless specially superscribed to be sent by that mode of cou-Tes ance.

2d. In adopting the regulation now suggested, it will be proper, in order to

avert disappointment, to give publicity to the change of practice.

The Hon'ble the Governor in Council is pleased to publish for general information the following copy of the Regulation at the Post Office in England, under which the receipt of letters by the Overland Mail for the Hon'ble Company

Under the authority of the Lords Commissioners of Her Majesty's Treasury, the Chairman, Deputy Chairman, Secretary, and Assistant Secretary to the East India Company, have the personal privilege of receiving letters free of postage from the East Indies by packet, visithe Mediterranean, but the privilege does not extend to any other Director or officer of the Company.

#### NOTICE.

To enable this office to check unnecessary delay in the delivery of Letters, it is requested that parties will not opposite their names in the margin of the Book which accompanies each Post office peon, the hour any particular letter is recrived which may be suspected to be later in delivery than usual.

(Signed) E. M. Elliott, P. M. Genl. Bombay, Gen!. Post Office, 2d Dec. 1839.

### NOTIFICATION.

A new system of charging British rates of postage having been established under authority of a Treasury warrant, dated the 22d November last, it has become necessary to make an alteration in the scale, by which postage levied in India on letters conveyed by packets between ports or parcels in the Red Sea, or Persian Gulf and the East Indies.

fler Majesty's Post Muster General has therefore authorized the substitution of the following scale for the one at present in use, which under the orders of this

Govt. is to have effect from this date.

Rs. As. A Letter not exceeding 12 tola is to charged one rate of postage .... Do. above It tola and not exceeding 21 tolas, two rates.... Do. above 21 tolas add not exceeding 5 tolas four rates..... 2 0 Do. above 5 tolus and not exceeding 71 tolus six rates..... 3 U and so on in proportion, two additional rates of postage being charged for every additional weight of 21 tolas or for any fraction of that weight. (Signed) E. E. ELLIOTT, P. M. Genl. Bombay, Genl. Post Office,

27th February 1840.

### NOTICE.

To prevent mistakes and consequent complaints, it is particularly requested that Gentlemen arriving at the Presidency and subsequently calling at the Post Office, to give instructions about their letters, will not do so verbully, either to the peons, or purvoes, but will leave a written memorandum, stating the name of the station they have come from, and their place of residence in Bombay.

The same practice should also be observed on quitting the Presidency, stating the name of the station to which they are proceeding, and in both cases signing the memorandum with their name and designation in a clear and distinct hand. (Signed) E. E. ELLIOTT, P. M. General.

Bombay, Genl. Post Office, 11th November 1840.

### NOTICE.

Although opposed in the XXIII clause of the rules for the management of the Post Office Department, appended to the Post Office Act, the system of giving credit to parties at the Post Office and interchanging accounts at the end of the month was tried as an experimental measure, but as it has been productive of much inconvenience and great irregularity it is abolished, and the former plan reverted to of requiring immediate payment of postage from this date.

As there still continues to be considerable misapprehension as to the right of parties addressing me as Post Master General, or the Deputy Post Master General in letters either on service or Bearing, on subjects relating to their private affairs, it is hereby notified to all concerned, that such Letters will in future be returned to the senders " Bearing"; this practice being at variance with the LIX clause of the Rules for the management of the Post Office, appended to the Post Office Act, which requires, that all such letters be post paid. (Signed) E. E. ELLIOTT, P. M. General.

Bombay, General Post Office. 2nd December 1840.

### NOTICE.

As it would greatly facilitate the delivery of the Letters on the arrival of an Overland Mail, were less interruption experienced by the Sorters, it is particularly requested, that Gentlemen instead of sending their servants to the Post Office immediately the signal is made, would wait a few hours, as the steamer generally takes three hours from the time she is signalled to come to an anchor, and fully three more are required to sort the Letters.

The hour of delivery is marked on a board affixed to the door of the Post Office. (Signd) E. E. ELLIOTT, P. M. General.

Additional Convention to the Post Office Convention of the 30th March 1836

between Great Britain and France for the conveyance through France of the

Correspondence of the East Indies with England, and vice versu.

HER Majesty the Queen of the United Kingdom of Great Britain and Ireland. and his Majesty the King of the French, being desirous of making an arrangement for conveying through France the correspondence between Great Britain and the East Indies, have resolved to secure this important result by mean of an Additional Convention to the Post Office Convention concluded the 30th March 1836, and have for this propose named as their Plenipotentiaries, that is to say.

Her Majesty the Queen of the United Kingdom of Great Britain and Ireland the right Houble Granville But Granville, Knight Grand Cross of the Most Honorable Order of the Bath, a Peer of the Realin, a Privy Councillor, and Her Britannic Majesty's Ambassador Extraordinary and Plenipotenthury to His

Majesty the King of the French;

And His Majesty the King of the French, the Sieur Napoleon Lannes, Duke of Montebello, a Peer of France, Officer of His Royal Order of the Legion of Honour, Grand Cross of the Order of Isabella the Catholic, His Minister and Secretary of State for Department of Foreign Affairs.

Who after having communicated to each other their respective Full Powers. found in good and due form, have agreed unon and concluded the following articles.

ARTICLE I

The Government of Her Majesty the Queen of the United Kingdom of Great Britain and I reland shall confide to the Post Office of France, upon the conditions expressed in the following Articles, the conveyance, in mail-bags or closed boxes, of the correspondence coming from the East Indies, destined for the United Kingdow of Great Britain and Ireland, and vice versa, whenever the abovementioned correspondence shall pass through France.

The British Government reserves to itself at all times the right of causing, whenever it shall think proper, the above-mentioned correspondence coming from the East Indies to the United Kingdom, and vice versa, and passing through France, to be conveyed, either between Alexandria and Malta, or between Malta and Marseillies, or between Alexandria and Marseilles, by vessels freighted or emplayed for that purpose by its orders, or by the packets of the Royal Navy. ARTICLE II.

Whenever the packets of the Royal British Navv, charged with the correspondence from the Kast Indies for Great Britain, shall touch at Marseillies, or at any other French port in the Mediterranean, they shall be considered and received in those ports as vessels of war; shall be exempt from all dues of navigation and port charges; and shall enjoy therein all the honours and privileges accorded by the convention of the 14th June 1838, to the vessels of the two States employed in the conveyance of the correspondence between Dover and Calais.

The same immunities, honours, and privileges are secured to the packets of the Royal French Navy in the ports of the Mediterranean subject to the dominion of

Her Britaunic Majesty.

ARTICLE III.

The French Govt. enuages to effect the conveyance of the correspondence designated in the lat Article of the present additional convention, in the manner following.

1st. Between Alexandria and Marseillies, by steam packets of 160 horse power. belonging to the Government which shall leave Alexandria on the 7th, 17th, and 27th, and Marsellies on the 1st, 11th and 21st of each month.

2nd. Between Marseillies and Calais, by mail coaches starting from both those

towns every duy.

In the event of any alteration in the days or hours of departure from those two

ports, the French Post Office shall give six months before notice thereof to the British Post Office,

ARTICLE IV.

The duration of the passage from Alexandria to Marseilles, including the time necessary for the trans-shipment and for the purification, it necessary, for the correspondence at Malta, shall not except under uncontrolable circumstances; exceed three hundred and forty-five hours, or fourteen days and nine hours.

The duration of the passage from Mar-eilles to Alexandria including the time necessary for the trans-shipment of the correspondence at Maita, shall not except under uncontrolable circumstances, exceed three hundred hours, or twelve days

and twelve hours.

ARTICLE V.

The distance between Marseilles and Calais shall be performed by the mail coaches of the French Post Office in one hundred and two hours, or four days and six hours.

ARTICLE VI.

The mail from the East Indies to Great Britain, or from Great Britain to the East Indies, shall pass through the French territory sealed with the seal of the Post Office of the East India Company or with that of the British Post Office.

An impression of the seal used for sealing the mails coming from the East Indies shall be furnished to, and deposited in the Health Office at Marseilles.

With a view to exempt the correspondence coming from the East Indies from the operation of purification, to which it would otherwise be subjected by the sanitary regulations, the cases destined to contain such correspondence shall be made of plate iron or tin, and shall be hermotically closed; and they shall not have attached to them any substance considered according to the sanitary regulations, as capable of communicating infection.

ARTICLE VII.

Whenever cases containing the correspondence of the East Indies, for Great Britain, or of Great Britain for the East Indies, shall be forwarded by the French Post Office, there shall be reserved, as well in the French Mediterranean packets as in the mail coaches by which such correspondence shall be conveyed, a place tree of charge for a courier of Her Britannic Majesty who shall keep under his special care the disparches and mails of the Government of Her said Majesty, and who shall have the right to be present at the purification of the correspondence, whenever it shall take place, and, at all other operations to which the correspondence may be subjected.

A free passage shall be likewise aflowed to the said courier in the French Post Office packet, established in the channel, whenever he shall think proper to

proceed from Caluis to Dover by these vessels.

ARTICLE VIII.

The Governor of Her Britannic Majesty engages to deliver to the French Post Office all letters from the East Indies, and from the French possessions in India destined for France, or for countries to which France serves us the channel of communication, and to convey with its own correspondence all such letters destined for the East Indies and for the French possessions in India, as shall be delivered to it by the French Fost Office.

The postage of all such letters shall be paid as far as Alexandria by the send-

ers, whether in I rance or in the East Indies.

It is understood, that no correspondence coming from the East Indies, and destined for the countries to which France serves as the channel of communication, shall be delivered to the French Post Office, unless the senders shall have expressed the intention of sending such correspondence through France, by writting on the address the words, by French Post Office, or, by way of France.

ARTICLE IX.

The Post Office of Great Britain shall pay to the Post Office of France, in satisfaction of all charges of conveyance or transit of the correspondence mentioned in the 1st Article of the present Additional Convention, between Alexandria and Calais, as follows, that is to say:

1st. For letters, six trancs per ounce British net weight.

2nd. For newspapers, printed prices current and other publications which are al.

lowed to pess by post in Great Britain at reduced rates, ten cents. per newspaper, or printed sheet.

The letters shall be weighed, and the newspapers, printed prices current, and abovementioned publications shall be counted by the Post Office of Loudon, before the departure, or immediately on the arrival of the East Indian mail, and immediately after this operation a statement shall be made out containing the result of such counting and weighing, which shall be sent by the British Post Office to the Post Office of France,

Whenever British packets shall be employed for conveying the correspondence coming from or destined for the French Office, the operations of weighing and counting above prescribed shall be performed by the Post Office at Marseilles, and the result thereof shall be communicated by the French Post Office to the

Post Office of the United Kingdom.

ARTICLE X.

The sums accruing to the Post Office of France, in virtue of the preceding article shall be placed to the credit of that office in the general account of the transmission of the correspondence, which is to be made out every month, in conformity with the stipulations of the XIV. Article of the convention of the 30th March 1830.

ARTICLE XI.

It is understood, that if the conveyance of the correspondence mentioned in Article I. of the present additional convention, shall be performed by means of the packets of the Royal Navy of Great Britain, or by vessels which shall be freighted or employed by order of the Government of Her Britannic Majesty, either between Alexandria and Marseilles, or between Marseilles, and Maita, or between Multa and Alexandria, the transit postage on such correspondence to be paid to the Post Office of France, in conformity with the provisions of article IXof the present additional convention, shall be fixed as follows:

lst. When the said correspondence shall have been conveyed by British packets, or by vessels which shall be freighted or employed by order of the British Government, the whole passage from Alexandria to Marseilles, and vice versa, the sum of four france per ounce British, net weight, for letters; and for newspapers, printed prices currents, and other publications mentioned in Article IX.

aforesaid, five cents per newspaper, or per printed sheet.

2nd. When the correspondence shall have been conveyed by similar vessels only from Alexandria to Multa, or from Multa to Marseilles, and vice versa five trancs per ounce British for letters, and ten cents, as fixed by Article IX afore-aid for newspapers, printed prices currents, and other abovementioned publications. ARTIÜLE XII.

In like manner, the packets of Her Britannic Majesty which shall perform the passage between Marseilles and Allexandria or Malta, shall convey, in closed bags, the correspondence coming from or destined for the East Indies and the French possessions in India, which shall be delivered to them by the French Post Office, or for that Office, under the conditions hereinalter mentioned, that is to 18y :--

Ist. At the rate of two francs per cunce British, for letters conveyed between Murseilles and Alexandria.

2nd. At the rate of one franc per ounce British, for letters conveyed between Alexandria and Malta, or Malta and Merseilles.

Brd. And for newspapers, printed prices current, and other publications mentioned in Article IX of the present Additional Convention, at the rate of five cents per nawspaper, or per printed sheet.

ARTICLE XIII.

The correspondence mentioned in the preceding Article may be accompanied by a Courier or Agent of the French Post Othre, who shall, in such case, enjoy on board the English Puckets or vessels which shall be freighted or employed to the English Government, the privileges allowed to the Courier of the British Post Office by Article VII of the present additional convention.

ARTICLE XIV. The Courier of the British Post Office who shall accompany, on hoard the French Mediterraneau packets, the correspondence of the East Indies for Great Britain, and of Great Britain for the East Indies, may receive or deliver either

At Malta, or at any other station at which the said packets shall touch, mail bags from or for Great Britain on the same conditions, and with the same privileges stipulated by the present additional convention, relative to the conveyance of the East Indian correspondence, subject to the operation of the sanitary regulations.

It is however understood, that whenever the above mentioned correspondence coming from Malta, or from the Levant, shall have been purified at the Lazaretto of Malta, it shall not be subjected to any purification on arriving at Marseilles. With regard to the rates to be said to the French Office, the stations, on this

With regard to the rates to be said to the French Office, the stations, on this side of Multa shall be assimulated to Malta, and the stations beyond Malta to Alexandria.

ARTICLE XV.

The present Convention, which shall be considered as additional to the Convention of the 30th of march 1836, shall be ratified and the ratifications shall be exchanged at Paris within two months from this date, and it shall be put in operation at the lastest two months after the exchange of the said ratifications. Nevertheless, the two Post Offices of Great Britain and France may, by mutual consent, fix an earlier date for commencing to carry the said Convention into operation.

In witness whereof the respective plenipotentiaries have signed the present

additional convention, and have affixed thereto the seals of their arms.

## NOTICE.

Superintendent's Office, Bombay, 14th June 1838.

It having been remarked that letters have been carried on board the Government steamers by passengers, not merely letters of introduction or credit but sealed letters, for which postage should have been paid, the "uperintendent therefore directs the attention of Officers commanding the Government Steamers to Article 4th of the rules for the engagement of passages, and directs that the same be brought to the notice of all parties applying for passage, and that they be required to sign the acknowledgment as directed to be forwarded to the Superintendent's office, on arrival at the Presidency. tendent's office, on arrival at the Presidency.

NOTIFICATION.

Notice is hereby given, that Southampton has been made by Her Majesty's Government, the Port of arrival and departure of the Wediterranean and East India Mails instead of Palmouth; all Letters and Packets therefore from India, which under the Orders bitherto in force, would have been marked for transmission " via Falmouth," should now be addressed " via Southampton."

7. When Treasure shall, during the voyage be transhipped into one or more ships or vessels, the Freight shall be divided prorata itiheris, among the Commodores or Senior Officers, and the Captains or Commanding Officers according to the services performed by the different ships or vessels respectively.

Commander.

8. The Freight chargeable under the foregoing rules shall be payable clear of all deductions; and it shall be stipulated, that the Captuins or Commanding Offieers shall not be liable to any expences attending the shipment of Treasure, or other articles, until the same shall be safe alongside their respective ships or vessels, and their liability shall cease from the moment they shall have landed the Treasure at the Port which the ships carrying the Treasure shall be destined.

9. In order to prevent any doubt or misunderstanding as to the rate of distribution of Freight on Gold, Silver, Jewels, or other articles received on board any of the Honorable Company's vessels, and to prevent any private arrangement inconsistent with these regulations, all Commodores or Senior Officers, Captains or Commanding Officers, are expressly forbidden to receive on board any Trausure, upon any agreement or condition different from these regulations, or to take, demand, or receive any sum, other than those, established by there regulations.

10. Should any dispute arise in the adjustment of freight to be charged on Treasure, or should any case occur not provided for in these regulations, the subject is to be referred to Government, through the superintendent, whose decision

is to be considered final.

## RULES FOR REGULATING THE PAYMENT OF PASSAGE MONEY BY OFFICERS PROCEEDING IN GOVERNMENT STEAMERS BETWEEN BOMBAY AND SCINDE.

Bombay Castle, 6th July 1843.

No. 409 of 1843.—The Hon'ble the Governor in Council is pleased to direct, that the Passage Money of the Officers and their Families proceeding in the Government Steam Vesrels between Rombay and Scinde, be paid and recovered under the following rules, which are to take effect from the lat of August next.

1. The Commander will maintain a suitable table for his passengers and will receive from Government for each passenger, Lady or Gentleman, the Sum of Rupees 48, and for each Child above one and under ten years of age, Rupees 24

Children under one year will be taken free.

2. The Commander's abstracts of passage money due to 'him on the above account, will be payable at the Presidency Pay Office only; the abstract for the outward voyage may be paid in advance or in arrears, at the Commander's option ; for the inward voyage in arrears only; and the latter abstract must be preferred within two days of the arrival of the vessel in Bombay, or the Commander will be himself responsible for any loss that may in consequence follow.

3. The Commander can claim the fare above authorized, for such passengers only as appear on the Quarter Master General's list at the Presidency, or are admitted on board by order of the Commanding Officer through the Senior Naval Officer on the station at Kurrachee or on the coast of Scinde. The lists and orders, or certified copies, are to be attached to the abstracts of Passage Money, and no

claim will be admitted without such voucher.

4. For the guidance of the Pay-Master in making the requisite recoveries, the fare is to be regarded as divided into two parts, viz.

Messing Allowance two thirds, or Rupees.... Wine Allowance one-third, or Rupees...... 16

Total Rupees..48

5. When Officers are entitled, under the existing Regulations of the service to a free passage, they will be liable to the charge for Wine allowance, or 16 Rupees only; in all other cases the full fare of 48 Rupees must be made good Ladies and Children will be charged always with the full fare of 48 and 24 Rupees respec-

For the outward voyage all payments on account of passage money must be made to the Pay-Master in advance. The Quarter Master General will require the production of a certificate from the Paymaster, that the authorizes charged has been paid before he admits any name upon his list. When the list is made up, the Quarter Master General will transmit it to the Shperintendent of the Indian Navy, and upon this List the Commander's abstract will be discharged.

7. For the inward voyage paymente must necessarily be made in arrears. The Government confidently expects that all officers will be enreful to liquidate without loss of time whatever may be due from them, and the Paymaster will report to Government the names of all Officers who have failed to do so within a reasonable time, when measures will be taken to ensure the recovery, and at the same time to mark the displeasure of the Government.

8. The Pay-moster is authorized to deduct whatever may be due on account of passage money from any Officer's abstract; he is expected to use every possible exertion to recover such debts on account of the Government, but he will not be held personally responsible, as in the case of his ordinary disbursement.

9. The fare to Mandavee in Cutch or to Porebunder on the Coast of Kattiwar. is fixed at 30 Rupees, 10 Rupees being the Wine, and 20 Rupees, the messing allowance.

## REDUCTION OF PASSAGE MONEY PER RED SEA STEAMER.

## MARINE DEPARTMENT.

Bombay Castle, 6th December 1841.

The Hon'ble the Governor in Council has been pleased to direct, that the following rules for the regulation of Passages and Passengers in the Government Steam Packets, be published for general information, and that these rules be brought into operation on the 1st January next, in suppression of those at present in force.

The names which have been already registered for the January and succeeding Steamers will be placed on the list of applicants for Cabins, in the order in which they now stand.

Rules for the engagement of Passages and accommodation of Passengers in the Government Steam Packets, between Bombay and Sucz.

1. Application for passage is to be made at the office of Master Attendent in Bembuy, and at other Ports to the Commander.

though leaving Bombay possibly before the end of December. Passe ngers are to be divided into two classes, vizt:—

First class who sit at the Commander's Table and are entitled to all I the pri-

vileges of the quarter deck.

Second class, who are not entitled to walk aft of the paddle boxes, whose birth forward, and either arrange for their own provision, or mess with the warrant officers, or Engineers.

4. Every passenger of the 1st class shall pay the following sum, as Table Money, for the voyage from Bombay to Suez, or from Suez to Bombay, vizt :-

These rates apply to the Steamers of every month throughout the year, with the exception of those of July and August, in which the Table Money from Bombay to Suez will be as follows: viz: ---

But the rate from Surz to Bombay will be the same in all months. It is to be understood, that for the above sums, the passengers are to be provided with a plain substantial table; but no person is entitled to more than one pint of wine and one bottle of beer per diem. Cabin passengers have the first choice of seats at the table and after them the saloon passengers in preference to those on the deck whose priority will be arranged, according to their standing on the passage list. The seats will be arranged by the Commander and once taken they cannot be changed without his permission during the voyage.

5. In addition to the Table Money the following sums will be charged for the

accommodation engaged by first class passengers, vizt.

A double cabin..., 890
A single cabin..., 500
A saloon berth..., 550 A deck pussage.....

6. Every second class passenger shall pay Rupees 150.

For each European Servant 50 Rupees must be paid as subsistence money and 50 Rupecs as passage money; for Native Servant the charge will be one half the rate for an European; but none are to be considered and taken as Servants unless they actually accompany their Musters or Mistresses.

8 Three lists for each month's Steamer will be kept at the Master Attendant's Office, viz., one for cabin passengers, and one for saloon, and one for deck. passengers. A statement of the number of each class, which each packet is cape culated to accommodate, will be open at the same place, to the inspection of the public.

9. Every applicant may register his name in whichever of the lists he pleases but the name of the pucket will not be declared until 10 days prior to the suppointed day of sailing, when choice of accommodation will be given, according to priority of standing on the lists. Ludies having the preference for the first three cabins.

10. In the event of a greater number of names having been registered than the Steamer when declared, is calculated, to accommedate, the supernumerary names on the cabin lists may be transferred to that of the saloon or the deck, and those of saloon lists to that of the deck, or they may be withdrawn and the deposit repaid, at the option of the parties. In the case of a transfer under this rule, the name will be placed in the same position in which it would have stood by date of registry had the original application been for a saloon or a deck passage instead of a cabin or for a deck instead of for a saloon. Should any of the cabin or saloon berth remain open after the vessel has left the harbour, the saloon, or deck passengers muy be allowed to take them on paying into the hands of the Commander the regulated difference of price.

11. Ladies and Children can take passages in cabins only, and female servants dinnot be accommodated otherwise than in the cabin engaged for the family they accompany,

12. A passenger who has engaged a cabin may make what arrangement he likes for its occupation; he may either keep it entirely to himself, or admit to share it with any one that he pleases, provided only that the name of the person so admitted (if an adult) must have been previously on one of the lists, and subject to the following restrictions, viz;-

A treble cabin cannot be appropriated to the accomposition of more than

Four Ladies.

Three Gentlemen.

Six Children.

One Lady and four Children.

Two Ladies and three Children. Three Ladies and two Children.

One Gentleman and three Children.

**Two** Gentlemen and two Children.

A lady and her husband with two Children

A double cabin cannot be appropriated to mere than

Three Ladies.

Two Gentlemen.

Four Children.

A Lady and three Children.

Two Ladies and two Children.

A Gentleman with two Children.

A Lady and her husband with one Child.

A single cabin cannot be appropriated to more than

Two Ladies.

One Gentleman.

Three Children.

One Lady and two Children.

Children under 5 years of age may be taken extra to the complement of a cabin

on payment of 50 Rupees for each additional.

13. Passages for immediate places can be engaged only when there is accommodation not taken up for the entire voyage, unless the parties are willing to pay the price of the whole voyage, in which case they may register their names in the same manner as all other passengers. The vacant accommodation will be declared three days before the sailing of the Vessel. The passage between Aden and Mocha, and Bombay and Suez respectively will be counted as one half of the whole passage between Rombay and Suez :- between Juda and Suez, will be counted as one-third, and between Juda and Bombay as two-thirds: Cossier and Suez are considered to be alike.

14. The engagement of a passage will not be considered valid unless a deposit

of the following sums be made at the time of application, viz:-

This deposit, should the party not proceed, will invariably be forfeited, except

ader the provisions of art 10, and in cases where, by the production of a Medical Certificate, it is satisfactorily shewn that the person was compelled, by sickness to abandon the passage. A deposit is not required on the registry of the names of children, except when the children are to occupy a cabin, by themselves, in which case the same deposit must be made as for the cabin passage of a lady or gentiaman, viz. 300 rupees.

15. To prevent unnecessary trouble, the Master Attendant is authorized to

receive and pass receipts for the deposit money.

16. Ten days prior to the appointed day of sailing, each passenger must pay to the Master Abtendant the remaining portion of the passage money, in default of which the deposit will be considered forfeited, and any claim to passage in valid. when the cabins are fin al alletted, an adjustment will be made with the party or parties to whom they are appropriated, the difference between the value of the

place occupied by each individual and the deposit made under article 14 being paid up or returned, as the case may be. When the passage money has been paid up no portion of it can, on any plea be returned, except under the provisions apecifled in article 14.

17. Persons who from non-arrival at Bombay, may have omitted to pay the balance of the passage money may be re-admitted as passengers, if before the period of departure the bulance is paid. They, however, will be placed at the

bottom of the list of the class of passengers in which they are registered.

18. No transfer of accommodation in the Steamers by an individual who has taken a passage to one, who has not taken his passage will be permitted, but after the list has been filled up, any person wishing to stand the chance of succeeding to a vacancy caused by a lapse of any kind may do so, by registering his name and paying the required sum which will be refunded to him should no vacancy occur.

19, It is to be understood, that Government geserves to itself the right of appropriating a cabin or cubins for the use of public functionaries or others proceeding on duty or by special order of Government as passengers in any of the

Honorable Company's Steamers.

20. Passengers on a Stramer that may from accident or other cause be obliged to return to Port will be entitled to the refund of the amount that has been paid, deducting therefrom, a sum for the Table Allowance of the Commander, according to the number of days that the vessel may have been at sea calculating the average time occupied in a voyage to or from Suez to be 18 days, and Aden 10 days.

It is necessary for passengers not belonging to the Honorable Company's Service, to make the requisite arrangements at Suez or other intermediate Port with the Commander before or at least at the time of their embarkation for the

payment of the passage money.

22. For the convenience of passengers from the Red Sea to India, the Commanders of the Honorable Company's frackets are authorized to receive payment of passage money at Suez or any Port between Suez and Bombay in Sovereigns, Spanish Dollars, or German Crowns, at the following rates of exchange, viz :--Sovereigns at ten Rupees each; Spanish Dollars at Rupees two, and three Annus each; German Crowns at Rupees two and two Annas each.
23. The baggage of each passenger must not exceed four boxes of the following

dimensions viz :-

Length...... 2 Feet 5 Inches and the total weight must not be more than four cwt. Second class passengers are allowed half the above quantity. 

24. Rach cabin passenger may, if he pleases put all his baggage into his cabin. The saloon and deck passengers will be allowed to keep one box or hig above. The rest of the baggage is to be in the baggage-room and passengers will be allowed access to it twice a week, on a day and hour fixed by the Commander, who will appoint a person to have charge of the baggages,

25. Any applicant may be refused a passage without any cause being assigned eitheraby the authorities at Bombay or by the Commander of the vessel when away from Bombay, but a report of the rejection is to be communicated to Go-

26. All persons who take passage either themselves or through their agents,\* will be considered as thereby binding themselves to comply with these Rules which will be shewn by the Master Attendant or by the Commander of the Vessel to parties who engage passage.

> By order of the Hon'ble the Gövernor in Council. P. M. MELVILL, Lieut. Col. Secy, to Govt.

#### Bombay Castle, 2d November, 1844.

The aggregate population of the globe, according to the foregoing atatament
The aggregate population of the globe, according to the foregoing statement, amounts to 829 millions of souls. It may be observed, however, that the number
of Jews must be far greater and may be taken at more than eight millions. We have given it at 2,650,000, because that is derived from authentic sources; but
their are very uncertain, in Asia and Africa especially. In the same way the
Authori of Bullille Milliomedans may be rated as exceeding the amount above
stated by nearly twenty millions - From the Algemeine Zirchenzietung.

## RULES FORTHE POSTING OF PALKEE BEARERS.

#### NOTIFICATION.

The following Rules approved of by Government respecting the Posting of Palkee Bearers are published for the information of the Public, and for the guidance of the several Post Masters under this Presidency.

1. Travellers may be furnished with Dawk Bearers on application at the different Post Offices, where they will obtain all the requisite information as to the estimated distances between known stations, to which only Dawk bearers can be laid by any Post Master.

11. A set of Dawk Bearers comprises twelve, and one Mussalchee for which is charged, payable in advance, at the rate of eight annas per Mile, but as in many instances, owing to the delay caused by Travellers remaining longer on the road than the stipulated time, this sum is found unequal to the expense, a further sum of four annas per Mile is required to be paid as a deposit to cover any eventual expense or demurrage caused by delay on the part of the Traveller.— Should none occur, the full amount of the sum deposited is refunded, upon the Traveller furnishing a certificate from the Deputy Post Master at the place

where his journey finished, that he arrived there without having incurred demurrage. It is the duty of the Deputy Post Masters to furnish Travellers with certificates specifying according to circumstances whether or otherwise they had come on demurrage;—such certificate must however be understood, is only applicable to the Deputy Post Master's Division. who grants it, for it sometimes happens that a Traveller having incurred demurrage on part of the road, by travelling subsequently during those hours originally appointed for halting, reaches the last Division within the given time.

N. B.—It is to be particularly observed, that in some Districts, Rearers are with difficulty procured, and where they have to be sent a considerable distance to take up the Traveller, and in like manner to return home, for time so occupied they are paid additionally, and in all such cases Post Masters are authorized to

charge the actual cost for the Travellers Learers.

111. When it is reported that a Traveller come on demurrage, on any part of the road the adjustment of the amount deposited to cover such expenses will be postponed until the receipt of the Bills for the Dak, from all the Post Masters

through whose Divisions the Traveller may have passed.

IV. Travelters whether proceeding from the Presidency, or from Outstations are provided with a Form, in which they are requested particularly to note any cause of dissatisfaction they may meet with on their journey, and the places where they meet with obstructions, or irregularities on the part of the Bearers or Subordordinate Fost Office Servants, this Form being affixed to the certificate which the Travellers has to present for signature, secures its being noticed.

V. When Dak has been ordered and circumstances may render it expedient for the Traveller to postpone his journey, or to withdraw the Bearers entirely, he will of course be held liable for any expense which may have been incurred on his account. The amount paid for the Dak and the account deposited to cover demurrage will therefore remain unadjusted until reports are received from the General Post Master on the line of route upon which the Dak was ordered.

VI. Travellers Baggage must not exceed for each Banghy Burdar, twenty-four seers and this must be divided into two Parcels, or Pattarahs of such dimensions as to render them conveniently probable when slung as Banghies.

- VII. It is to be generally understood, that although Government permits their servants to lay Dak Bearers for the convenience of the Public, the state derives no benefit from this source, and that neither Government nor any of their Officers are in any degree responsible to the Traveller for the mistortunes and disappointments which are inseparable from Dak travelling, thus every Traveller travels at his own risk, and is hable to the losses and increased expenses incidental to delays, and accidents, and that Government can in no instance be considered liable to make good any losses whatever.
- VIII. When irregularities and consequent inconvenience occur to Travellers, the Post Master General on being applied to, will immediately investigate the complaint brought to his notice, but this can only be done in the same manuer, and to the same end as a superior in any other Department would interfere to enquire into complaints preferred against his subordinates.

IX. In case of surcharge alone, or charges which to the Parties complaining might appear unjust because arising out of some positive neglect, or error on the part of the Deputy Post Master who lays the Dak, it would be the duty of the Post Master General to investigate the matter with a view to afford pecuniary

redress.

X. In every case of refusal to make good demands on account of laying Dak Bearers, Post Masters are authorized to detain all Letters, Parcels, &c. for the person from whom demands are due in the same manner as is authorized to act under clause IX of the General Rules.

XI. Any decision pronounced by the Post Muster General in all references

relative to Dak Bearers, to be considered final.

J. A. SIJAW, Actg. Post Mr. Gent,

Boinbay, Genl. Post Office, 3d June, 1841.

## RATES OF HIRE.

LEGISLATIVE DEPARTMENT. FORT WILLIAM, 17TH MAY 1841.

The following Act passed by the Right Honorable the Governor Gen. of India in Council, on the 17th May 1841, is hereby promulgated for general information.

ACT NQ. IV. OF 1841.

An Act for regulating public conveyances in the Islands of Bombay and

Colaba, and the Harbour of Bombay.

I. It is hereby enacted, that all Hackney Carriages, Carts, Palankeens and other Vehicles let to hire for the purpose of conveying persons or goods within the Islands of Bombay and Colaba, and all Bouts let to hire for such purpose within the Harbour of Bombay shall bear upon them, in manner as directed by the Supeirintendent of Police on each side, in large English and Native figures or characters, a certain number to be indicated for every such public conveyance in manner herein after mentioned; and every person who shall let out to hire any such public conveyance after the expiration of two months from the day of passing this Act which shall not bear such number in manner aforesaid, or which shall bear any number not indicated as aforesaid or after notice as here-inafter mentioned to withdraw the same, shall be liable, on conviction before a Magistrate of Police, to a fine not exceeding Thirty Rupees.

11. And it is hereby enacted that the numbers to be used for public conveyances shall be indicated by the Superintendent of Police on application of the
owners of such conveyances, and it shall be lawful for the Court of Petty Sessions
on proof of the breach of any provision of this Act by the owner of any such conveyance as aforesaid, to give such owner, notice to withdraw the number which

may theretofore have been indicated to him in manner aforesaid.

111. And it is hereby enacted, that every Teeka-bearer, Boatman, or other person employed in the conveyance of persons or goods as aforesaid by the owner of any such public conveyance shall wear, in manner as directed by the Superintendent of Police, a Badge on the upper part of his right arm with the number of the public conveyance to which he belongs, which Badge shall be indicated by the said Superintendent, in default whereof every person so employed and not having such badge as aforesaid, shall be liable, on conviction before a Magistrate

of Police, to a fine not exceeding Twenty Rupees,

IV. And it is hereby enacted, that it shall be lawful for the Court of Petty Sessions from time to time to settle the rates for the higher of such public conveyances as aforesaid, and the rates so settled, if sanctioned by the Governor of Bombay in Council shall be published twice in the Government Gazette. And after such publication, if the owner or other person in charge of any such public converance as aforesaid shall receive or require any higher rate for the hire thereof. or shall refuse a fare upon tender of the prescribed rate, the person or persons on whose application the number of such public conveyance shall have been indicted as aforesaid, or the person receiving or requiring such higher rate or refusing fure, shall be liable, on conviction before a Magistrate of Police, to a fine not exceeding twenty Rupees. Provided always, that no person shall be deemed to be liable to the penalty in this Section unless the settled rate of hire shall have been duly tendered. And any person refusing to pay the money due from him for the hire of any such conveyance according to the rate settled as aforesaid, shall be liable, on conviction before a Magistrate or Police, to a tine not exceeding Twenty Rupees and no contract for hire under the settled rate shall be valid or binding on any owner of a public conveyance.

V. And it is hereby enacted, that the Superintendent of police shall keep a Register containing a full description of applicants receiving numbers under this Act, and of every conveyance for which any number is obtained, and of every person for whom any Badge is obtained, and every offender using or authorizing the use of any Number or Badge otherwise than for such particular conveyance or person, shall be liable, on summary conviction before the Court of Petty Ses-

sions, to a fine not exceeding One Hundred Rupees.

VI. And it is hereby enacted, that it shall be lawful for the Court of Petty Bessions from time to time, to appoint stands for public Carriage and Palkees. and every person in charge of any Carriage or Palkee found lottering off any

such stand for the purpose of hire, shall be liable, on conviction before the Magis trate of Police, to a fine not exceeding Ten Rupees.

VII. And it is hereby provided, that nothing in this Act contained shall extend to prevent any person from letting to hire any conveyance for a month or longer period without any such number being applied for as aforesaid.

VIII. And it is hereby enacted, that all fines imposed by virtue of this Act

PUBLIC LOANS, &c.

LL TRANSACTIONS, &c.

On an application being de by a party to be allowed in lieu of certain Government Notes of the five in the new 4 per cent loan, bearing the said; date which they would have borne, if a constitutional transfer had been made before the liquidation of the loan, it was ruled stitutional transfer had been made before the liquidation of the long, it was ruled that the transfer should take effect only from the day of presentation. PORCE OF COPIES OF BILLS.—No. 2.

Mr. A. B. applied for acceptance of copies of thirds of seven sets of bills drawn on the Government, the originals being on board a ship from China which was overdue; and the first and second supposed to be lost in another vessel.

Acceptance was declined; but Mr. A. B. was informed that the presentation might be noted to give the holder the advantage of time as to date of sight, and that at the proper time payment might be ordered, should there be good reason to believe all the originals lost, upon certificates from the Financial Agents at Canton, and under the guarantee of an estalished house.

Admission of letters as Power of attorney.--- No. 3.

On an application from Mr. A. B. that certain letters from Mr. C. D. might be admitted as a power of attorney, to enable him to receive the principal of a

Govt. Promissory. Note of 1823, standing in the name of Mr. E. F. (deceased) Mr. C. D. and Mr. A. B. (the applicant), his request was complied with under general guarantes.

RECOGNITION OF TRUSTERS --- No.4.

It has been ruled that no account shall be opened on the Stock Books recognizing parties as trustees, and that Promissory Notes and Balls of Exchange, thus describing parties, should not be issued.

PROMISSORY NOTES NOT SUSCEPTIBLE OF SEQUESTRATIONS .--- No. 5.

On a notice being received from the Sheriff of Calcutta under writ of Sequestration, demanding an account and pessession of certain Company's paper, the Accountant General was instructed foreply that Promissory notes being negociable securities, the Govt. would be under obligation to pay to the person to whom they might be assigned, and that Govt. held nothing susceptible of sequestration by a notice of the kind received.

TRANSMISSION OF GOVERNMENT PROMISSORY NOTES BY DAK. - No. 6.

Two or three instances having come to light of the abstractions of parcels containing Govt. Promissory notes in course of transit through the Post Office, arrangement have been made to guard against such occurrences, by assuing notes with signatures and numbers in duplicate, to enable them to be divided and forwarded by separate daks, the 2d half after the acknowledgement of the receipt of the first.

#### INTEREST .--- No. 7

Mr. A. B. claimed the difference between 5 and 6 per cent. interest from the 31st December 1834, to the date of declared payment of certain 6 per cent Remittable Notes transferred to 5 per cent. loan, and not subsequently to either of the book debts. It appeared that the 6 per cent, remittable notes were advertized for discharge in two portions—the notice for the discharge of the first expring on the 10th of August 1835. The property of Mr. A. B. in one of the two notes, upon which he claimed the difference of interest, was stated to have been acquired on the 22nd March 1836, in the other on the 16th November of the same year. As in both instances his right did not accrue until sometime after all claims to interest at the rate of 6 per cent had caused, it was ruled by the Home Authorities in concurrence with the opinion of the Advocate General at Calcutta, that Mr. A. B.'s applicacion ought not to be complied with.

INTEREST. - No. 8.

In a case where interest was due on account of stock transferred, the question arose whether the transfer conveyed interest since that last half-yearly payment up to the period of transfer. This question was referred to the Advocate General who decided in the negative. The local and Home Governments concurred in that decision.

#### Administration to Estates .--- No. 9.

An application in 1838, from the Governor of Serampore, in connexion with the estate of a deceased native of Denmark, for permission to administrators of estates at that settlement to administer to property situated within the British territories without taking out letters of administration in the Supreme Court was refused, on the ground that the Government had no power to interfere with the process of administration prescribed by law, except by an act of the Legislative Council.

Ditto.-10.

Joykissen Doss was a banker in the city of Benares. By his Will, executed in Aug. 1832, he bequeathed the whole of his property to any son that might be hereafter born to him, and in the event of his having no son, to his daughter, an only child, then in the fourth year of her age, and to his wife, and any wives and grandsons in the female line that he might subsequently have. If his daughter should have a son, such son was to be entitled to the whole property on his attaining his sixteenth year. Certain monthly allowances were to be paid to his wife and daughter, a house was assigned for their residence, and ornaments of a certain value bequeathed to them. The will also appropriated sums for the performance of the testator's obsequies, and those of his wife, for the marriage of his daughter, and for allowances to other parties, as well as a number of directions on various points. To carry into effect the trusts and bequests of the will, the testator appointed the company his attorney and manager, and in the failure

of descendants from him, either in the first or second generation, and the death of his wife, the company were to succeed to the entire property, subject to the payment of a monthly allowance to his father, provided he had not swerved from a certain stipulation, and to the payment on his death of the expense of his tuneral rites. By a codicil executed in September 1834, he referred specially to the three Government Agents for the time being, as the officers of the company, who would become charged with the execution of the trusts of his will and the administration of his effects, and provided that if they should decline the duty, the Ecclesiastical Register of the Supreme Court should become his Executor. Joykissen Doss died in December 1835, leaving a widow and the daughter above referred to, his only child.

It appears that on the above facts being brought to the notice of Government it called upon its agents to administer to the will of Joykissen Doss as executors. These gentlemen prayed to be absolved from undertaking this duty; and it was ruled at flowe that the functions of an executor to a will formed no part of the duties of Government. Further, that in the case of parties dying intestate, it was necessary indeed that the law should interfere to prevent property being wasted or diverted to improper channels, and this duty has been assigned to a particular officer. But that if the practice were sanctioned of Government undertaking the onerous, difficult, and frequently dangerous office of executor, it

was not easy to determine how far it might be carried.

In addition to these general objections, the particular case of Joykissen Doss was open to several special ones. The trusts under the will were numerous and complicated, the property though nominally large, appeared to be scattered in a variety of quarters, and much of it to be not very easily capable of realization. There where large claims upon the firms which had become insolvent, other large portions were involved in what appeared an almost inextricable mass of litigation and might perhaps be further emborroused by the hostile disposition said to be entertained towards the deceased by his surviving relations. Under such circumstances it was ruled that the Government would be justified in according to the request of the Government Agents to be permitted to renounce the executorship. Further that the duty of the Government Agents to execute the will under review did not necessarily appertain to their public character, and its discharge involved personal liability which could not descend to their successors. Other reasons were stated, and orders issued from Home against Government taking upon itself in future such cases as that under review.

OMISSION TO ENDORSE BILLS. - No. 11.

Messrs. A. B. and Co. applied to Government for an order for payment of 4 accepted bills for Sa. Rs. 60,000, which Capt. C. D. of the ship E. F., by whom they where transmitted had omitted to endorse. The application was complied with, on receiving a guarantee from Messrs. A. B. and Co. to produce a power of attorny from Capt. C. D., and on his letter to the firm being deposited an interim with the Government. It has however been decided that this case is not to form a precedent, and that further and most complete security must be taken in further and similar cases.

RATE OF ELCHANGE FOR H. M.'s SERVICE FOR 1840-41.— No. 12.

The rate of exchange for bills to be drawn in the official year 1840-41, in repayment of advance for the Queen's service in the East Indies has been fixed with the concurrence of the Lord Commissioners of Her M.'s Treasury; at two shillings and one half penny, 2s. id the C's. Rupee.

CONSTRUCTION AS TO AUDITED SALARY BILLS. - No. 13.

On the question whether the Government in the case of its having a claim against the drawer of an audited salary bill would recognize the wonaide transfer by the endorsement to a third party, it was stated to the Secretary to the Bank of Bengal, that it was the practice of the Covernment to order retrenchments to be made through the civil auditor, prospectively upon the bills that might be subsequently brought for audit. It was added that the Government could scarcely imagine the case in which it could interfere between the audit and payment of a bill passed to an officer to whom the sum passed was absolutely due at the time of audit.

BANK OF BENGAL POST BILLS.—No. 14.

It has been ruled by Home authorities that Bank Post Bills are to be received \*
At Mofussil Treasuries on precisely the same conditions as Bank Notes.

as a loan to the East India Company. bearing interest at 5 per cent. per annum, payable half-yearly (from 31st Dec. 1834, to 10th August 1835, or 5th January 1836, as the case may be.): Examined. Signed by order of the Governor General in Council.

Act. Genl. Secretary.

FORT WILLIAM, FINANCIAL DEPARTMENT, THE 17TH JUNE 1835. Notice is hereby given, that the Honorable the Court of Directors, having in an advertisement, dated East India House, the 17th of September 1834, notified to proprietors of Bengal six per cent. remittable paper resident in Europe who had made known, or might make known, before the let of December following, at the Auditor's Office in the India liouse, their wish to transfer their notes of that loan into the new five percent. transfer loan, under the conditions specified in the Court's advertisement of the 14th May 1834, that the property in the new loan would be held in the form of stock instead of promissory notes, that stock receipts would be granted in Bengal to the respective proprietors or their agents in exchange for the promissory notes transferred; and that the new stock would be transferable at the place of registry, in books to be kept for that purpose in London and in India; in parsuance of that Notification and the orders of the Honorable Court, the Sub-treasurer at Fort William, is authorized to receive any of the six per cent. promissory notes of this Government bearing date the 30th June, 1822, that may be tendered for transfer into the new five per cent. loan, in fulfilment of the intention of the proprietors signified at the India House, under the advertisement of the 17th of September last, and to grant stock receipts to the respective proprietors, or their agents, in charge, for the promissory notes transferred.

A bonus or premium of five per cent. will be granted on all transfers made under this advertisement; that is to say, for every note surrendered for transfer, a stock receipt will be granted for a principal sum exceeding the principal sum of the notes surrendered, in the proportion of 105 for every 100 sicca rupees; and the stock receipt will bear interest at the rate of 5 percent. per annum, payable, if the proprietors are resident in India, in cash at the place of registry, and if resident in Europe, at their option, cither in cash in India, or by bills on the Court at twelve month's date at 2s. ld. the sicca rupee.

3. The transfers under this advertisement will take effect only at the period when the notes to be transferred shall fail to be discharged, according to the notices, published from the Financial Department, under the dates respectively

of the 9th May, and 13th October, 1834.

4. The property of the new loan here advertized, is to be transferable only in books to be kept in Bengal, at Madras, at Bombuy, and in London, and not by endorsement of stock receipt, on the face of which it is to be declared that they are not transferable. Proprietors of stock receipts will be entitled to the option of transferring from the books of Bengal to those of either Mudras, Bombay or London. Having availed themselves of that option, the property cannot again be registered in Bengal, or at either of the other places, unless upon transfer effected at the place at which they may have chosen to register it.

5. After transfer has been made to London, the interest payable on the stock so transferred, will be issued in England at the same periods as when the bills \* would have become due, had the remittance of interest been previously received by bills under the option allowed in the second article of the present notice.

6. It is hereby declared and stipulated, that no part of the transfer five per cent. losn opened by this advertisement, shall be paid off before the 22nd April, 1854, and whenever it shall be redeemed, a previous notice of fifteen months' shall be given by public advertisement, which notice may be issued at any time after the 21st of January, 1853. Payment shall then be made at the option of the creditors, either in cash in India, or by hills upon the Court at twelve months date, and at 2s. ld. the sicca ruple: with power to the Court to postpone payment of those bills for one, two, or three years, upon allowing interest at five per cent. per sumum for the period of the postponement. The notice of payment duly advertized as above, and published in the Government Gazette of Calcutta, shall be considered as equivalent to a tender of payment on the date advertized for discharge, and all interest will cease from that day.

7. Proprietors who shall transfer to the books of Madras and Bombay, will be entitled to receive interest at the exchange of one hundred and six-ard-a-half Madras and Bombay rupees, for one hundred Calcutta rupees, from the General

Treasuries of those Presidencies respectively.

8. The Accountant General of the Supreme Government may, on the application of proprietors of stock registered in the hooks of Bengal, and for their convenience, make the interest of such stock payable at any other treasuries of issue under the Bengal or Agra Presidencies; but proprietors shall not be entitled to claim this accommodation if the Accountant General should think proper to refuse it.

9 Stock of the five per cent. transfer loan, opened by this advertisement, may be consolidated and divided at the pleasure of the proprietors in the books in

which it is registered.

10th. Proprietors of six per cent remittable paper, who may transfer into the five per cent loan now advertized, shall not be subject on this operation to the

fees prescribed in the regulations for the Government agency.

II. Proprietors of the five per cent. transfer notes issued under the advertisement of this Department, bearing date the 13th October last, or their authorized agents, will be permitted to transfer their property into the book debt loan for this purpose a period of four months will be allowed to the holders of five per cent. promissory notes or their agents, and it is hereby notified, that during the same period fresh transfers will be allowed to the book debt by holders of six per cent. remittable paper.

#### NOTIFICATION.

Port William, Financial Department, 25th Jan. 1837.

Notice is hereby given, that under the conditions of the Advertisement of this Department, dated 5th October 1836, and in conformity with further Orders recently received from the Hon'ble Court of Directors, adjustments of interest will be made upon all Stock Certificates of the Book Debt Loan; bearing date Slat December 1834, by following interest at the rate of 6 per Cent. on the amount of the cancelled Promissory Note of the Remittable Loan, represented by such Stock to the date of its advertised discharge, and from that date at 5 per cent. on the augmented principal of the trans erred Stock.

The difference of Interest that may be claimable under this notice will, in case the Stock has been held consecutively by the same party or parties, be paid to the holder of the Certificate on application and production thereof in the Office of the Accountant General of the Presidency, in which the Stock may be registered for payment of Interest, but in case of transfer intermediate between the 31st December 1831, and that of application for adjustment of Interest under this notice, the circumstances of each case and all particulars of the transfers must be submitted to the Governor General of India in Council, in order that His Lordship in Council may decide to whom the difference of Interest thus granted is dayable.

Whenever Interest shall have been adjusted on any Stock Certificates the same shall be delivered up to be exchanged for other Certificates of the date of advertised discharge of the original 6 per Cent. Stock thereof, viz. 16th August 1834, or 15th January 1836 respectively, according to the number of the Promissory Notes as the case may be: and the holders of the resigned Certificates shall further receive broken interest to the new date of half yearly payment to which the Stock will thus be changed—the payment in both case to be receipted on the back of the exchanged Certificate in the usual number.

The holders of Promissory Notes of the Government Transfer Loan, bearing date 31st December 1834, shall be entitled, until further orders, to transfer the same to the Book Debt Registers of the date 10th August 1834, or 5th January 1836, according to the date of discharge of the original 6 per cent. Stock of such Notes respectively, and to receive on the occasion of every such transfer the difference of Interest and the broken Interest that may be payable on a similar adjustment, and renewal to be made thereon with that above prescribed for stock certificates of the same date.

The Accountants General of Calcutts, Madras, and Bombsy will make the adjustments of Interest and Transfers above authorized in respect to the Notes and certificates registered for payment of Interest at those Presidencies respectively, without demanding any fee for the same, and it will be necessary that the fact of adjustment having been made be noted on the new certificates to be granted. The holders of Notes and certificates transferred to the London Register, will on application to the Hon'ble Court as to the manner in which these adjustments and transfers will be made in respect to their stock.

#### NEW FIVE PER CENT LOAN.

Fort William, Financial Department, the 31st March, 1841.

Notice is hereby given, that the Sub-Treasurers at Fort William, Fort Saint George, and Bombay, the several Residents at Native Courts, and several Collectors of Land Revenue under those Presidencies, as well as the Collectors and others in charge of Treasuries under the Government of the North Western Provinces, have been authorized to receive, until further orders, any sums of money, in even hundreds of not less than 500, of Company's Rupees, which may be tendered on Loan to the East India Company, at an Interest of 5 per cent. per annum, subject to the provisions hereafter specified.

2. Audited Bills for arrears of salary, whether the same shall have been advertised for payment or not, will be received in lieu of Cash Subscriptions without any deduction. Bills of Exchange on the Public Treasuries will also be received in subscription to this Loan, deduction at the rate of 5 (five) per cent. per

annum for the period they may have to run. Treasury Notes, and all authorised

Poblic demands, will be received as eash at par.

3. The Paymesters of the Army under the several Presidencies are also authorised to transfer any demands which may be payable by them respectively to this Loan, and to grant drafts at the Presidencies of Fort William, Fort St. George, and in the North Western Provinces for the amount, in the usual manner, on the Accountant General; and at the Presidency of Bombay, on the Military Pay Master General; which Drafts shall be received by the several Officers above mentioned, in payment of subscriptions, on being tendered to them for that purpose.

4. Furruckabad, Lucknow, Madras and Bombay Rupees will be received where respectively current at par with the Company's Rupees, in which last mentioned currency all acknowledgements for the receipt of money into this Loan shall be expressed; interest when paid in these Rupees will be assued at the rates

untecedently specified

5. The several l'ublic Officers authorised to receive subscriptions into this Loan will grant acknowledgements in the following. Form, for all sums received

by them respectively.

6. The Deputy Accountant General at Fort William will, on the said acknow-ledgments being delivered to him, forthwith cause to be prepared and issued to the parties entitled thereto, Promissory Note under the signature of the Secretary

to the Government of India in the following Form:

Signed by the authority of the Governor General of India in Council, Secy. to the Government.

Accountant General's Office, Registered as No. of 1841-42.

7. The several Officers authorised to receive subscriptions will, on application from the Holders of Acknowledgments, transmit them (free of every expense whatever) to the Accountant General in Bengal, to be exchanged for Promissory Notes bearing interest from the 30th of June, or 31st December next ensuing after the date of subscription. The interest accruing on the broken period of the half year, that may intervene between the date of subscription and the 30th of June, or 31st December next ensuing, as the case may be, will be paid up.at the time of granting the acknowledgment.

8. Proprietors of Notes who may require the interest to be paid at the General Treasury of Fort St. George, shall be entitled to receive it accordingly, provided they previously notify their wish to the Accountant General at Fort William and present the Notes to him to have an order for the payment of interest

of the said Treasury, written on the face of them, under the signature of the said Officer or that of the Deputy Accountant General. And after such order chail, on the application of the Proprietor, be inscribed on any Note the interest shall be payable only from the said Treasury, unless the Proprietors shall present the Note with an application for the purpose of transferring the payment to Bengal, to the Accountant General at Fort St. George, who, on such application being so made will cancel the said order by writing inscribed as aforesaid, under the sample of himself or his Deputy, a similar course will be followed, mutation mutandis, in the case of Proprietors of Notes who may desir to have the interest the sof paid at the General Treasury of Bombay.

O. The Propietors of acknowledgments, who may desire to have the interest of the Promissory Notes to be issued on exchange thereof, to be made immediately payable at Madras or Bombay, must express their desire to that effect on the face of the acknowledgments, before transmitting them to the Accountant General at Fort William, who will make the interest payable accordingly in the

sampler and subject to the conditions above stated.

#### CORRECT POSITION OF THE ISLAND.

#### NOTIFICATION.

MARINE DEPARTMENT. Bombay Castle, 29th November 1844.

The following letter, relative to an error in the position assigned in the Charts to the Lackadive Islands and the Shoals in their vicinity, is published for general information.

No. 199 of 1844. To CAPTAIN JOHN PEPPER,

Acting, Superintendent of the Indian Navy.

Sir,-I beg to bring to your notice, that on the arrival, report of the Burque " Fulcon," on the 8th instant, it is stated that the vessel struck on the Byramgore ackadives, when by her reckoning her Latitude was 12° I' North; 271° 40' East of Greenwich, and recently

and to this Port, was wrecked on the Cherbania are secondary, her Latitude was 12 9 22' North, and Longi

In the first case the position of the Vessel would appear to the Commander to be

23 miles to the Westward of the shoul, and on the second case 18' 20."

My object in addressing you, is to point out, that the dangers of the Luckadives group, are all placed 18" miles of Longitude too much Easterly, on the Chart of the most recent Survey, executed by Cap'am Moresby of the Indian Navy in 1828, an error which is likely to prove fatal to some ships passing to the Westward of the group and their passage to this Port. In justice to Captain Moresby, I would state, that the error arises from the Longitude of Mangalore Flag Staff at the time of the Survey, being allowed to be 18' 18" to the Eastward of the correct position, as determined by the grand trigonometrical operations, with reference to the Longitude of Madras Observatory. The first station at the Lackadives, was the Cherbaniane Bank, and the distance between it and Mangalore Flag Staff was determined by Chronometric admeasurement, after which all the other Islands and dangers were determined, from the Charbaniane Bank, consequently the relative bearings and distances of each must be correct, but the erroneous Longitude East of Greenwich affects the whole.

I would beg to suggest, that notice be given to Ship Masters (who may be havigating by that Chart) of the necessity of deducting 184 miles of Longitude from the positions assigned to the Banks and Islands of the Lackadives, to ob-

dala their correct position.

I have the houor to be, &c. (Signed) DAN: ROSS, Master Attendant.

Master Attendant's Office, Bombay, 11th Nov. 1844.

By order of the Hon'ble the Governor in Council. P. M. MELVILL, Lieut. Col., Secy. to Govt.

### REGULATIONS FOR THE HARBOUR POLICE.

#### NOTIFICATION.

The Honorable the Governor in Council having approved of the following Rules for the guidance of the Water Division of Police, in respect to Arab Vessels frequenting this Port, they are published for general information.

Great irregularity appearing to prevail in the arrangements on the departure of Native boats from the harbour of Bombay; the following rules are to be

hereafter enforced.

1. All Arab bouts arriving in Bombay, not using a Pilot, shall report thair arrival at the Police Office, when the names of the crew and passengers, and any extraordinary occurrence which may have happened, will be taken down in writing by the Deputy Superintendent of the Water Division, and a report made

to the Senior Mugist rate of Police.

II. Two days previous to the departure of the Vessel, the Nacquedah or Tindal shall report to the Police Office, any casualty of other peculiar circumstance which may have occurred on board the Vessel while it has been in the harbour, together with the names of all passengers proceeding in her; this information is, if necessary, to be verified by search under the orders of the Deputy Superintendent of the Water Division.

111. A certificate that this has been duly performed will be given by the De-

puty Superintendent of the Water Division, and without which, the certificate

from the Senior Magistrate of Police will be withheld.

IV. All boats shall, one day previous to their departure, anchor as near as possib's to the Police Hulk in order that they may be overhauled and their crews mustered before leaving the port.

V. In reference to the embarkation of Pilgrims, the following rules will be in

future observed.

VI. When an application for a clearance is made by the Nacquodah of the vesed, he will deliver in a list of the intended Pilgrim passengers, an officer of the Water Division will then proceed on board and inspect the vessel, compare the list with the l'ilgrims on board, and certify before the Senior Magistrate the state of the vessel, the correctness of the list, &c.

VII. Until this is done no certificate will be granted.
VIII. The officer who proceeds on this duty of inspection, should inspect personally the place allotted to each Pilgrim in the vessel, and to each Pilgrim should be allowed a space of five feet in length, and two and a half feet in breadth.

IX. If the number of Pilgrims be reported by the inspecting Officer as too great, steps should be taken to ensure the removal of the extra portion to some

other vessel.

X. Vessels should not be allowed to sail, leaving any of their Pilgrim passen-

gers on shore.

XI. The freight and passage money should also be ascertained and noted down. to prevent imposition, and the food and water provided for the Pilgrims on board, should form a subject of proper enquiry to the inspecting Officer. Bombay, 4th November, 1844. P W. LEGEYT, -Sen. Mag. of Police.

## Moluskul Stations in the Bombay Presidency.

AHEEDABAD.—A large and thickly populated city `on the Sabermatty in the province of Guzerat, of which it is the chief town. It is 320 miles from Bombay, 355 from Poona and near 1200 miles from Calcutta. This city was formerly one of great importance and about 300 years constituted the metropolis of a large and independent kingdom. It reached the height of its importance under Mahmood Begra in 1450 but rapidly declined with the growing celebrity of Surat, the European mart of commerce in Western India. The city is pleasantly situated on the banks of the Sabermatty, which falls into the gulf of Cumbay about 60 miles below the city, near Cambuy the proper port of Couzerat. The lunabitants consist chiefly of Mahratias, Moslems and Parsees. It is now under the rule of the English. Here are held the Judges Courts for the trial of Civil and Criminal cases. The judges are members of the Company's Civil Service, from whose decision an appeal may be made to the Court of Sudder Dewanee and Foundarce Adambut at Bombay. There are several mosques well worthy of inspection. The jugglers of Ahmedahad are as celebrated for the ingenuity of their feats of legerdemain and strength as those of Trichinopoly. ARMED SUGGER .-- This is an extensive and important city in the province of Aurungabed and was formerly the capital of one of the sovereignties of the Dec-Madras. The town was commenced in 1493, by Ahmed Nizam Shah, who after the dissolution of the Bhaneance empire of the Deccan made Aurungahad a kingdom, then called Ahmednugger, the same name as the city, which became the capital. Ahmed died in 1508 and for the succeeding century it had several rulers, none of whom remained at the head of Government for any length of time. In 1634 it merged into the Mogul Empire, under whose dominion it confinned until the death of Aurunzebe, when it was seized on by the Mahrattas and continued a part of the Peshwa's possessions, until 1797 when it fell into the hands of Scindis. In 1803 it was taken possession of by the English, under General Sir Arthur Wellesly but restored to the Peshwa on the following year and again reverted to us on the destruction of the Peshwa's power after the buttle of Kirkre. The fort is strong: the gaols are reported to be unhealthy. - Population.

Auringabad.—An extensive and valuable city in the province of the same name, and formerly its capital. It is 284 miles from Bombay, 186 from Poenah, 295 from Hyderabad, 647 from Madras and 1022 from Calcutta. This city was originally called Gurka, then a small village, a few miles distant from Dowlutabad the former capital of the Empire. It was the favorite residence of Auringabe, during his vice-royalty of the Deccan, and to that prince it owes its name, and subsequent importance. This town continued subsequently to be the capital of the Nizams' Kingdom until they quitted it for Hydrabad, where they were less open to the incursions of the Mahrattas. It now belongs to the presidency of Bombay, and as now viewed presents little of the grandeur it possessed in the palmy days of its founder; the ruins which are the chief remains of its former greatness bear witness of the magnificence of its moslem rulers. A few miles distant is the strong fortress of Dowlutabad and the remarkable caves of Ellora.—Population 60,000.

Broach.—This is an extensive commercial town situated on the north bank of the Nerbudda at the distance of about 25 miles from the sea. It is comprised in the Collectorate of Broach. The town was founded at a very early period, and is supposed to be the Barygaza of the ancients. Notwithstanding the circumstance of the increased trade of Broach, its appearance and general importance is rapidly-declining. In 1791 the population amounted to about 80,000; this number was greatly reduced by famine and in 1804 the inhabitants amounted to about 55,000. The town together with the district or Zillah were ceded to the British in 1782. At the period when Broach was besieved, under Sindia, Gensell Wedderburne who commanded the attacking Army was killed under the walls, but the place was taken by storm a few days after that distinguished Officer's death. Broach is 231 miles from Bombay, and 40 from Surat.—Population 45,000.

CAMBAY.—This town which is situated at the Upper part of the Gulf of Cambay, was the Sea port of Guzerat during the time, it was a flourishing an independendent province. It is now decayed; a great part of the town is in ruins. It is miles distant from Bombay: The principal trade of the town consists in Cotton, Grain, Riephant's teeth and cornelians called Cambay stones; the two latter are shipped largely to China and the eastward. Here are several native public buildings, Hindoo temples and a small Muhamadan musque, which for neatness and general beauty, are comparable with the best works of the natives to be found in the cities of British India.—Population

MALLIGAUM.— Is a place of inconsiderable importance in Candeish, but was formerly a stronghold, garrisoned by Arabs The fort is well and strongly built, and from its proximity to the river Girna easily defended. The reduction of the fort by the British troops was a work of much toil; the siege was protracted, the sorties of the bold arab garrison brave, frequent, and serious, and it was not until the English force had sustained considerable loss of officers and men, that the successful explosion of a mine induced the garrison to surrender. - Population.

MAHABLESHWUR.—The Mahableshwur Hills, which from the site of the only convalescent station under the Hombay Presidency, are situated in 17dg. 56 north latitude and in longitude 73dg. 36 east, and are distant twenty-five miles due east from the sea, and sixty nine miles from Bombay, which bears worth 29dg. W. They from a portion of the extensive chain of mountains known under the name of the Western Chats, or Syhadree mountains. On their western side they rise with an abrupt and precipitous ascent from the Concan which separates them from the sea; while their eastern face presents a somewhat less rapid and steep descent into the table land of Deccan.

The general elevation of the station is 4,500 feet above the level of the sea while its highest summit attains an altitude of 4,700 feet. It is elevated upwards of 4000 feet above the subjectent country on the Concan side, and about 2,300 feet above the general level of the Deccan at its eastern base. Its greatest breabth at the northern extremity is about 15 miles, and about 8 at its southern boundary. The average direct length north and south does not exceed five miles; through from N. E. to S. W. it extends diagonally seventeen miles. Excellent rouds have been made in almost every direction. These already ex-

Excellent rouds have been made in almost every direction. These already extend over a space of upwards of forty miles, more than one half of which are carriage-rouds, and the remainder bridle-paths, and have been so laid out as to open up to the visitor a varied succession of mountain scenery, which for grandeur and beauty, it is believed, can be equalled in few parts of the world.

The soil consists principally of a red clay (formed by the disintegration of cellular ferruginous clay-stone, which constitutes the surface rock), intermixed with the debris of trap rock, and in many places with a considerable proportion of

decayed vegetable matter, forming a brown mould, which is found to be very productive. An abundant supply of excellent water is at all seasons procurable, either from wells, which vary from twenty to forty feet in depth, or from the small streamlets which traverse the hills, some of which retain their water during the whole of the hot season. An extensive artificial lake, recently constructed by His Highness the Rajah of Sattara, has added materially to the supply of water stready available, whether for cultivation or for domestic use.

The most striking feature in the vegetation of these hills is the profusion of the common Brake (Pteris Aquilma) which serves to recal the associations of a more northern clime. A species of Curcuma, the root of which yields an excellent description of Arrowroot, grows every where in the greatest abundance. There is a considerable variety of Parasitic Orchidece, some of which possess great beauty; and the trunks and branches of many of the trees, are covered with a variety of Lichens and Musci.

Potatoes of excellent quality are cultivated very extensively, both for the consumption of the station, and for the supply of the Bombay and Poonah markets. A plentiful supply of all the common culinary vegetables of the best description can be procured at reasonable rates. The excessive heaviness of the rains pre-

vents the successful cultivation of European fruits,

The village of Malcolm Peth, (so named by the Rajah of Satara in honor of the late Sir John Malcolm, the distinguished founder of the station) contains six European shops, where European supplies of almost every description are procurable at the sume rates as at Poona, and very little higher than at Bombay. The station is also visited by numerous itinerant hawkers (Boraha) from Bombay, whose baskets are usually filled with a varied assortment both of European and Indian goods. The Malcolm Peth Bazar is a tolerably large one and is well supplied with all articles of consumption, which are the produce of the country, and generally at moderate rates. The mutton, which is small but of excellent quality, is sold at 14 annas per pound. Beef at 1 anna per 1b. Fowls at 3 or 4 annas each. Grain is principally imported from Wye, (a distance of 21 miles,) and is usually about 8 or 10 per cent. higher than in the Deccan Firewood is abundant and cheap; grass is of rather inferior quality. A monthly nerrik, or price current is circulated for the information of visitors: but under existing regulations, its observance cannot be enforced on the dealers, though they almost invariably conform to it.

Mahableshwur is easily accessible both from Bombay and from the principal stations of Deccan and Concan. The visitor from Bombay, by sailing down the coast to Bancote, and thence up the Sawitree river to Mhar (a distance of seventy miles by sea, and thirty by fiver) is brought within twenty seven miles land journey from the hills : or, should be object to even this short sea trip, he can cross the harbour to Nagotna (which is effected in one tide) from which the distunce by land is only seventy miles, along an excellent road with a public bungalow at each stage. The distance from Poona, by an indifferent hilly route, is seventy miles, and from Sattara only thirty miles by a very good carriage-road. The approach both from the Concan and from the Deccan side is at all times safe. as there is no intervening jungle, and no danger to be apprehended from attacks

of fever, or other diseases of malarious origin.

This station was founded by the then Governor of Bombay, Sir John Malcolin, in 1828. It was ceded to the British Government by the Rajah of Sattara. in exchange for another village, and was subsequently annexed to the Zillah of the Concan. Its European establishment consist only of a Chaplain and a Medical officer, the former visits Sattara once a month, during the fair season; and during the rains he performs the duties of Chaplain at Sattura. The Medical officer is also Superintendent of the station, and a first assistant to the Magistrate, and has charge of a Subsidiary Juil, as also of a treasure chest for the payment of sick officers and their families. A detachment of fifty sepoys, under the command of a jemadar, is kept up to supply the usual guards.

The public buildings consist of a Sanatarium (con taining eight sets of quarters) and five detected Bungalows, for the accommodation of sick officers and their fumilies—a Church, which was built by private subscription, and accommodates 180 people---a small subsidiary jail, containing sixty. Chinese convicts who are employed in the construction and repair of roads--a chowrie--and a Dhurum.

sallah for native travellers. There is a subscription Library containing upwards of 700 vols., and a Hotel on a small scale was opened in 1843 by Mr. Pascel de Souza.

The private dwelling-bouses are 70 in number  $\cdot$  of which 53 are substantially built of hewn stone and lime, and the remainder of rough stone and mortar sundried bricks, or wattle-work. The greater number of them are thatched, tiles having been found not to resist the montoon rain. Allotments of ground for building are granted by government, on a twenty one years' lease, the principal provisions of which are, that the lease shall pay an annual rent at the rafe of a rupee an acre, that he shall build a substantial bungalow, and crect suitable landmarks on the boundaries of his allotment, that he shall not be permitted to cut down trees which are close to the public road; and that he shall obey all regulations existing in the Mofussil, so for as they are not of a personal nature, but are incidental to the possession of immovable property, and so far also as they affect the health, safety, and convenience of the other inhabitants of the station. The average size of individual allotments granted, during the last three years, is six acres.

The following is a statement of the numbers of visitors of all ages who have

resorted to the station. each season, during the last three years.

The influence of the alignets when the healthy constitution genetitation what

The influence of the climate upon the healthy constitution, constituting what may be termed its physiological action, is stimulant and tonic. In addition to the effects which usually result from a change from a warm to a cool climate in all latitudes and at all-elevations an improvement of the appetite and of the digestive and of assimilative functions, and an increase of muscular and mental energy—there are experienced, in greater or less degree, at this station, a peculiar feeling of excitement, and a sense of dryness and constriction of the skin, which appear to be solely attributable to the effect of diminished atmospheric pressure, in exciting the circulating system, and in augmenting cutaneous evaporution. It is the presence of this latter element in the constitution of inter-tropical mountain climates, which emphatically distinguishes them from all other climates whose temperature is the effect of latitude, and which will ever render them inferior in therapeutic efficacy.

The chmate of this station is inapplicable, if not positively injurious, in all acute inflammatory affections, in the greater number of organic visceral diseases in Dysentery, and in almost all the varieties of Rheumatism .-- On the other hand, it has been found beneficial in uncomplicated intermittent fevers-in the greater number of functional disorders of the digestive organs—in general debility, cachexia, and impaired general health (unaccompanied by local disease,) whether the result of long continued exposure to a tropical climate, or of close application to official duty and the sedentary life which usually accompanies it, or of tedious convalescence from acute disease-in a few forms of diarrchæa, such as those which depend on simple relaxation of the exhalent vessels of the bowels, or which occur in persons of a cachectic or strumous diathesis -- in some of the slighter and more chronic hepatic and spleen affections, provided they be unaccompanied by any evidence of morbid vascular excitement, general or local --in some varieties of nervous and periodical headaches--in chronic rheumatism, occurring in a debilitated or in a Cachectic state of the system, and unaccompanied by any feverish tendency or by morbid irritability of the bowels.-in various Scrofulous affections, and in the precursory or incipient stage of pulmonary pthials, where there are the usual constitutional indications of the tubercular disthesis; and where the existence of tubercular deposition in the lungs is suspected ather than unequivocally announced--in the greater number of the verying modifications of disorder arising from, or co-existent with functional utering derangement--and in almost all the diseases incidentabal to infancy and child-hood.

The agency of this climate in the preservation of health and the prevention of disease is probably greater and more beneficial than its direct therapeutic efficacy, more particularly in relation to females and children. The practice, which is now so prevalent in the Bombay presidency, of withdrawing children from the pernicious influence of the excessive heat of the low country during the hot season, and of transferring them, during these months, to this temperate and equable climate, has the incalculable beneficial effect of warding off many of the acute attacks incident to childhood, and more especially to the period of dentition; of supporting the energies of their constitution on a nearer level with the European standard during the first years of their growth, when such constitutional invigorations of vital importance; and of lessening the liability to future disease and future deilicey of constitution, to which all children, born and reared for some years in this country, are more or less liable

MHOW.—Is a town of moderate size and importance: it is 360 miles from Bombay,—from Ahmedabad, and—from Culcutta. Here are established the Head Quarters of the Mhow Brigade. It is expected this station will be made over to the Bengal Presidency.

Commanding Officer..... Brigadier A. Manson, C. B., Artillery.

Po on A.-This station is situated 13 deg. 30' north latitude and in longitude 73° 50' each. It is distant about 72 miles from the sea, up to St. Mary's Church. The Country from Bombay to Khundalla is low beneath the Ghauts, or commonly called the Syndree range of mountains whose height is from the sea about 3,000 feet. Although the passage up the Bhore Ghaut is comparatively easy, and was made by that able and scientific Engineer Captain Hughes under the ausfices of Sir John Malcolm's Government; yet these mountain range of

hills on the western side are abrupt; steep and precipitous, leading into the Concan; and on the eastern side you come upon a table land which in some places is as high as many parts of the ridge of the range of Ghauts. In general the hills rise to the height of from 1000 to 1500 feet. The road from Panwell to Poona is a good Mackadamized road. This with the advantage of the establishment of the Phaeton for Passengers by two separate firms whose rates are shown in a note below renders it easy. This rapid conveyance is, both for letters and Passengers, a great, public benefit, and the manifest encouragement given to the undertakings in question is a decided proof that their utility for expedition and comfort is appreciated by the public. If the traveller however is averse to this mode of transit, and is desirous of proceeding to the Deccan at an easy pace, a good carriage road with the advantage of a public Bungalow at each stage and the recent establishment of the Victoria Hotel at Khandalla are circumstances likely

to rander travelling both comfortable and pleasant.

Poona is now daily gaming in importance. The appearance of Kickee from Bosregoum is very enlivening; when the visitor sees the pretty Ilouses and systematic range of Barracks and other public buildings it is animating and truly cheering. Then again on neaver approach to Pooca, as the visitor proceeds along the Sungum and its picture-que buildings their appearance suggest the iden of being in one of India's best and coolest retreats; a little further and the conspicious building called the Collectors Cutchurry, which goes by the name of the "Pillah" Adamint forces itself on the eye. On the right there is a row of large and small buildings, with pretty parterres in front, leading to St. Mary's Church; on the Northern side there is the Military library -- a good one of its kind--con taining some thousand of volumes, and its taking in most of the newly published works and periodicals affords satisfactory evidence of its being liberally supported On the Western side of the Church is situated a tank which retains water during the whole year. On the Northward of the tank is the Victoria Hotel, lately established by a Mr. Windsor; and on its Southward is the Presbyterian chapel, which by the way, is ill adapted for a large congregation, particularly during the residence of a Scottish Regiment. Further on to the Southward of the Church is a row of Barracks for a European Regiment. The road leads as far as Wanorec, nearly a miles Southeast from the Church where the Horse Artillery is situated. The officers Bungalows are on a rising ground and many of the staff in Poona reside here. We may remark en passant that the "actus" so much declaimed against by medical men as causing malarias, fevers, etc. has been wholly removed, and substituted by milk-bush and other shrubs as a fence. On the right of the Collectors Cutcherry there is a road leading to the arsenal, where it meets the principal road leading to St. Mary's Church. There is a third road on the right of the last mentioned where one or two commodious and pretty Bungalows have been erected for the purpose of being rented. On the right of the latter is situated the excellent Cutcha Buildings called the Bishops lodge and Dr. Ducat's Bungalow. These new Buildings considerable enhance the appearance of this road, which is called the " circular road" and leads agross the lines of the Engineer Corps to the new Barrack on the easterly side of Poona and near the village of Ghorpurray; thence by the Horse Artillery lines and round a small oblong hillock on the southern side of camp.

The cantonment of Poona now wears a most imposing aspect and is daily improving by the erection of fine Bungalows, uniform hedges, good and spacious mackadamized roads. The number of new Shops and other Buildings lately erected in the Military Bazar has contributed much to its improvement; and every building that is now elected has a character for permanency and stability. There are several Shops for European goods. In these shops can be obtained

In Poona to Sorabjee Cursetjee Sudder Bazar.

European Articles of every description and often (althorscarcely credible) cheaper than they are to be had in Bombay. The numerous itinerant hawkers who come about the Camp sell goods much cheaper than the regular established shop keepers. The cost of Articles of consumption in this bazar is extremely in derate. Good Mutton is sold form 10 to 12 lbs. per rapec. Beef from 12 to 14 lbs. per Milk 14 to 15 quarts per ropee. Gram 20 to 30 seers (2 lbs.) per rupee. Rice from 12 to 14 seers per rupee, but every Article of consumption can be procured in the city of Poona at a cheaper rate, say half a seer more in grain, and a fowl or two more; but the distance from Camp makes it inconvenent for masters to send their servants so far to avail themselves of the advantages offered. Very little mutton is sold in the city; such as is disposed of is considerably cheaper, but the quality perhaps will not be found to be so good. If however the civil Gentle near of the station were to encourage the establishment of mutton shops on the outskirts of the city of Poona, they, in all probability, would be able to get first rate mutton at prices considerably lower than are given at the Camp Bazar. To the credit of the superintendent of Bazars, it may be remarked, that although the articles are dearer than they can be produced for in the city, they are generally of the first quality Vegetables and to be had in abundance in the Camp Bazar; but not quite so cheap or tresh as in the city. The common Cabbage, which, at one time was a rare article of consumption in Poonah, is to be had in the city from 3 to 4 pice a head. Potatoes, of very good description, brought principally from the village of Neergorah, and Pait in the Khaira and Joonere Districts of Poonah where they have been introduced by Doctor Gibson, are to be had both plentifully and cheap; some Potatoes come to the Poonah market from Mabableshwur. Many Gentlemen in Bombay get a supply of Potatoes direct from the places mentioned. Fruits of every description are plentiful and are grown in profusion in Poona. Then enumeration may be of use to the intending or occasional visitor. The Comba, Suntra, China and Mosambique Oranges. The Purple, Fuckin, Honey pods and the common white Grapes. Quavas, Bananas and other Plantams. Teaches, Figs, Custard, apples, Bull's heart or "Ramtul" and other fruits are to be had in abundance during their respective seasons, and of the very best quantity. The Mangoe, Pomulnoe and Pine apple are the only exceptions, such as are grown at Mazagon and other parts contiguous to Bombay are estermed superior to those that are to be had in Poona; but where persons are desirous of obtaining fruits cheap, they must send their servants early in the morning to a place in the city called" Mundee" situated near the Joonawara, where they will get fruits and vegetables choice and cheap. They are taken thither for wholesale vending and it is from this place that the Camp market is supplied.

As a knowledge of the individuals who have houses for tent in the Civil limits will be useful to persons resorting to Poona during the rains, their enumeration may not be amiss, viz. Messrs. Sundt, Martmant, Fernandez, Hansen, Aiken, Wakeman, McCudden, Mrs. Mason. The rents of houses are regulated according to the size, cost, and demand; and vary from 50 to 200 tupees per month. None are to be had during the rains for a lower rate; excepting such as are in a line with the skops or nearer the city of Poona, and where, from their construction and situation, there is a total absence of that requisite element, air. By recourse to them the object for which a person temporarity locates at Poona is entirely frustrated.

The climate of Poona is acknowledged by the Faculty to be the best for a residence during the monsoon. It is free from that dampness and bleakness which is characteristic of the climate of Bombay during the wer months. The falls here are not so incessant and seldom or never continue for any length of time without the intervention of sunshine. Taking the hot, cold and wer months into consideration, there is no climate in India so congenial and salubrious as that of Poona. It is not peculiar for any particular disease, altho' as in all other countries, the inhabitants have their share of the different and innumerable diseases which man is heir to; but often it must be remembered these have been caused by intemperance, folly, carelessness or by an infringement of the organic laws. To such as strictly maintain the observance of a system reverse to the above, the climate, of Poona is likely to agree with the constitution. It does not, at all events, appear dangetous for any particular complaint, altho' it may be necessary in some diseases to resort to colder climates for their perfect cure.

The public Buildings at this station are as follows. The Collectors Cutcherry, Civil Hospital; Judges Residence, Pay Office, Post Office, Police Magistrates Office. The Arsenal, Commissariate Department, and travellers Bungalow, which is situated in the civil limits and is too small for so large a station as Poons.

For the amusement of the Ludies and Gentlemen at the station the Band plays twice a week; once at Sungum, in the Adambut compound and at other times at a spot marked out between St. Mary's Church and the Horse Artillery lines, where a circular platform is elected for the Band, and for about 30 or 40

feet, the ground is levelled for carriages to drive round it.

The city of Poons since the reign of Shewajee, the founder of the tract of country called the Mahrashtia, has become an important place, and was formerly the capital of the Paishwas. Shewajre, was succeeded by the following chatterputtris, namely, Sumbajce, Mullarjee and Shaoo, and then by the Paishwas named Ba'lajee Wissonath, Bajee rao Bullat or otherwise called Bajee rao first Ballajee. Bajeerao or Nana Salub, Mahadow rao Bullal or Mahado rao first, Narrain rao. Muhado 120, second, and Bajee rao Ragoonath who is now a state preisoner at the sacred place called Bramawurt on the Banks of the Ganges, near Cawnpore. The city was at one time estimated to contain about 1,10,0000 inhabitants, but after the removal of Bajee rao Paishwa with his court and army it lost from a tenth to a fifth. It is now inhabited by various castes, but the Brahamins and Mahrattas may be reckoned as forming the majority. The Bramins are divided into two classes, the dishust and konkanist, and are generally employed as carcoons or clerks. The Mahrattas hold all the menial situations under Government, such as peons, Jassoods &c. they also serve private Gentlemen as grooms, dressing Boys, and altho' some Mahrattas may be seen as table servants, yet they generally consider it a degrading office and spurn even the prospect of a good salary held out to them. Prejudices on this score are rapidly wearing away. The city of Poons may now be considered to contain from 80 to 90,000 souls, and in its vicinity, the camp about 15,000 more, making in all about 1,10,000 including Europeans and natives.

It may not be here arriss to give a brief notice of the last Paishwa's reign from grant Duff's History "Bajee rao the eldest son of Ragoonath rao succeeded Mahadeo rao Narrayon in 1796; after an interval of a year Nana Furnavees who was the Prime minister was his enemy, and was desirous of excluding him from the Paishwaship, but was afterwards obliged to abandon his design and to aid his elevation to it The Paishwa was not well disposed towards this able statesman, and in order to get rid of him pursuaded Dowlut rao Scindia, to seize his person, and to put him into confinement. It was not long however before he was released and reinstated as minister. He died in 1800 three years after Bajee rao's accession: he left no male issue but his widow is still alive and enjoys an annual pension of Rs. 12,000 per annum from the Government. Nana Furwavees had no equal as a statesman in any of the modern Governments of India. His wise measures it is said preserved the country in a flourishing state during his administration of the Government; so high an opinion did the people enter-tain of him that when he died it was remarked that the wisdom and moderation of

the Mahratta Gogernment had departed with him."

The city lost a great part of its wealth in the plunder of Poona in the beginning of Bajee rao's Peishwaship. It was occasioned by the Peishwa having promised Loulutrao Sindia two crores of rupers for his assistance in raising him to power, and having no means of paying, while Scindia required money for his troops: it was mutually agreed between them to extract that sum from the wealthy inhabitants of Poona, many of whom had incalculable sums of money. Various inhaman means were resorted to, to effect this object; and many were even tortured to death to make them give up their money and other valuable property.

The march of Testwant rao Holkur upon Poona is 1803 and his victory over Scinda to the Paishwa's united torces in a battle fought in the outskirts of the City led to Bejee rao's flight from it to Rayagad and afterwards to Basseen, where he entered into treaty with the British Government I'le concluded the treaty with the British Government even at the sacrifice of his independence, as he was compelled by the necessity of the circumstances to agree to maintain a British force of eight thousand men within his Territory. On this condition the British Government agreed to restore him,

and to maintain him against all Foreign enemics. This treaty sealed the downfall of Mahratta independence, and was one of the most important events during the reign of Bajee Rao. It was ratified on the 31st December 1802.—The city of Poonah was on this occasion plundered by Yeshwunt Rao Holkur prior to the restoration of the Peishwah, which event was followed by a state of Prace for 14 years until the final war in 1817 which led to the overthrow of the Peishwah and the supremacy of the British Government.

There is manifest improvement to be seen now in the city of Poona in the construction of good Roads, thro' all the leading thoroughfares; in the erection of conspicuous and nest Chowkies; in the cleanliness of the streets; in the building of uniform shops by private individuals in the principal public streets. The interest shewn by Government for the health and happiness of the lababitants by in these improvements is compensated somewhat by the population having erected some excellent adifices and many old dilapidated buildings have been put in thorough repair, a circumstance quite unusual before. In having moreover contributed in money half the expense for the construction of the "Dhurn" or dham which is now theished and is called by many of the inhabitants "Null's Dhurn' on whose recommendation the Government had sanctioned its construction. This Dhurn is situated in the N: W. direction of the city, is a great public benefit, not only for passengers, but in collecting a quantity of water for drinking, washing and other culinary purposes for this portion of the city. The old Sungum Pool or bridge situated in the west end of the city has been removed, it having been considered useless to repair it any longer. It was upwards of 200 Years old. A new one is being constructed under the Superintendence of the road and tank Department which when completed will be a great public benefit, as well as impart an impulse to trade in the traffic from the Mawuls and the Concan. Many old and dilapidated houses have been destroyed and now ones erected with the materials but on smaller scale. The houses now erected are seldom more than three stories high, formerly they were erected

as high as five stories. The Joona-warra or the Peishwa's Palalace was one of the principal buildings belonging to the Peishwa, both in respect to extent and grandeur; It was built by Bajee Rao, the grand father of he, who is now a state prisoner at Brahmawurt; the Builder was a warrior of no small stamp, and it was from having signalized himself in some undertaking with Shamrajee of Sattara that he was appointed by him Peishwa of Poons. But however valorous or intepid he might have been, he did not indicate any of the Mahratta craft and cupidity of Sewajee who alone extended the territory of the Muhrastra, and left his successors very few countries to subdue. When Bajec Rao, the Builder was erecting this building, and had had got to the height it originally stood, intelligence had in the meantime reached Shamrajee of his design, when he sent word to him to discontinue the work, and think of protecting the people under his care, sword in hand, in the open field; rather than remain sheltered in a large fortified house where he would be able to display little of his valour or enterprise. This rebuke put & stop to a design which had it been completed would have placed it in competition with any edifice in India, remarkable for extent and altitude; as it stood it was a building of great magnificence; innumerable and gorgeous were the apartments, and the materials were principally if not all of Timber, and of a description and size unequal to what one can possibly conceive. Each beam is estimated by the Natives to have cost Rs.500, but as Natives are in the habit of ex ggerating things two or three fold, we should suppose it to be the medium which is Rs. 250. More than this it probably did not cost. The outward appearance of it was so grand and engaging that no one could have mistaken it for any other Building but that which hear befitted the residence of Royalty, a splendid and substantial wall like that of a fort environs it, together with two large Gates, the one facing the North and the other the East. It has also 7 Bastions equidistant from each other, and Guns might be located thereon, but very much to the detriment of the houses surrounding. It is not too much to sur pose that Guns were fired from them (the no certain information can be procured) from their being some light ordnance placed on the top of the North Gate, which has a pretty wide surface on top with a flag extending in a centrical position. The building stood six stories high, and the sixth story was called the Gunputtee Mahal, whose festival was celebrated there, with much illumination, pomp and graudeur.

A circumstance not less remarkable than grievous to the Inhabitants, happened in this Mahal to one Suwahee Mahadorao Nurrain Peishwa, a young man of very promising talents, whilst a few of his statesmen were in attendance on him, he at the time was labouring under a peroxysm of fever, when he made a rush and leaped through the window on a cistern close by. Such was the force with which he fell that the pipe of the cistern went through his thigh, and his body was so margled and disfigured that the poor young Prince did not survive many minutes after; and notwithstanding the agility of one of his attendants in endeavouring to save him from the fall by laying hold of his garment, it was too fragile to sustain his weight and save him from his impending fate. After the death of his lather Narraiman many schemes were in practice by several persons so get the Prishwaship, but it having been discovered that Gungable His mother was pregnant with him, it put un end to all their plans. But still the question was undecided whether the child would be a male one, on which account they resolved on pretence of carrying her to a place of safety, to convey her to the fort of Poonendhur, a place about 14 miles from Poona, that in the event of its proving to be a female to substitute a male child. For the further-, ance of the design, several Brahmin women in a state of pregnancy are said to have been conveyed into the Fort at the same time: it fortunately however happeried to be a male child, which prevented all claudestine proceedings. This is a circumstance quite fresh in the memory of the Natives to this day, and they even

say that this Prince reigned before he was born.

As it is not our intention to dwell long on incidental circumstances we shall revert to the Palace again. This Palace was very lofty; its terraces commanded an excellent view of the whole of Poons, its adjacent villages and scenes, Parbutty tho' a shree, or sacred image of no small emmence, when on top of this edifice it appeared of medial height. Its pointed Temples interspensed with trees, a few towering over the bulldings on the hill afforded gra-ification and delight seldom to be met with unid the monotony of Indian scenery.- Kirkee, whose plains and ising growds are memorable for the associations they conjure up both to the English and Natives, afforded an enchanting view when seen from the top of this Building. Bamboorda, a village contiguous to the city of Poona was distinctly visible with its lofty Palmira and thick groves of Bamboo trees growing at natures will, without art or care; and the course of the Moota river impelling its rapid waters between both places, and forming a junction with the river Moola close by, called by the natives "sungum," opposite to which a famous statesmen had his residence during the Poona war. It was then that Sungum should have been viewed in its rich robes, a truly picturesque spot; time and its harrowing influence has made a great change for the worse, owing principally to its being robbed of its rowantic semblance by cutting down immunerable trees then growing wild, and in their stead erecting public buildings. It is to be regretted that such a metamorphose should have been completed for had it continued in its former state it would have afforded the visitor inexpressible delight. Sungum however cannot be said to be robbed of all its beauty; there is a fragment of it Sherabang, situated on the S. W. side of the city can still remaining. be seen to no small advantage. It is situated at the foot of Parbutty Hill. and is a spot to which many resort as the scene for recreation on native festival days: its beauteous associations attract many a rider early in the morning towards it, and to inhale its fragrant and odorsferous herbs abounding in this enchanted spot. The advantages of the pure air, unobstructed and uncontaminated by native fumes, and the commanding situation of this edifice must have been a source of pleasure and enjoyment without its alloy to those who in succession got the Peishwaship; and then again to look around its precincts within the walls, on the great number of fount-ins playing and throwing forth their crystal drops on the water excite feelings of admiration—admirable and preposessing as these scenes were and some sof them still are. could the visitor wish for any thing more than to gratify his desire by being situated on an eminence of this discription, and have the advantage of seeing with one view all the prospects around him-how pleasing, how gratifying these must have been to the princely lubabitants of this once truly magnificient Palace, Enviable indeed must have been their situation!

All who may choose to peruse this will regret that a catastrophic should have

eggurred which has made so fine a building—a large of heap of mould! This Palace was consumed by fire in 1827 and the conflagration lasted seven days: every possible exection was made to extinguish the fire but without avail : very little timber, a few beams of the lower apartments and some of the adjoining offices where the flames could not extend its ravages, were saved There are some fragments here and there remaining which will give the curious some idea of its former excellence. The cause which gave rise to the fire is not accurately known: some suppose it to be done by prisoners sent to work there, and others attribute it to accident by having kept a piece of fuel opposite a beam which took fire. It it generally supposed to have been wilfully done. In Irony to Europeans the natives say it was a visitation from "Eshwur for depriving Bajee rao of his Country and Palace---the Government had matamorphosed the place into the Civil Jul as being well adapted for the safe custody of Prisoners. It was in contemplation to establish a public Bazar, as well as stationing the Police within the precincts of the walls. This was decidedly a good plan, but why it has been abandoned we cannot account for. In the late improvements made in the City, a room has been erected in each of the Bastions, and originally intended for the different Native Courts on Poona, but this idea would also appear to have been abandoned, as the apartments are now unoccupied.

The Shookerwarra was the next in unportance. It was five stories high, but it was not quite so perfect in architectural strength and stability: it was therefore decined expedient by professional Engineers to pull it down, and with the materials St. Mary's Church was erected at Poona: The apartments of this build-

ing were somewhat inferior in size to the Shunwarra.

The Boodwar Palace; or commonly called the Boodwar warra, is the only dwelling house of the Paishwas of any significance worth seeing. When Poona was taken by the British Government the upper series of apartments on the third story were not completed; they were subsequently finished by Government under the Superintendence of the Collector. This Palace is three stories high. The 3d floor is occupied by the Fouzdar, the Police Officer of the City, and in a line with it there is a large and handsome terrace for Promonade Had it not been for this the Palace situated as it is in the heart of the City and crowded as it is with large Houses would make a comfortable residence. One part of the Palace is occupied by the Police Office, or commonly called the "Furush khana" another by the Havailly and City Mumlutdays cutcherry. A third portion by an English and two Mahratta Government schools. There are four native Courts held in it for the adjudication of Civil suits: these are the Sudr Ameen's Court whose officer is "In the receipt of Rs 350 per month and three Moonsiff Courts, each moonsiff being in the receipt of Rs. 20 per month. Intestate property office, or office of the Nazir, also occupies a few rooms of the Pelace. The reader will doubtless form some idea of its size by the occupation of so many Courts, schools, cutcheries, Etc. Etc. The apartments, altho' nothing in comparison to what the Jonawarra was before its destruction by fire, are numerous, tolerably capacious, and constructed on much the same principle as Joonawarra is described to have been. Wuter near the Palace is in great abundance and nothing can equal its public convenience and comfort, indeed one of the greatest blessings bestowed on this populous City by the Peishwa was the bringing of water from Kutrag water-fall to the City of Poona by an aqueduct, whence it is conveyed by minor pipes to all parts of the City to the different cisterns constructed for the reception of water: these cisterns are generally divided into two, one side is intended for the Brahmins and the other for the Mahrattas and other Hindoos, from which cisterns they take water for drinking and culinary purposes; near these reservoirs men, women and children bathe--The women be it observed perform this office in so chaste a manner as not to expose their persons in any way, but of course to the English idea of modes y public bathing is considered as violating public morals. Mahadeo Row Rustia has also a null or aqueduct which brings, water into Poona, in that portion of the City called "Instia's Pait" (after his own nume) from the village called Kondwa "Khond" (or large) situated about 8 miles from Poona-It has minor pipes which extend to the limits of the camp and supply a great portion of the camp people. There is a third "null" called Nana Furnavis' null: water is conveyed by it from Wargoum, situated at the S. W. direction of Poona, a distance about 5 miles, but these are interior to the one constructed by one of the Peishwas.

At a Government building called the "Wisram baz" which belonged to the Peishwa and was erected for the sole purpose of his retiring to from the toils of state cares to refreshment and relaxation: such at all events is the acceptation

given to it. It is now occupied by the "Sanserit college" which institution is continued and supported by Government and istunder the superintendence of Captain Candy.

Independent of the Schools above enumerated there are two other schools supported by Government, situated in Shorkerwar Pait in a building called Talim Khang. There is a fifth Government school in Rastins Pait and occupies a room within this Sirdars premises. Besides the schools supported by Government, there are about 25 other schools in the City of Poopa supported by Private Individuals, but the instruction received in them is not quite so good as that obtained in the Government school musters have undergoe a regular and systematic course of studying. There is a missionary school inthis City for which a large House is hired in the street called the Jop Khana" and is well attended by Brahmins and Mahratha Boys. Considerable attention is paid to their

instruction by the missionaries at the station.

The Police of the City of Poons was organized in the year 1841. Their strength is 348, having a Foujdar on a salary of Rs. 200, a Deputy on Rs. 50 per month, with a superintendent of Police at the head of both, who is an assistant magistrate. The Foujdar is vested with the highest Judicial Powers allowed a native local Functionary in accordance with Reg. XII. Sec. XLII. His powers are not to exceed ordinary imprisonment without hard labour for a period of 2 months and a fine of 30 Rupees. The Deputy tries no cases but has to go his rounds at night and to make his report in the morning to the superintendent of Police, The cases tried by these functionaries can be either simuled or confirmed by the Magistrate on an appeal being made by the dissatisfied Party or if the sentence of incarceration in any case be beyond three months. The Magistrate is the highest Judicial authority for the city of Poons and the Districts attacked thereto. The Police of this City is generally spoken of as being very efficient and creditable-Crimes would appear to have been diminished considerably since its organization and what appears worthy of remark is that when robberies are perpetrated, those concerned are soon discovered and property seldom or never escapes recovery. Gang robberies, which were heretofore very frequent on account of the wealth of the Inhabitants, never occur now. This is owing mainly to exemplary European supervision.

The Building of Gates to every "Ghullee" or minor street tends more than any thing to the prevention of robberies in dark and dismal lakes without the possibility of detection. Large Gates have also been erected to all the outlets from the City which prevent the easy facility, the robbers bitherto had of making their way

out of the City with stolen property.

The trade of Poona has follen considerably to what it was during the former Governments. Iron and all other Articles of consumption are on the increase owing to the abolition of all Transit and Town duties and all objectionable munucipal taxes which has doutless given trade a fresh stimulus, as nothing could have corrupted the energies of a people naturally apathetic, and thwarted enterpries than taxing trade and tradesman. Clothes such as Sarrees, Doopatas, Pagodas, Etc. were manufactured here, but of course to no very great extent : they were principally brought from Nassick and other places; but will the present manufactures bear no proportion to what they were during the native Governments. The Bankers and the Shroffs have met with considerable losses in their sources of profit from various causes. The stoppage of the Tanksal or Mint of Poona is one The introduction of the Company's Copper currency is another; and last not least the eatablishment of the Bombay Bank which precludes the necessity of the public availing themselves of the method of remitting money to different stations in India by Hoondees. The only source of profit left the Bankers now is the lending of money on unexceptionable security, such as on the mortgage of property; little or no value is set on houses and perishable property, money is readily lent on private cataten or by the deposit of Jewels equivalent in value to the money lent. As it way not be uninteresting to know the number of the principal Sindaras

and men of rank who are residing in this populous and important City, with & orief sketch of their Political character, possessions &c. we shall attempt here to give a consecutive, account of those only who permanently reside in it. There are many who hold possessions in the Poona districts but do not reside in the City. Of these individuals it is not our intention to speak of, but it may not be irrelevant to remark that of this class some have their Vakeels or Agents in Poons. who are their representatives with the Government or its local Officers. in all amatters connected with their Chiefs. These Sirdars being men of high rank, their Agents are treated with consideration and respect by the Government and its local Officers. It is indeed by such courtes, conciliation and attention to the natives of India that the reputation of the British has risen so high. Whileton this subject we will here quote a passage from Sir John Malcolin's work on central India which will be useful to a novice entering upon the Civil or Military Services in conducting himself towards the natives of India when posted into the Moiuseil. "The people of India must by a recurring sense of benefits have amenda made them for the degradation of continuing " subjects to foreign masters and this can alone be done by the combined efforts of every individual employed in a station of trust and responsibility to render "popular a Government which though not natural, has its foundations laid "deep on the principles of toleration, justice and wisdom"

Mahadorno Gungadhur Meritchkur, is an independent chiestain whose territories are situated at Belgaum, the revenues of which amount to Rs. 1,25,000 per annum There are several brothers and each possesses a separate estate. The collective value of the estates is supposed to amount to Rupees 11,00,000 per annum. This individual occasionally resides in Poons, and has a warra, situated at Shunwar Pait. The Meritchkur or otherwise called the Putwurdhuns, afforded valuable assistance to the British in their hostilities with Tippoo Sultan when en route to Seringaputam—they are said to be a brave meri-

torious family.

Ruggonathrao 1st Class Sirdar is the son of the late Wittal rao Nursing Veechoorkur, a very great chief, in fact he is one of the chieftains in the Deccan, most of whose Jagheers were of ancient date. He submitted to Sir John Malcolm with the Paishwa. The whole of his personal property was restored to him on the strong recommendation and promises held out to him by Sir John Malcolm. The whole of the father's Surinjam possessions have been continued to his son amounting to Rupers 40,000 per annum, and Government may deem it necessary in its wise policy to continue all, or a good portion of to the next male issue, in order that so great and important a family may not break down or dwindle into insignificance. The present locumbent has a warra in Shunwar Pair, near the Temple of Dhankeshwar: he conducts himself with credit and

respectability and keeps up the dignity of his rank.

Bulwuntrao Mahadeo Rastia, was the grand son of the first British Grantee Mahadeo Rastia; he holds a surinjam of the value of Rupees 60,000 per aunum. Rustia's father was the head of a large and respectable family, he left the Paishwar after Colonel Adam's affair. He had sent in overtures to the British troops from the village of Senudeh where he had retired on condition that his personal Janheer of 60,000 and 20,000 Rupees more from his former Jugheer in the Carnutic should be restored to him. It would appear he was unjustly and without any good cause deprived of his Jagheer by the Peishwa: it was restored to him in opposition to that prince's wishes by a clause in the treaty of Poona. He joined the Paishwa in the begining of the war and gave no proof of attachment to the British Government until the Pelahwa's flight in the direction of Chanda, where it seems he endeavoured to supersede Appu Sahib the Paishwa's brother to throw himself on the liberality of the British Government; it was indeed owing principally to his pursuasion that Appa Sahib did come in at a late period. He was friendly to the British during the war, and from his having conducted himself with great respect towards Government whose system he mever liked, every personal consideration was shewn to him by the British Gowernment. Mr. Elphinston states that his son is more respected than any Chief in the Deccan, and is personally worthy of consideration himself. His palace at Poona was occupied on the capture of the City by part of the British troops to the loss of a large postion of the family archives, His son is to this day

hichly respected by the inhabitants and acts towards the Government with great attachment and fidelity. The surinjam enjoyed by this chieftain will it is believed be continued to his direct heir for nine generations. There is very little of the family property left; at all events the present family would appear to be worth nothing in available cash. The Peishwa was indebted in large sums to the present incumbent's father on account of money which he had lent the state; which circumstance caused Rastia himself to incur debts, a portion of which, as his means permitted, his son repaid.

Rammo Trimbuck is a Sirdar of the first class and by the death of his cousin Abba Poorundherry he became the head and representative of the Poorundherry family, said to be one of the greatest celebrity in the Deccon. Mr. Warden, Deputy Agent, in speaking of this family states "that its rise is exactly coeval with the circumstance by which the person holding the Office of Poishwa obtained that influence which enabled his successor to usurp the royal authority and which ultimately led to the imprisonment of the hereditary .

sovereign of the country."

The first Postundherry named Ambajee Punt Postundherry was dewan to the Peishwa Ballajee Vissoonath, when he was nominated to that Office in A. D. 1713 by His Highness the Rajah of Sattara and received also from the Rajah of Sattara the title and authority of modalik; a personal serinjam of about Rupees 17,000 was also referred upon him. His son Mahadojee Punt succeeded him: he was attached to the Peishwas Ballajee Bullal and Ballajee Bajeerno. During the administration of the latter he voluntarily resigned his Office and retired on a pension of Rs. 20,000 and an additional personal surinjam of a lack of supees per annum. He was then succeeded by his son Nelkuntrao who on passing a nuzzur or present was allowed to adopt Nilkuntrao Mahadeo commonly called Abba Poorundherry who held a portion of the Forij surinjam of his Father, which amounted to a little better than 2 lacks of rupees, and a personal surinjam of about 40,000 Rs. per annum.

This individual having been a particular and intimate friend and favorite of Bajeerao, possessed great influence with him and other men of rank in Poons. He is well known by the people of the Decean and is highly respected by them: he is supposed to have had considerable influence in the Councils of the state. In all the dangers and disasters which befel the Peishwa he was a steadfast and faithful adherent to the last, and hence it is said that he and his dependents followed the fortunes of their King. He accompanied Bajeerao in his flight and was with him when he resigned his royal authority to Sir John Malcolm. This great and noble adherent on the resignation of the Peishwa transferred his allegiance to the British power and retired to Sassoor on a personal serinjam of 50,000 Rupees per amoum. On Abba Poorundherry finding his his health declining; overtaken by age and infirmities and being childless he applied to Government in the year 1825 to allow him to adopt a son who should succeed to the suringam that had been granted him. The Government at that time merely sanctioned the adoption without continuing the suringam. This sirder deferred the adoption till he was taken seriously ill and on the point of death, but his carcoons and dependents having falsely represented that the adoption received the sauction of on cor two members of the civil service when Mr. Elphinstone ordered the resumption of the estate which had legally lapsed to Government: but for this circumstance occuring the resumption in all pro-Sability would not have taken place. This decision however entailed considerable hardship and poverty to the adopted son, but on a strong recommendation from the Bombay Government in the year 1832 to the Court of Directors, a suriajam to the annual value of Rs 25,000 has beer lately continued to the adopted son Ram rao Trimbuck from the date of Abba Poondherry's death. During some portion of the year he resides in his large and well fortified warra at Sassoor near which has villages are situated and the other portion of the year in his warra in Pait Kusba at Poona. This being one of the first families of the Decean, Government may in its wisdom and policy continue the suringam to the next make issue.

Chimnajee rao Wittulis a first class sirdar and is the son of the late Wittul rao Mullar Poorundherry. He is one branch of the Poorundherry family just described, but branch of the family is said to be poor and in embarrassed circum-

stances. The father wasdeprized by the Nizam's Government, notwithstanding the urgent recommendations of the Bombay Government in his behalf, of a surinjam yielding Rs. 11,000 per annum. This circumstance threw the family into great distress and was a great blow to their importance. The father's conduct for loyalty and peaceable demeanor has given his son, the present incumbent, favor and consideration with Government and he is in the enjoyment of a surinjam valued at Rs. 7723 1, per annum.

Hurree Hur Pundit oorf Tatia Maharaj, a Sirdar of the first class. His ancestors were the Gurrossor Priest of the Kolapoor Rajah. They were clever men and had a knowledge of Sunskrit and the "Waydant" or theological doctrines. They inculcate an abstract and speculative monotheoretical worship and deny the actual existence of a material universe, but the education of the present incumbent was not much cultivated in any of the sciences above described. He possesses an Enam estate of the value of its 60,000 per annum, is a very respectable man, and resides in his own warra in Sudasew Pait near Kalla warra.

Sheoram Kasgeewalla is the newhew of the first British Grantee Annundrow Sewajee, possesses a surinjam of nearly Rs. 1760 per annum. He is a Sudar of the 1st class, is the descendant of a great family, and consequently well known by the natives of the Deccan. He lives in his own warrasm Sookerwar and

Boodwar Paits.

Balla Krishn Thuttey is a sirdar of the first class. He was the Brother-inlew of the last Peishwa but one, and consequently must be treated with consideration and respect: we are only surprized that his surinjam amounts to the small sum of Rs 937 per annum. He has a warra near the Boodwar Palace.

Venaik Chentamon Deshmonk is a 2nd class sirder and received his personal Jagheer at the recommendation of Bruce rao in accordance with his agreement.

with Sir John Malcolm. He has a warra in Sookerwar Pait.

Mullar rao Bajee Mankeshwar is a 2nd class sudar and is the Brother of Sudasew Mankeshwur, who was the Peishwas late mmister, whose adopted son inherited his property and who after a very short illness died last year; on which occasion a surinjam of Rs. 30,000 per annum reverted to Government. It is said that his brother was plundered by the Pershwa; he is supposed to have left some treasure and some cham villages which were given to him by individuals and foreign states—in a long pending dispute between Luxmon rao and Mullar rao Mankeshwur respecting some family property it was ultimately decided by the Queen in Council in favor of the latter. This circumstance nearly ruined Luxmun rao in the expenses attendant in law suits and for their liquidation bis property was attached by Government. The subject of the present notice enjoys a small surinjam of Rs. 1,100 per annum but the dispute which his brothers adopted having been decided in his favor will no doubt enable him to live comfortably. He has at the present day one of the largest warras in Poons not excluding the Boodwar warra otherwise called the Pershwas Palace, in which he has place called the 'A Annee Mahal" or Hall of Mirrors which when illuminated has a grand effect and is worth seeing: many Ladies and Gentlemen resort to his place for this purpose.

Bhicenjee Junardhun Attowley is an old Rajah Chief and a 2nd class sirdar and is on the enjoyment of an annual surinjam of Rs. 4739. He has a warra in

Narrain Pait.

Ramchander Pandorung Dhoodhur, a 3rd class sirdar. He is the son of the late Anna Dhamdherry who with the present incumbent, his son joined the British but afterwards returned to the Peishwas Camp to bring his brother, but is said to have been detained by the Peishwa. This personal Jagheer amounting to Rs. 14.403 has been continued to him at the recommendation of Sir John Malcolm.

14.403 has been continued to him at the recommendation of Sir John Malcolm. The Sirdars above described are those most in note but there are many others together will many Political Pensioners residing in this celebrated city, once the seat of the former Government. As a list of the Sirdars and the amount of their annual revenues cannot fail to afford interest, annexed are the details.

SHOLAPORE —This town is the capital of a district of the same name in the Southern Mahratta Country 1t 18216 miles from Bombay. The town is but indifferently built, and possesses scarce any thing remarkable. It is an important post so near to the Nizama' Territories of which the greater portion formerly constituted a part. - Population

SURAT. Is a large city on the Taptee about 20 miles from the Sea, 36 from Broach, and 231 from Bombay. It was formerly the principal town in the Sirca of the same name, which extended to Mahim and Bassein, and subsequently became the great empororm of British India. It has since decayed, owing to the prosperty of its rival Bombay, to which place the seat of Government was removed. Surat was formerly one of the largest cities in India; it is now dwindled into an insignificant place, which but for the Cotton grown in the neighbourhood, known at Sorat staple, the city would be comparatively unknown. The two powerful elements, fire and water, have greatly accelerated the decline of Surv. Within the last ten years, a disastrous fire made more than one half the town a heap of ruins; the overflowing of the Taptee-inundated, and destroyed such of the lower town that escaped the flames. These casualties have not been repaired: the rums extend some miles and form the awelling place of Jackals, partal dogs, rats, snakes, squirrels, and an amount of filth and vermin sufficient to contaminate and destroy a great part of the Population-

In consequence of the river being in some places shallow large ships, cannot proceed so far as the town, or even vessels of 200 tons receive the whole of their cargo; to complete then freights they anchor just off the mouth of the river and the Cotton is conveyed to them in boats. Cotten staple is the chief article of export but this is now chiefly sent down to Bombay in boats of from 50 to 120 tous burthen. Surat still possesses a small direct trade with Arabia and the Malay Archipelago, which consists principally of Cotton and piece goods made at Sorat, which at one time supplied the place of Europe goods both in the East and West. The buildings at Surat although mostly now in ruins bear ample test dany to the greatness of the city, when the emporium of Western India. In 1612, the English inctory was established, and five years afterwards the Dutch also possessed a factory. The French likewise obtained a firman for the erection of a factory, but their teads was invariably a losing concern owing in great part to the operations of ther English and Dutch rivals and the want of capital for their investments. The French factory is partly in ruins; the Dutch factory is used as English Offices and a section of it made into the Traveller's Bungalow. TANNAH. - This is a town the capital of the Island of Salsette and the seat of a Collectorate of the same name. Here is a small but strong fortiess in which the state prisoners are kept whose crimes or personal importance have not secured them location north of the holy river Christna. Formerly a strong military force was stationed here in order to repress any incursions of the Mahratias from the province of Aurungabad. This is no longer necessary. The neighbouring country is much infested by robbers, whose principal booty is generally opiam in his transit from Malwa to Bombay, and whatever wealth the industrious classes on the island are enabled to accumulate. To suppress these outrages a corps has been formed called the Tannah Rangers, to whose activity and usefulness the inhabitants hear grateful testimony. The town of Tannais 23 miles from Bombay; it is straggling, ill built and not extensive. There are several Portuguese Churches. Population 8,500.

VINGORLA.—This station is situated in the extreme south of the Rutnaghery Zillah, and is distant from Bombay about 275 miles, The Head-land by which the anchorage-ground (for Coasting craft) is formed, is called ' Beacon point,"- from its being surmounted by a small white pyramid, which may be

seen, from a vessel's deck, in clear weather, about ten miles off.

The little " Bay of Vingoria" is completely sheltered from every point of the compass, the south alone excepted,-When it blows tresh from that quarter (a rare occurrence, and always of short duration,) the little traders make a fair wind of it, and run to " Malwan," (18 miles north) where they remain until the wind changes. The road-stead of Vingoria is also, good. Vessels of any burthen may be, within three miles of the shore, and receive or discharge cargo, with as much case, and as little inconvenience, of any port, as at any other place of commercial resort.

There are about eighty bosts at all times available to carry goods. The trade of Vingoria is chiefly confined to the staple, - Cotton. This article is exported to Bombay, during eight months of the year, in large quantities. The value of this branch of the revenue has increased, in the last three years, twelvefold. The total amount of collections, on imports and exports, for the official year 1842-43, may be estimated, in round numbers, at Rs. 65,000.

The Cus tom House is situated close to the beach, but owing to the rediousness of a shallow back-water communication, which is wholly under tidal influence, much delay, and inconvenience, in the transaction of business, are experienced. A good pier has long been a desideratum, and is much wanted at Vingoria. Condering that it is the very "Gateway" of the high road to the Southern Mahratta Jountry, through which Troops, Treasure, and valuable stores, of every descripion, are constantly being passed, and that the place, itself, is evidently, making "apid strides toward commercial importance, it certainly does seem strange, that comething has not yet been done, by way of improving it, as a landing and shipping Port. It remains, however, to this day, literally, as nature left it.

The group of small Islands, about eight miles West of this place, commonly designated the Vingoria Rocks, yield a small revenue to Government, owing to the famous "Birds'-nests," so highly prized as an edible, by the Chinese, being found upon them. The Rocks produce about one hundred weight of nests,

annually.

The Village of Vingerla may contain about 5,000 inhabitants, has a tolerably good Bazuar and locates between twenty and thirty native merchants. These are yearly increasing. There are, likewise, a commissariat, and three private

agents in the place.

The "Travellers' bungalow" (which is now an excellent, and commodicus finiteing, having lately been thoroughly repaired, and improved) is conveniently situated, within five minutes walk of the landing-place. The only other public premises are, a small house, occupied by the store sergeant, and a sort of semi-Fort, known as the "Factory." It is a large, and very strong building, having three tiers of spacious apartments. The lowest are used as depositories for Treasure, and arsenal stores. It is surrounded by a high, loop holed wall, at each of the four angles of which there is a small bastion, capable of mounting six guns, a pair of strong Gates, with a small most, three quarters round, complete the defences. The open space between the wall, and the building itself, is fixed up with extensive sheds.

The "camp", which was formerly a large and regular cantonment, is eligibly situated about two miles from the Village, occupying a fine circular plain, about three miles in diametrical extent, and bounded by a belt of hills, verdant all the year round. Here the military out-post, which usually consists of 150 men (which. by the way, it too weak for the general duties, and character of the surrounding country,) under the command of a captain, and Subaltern, the medical officer (who is, generally, an apothecary) and assistant Collector of Sea-Customs, (when the latter is not on circuit.) reside. The public buildings at the camp comprise, a fine stone built Hospital, or Barrack, capable of accommodating from forty to fifty persons, with good out-houses, and a well attached; a small native hospital, Magazine, and a guard-room, all well built, and regularly kept in repair, by Government. The "Lines," and officer's quarters, are temporary buildings only. There are but four substantial private houses. Eight regiments could, with ease, encamp on the plain, without at all incommoding one another. The place, generally, is extremely healthy, and would, there can be little doubt, make an excellent convulescent station. Rheumatic complaints, in particular, it is known, instantly yield to the genial influences of its climate. Cholera, small-pox and faver. so prevalent in the the Konkun, generally, reldom visit Vingorla, and when cases do occur, they are very mild, and few in number.

#### THE PRESIDENCY OF BENGAL

Governor General .-- Lieut. General the Right Hon. Sir Henry Hardinge

Commander-in-Chief .-- Lieut. General Sir Hugh Gough, Bart., G. C. B.

Situation -- This extensive presidency or Bengal proper is situated between the 21st and 27th deg. N. lat. and 86th and 92nd deg. E. Long. On the N. and E. is Nepaul, Thibet, and Ava; and on the West the Presidency limits extend as far as Beeloochistan, since the newly conquered country of Scinde is reckoned a part of the Bengal Presidency.

Country .-- Greatly diversified by lofty mountains and plains, fruitful, valleys, and level ground. The soil of Bengal produces every thing requisite to sustain life Population of Bengal proper, was in 1838, 29,710,061. The Presidency

of Bengal contains 306,012 square miles.

Government -- The Governor General is nominated by the Court of Directors subject to the approbation of the Crown. This exalted functionary is generally aided by a Supreme Council and the Commander-in-Chief, and assisted in matters of jurisprudence by a Legislative Council appointed by the Court.

Products.--Rice, Indigo, Silk, Cotton, Opium, Ivory, Tobacco and various kinds of drugs; also Sugar, Hemp and flax in abundance.

CALCUTTA.--The capital or seat of Government is situated on the W. Branch of the Hoogly 100 miles distant from the sea, 1300 miles East of Bombuy, 950 South East of Agra, 1060 South East of Lathi and 1030 North of Madras. It is the great emporium of British India whence resort ships of all nations. The appearance in approaching from the river is very magnificent and sufficient to entitle the metropolis to the term by which it is generally distinguished "The city of palaces". The town is about six miles in length but very irregular in breadth. The houses of the English and the wealthy Baboos are very elegant: a few of the streets are wide but for the most part they are narrow and crooked. The fashionable part of the city is called Chowringhee; the mercantile part of the city, is comprised between Chandpaul Gkaut and the mint. The city is surrounded by a circumvallation designated the Mahratta Ditch.

The tanks are numerous and well supplied with good water; they are

annually replenished from the periodical rains.

On the East bank of the river, at the end of the Esplunade and about a querter of a mile below the city, is Fort William, a magnificent work in the form of un octagon, but so large us to require an extensive garrison for its defence. It is sufficiently capacious to accommodate the whole Christian population of the town. The works are stated to have cost two millions sterling. The garrison naually consists of one or two Regiments, a compliment of Artillery and a number of artificers employed in the arsenal-

On the Western side stands the palace or residence of the Governor erected by the late Marquis Wellesley whilst Governor General. One hundred and forty thousand pounds sterling were expended in the erection. Captain Wyatt

of the Bengal Engineers was the architect.

For the administration of justice there is Supreme Court and Courts of Appeal from circuit or Mofussil Courts of law and Criminal justice; several Police Offices, and other municipal establishments.

Culcutta contains several Colleges, Literary and Scientific associations, amongst which may be enumerated, Bishop's College, La Martinlere, Hindoo College, Madressa, Sanscrit College, Asiatic Society, Lyceum, public Library and several private seminaries and foundations. The public buildings are not numerous but neat and some very creditable 7 of these we may mention, Giovernment house, Ochterlony monument, Hishop's College, Town Hall, La

Martiniere, Metcalfe Hall and St. John's Cathedral.

Like every other place in India the population has not been correctly ascertained, for as the Government does not impose a poli tax the mere ascertaining of the number of inhabitants is regarded with indifference. A census was attempted by Captain Birch, superintendent of Police in 1837, which set down the population at only 229,705, of which 144,893 were males and 84,812 females. A few years subsequently Captain Birch took an account of the number of persons who entered the town every day from 4 A. M., to 11 P. M. which amounted to 177,000.

The periodical Literature is ably conducted and very liberally supported. There are several daily, bi-weekly, and weekly journals devoted to intelligence, secular and religious knowledge. There has lately appeared a quarterly Indian Review on the plan of the "Foreign Quarterly" which in point of literary merit and typographical appearance is unsurpassed by the "giant quarterlies" at home. There are also several annual publications, including the valuable

### THE PRESIDENCY OF MADRAS.

Governor & Commander in Chief -- Lieut. Gen. The most Noble George, Marquis of Tweeddale K. T. & C.B arrived in India Sept. 24, 1842.

Country .- Is Bounded on the E. by the Bay of Bengul, on the W. by the Maldives and Lacadives and Arabian sta, on the S. by the Indian Ocean. It includes several Provinces, the Ch'ef part of which are entirely in our own posses. sion. The soil and country is very deversified, but less productive than Bengal.

It comprises 141,923 square miles and 13,508,534 inhabitants.

Government .-- The head of the Government is appointed by the East India Company subject to the approval of the Crewn. The executive consists of the governor and three members of Council, one of whom is generally Commander in Chief of the Forces, The members of Council, are selected from the Civil Service of more than twelve years standing and are changed every five years. The other departments of the executive consist of four Boards which embrace Trade, Commerce, Revenue, Education, Military and Medical. The Government in political and revenual matters is subordinate to the government of India.

Products -- Rice, Tobacoo, Cotton, Spices, Drugs, Pepper, &c.

Madras .-- The Capital or seat of Government of the Presidency of the samename is a large city on the Coromandel coust It is 770 miles S.E. of Bombay and 1030 miles S, of Calcutta. The commerce of Madras is inconsiderable compared with that of Calcutta and Bombay. The approach to the city from the sea is sterile, as the shores extending to the N. and S. are low flat and sandy, and in the rear of the city, inland, are several small hills, which impart a barren aspect rather deceptive, as on closer inspection a more favourable opinion is formed. The beach, on which is erected the public offices and storehouses presents an animated scene. Within a few yards of the sea are the fortifications of Fort St. George, in which are most of the military offices of government.

The appearance of Madras is widely different to Calcutta or Bombay as the European part of the town is small, the respectable part of the community live in handsome residencies from two to ten miles distant and repair daily to the town for transacting business.

Madras is an open roudstead with generally a heavy swell and surf. The houts used for communicating with the shipping are called Marsoula boats, and are made of thin planks of tamarind wood sewed together, having over the seams some straw justead of caulking: thus constructed they yield to the waves and the sindy beach like lesther. When the weather is very unsettled or boisterous, a flag is hoisted in front of the master attendant's office and at such times these beats are interdicted from quitting the beach. At such seasons communication is kept up betwixt the shipping in the roads and the shore by means of catamarans, which consist of two or three logs of wood secured together. These are also used during fair weather for the purpose of conveying fishermen, &c. to

the duties of their avocation and are occasionly seen at a distance of eight miles from the shore.

Fort St. George is a strong and handsome fortress, originally planted by Rohins, the celebrated engineer. It is not so extensive as Fort William at Calcutta, but superior to Fort George at Bombay; and as it is situated so near the Sea it possesses natural advantages and requires but a moderate garrison. In the centre of Fort St. George is the original fort first erected but at present converted into Government offices. To the Southward stands the Church of St. Mary; to the N. the old exchange on which in 1792 a lighthouse was constructed but since demolighed, and a new one has been erected on the esplanade near the Brack.

The inhabitants of the city of Madras are within the parisdiction of H. M's. Supreme Court of Judicature, which consists of a Chief Justice and Puisne Judge. The practitioners of the Court consist of nine barristers and fourteen attornies inclusive of those who hold altuations connected with the Court. There is also a

Police Office and a well regulated Police establishment.

The public buildings are few, but are very neat and interesting in their appearance. Of these may be enumerated the offices, of the Board of Trade and Custom House, which are elegant and commodious The Banquet-Hall is a neat erection, as also the Madras University and Medical Cottege. The Cathedral of St. Thomas and Vepery church are worthy of mention. By far the handsomest ecclesiactical building at Madras is the Scotch Church dedicated to St. Andrew; for beauty and elegance of internal structure and arrangements it scarcely possesses its equal in Europe. It cost, the writer believes, about three labks of rupees or £30,000: the cenotaph on the Mount Road, to the memory of the Marquis Corawallis, is worthy of remark and cost a large-sum of money.

The residence of the Governor is a spacious dwelling stationed on the edge of the Esplanade, on the Choultry Plain, and near it are Chepank Gardens and palace, the residence of the Nawaub of Carnatic. The Governor has also a

handsome residence at Guindy, a few miles from Mauras.

There are several charitable institutions to which the European residents subscribe handsomely. These consist of the military male and female Orphan Asylum, Protestant charity school, Vepery male and female schools, Native Education Society, Bishop Corrie's Grammar school; Mount Road male and female schools, St. Andrew's Parochial school, Friend in Need Society, Manegar Choultry, philanthropic association, &c.

There are several Societies for the cultivation of various branches of science and literature; the published transactions of these associations hear ample evidence of their usefulness and the amount of value information they contain from time to time, afford agreeable leisure to their writers and convey interesting in-

formation to the reader.

The native inhabitants consist chiefly of Hindoos who speak the Malabar and Telegoo languages. The native town is large and thickly populated, the streets in general clean and regular and partake of the usual characteristics of native towns. There are several Hindoo Pagodas and Mahomedan mosques.

The population of Madras consists of about 8,000 Europeans, and East Indians

and 500,000 Natives.

HYDERABAD.—Is a large and handsome city, the metropolis of the Nizam's dominions and the Head Quarters of the Subsidiary force belonging to the Nizam. The city is large and the public buildings elegant; it is in fact a fair specimen of a Mahomedon city. No European is permitted to reside in the city, or indeed can be safely pass through it without un escort, owing to the insulting language and acts of the baser part of the population, and the weakness of the Government. Insurrections are of daily occurrence but not of great extent owing to the presence of a large military force without the city. Hyderabad possesses but few articles of industry, save silks wrought with gold and silver thread, and native fire arms made chiefly by Hindoes. The Mahommedan population are sunk in debauchery, gaming, and even more pernicious vices. The harem of the Nigam is guarded by a body of Amazons clothed and armed as sepoys. Owing to the dissipation of the prince, the affairs are left wholly to his minister, who would soon destroy the integrity of the country but for the constant interference of the English resident. The office of the latter is one of great importance and is the most valuable staff appointment in the Madras Presidency The gentleman, who now holds the post of Resident is Major General Frazer, through whose prudence discernment and resolution the affairs of the Nizam are conducted .- Population.

KAMPTEN.—This a town, situated nine miles distant from Nagpore and forms the Head Quarters of the army, or subsidized force of the Rajah of Nagpore. Kamptee was selected on account of the superior advantages it offered for the accommodation of the Force, which consists of a Brigade of the Mudras army. The river Canaan which passes near the town affords a constant supply of good water, which is of great importance as rain falls but during two months of the year. The cantonment, which owes its origin to Mr. now Sir Richard Jenkins, a former resident, is bounded by the Canaan and possesses good accommodation for the others and troops, which consist of about six thousand.—Population.

Nagrons.—This is a large city, the capital of Berar. The Rajah once held a prominent position amongst the princes of India, but is now much reduced in power and importance. The city of Nagpore is about five miles in circumference. The walls and defences are not strong although they appear to have been designed to offer a protracted residence, but were unfinished. Within the city there are two palaces; one occupied by the Paramount Rajah and the other by the Ghoond Rajah whose family originally possessed the sovereignty. The new palace is small, but neat and decorated with the usual Hindoo embellishments in plaster. The streets of the town are narrow and dirty, the houses mean and low. Nagpore possesses a considerable transit trade; there are also manufactured here some Silk and Cotton Goods, Native Military Arms, and superior Cutlery. Without the city are some pretty gardens, belonging to the Rajah and the wealthy inhabitants — Population.

Bankers and Shrofis ..... Curseijee and co.; Hornusjee Ruttonjee and co.; l'estonjee and co , Venkutsawmy and co. OCTACAMUND.—The principal station at the Neilgherry Hills, and is situated nearly in the centre of the table-land of Mysore about 10 miles from the southern edge of the range and 7 from the northern,—immediately at the base and on the western side of Dodabetta, and is open only towards the W. N. W.; the other three sides being completely sheltered by this mountain. Its elevation is 7400 feet above the level of the sea, and it is the best locality amongst the other stations.

It has decidedly the most perfectly European climate of any in these hills and is less affected by the changes of monsoons, rains, &c. thun any other which arises from its forming the line of separation between the north east Madras

mousoon, and the north west Malabar moasoon.

SECUNDERABAD.— This place and Bolarum form the stations where the British troops and the Nizam's contingent are located, in consequence of not being allowed a place within the city of Hydrabad. The force consists of about 12 thousand men, and the whole is kept in a state of great efficiency by English officers, who are allowed to enter the service of the Nizam by permission of the Clovernor General Formerly several officers were not belonging to the Company's Army but latterly a more stringent policy has been adopted: the Nizam's officers have been pensioned, officers in 11. M.'s service not allowed to enter, and every officer permitted to enter the service of the Nizam is retained on the corps to which he belonged. It is therefore looked upon as a staff appointment, and of course places the entire force in our hands, or at our mercy by withdrawing the officers and rendering the force useless—Population.

TRICHINOPOLY. Is a large and populous city, situated on the Cauvery—miles from Tanjore, 208 from Madras, 845 from Bombay, and 1240 from Calcutta. The fortifications are partly in runs and scarce worthy of mention. The arsenal is well arranged and contains several thousand stand of arms. In the centre of the town is an immense rock on the top of which is a Temple, and on one side the powder magazine. The cantonment is well-arranged; here is a neat Protestant Church, and Christian Burial Ground. Trichinopoly is one of the hottest station in the Carnatic and is beyond the influence of the sea breeze. It is the Head Quarters of the Southern Division of the Madras Army.—Population 100,000

Vellore was formerly regarded as a post of great importance; it possesses a fine noble fort, built-of large stones partly by Europeans, partly by Natives, and surrounded by a deep and wide ditch, cut chiefly out of the solid rock and abounding in large alligators. Here in 1806 took place a fatal fevolt attended by a shocking massacre, and headed by the eldest son of Tippoo Bulton. Colonel Gillespie and a party of H. M. 19th Diagoons succeeded in suppressing the revolt, and the Mysore princes were removed to Bengal to prevent a recurrence of the evil. Population.

Situation and Extent.--Is situated in the Indian Ocean, separated from the continent of Asia by the gulf of Manaur which divides India from Ceylon. It contains 19,469 square miles; Population 2,000,000.

Climate.—The monsoons give variety to its climate, which is on the whole mild and healthy; although near the equator, the heat is more moderate than on the continent; it enjoys almost uninterrupted senbreezes; Nuwera Ellia near Candy is the Sanatarium of Ceylon and is a cool and delightful place.

Produce. Gold, silver, lead, tin, iron, and salt; about twenty kinds of precious stones. All the tropical fruits grow wild. The chief production of the is-

lund are cinnamon and Coffee

Colombo.—The capital and seat of Government is a good sea port on the S. W. part of the island. The town is regularly built more in the European style than any place in India, Goa excepted. The Fort is large and strong and well defended by nature and art. The harbour is an open roadsted which affords safe anchorage from December to April and sometimes till the end of May, when the southwest monsoon sets in on the Malabar Coast, blowing violently on the

W. coast of Ceylon. The town is undergoing several improvements. The public buildings are very few but built in a plain Dutch style which contrasts with the general wildness of the surrounding Scenery; Population 65,000.

Abstract of the Revenue of Singapore for the official year 1043-44.

There is an increase of the Excise farms of Rs. 62,150; -- Quit rent nearly, Rs. 2,000 :-- Pees from the Court of Judicature Rs. 8,114; Do. from Court of Repuests Rs. 1,316; -- Registry of vessels Rs. 556. There is a decrease on, -- Amount of land sold on Building leases of Rs. 58,376; -- Transfer Fees, of about Rs 400, -- Premium of Bills of Exchange, &c. Rs. 7,635. The Post office Office is nearly the tame as lust year.

There is an increase on the whole revenue of Rs. 6,033.

The proper local disbursements where less last year than in the previous year by Rs. 22,504, so that there is a very considerable surplus this year. It is true that on adding the Military and Convict establishment there is an apparent deficit of some Rs. 25,000, but this does not exist in reality, as will be shown by the following:

Deduct-estima ted Expense of Regiment stationed here for service in China, which will fall to be repaid to this Government................. 173,672

True Expenditure for Troops	144,350 18,862
Total Military Expenditure	163,358

211.525

There is therefore, deduct in this Rs. 211,425 rom the excess of Receipts shown in 13 of Rs. 259,349, an actual surplus of Rs. 47,914--which ought to be increased by the expenses of the Convicts being borne by the respective presidencies from which they are sent, and by the expenses of the Magnetic Observatory being taken from our local revenues. Were these deductions unde and also some Rs. : 00,000 more for useless, or easily to be dispensed with offices, --- such as Governor, Registrar of the Court of Judicature, &c. Singapore would be enabled to exhibit such a balance sheet as had never before been produced by any British Colony. As it is, it strikingly exhibits the advantages arising in Singapore from the free and unfettered nature of the trade and government, having from a desert Island arisen into a settlement with population paying excise duries to the amount of more than three lacs of rupees, hesides the large revenue derived from the lands, litigation, &c .--- Free Press. #### NEW SOUTH WALES

Governor. Sir George Gipps, G. C. B. Division. There are two districts, Sydney and Port Phillip, having one Go-

vernment and Legislative assembly held at Sydney.

SYDNEY. This is the metropolis of the colony of New South Wales. It is situated on a cove on the S. side of Port Jackson; the water is of sufficient depth to admit the largest vessels to approach to the quays. The liarbour is safe, uncharge good, and ships protected from the wind. The streets of Sydney are irregular and the houses scattered. It contains several public institutions, including a Society of arts, and supports a theatre and numerous publications Population 15,000 \*

PORT PHILLIP DISTRICT.

Her Majesty's Superintendent, C. J. La Trobe.

MELBOURNE. The Chief town of Port Phillip is on the opposite share to Launceston, Van Dieman's Land, from which it is about 16 hours sail. A. regular communication is kept up with Launcestor, &c. by steamers. The district contains 200,000 acres purchased from the native chiefs Jagajaga, Corlocluck and others in 1835, in consideration of 20 pairs of blankers, 30 tomahawks, 700 knives, 30 pairs of sciesors, the same number of looking glass-•8, 200 handkerchiefs 100 lbs of flour and 6 sherts. In 1825 the population pumbers! 50 and a live stock of 100 head of Cattle and 1400 sheep. In less than two years a regular town was built with several commodious Hotels, two Banks and three or four Churches! The commercial and domestic importance and progress of the colony will be beat seen by reference to the amount of Customs and Wool produce which certainly exhibits a stride without example.

# VAN DIEMAN'S LAND.

Lieutenant Governor.—Sir J. Eardley Wilmot.

Situation and Extent .- Van Diemen's Land is an island of the South Pacific lying between the 41st and 44th degrees of south latitude, and 144th and 148th degrees of east longitude. It is not quite so large as Ireland. It was discovered by a Dutch navigator, named Tasman, in 1642, and by him obtained its present inharmonious appellation, in compliment of Van Diemen, the then governor of the Dutch East Indies For a length of time it was erroneously conjectured to form s portion of the mainland of New Holland. Indeed, there are many, otherwise informed persons, who couceive Hobert Town and Sydney (although eight hundred miles apart) to be towns of one colony, and perfectly contiguous to each

HOBART TOWN -- The metropolis of the settlement owes its selection to Colonel Collins and dates the commencement of its history from February 1804, at which period it was founded with the view of forming a depositary of refractory criminals, and a grain depot.

# FOREIGN SETTLEMENTS IN THE EAST.

FRENCH COLONIAL POSSESSIONS IN INDIA.

Governor General and Contmander-in- hief.

PONDICHERRY .-- This is a West and pretty town, situated on the Coromandel coast, about 90 miles south of Madras. It is the capital of the French establishments, and for order and cleanliness it surpasses any of the English settlements. The town is divided into the white and black sections; the separation being made by an artificial river with an extensive quay on each side, and two rows of pepul trees. The streets are wide and clean, the houses built with such regularity that every residence participates in the genial influence of the sea Breeze. The Government house is a small but handsome resid necoccupying one side of the esplanade. The Cour Royale also occupies one side of the quadrangle called the Esplanade, and near the beach is a fine Lighthouse and six pieces of cannon. The surrounding country, included in the settlement, is laid out in rice, indigo and sugar plantations. A fair amount of trade is carried on with Bourbon and France. Population 80,314; consisting of 759 Europeans, 851 gens a chapean, and 78,568 natives.

# General Western Directory.

This list comprises the governmente, commerce and trade, government officers Bankers, Merchants, Consuls, &c. &c. to the westward of Bombay in the fel-

lowing order.

Scinde. Mauritius; Bourbon; Cape of good Hope; East coast of Africa; Aden; Egypt; Barbary; Algiers; Ottoman Empire, Turkey in Asia; Turkey in Rurope.--Persia; Muscat; Gibralter; Malta; Ionian Islanda; Greece and Grecian Archipelago; Spain; Pottugul, Germany; France; Prussia; Switzerland; Austria; Bavaria; Italy; Sardinia; Tuscany; Itoman States; Two Sicilies; Venetian Lombardy; Holland; Russia; Hanseatic Towns, Hamburgh, Lubeck and Bremen; Belgium; Dennark; Sweden and Norway; Great Britain, England; Scotland; Ireland; Channel Islanda, Jersey Guernsey; English possession Fin America; west Indies; United States; Mexico; Brazil.

SCINDE.

Hovernor and Com. in chief -- Major General Sir C. J. Napier, G. C. B. Acquisition.-- This is one of the recent acquishions to the British territories in the East. The Government was formerly in the hands of the Ameers, who were dethroned and are now prisoners in Bengal. The territory comprises Upper and Lower Scinde; it is under the Bengal Government but chiefly garrisoned by Bombay Troops.

SHIKARPORE.--Is a large open town, inhabited principally by wealthy Hnidoo bankers--Indeed one of them, by name Jait Sing, and the wealthiest of his class, has got agents in almost all the large cities in Asia; and the great influence these extensive connections naturally obtained for him in Central Asia, proved not a little beneficial to him when the army of the Indus was encamped at this place and when it was considered good policy to expend money, no matter how, in the most lavish manner possible, with a view to give the Afighauns, whose country we were about to invade, a splendid idea of our great wealth and munificence.

In the hot season of theyear Shikarpoor is about the most disagreeable place in the world. From sunrise to sunset it is enveloped in a dense cloud of dust which make its way into every crevice.

Post mester.

Lieut. of Police.--Capt. J. Tuit, 6th B. N. I. Bankers and Meschauts.--Jait Sing; Mohun Sing.

SURRER.—or Sukker Bukker, is a very remarkable position on the right bank of the Indus, and must have been a place of great importance during the early period of Mahomedan rule in this country. The Indus here winding its way through an undulating country, has a large circular island in its centre and highs banks on both sides of its broad and noble stream. On the island is a strong fort, which completely commands the river on either side. This fort, which is called linkkur, and Sukker which is close to it, may be considered the strongest and heat position for an army on the Indus. At present it is the head-quarters of a strong brigade, and the connecting point of India, Upper and Lower Scinde, Bulloochistan, and Affganistan South.

The position chosen for the troops is rather unconnected, and, in a political point

fol view, open to serious objections.

# THE MAURITIUS:

Governor and Com. in Chief. Lt. Gen. Sir Wm. Gomm, K. C. B. Situation. An island in the Indian sea; the soil is generally fruitful .- Population, 110,000.

Climate. By no means unpleasant, - when the climate is hottest in India it is cool at Mauritius, but the island is applies to the visitation of harricanes.

Products. Sugar, Ebony, Coffee and Indigo.

Name.—The Dutch gave it its present name from Maurice, Prince of Orange. The French took possession of the island in 1721 and called it the Isla of France.

Port Louis. The Capital of the island is a scaport, and except during the S. W. monsoon not an unsafe harbour. It has the character of being an expensive place. There are two good hotels at which the charges are very high. The surrounding country is romantic, presenting every variety, where the waterfall, the cane covered valley and the steep, craggy, and must shrouded mountain mingle in happy combination. In the town every one walks about with the same indifferent regard for the sun's influence as in Europe. The houses are well built and the streets clean and regular

#### THE CAPE OF GOOD HOPE.

Governor and commander in chief. Lientenant General Sir Perigrine Maitland.

Country. The southern extremity of Africa formerly belonging to the Dutch

but now an English colony. The soil is generally parren.
Climate. Temperate and healthy. It has long been a sanstarium for the European residents in India, who resort bother in search of health. The deep and bright blue sky is rather painful to the eyes and injurious to the sight.

Products. Wines, fruits and grain in abundance

CAPE TOWN .- The capital of the colony is on the W. side of Table Bay Immediately at the foot of the mountain called Table mountain. The town is regularly built, parallel streets intersecting each other at right angles, many of which are shaded with trees. The town is divided into 12 districts and is under municipal regulations ; each district has 4 wards, the ward masters being chosen by the inhabitants. One of the principal duties of the ward musters is the classification and appraisement of landed property in Cape Town. The town is abundantly supplied with water by means of pipes. On the left of the town (entering from the Bay) stands the castle, a strong fortification commanding the anchorage. Here are also other works of defence as the Royge-Bay, Amsterdam, Charonne end the Mouille. At the latter place a lighthouse has been creeted in which a Prench lenticular light of the 4th order is in use, the old light still exists at Green Point. The Police are a body of men organized; upon the principle of the London Police and are consistened very efficient. There are several buildings for religious purpo-es. The established Du'chChorch is calvimistic; St. George's (Episcopalian) is a handsome edifice and in the Scotch church gas light has been lately introduced at night services by the present paster the Rev. Mr. McGregor A Roman Catholic Church of Gothic construction has just been completed. There is also a small Mahommedan mosque. The secular buildings worthy of notce are few : of these may be mentioned the commercial Hall on the grand parade containing apartments for public meetings, the Library and Exchaige (the Library contains about 30,000 volumes.) The buildings occupied for transacting the affairs of government are near to each other at the top of the Herrengracht. In the government gardens is sugated the residence of the Governor and a college for public education - the latter is arecent erection. Near the Royal Observatory, a magnetic observatory has been erected, where a series of observations are carried on - these were lately under the direction of captain Eardly Wilmot of the Royal Artillery. At Feldhausen, near the showy and pleasant village of Clavemon, an obelisk has lately been erected in memory of Sir John Herschel's scientific visit and residence at the colony. Wind, the chief experts of the Cape, are the product of the division of Stetten-bosch especially the Phart, Diakenstein and Wagenmakers valley. Considerable quantities of wood, hides, skins, horses, ivory, whalebone, provisions and various other articles are exported. The imports consist of Woodlens, Cottons, Hardware, &c. Piece Goods and Timber are imported from India, tea from China, Sugar from Mauritlus and India, and Coff e from Rio and Batavia. One particular commercial usage must not be torgotien. Sale of goods privately or by commission is a practice unknown at the Cape. The mode of disposing of products raw and manufactured is by public sale. Hence there are weekly sales

or fairs on the parade ground, every saturday. At this emporium there assembles every week a great number of persons and every description of goods are exposed for sale at Auction stalls Population 22,500. (last census.)

ALGOA BAY,-The seaport of the Port Elizabeth district and of the whole eastern province. The town has sprung up since the arrival of the English settlers in 1820. In the year just mentioned the late Sir R. H. Donkin caused a small cenotaph to be erected here in memory of his deceased lady and named the village l'ort Elizabeth , its population then amounted to about 35 persons and its trade was confined to the occasional visit of a consting vessel. Here are now several public buildings as the Offices of the commissariat and a place d'Armes, at a cost of about £12,000. The episcopal protestant Church, dedicated to St. Mary is a neat building, as is also the Court House. The port is furnished with a pier extending 350 feet into the Sea, by which the danger and inconveniences of the surface avoided. The black whale visits the coast between the months of June and September and gives employment to the whale fishery establishments. The port is at all times accessible and safe for the largest vessels and is a Free port. Population 3,000, almost entirely English.

### THE BOARD OF CONTROL OR INDIA BOARD.

In the year 1784, all the political parties in England had become convinced that some very material change in the Government of the East-India Company's extensive acquisitions of territory in Indian was indispensably necessary. In this crisis, Mr. Fox brought forward his famous India Bill, the grand object of which was to abolish both the Court of Directors and the Court of Proprietors of the Fast-India Company, and to vest the Government of India in the hands of seven commissioners, who were to be appointed by Purliament.

The condition between Lord North and Mr. Fox had rendered their administration exceedingly unpopular, and their opponents and the Company took advantage of the unpopulatity of the ministry to take an extraordinary clamour against this India Bill. The Company stigmatised it as an invasion of their chartered rights, and the opposition party represented the parliamentary nomination of commissioners as a daring invesion of the Crown, and an insidious attempt of the minister to render himself all powerful by means of the patronage of India. The Bill passed through the Courannes, but, in consequence of the popular ferment which had been excited about it, and of the avowed disapprobation of the King, the Lords threw it out, and the defeat overthrew the coalition

Mr. Pitt formed a new ministry, and in a new Parliament he secured a decided majority in both houses, and carried his India Hill successfully into a law, controlling the Company in the Government of India by a board of Royal Commissioners.

On the 18th of May, 1784, the Act of Parliament of the 24th of George the third, chapter the twenty-fifth, received the royal assent. It empowers the King to appoint six Privy Councillors to be Commissioners for the Affairs of India, one of his Majesty's principal Secretaries of state, and the Chancellor of the exchequer, for the time being, always to be two of them, three of whom shall make a Hoard, and the Secretary of State to be President, and in this absence the Chanceller of the Exchequer, and in the absence of both, the senior commissioner shall be President. The President has the casting vote. The King may revoke the commission at pleasure and appoint new commissioners.

The powers of this Board are very great; they have the superintendence and control over all the British territorial pes-e-sions in the East Indies, and over the affairs of the United Company of Merchants trading to the East Indies. The Court of Directors of the East India Company, must, if required, lay all their letters and papers to and from India before this Board, and received their orders, and if they are not contained therewith, they can appeal to the King in Council.

Neither the commissioners nor their chief Secretary are disqualified from being elected Members of Parliament. Commissioners are to have access to all papers belonging to the Company. The Company is bound to deliver to the Beard copies of all minutes, &c., of both courts, concerning the Government or revenue; and to obey all orders relating thereto; and in case of delay, the Board is empowered to forward its own despatches to India.

In 1786, the Act of 26th Geo. 111., c. 57. elected a Royal Court of Supremo Judicature in Iidia, and provided that Members of the Board of commissioners

should not compose part of the new comt.

The 28th of Geo 111., c. 8, empowered the Board to direct the payment in India, of the expenses of raising, transporting, and maintaining royal troops to the number of 8,045 men and of Company's European forces to the number of 12,000 men including, in both cases, the commissioned and non-commissioned officers And the 31st of Geo. 111, c. 10, extent the number of royal troops as much as 2,682 additional.

The Charter Act, the 33rd, Geo. 111, c 57, empowered the sovereign to appoint commissioners under the great seal; two Secretaries of state and the Chancellor Exchequer always to be included; three commissioners to form a Board; the commissioner flist-named in the commission to be President; and in his absence the next; whoever presides to have a casting vote. The, Board may appoint secretaries and officers; the solaries of the establishment to be paid by the Company quarterly; those to the Board not exceeding five thousand pounds a year, and those of the officers and others not to exceed eleven thousand pounds a year.

Commissioners and officers to take certain oaths. The powers of the first Board not to cease until the second Board is appeared, and their powers respecting troops continued. This act greatly extended the power of the Board over the Company; especially in giving them political power over the commercial affairs

of the Company.

The 87th Geo. III, c. 117, require the consent of the Board to legalize regulations of the Company for the India trade of nations in amity with the crown and cap. 142 obliges the supreme government to transmit to the Board ten capes of the regulations, issued by them in each year concerning all persons amenable to the provincial courts; also to a unsmit to the Board, for the royal nesent, all new forms of process for the courts of Judicature at Madras and Bombay. The 39th and 40th Geo. 111, c. 79, makes the Board necessary for appointing what part of the identification revenue or civil servants under Madras and Bombay should be under Fort William, Madras, and Bombay; and for changing such appointments. The 47th of Geo. 111, c. 68, renders the consent of the Coard necessary for establishing public Banks in India.

By the bist of Geo. 111, c 75, the Board received powers to augment its own expenses so as not to exceed the sum of twenty f vo thousand pounds a year.

The Charter Act of the 53rd of Geo. 111, c. 155, again added very greatly to the Board's power over the Company, especially in licensing ships and persons to proceed to India, it also required the approval of the Board to render valid any duties imposed in India; it gave the Board full power over all colleges and seminaries, abroad and at home; also over the apportionment of the territorial revenue, and of loans in India to the Company's trade, and forbade the Company to send out any despatches on the subject until approved by the Board; it forbade

the Secret Committee of Directors from disclosing any despatch without the authority of the Board, and forhade the company from filling up vacancies in India without the approbation of the Hoard, except in Council, generals on the staff, advocates, attornies, chaplains, uncovenanted servants, writers, cadets, and assistant-surgeons; the restoration of servants was declared invalid without the consent of the Board, and no gratuity above six hundred peends could be paid without the consent of the Board; this Act also empowered the Crown to grant superannuations to the officers of the Board. Again, by the 55th of Gen III, c. 64, sec. I, it was enacted, that no gratuity is to be given above £600, unless confirmed by the Board.

According to the established form of the India Government in England, the Board of Control consists of a first commissioner, who is President, of two active commissioners, together with several commissioners, inclusive of the King's principal cabinet ministers; but all these ex-officio and extra commissioners may be

deemed honorary as they do not receive salary or perform any duty.

From the year 1784 until 1793 his Majesty's principal Secretary of state for the Home department was always the President of the India Board, without salary, on this tooling Lord Viscount Sidmouth, Lord Grenville, and Lord Melville, were successively appointed. In 1793, Parliament changed the system, and the office of President was made a separate appointment, with salary.

The President has now been salatied for a period of fifty years, and in this short period no less than nineteen appointments have been made; even three new Presidents have been appointed to the Pourd in a single year. Sometimes, the Crown appointed a President who had made a voyage to India, as in the case of Lord

Buckin hamshire.

The other salaried commissioners are generally appointed in consequence of their claims on the party in power, without any reference whatever to their peculiar qualifications for controlling the affairs of India.

From 1784 until 1832 the India Board had but one secretary, since then it has had two secretaries; the secretary in like manner with the commissioners, is a political partisan of the minister of the day, who can get himself a seat in the House of Commons

The clerks do not go out of office with their patrons; they are fixed officers, brought up in the office, and tise by seniority. They give all their attention to their respective duties, and they understand the affairs under their superintendence well. Under manifeld disadvantages, the clerks are the recognized depositories of the Board's knowledge of the affairs of India.

In the year 1841, the number of clerks below the rank of senior was ten, and

there was a precis writer.

On the 7th of May, 1816, the secretary represented to the Board that he had been obliged constantly to employ a private secretery, and that he should on many occasions have been disabled but for such assistance from executing the Board's orders with punctuality and despatch, and that few persons in an official situation such as he had the honour to hold were without the assistance of some confidential and personal clerk

On the 25th of June, 1816, the Board made a minute, in which they said,—The secretary, together with the assistant-secretary and chief clerk, having represented te the Board that the number of clerks was by no means sufficient for the current miscellaneous business, and having auggested the expediency of taking advantage of the resignation of the then assistant-secretary to increase the numerical strength in the lower parts of the office, the Board determined not to fill up the office of chief clerk the duties of which were to be performed by the secretaries or, under their superintendence, by the junior clerks, whose number it was intended to augment. —The Board also allowed the secretary to employ a private secretary; and they directed, 'that in consideration of the laborious duties performed by the librarian, and his assiduity and diligence,' his salary should be increased to £300 per annum; and in pursuance of the same minute, the allowance to the assistant librarian was increased to £80. The number of junior clerks was accordingly increased from ten to thirteen, and private clerk was allowed to the secre-

In the year 1817, the removal of the Board to the separate office in Connen Row, rendered the appointment of a porter necessary.

On the 30th of September, 1818, the Board recorded their opinion that, considering the great weight of husiness which fell upon the chief secretary, the unwearied industry and attention with which he discharged it, and the length of time during which he had served, it was just and reasonable to argment his salary by £200, making it up in the whole to two thousand pounds sterting a year; and, that in future it would be expedient that the secretary's salary, commencing at £1,800 a year, should receive an augmentation of £200 at the end of five years, of £200 at the end of seven years and of £300 (making in the whole, £2,500) at the end of ten years' service. The Board also took advantage of the saving produced by the retirement of one of the senior clerks, who received a spacial allowance, not continued to his successor, to meet the increased and increasing business of the office, by the appointment of two junior clerks. On the 15th

On the 26th of March, 1820, another junior clerk was appointed. On the 15th of April, 1822, the Board expressed their opinion that the office of deputy-occupant might properly be abolished, that the officer performing his duties, should be 'assistant' to the accountant; and in the same year the Board deemed it adviseable to establish a new scale of rank in their establishment, by interposing six 'assistant clerks,' between the senior clerks and the junior clerks

In purspance of the Board's minute of the 16th of December, 1828, the title of accountant' was changed to that of senior clerk in charge of the department of accounts,' and the officer having such change is included among the six serior clerks; and on the 10th of February, 1824, the allowance to the assistant-librarian was further increased to £100 a year.

On the 25th of April, 1826, the Board found it necessary, for the better management of the public business to separate the judicial from the revenue department, and to appoint a sixth senior clerk as head of the judicial department.

On the 25th of June, 1828, the secretary's solary was fixed at two thousand pounds, without regard to length of service, but the Board, adverting to the state of the finances of the office, and to the power vested in them by his Majorty's warrant, of making such suspensions or abutement of the salaries therein allowed, as from time to time might to them appear necessary, in order that the wholes amount of the salaries and expenses of the Board might not exceed the sum of twenty six thousand pounds in any one year,' directed that a suspension should be made of the salary of the secretary to the amount of two hundred pounds; they also suspended from the first assistant clerk fifty pounds, from the birth and tenth assistant clerks, each twenty-five pounds, from the first messenger twenty pounds, and from the second messenger thirty pounds; and at the same time the Board increased the number of junior clerks by one more to the number of twelve, making in all, below the rank of senior clerk, the number of eighteen assistant clerks and junior clerks, by which the establishment or the Board included the appointment of one serior, one assistant, and two junior clerks to each of the six departments into which it is divided; namely, secret and political, revenue, judicial, military, public and ecclesiastical, and accounts

# COURT OF DIRECTORS OF THE EAST INDIA COMPANY.

The Court is composed of twenty four (not of thirty') proprieters, qualified by Act of parliament and chosen by ballot from the body of the electors. The necessary qualifications are natural-born or a naturalized subject of Great Britain, --the possession of £20,000 stack, no matter for what previous period in his own sight or for his own use, not being a Director of the Bank of England or South sea Company, a Resident in England for two years time holding office in India, or having held no maritime office in the service of the Company for two years previous to his proposed election, and not having under any plea or pretence whatsoever, endeavoured to obtain directly or indirectly a vote for the election of himself or any other person to be a Director. If elected he takes a solemn outh in pursuance of an act passed (the 33d George III.) of which the following is the substance: After binding him to carry on no private trade, to have no dealings with the Company except as a private individual, not to hold any place of emolument under the crown :- He further swears not to accept or take either any emolument or present for any appointment or nomination of persons to any place or office in his gift, or that of the Company, or on account of appointing the voyage of any ships in the Company's employ, or on account of, or any ways relating to any orther husiness or affairs of the Company, and further awears to be fulthful to the Company, and according to the best of his skill and understanding to give his best advice and assistance for the support of the good government of the Company, &c.

The bye-laws enact that a Director must make a report to the Court previous to leaving England; he has no power to remain beyond the seas more than one year, and is liable to removal by the Court of Proprietors; every Director absent on a Court day is fined £1.1s. Six Directors retire annually by rotation and are not again eligible for one year, and in case of death or removal, the Director who may be chosen to fill the vacancy, holds it only during the remainder of the term which his predecessor had to serve. Seven menth's public notice is given of any annual election; printed lists of members, qualified candidates, are published thirty days before any election. A chairman and deputy chairman are unually chosen by hallot. The Court must meet at least once in every week; not less than thirteen Directors form a court; on all questions of importance the sense of the Court is taken by hallot, and in ease of any equality of votes, the drawing of a lot by the

Treasurer determines.

The Court of Directors enjoy full authority over all matters at home as well as abroad, relating to the political, fluuncial, judicial, military, and commercial affairs of the Company, (with the exception of matters of the highest importance entrusted to the Committee of Secreey) but its proceedings are subject to various acts of Parliament, to the superintendence of the Board of Control, and in several

matters to the approval of the General Court as before detailed.

The Court of Directors have the patronage of India, and they have power to remove any officers or aerosats, except these appointed by the Crown. They are to lay certain accounts amountly before Parliament; to frame regulations for the trade of friendly untions with India; and to report half-yearly on recruiting. They expend the revenues of India, and their declaration of an officer not having settled his accounts, renders him meligible for the direction, for two years after his return. They are to frame estimates of Home expends; and to regulate the premalgation of laws in India. They can suspend the Council bourds in India, or reduce the number of their members. The Court of Directors regulate the distribution of patronage in India, and they are specially directed to take into their consideration, all drafts of laws respecting slavery in India, transmitted from India, and to give instruction thereon.

for the better fulfilment of these multifarious duties, the Court is divided into

Departmental Committees, with distinct subordinates.

The Chief committees, of the court are as follows:

Becretary Committee.

Reserve, Judicial & Legislative committee.

Military and Palitical Committee.

Committee of Secretary.—The Cabinet Council of the Company..-Functions ministerial,—defined by act of Parliament, composed of the Chairman, deputy Chairman, and senior Director, who receive and deliberate on all despatches of the highest importance relative to peace, war, or negotiation abroad, and all matters of a delicate nature at home, confer with the Board of Control thereon and officially sign private despatches from the Board, the responsibility and power re-

maining with the latter

The mode of transacting the business of the E. I. Company with the Governments of India is as follows. Despatches from India are on their arrival delivered to the proper department, and when necessary to address the Governments, either in answer to de-patches or otherwise, a draft is framed under the superintendence of the Chief of the Department to which the business belongs. The draft thus prepared is submitted to the Chairman and Deputy Chairman, and when approved by them, is usually (if of an important nature, or upon a subject on which any serious difference of opinion is likely to arise) transmitted in what is called 'previous communication' to the Board, who return it with such alterations as they desire to be made. - The views of the Board having been thus ascertained, the draft is either altered to meet them or not, as the chair may determine, and in the state which they approve, it is laid before the proper Committee, by whom it is considered and torwarded to the Table of the Court. There it undergoes full disenssion, and in the form finally determined by the Court is transmitted Officially for the approval of the Board. If returned approved, it is despatched to India forthwith; it altered, the alterations become the subject of fresh consideration and (If at variance with the impressions of the Court) of correspondence and remons strance When the final decision of the Board is obtained, the altered draft iforwarded as a despatch in the form mentioned.

In some cases where no necessity appears for making a Draft, the subject

of the proceedings is dispensed with.

The preparation of drafts sometimes requires communications between different departments of the house, these do not assume formal (haracter, they are made either personally or by transferring the papers accompanied by short unofficial notes memorands.

#### THE COMMITTEE OF BY-LAWS.

The Charter of 1698 invested the general court with the power of enacting by-laws; and the first general court of the United Company appointed Committee of filteen proprietors, of £2,000 of stock, to trame by-laws. Their code ordained that, that thenceforward, a Committee of seven was to be ballotted annually, in June; but, in 1716, the General court dispensed with the ballot, and substituted a show of hands; and in 1775, a motion to revert to the ballot was negatived. The Charter Act of 1813 rendered a revision of this code necessary, and then much labour devolved upon the Committee. The code is to be read annually in each court. In the long period of the theirty years which elapsed from 1786 to 1816, the Committee of by-laws made but two reports to the general court, and during the space of seven entire years, it had not even metatuli. In June, 1814 at the first Midsummer meeting after the Charter was renewed, in consequence of the old Committee having never been in the habit of meeting to discharge their duties, some proprietors intended to expose their neglect, but the chairman reappointed the old Committee of seven. Even then, the subject was brought torward, and the Company felt the need of a reform in the Committee.

The Committee appointed to inspect the Company's by-laws met at the India House, and, on the litth of February, 1815, they made a report, recommending

various alterations.

Amongst the alterations, made, the following may be noticed the Company's books of thome accounts had been balanced on the 3 th June; but because their India accounts and parliamentary accounts were brought up only to the 30th of April, that date was adopted for the Home account also, as tending to exhibit a more correct view of the pecuniary concerns of the Company. The seconds of each Presidency were in future to be signed by the accountant—

general, on pain of dismissal on refusing or neglecting to sign them. In the annual account laid before the proprietors, the proviso for including the guarantee fund was now omitted, because the new Charter Act directed the way in which that fund was to be appropriated. The General accounts of the Company must consequently exhibit its amount and application; and therefore that part of the old by-law became unnecessary. The charter of 1793 had obliged the company to supply tonnege for private trade; but now the India trade was opened to private British ship; and therefore the rule for accounts of this tonnege was abroyated. A more correct obeck on the treasury account than that resulting from the old by-law was also recommended for adoption. Heretofore, the law was, that every tender should be entered as the same is received, and remain upon the records of the Company; but because many of the offers for goods contained so much extraneous matter, and are so long and incoherent, that the entering of such into a book was a work of very great labour and of no apparent utility, it was now ordained merely ' that an abstract, containing the substance,' should be recorded. As the proprietors of private trade now abtuined, the right to direct the sale of their goods when they please, the old by-law on the subject became useless, and therefore it was dropped in framing the new code. In drawing from the bank, instead of the cashier's signature being aufficient, it was proposed, as a more secure check on the Company's cash, that the signature of a chairman and of another director, countersigned by the cashler, should be requirad, and that only the cashier should present the draft for payment. The Secret Committee of Directors, which existed previous to the Secret Committee enacted in 1793, was revived for the management of such part of the commercial affairs as might be of a nature to require secrecy. Committee of Directors had been obliged to report immediately to the Court of Directors; but now, in order to enable absentees to inform themselves on points discussed, previous to reporting, fourteen days were allowed for the report. The Committee of Shipping was abolished, and those of buying and warehouses were united into one.

In order to invest the chairman with the same power as in most other corporations, it was proposed to invest him with power to call a Court of Directors as often as he thought fit, and that no Director should quit the Court without leave of the chairman. Superannuations of the Home Establishment not to be laid before the general court, but gratuities exceeding £600 to be reported to a special general court being submitted to the Board. A committee empowered to license exports on the Company's ships, as it would be extremely inconvenient to have the sense of thirteen Directors on such matters. Licensed ships to be reported annually. The Company now allowed the Court of Directors to invest the Company's money in shipping for the general service of the Company, that

is to hold Indiamen.

In 1816, the Committee was increased to fifteen members, and was obliged to meet, at least, twice a year; and up to the year 1829, it actually met fifty times. In 1835, the Chairman of the Company said, that on no occasion, within his memory, had it happened that a nomination from the chair had been set uside.

# BY-LAWS FOR THE GOVERNMENT OF THE CORPORATION OF THE EAST INDIA COMPANY.

# CHAPTER I.

SEC. 1.—It is ordained, that the books containing the general accounts of this Company in England shall be balanced to the 30th day of April, yearly, and the balance be drawn out with eix calendar months after the receipt of the Indian books of account, corresponding in period with the books about to be balanced

in England.

SRC. 2—Item, It is ordered, that the books of this Company's affair in India shall, once every year, be balanced in every of the said Company's stations the 30th April in each year; and transcripts or copies thereof, signed by the chief civil servant of each station, and those from the Presidency by the Accountant-general, shall be sent to Kagland by the first opportunity following; that those persons, whose duty it shall be to make up the same, and who shall refuse or neg-

lect so to do, shall become liable to dismission from the Company's service; and that those accounts, when prepared, shall be accordingly transmitted to England

by the first safe conveyance.

Suc. 8.—Item, it is ordained, that the Secretary or his assistant in the department of accounts or such other officer as the Court of Directors may appoint, with the person keeping the journal in that department, do, within fourteen days after the end of every month, examine all entries of receipts and payments of that month by their respective vouchers, and the additions and balance thereof and sertify under their hands, upon the cash book, that they have so done, and how they find the same.

### COURT OF PROPRIETURS.

In the 'General Court' there is no distinction as to citizenship, the Englishman, the Frenchman, the German, the inhabitants of any nation, are eligible as Members. There is no difference as to religion; the Christian, the Jew, the Turk, the Pagan, the Professors of every or of no creed, are equally admissible; there is no impediment us to sex; a woman as well as a man is entitled to the free exercise of her opinion in this assembly; there is no aristocratical bar, the soldier and the sailor, the merchant and the agriculturist, stand on the same footing; and to all this must be added the elective voice of the British people is fast hastening the use of the vote by ballot. The new act authorizes a vote by power of Attorney.

The qualifications for sitting and voting are thus regulated:

The Court is convened regularly four times in every year, in March, June, September and December, and at such other times as may be deemed necessary for special purposes, nine qualified proprietors being empowered to address a requisition in writing to the Court of Directors to convene a Court, which not being summoned within ten days, the aforesaid proprietors may call such acceting on their own requisition, previously affixing notice to that effect at the Royal Exchange.

The annual average of courts held is about twelve.

The chairman of the Court of Directors is ex officio the speaker or chairman of this court; it is duty is to attend to the summoning and appointing of the quarterly assembly, to convens special courts, to provide at all meetings, to introduce to the notice of the court all business arrong out of only measure which may have been adopted by the Directors; to bring forward all motions which require the sauction of the court, to lay annually before its members accounts showing the net profits of the Company in Great Britain, and the application and disposition thereof; a general statement per computation of the Company's affairs to the 80th April in each year; such accounts and papers as may from time to time be laid before either flouse of Parliament by the Court of Directors, and all proceedings in Parliament, which, in the opinion of the Court of Directors, may possibly effect the rights, interests, or privileges, of the East India Company gene-

rally, before the same shall have passed into a law. The following powers are vested in the Court. The election of all qualified persons to form the Court of Directors, the accharation of dividends on the capital stock of the Company subject to certain legislative enactments. The fluming altering, or repealing such by-laws as may be deemed necessary for the good government of the East India Company, provided such do not interfere with any Acts of Parliament. A general control over any increase to a salary or pension exceeding £200 a year, or over any grainity beyond £600, over the creation of any new office at home or abroad, with a salary exceeding £200 or over supersnmusted allowances to officers and servants in England. The Court can confer a tribute of approbation and a pecuniary reward on any statesman or warrior whose services may seem to them worthy of such manifestations of popular gratitude; should the donation however, exceed the sums before mentioned, it is subject to the confirmation of the Board of Control; it can also demand copies of various public documents to be laid befor it for discu-sion and consideration; but by Act of Parliament it is prevented rescinding, suspending, revoking, or varying, any order or resolution of the Court of Directors relative to the Revenues, or civil or military Government, after the same shall have received the approbation of the Board of Control.

# ORDERS OF KNIGHTHOOD.

ORDER OF THE BATH.

Instituted 1399; Revived 1762; Extended, 1815, Motto Tria Juncia in Uno - RIBAND, Red.

This order consists at present, exclusive of toreign and honorary members, of nearly 800 individuals, of whom 27 are Civil grand Cross, 15 honorary Knights grand Cross, 12 honorary Knight Commanders, 27 honorary Companions and the remainder Naval und Military Officers.

By statute, Jan., 2, 1815, it is ordained, "for the purpose of Commemorating the auspicious termination of the long and arduous contest in which this Empire has been engaged," that the Order shall be composed of three chases, viz :

1st CLASS .- To consist of Knights Grand Crosses number not to exceed stventy-two, exclusive of the Sovereign and Princes of the blocd Royal; twelve of the number may be appointed from the Civil and Diplomatic Services. This dignity not to be conferred upon any Officer (except the above twelve) who shall not have attained the rank of Major General in the Army, of Rear Admiral in the Navy, and must have been previously appointed to the second class.

30 CLASS .- Knights Commanders, number not exceeding upon the first Institution, one hundred and eighty, exclusive of Foreign Officers holding British Commissions, of whom not exceeding ten may be admitted as Uonorary Knight Commanders, in the event of actions of signal distinction, of future wars, the number of this Class may be increased. To be entitled to the distinctive appellation of Knighthood to have the same rights and privileges as Knights Bachelors, but to take a precedence of them; to wear badge, and pendant by a red riband round the neck, the star embroidered on the left side.

35 CLASS -- Companions of the order not limited in number, they are to take precedence of Esquires, but not entitled to the appellation, style, ke of Knight. Bachelors. To wear the budge assigned to the 3d class, pendant by a unriow riband to the button hole. No Orlicer can be nominated unless he shall have recoived a medal or other badge of honour, or shall have been especially mentioned

in despatches in the Gazette, as having distinguished himself in action.

The new badge for the Military clusses of the order, is a gold Multese Cross of eight ponur, enamelled argent in the four angles a tion passant, guardant, or in the centre, the rose, thistle, and shamrock, issuant from a sceptre between three imperial crowns, or, with a circle, gules, -- thereon the motto of the order surrounded by two branches laurel, proper, i-suing from an escrol azure inscribed" lch Dion" in letters of gold, worn by the Grand Crosses pendant from a red riband across the right shoulder by the Knights Communder- from the neck, and by the companions from the button hole. The collar is of gold, weighing thirty ounces, of troy weight, and is composed of nine imperial crowns and eight roses, thistle and shamrock, issuing from a sceptie, enamelled to their proper colours, tied or linked together with seventeen gold Knots, coamelled white, having the hadge of the order pendant thereto. The Ster of the Military Grand Crosses is formed of rays of flames of Silver, thereon a gold Maitese Cross, and in the centre, with the motto, branches of laurel, issuant as above described three imperial growns of gold and is worn on the side

The Civil Knights Grand Crosses retain the old badge and star of the order.

No Knight can wear the collar before his installation.

The Star of the Commanders is in the form of a Cross patee of Silver, having the same centre as the Grand Crosses, but no gold Maltese Cross thereon.

#### ROYAL HANOVERIAN GUELPHIC ORDER.

This order was instituted by the Prince Regentin the name of His Majesty Geo. 111 " King of Great Britain, and Hanover," in 1815. The badge is a gold Multese Cross of eight points surmounted by a Crown, and bearing on its Centre the white Horse surrounded by the motto "Nec Aspera terrent." Ribbon, sky blue, watered. On the death of William IV, the power of conferring this distinction passed, agreeable to statue 11, to the Crown of Hanover, but it still enrols 583 British Members, admitted before that event--- of these 67 are Civil and 135 are also Members of the orders of the bath. The following are extracts from

Royal Ordinance of Institution dated "Cariton House, 12th Aug. 1815"

I. This new order of Knighthood is to be considered as instituted from the 12th August 1815, and to be styled the Guelphic order, in commemoration of several important events. For the more particular splendour of this order the office of Grand Master is for ever to be vested in the Crown of Hanover, IV. The order is to consist of three Classes, Grand Crosses, Commanders and Knights, VI. Only those of our servants and subjects are to be received into the order who have not only performed their services according to honor and duty, but who have particularly distinguished themselves or performed extraordinary services for their country. VII. This order gives to those who obtain it, exclusive of the considerat jon for their services, not only precedence before those of their mank who do not possess it but gives to those who are not noble, for their person all the rights of nobility, and the admission to our Court attached thereto.

Supplementary in order to give this our order greater value higher dignity we do hereby Command that such persons only shall be received therein who are of good descent, and birth, possess arms, and are of unimpeachable

, II. It is our Royal will, that the Blank Coursier Herald shall obtain the Arma of the different Knights, and place the same as well on the Chapel of our Palace at Henover, as in the Ancient Hall of Knights, there, the Arms to be pieced on a Copper plate within a Sky blue Circle bearing the Motto "Nec asperoterrent" in letters of gold surrounded, if a Military person, by a wreath of laurel; if Civil, by wreath of Oak. Under the Arms shall be engraved the name and rank of the knights, also the date of their reception, as a durable remembrance to posterity of their distinguished merit and services.

111. Grants to the grand Crosses, the right of using the Collar Circle, Motto, wreath and budge with their Armonal bearings, and to commanders and Knighta the same insignia with the exception of the collar.

### ORDER OF THE ROYAL HANOVERIAN GUELPHIC. ENIGHT COMMANDER.

Captain	Sir J. N. Campbell.*  KNIGHT.	Mudrits	25th Aug	1844
Surgeon	KNIGHT. James Burnes.	Bombay	ďο	

LONDON .- The metropolis of Great Rritain and the emporium of the civilized world, is one of the largest and most opulent cities in existence. It is situated on the Thames at 79 miles distant from the mouth of that river, which is navi-Kable for the largest description of sessels. London consists of several districts. cities in themselves, each represented in Parliament. These districts consist of the city, or Loudon within its ancient boundaries, the city of Westminster, Borough of southwark and the recent incorporated Boroughs, Tower, Hamlets, Marylehone and Lambeth, including an area of seven inites to length and averaging upwards of two miles in width. The public buildings are numerous and migrificent, the private residences noble and the shops of business elegant and commodious. It is the emportum of the liberal ares and literature as well as trude. There are numerous inns of court, two universities, colleges and learned societies, scientific institutions and seminaries. Its cleanliness, supply of water, and the artificial lighting of the streets at night are without equal. Taken as a whole the metropolis of England is incomparably the greatest city of modern or ancient times. Population 1,500,000.

which the applicant may belong.

Sec. II. The Official allowances of the holder of a civil office quitting his station without leave will entirely cease from the date of his quitting until his return, or in the event of his subsequently obtaining leave to the date of such leave being granted to bim.

Sec. 111. No leave of absence shall have any retrospective effect except in cases of severe illness, to be attested by a medical certificate, conforming in every respect to the directions contained in Section V.

The leave with restrospective effect referred to in this section, is leave extending to absence antecedent to the permissions of the Government-that is to absence in anticipation of original leave without the excuse of sickness. Vide Resolution of the Government of India, dated 14th April 1841.

See. IV. Upon application duly made, the Government of each Presidency may grant leave of absence to any place or places in the Continent of India, whether within the territories subject to the Government of the East India Company or not, to any Civil or Military Servant holding a civil appointment, subject to all the conditions prescribed in the sules that may be applicable to his case. Upon similar application the Government of each Presidency may also grant leave to such persons subject to the like conditions, to proceed to the Island of St. Helena, the Colony of the Cape of Good Hope, or to any place situated between the 36th Degree of North Latitude and the 50th Degree of South Latitude, such place being likewise between the 30th and the 180th Degrees of Longitude Rust of Greenwich, excepting however any Islands in the Mediterranean or Levant, and excepting all places within the said Geographical limits which may form part of Europe. Provided also, that if at any time the Government of India shall deem it expedient to exclude any place or places within the limits above described from the operation of these rules, such exclusion shall be officially communicated to the subordinate Governments, and all leave subsequently granted shull be regulated accordingly. A Servant passing the limits herein prescribed will incor the immediate forfeiture of his office or employment, and of all official allowances whatever from the date of his quitting India.

# Rules for SICK LEAVE.

Sec. V. When an application for leave of absence is made on the ground of ill health, it must be accompanied by a certificate from the Medical Officer by whom the applicant has been attended, distinctly stating from personal observation, the nature of the disease, the symptoms by which it is manifested, the period during which it has existed as far as the knowledge of the Medical Officer extends, and the necessity for temporary removal to some other place either within the Territories subject to the Government of the East India Compuny or beyond them, but within the limits laid down in Section IV. as the case may be; and such certificate must be submitted to the consideration of the Medical Board, and if satisfactory, shall be countersigned by one of its Members. An application for an extension of leave must, if the applicant be in India, be accompanied by a certificate from the Medical Officer by whom the applicant is attended, shewing sufficient reason for the extension solicited, and such certificate like the former must be examined and countersigned by a Member of the Medical Board. If the applicant shall have proceeded beyoud the Territories under the Government of the East India Company, he must furnish a certificate to the required effect from a Surgeon or Physician at the place of his temporary residence by whom he has been attended, such attendance and the period of it to be strted, and the certificate to be countersigned by the principal Medical Authority of the Colony or Country. When any of the required particulars are neglected leave will be refused.

(a) Sec. VI. Civil Servants absent from their Stations under Medical Certificate, within the limits of their respective Presidencies, shall be entitled to the Salaries of their offices for the period of two years, subject to a deduction of for the whole term of such absence, save and expected that for the first year; if the Salary be not more than 500 Rupees per mensem, no deduction shall be made, and if it be only so much more than 500 Rupees that the prescribed deduction of f would reduce the allowance below that sum, only the

In explanation and modification of this section, the Governor General in Council is pleased to resolve, that in cases of extreme urgency, which owing to the distance of the re-idence of the Medical Board, preclude the previous reference to that authority, the certificate of the medical attendant required from applicants for leave of absence on account of ill health, shall be submitted, by them for the consideration and countersignature of the Superintending Surgeon of the Division, or of the nearest Division, which Officer, in these cases, will be responsible for the prescribed regularity of the certificate, instead of the Medical Board. Vide Resolution by the Government of India dated 24th June 1840.

All civil servants on obtaining Medical Certificates agreeably to the provisions of this Section, shall forward them immediatly to Government, and such Medical Certificate when passed by the Medical Board are to be handed up by the Board direct to Government; the requisite application for leave being at the same time submitted by the Civil servant requiring it. Vide Notification by the Government of Bombay, dated 17th June 1841.

Applicants for sick leave must not leave their stations without previous permission obtained from Government except in cases of absolute necessity vide Notification Bombay Government dated 2-nd Ephruary 1842.

A locuntenens is not entitled to any higher allowances in the event of the party, absent on sick leave for whom he is acting vacating the appointment, and in the event of his succeeding thereto the higher allowance to commence from date of appointment. Vide Notification by the Government of India, dated 17th August 1842.

2.—A servant is not allowed to be absent, retaining Office or Employment," or portion of Official Salary, for a period exceeding two years; but extension of leave may be obtained on account of sickness duly certified, and during such extension the Absentee is authorized to draw the subsistence allowance of the rank. If the absence be beyond the Territories of the Presidency to which the Servant belongs, it is to be computed from the date of his quitting the limits of his Presidency to the date. of his return within those

excess beyond Rs. 500 shall be deducted but for the second year, the full deduction shall be in force. An absent Servant, whether Civil or Military, shall in no case retain, any ivil office or employment, nor be permitted to draw any portion of official Salary for a longer period than two years, but a Civil Servan who may on account of sickness, duly certified, obtain an extension of eave beyond two years, shall if his period of actual residence be less than 12 years, be allowed to draw the second rate of subsistance, and if the period of

such actual residence be !2 years, the highest rate of subsistence allowance. but if he continue absent in disobedience of an order to return, or without sufficient cause shewn, that allowance also shall be forfeited. The period of absence shall be computed from the date of his quitting his Station to the date of his return thereto. Vide amended Section, passed 17th May 1843, Page 42.

Sec. VII. Civil Servants absent on leave on account of sickness, duly certified, if they proceed to England without returning to their Presidency, may as heretof re, apply to be admitted to Furlough by the Honorable the Court of Directors, and the Purlough in such cases take will effect from the date of leaving their Fresidency, consequently the allowances of office that may have been drawn by them-elves or their Agents after their departure, must in that case be re-adjusted, and the difference refunded.

Sec. VIII. No second leave will be granted to any Civil or Military Servant holding a civil appointment who has been absent under the above rules for two years, until three at the least shall have passed after the date of such Servant's return, but if such Servant is compeled by sickness again to absent himself from this station within three years after having been sent under the above rule for less than two years, he will be allowed to complete that period subject to the limitations and conditions heretofore prescribed, drawing the proportion of salary allowed for the remaining time as if the leave had been continuous.

A second leave of this kind cannot be granted until three years at the least shall have passed after the date of such servant's return, but any time short of two years in a previous absence may be subsequently allowed in completion of two years. The Note attached to section VIII, specifies that this Rule applies to all descriptions of leave on account of health excepting those granted under section XII. vide Resolution of the Govt. of India, dated 14th April 1843,

dated 14th April 1841.

(a)An absenteeservant hall in no case retain any office or employment nor be permitted to draw any portion of official salary, for a looger po-riod than two years.

After two years of absence, continuous or accumulated, under these Rules if a servant obtain leave of absence on sick certificate before an interval has passed of three years,

, he cannot retain office or employment, or any portion of official sulary, but he is entitled to the subsistence allowance of his rank. The rule in section VI., if literally interpreted, would require the servant returning from beyond Sea, whose full period of two years has been expired between the date of his embarkation, and the date of his return within the limits of his Presidency to be re-appointed to his Office. For the time spent in joining his station in excess of two years, he is entitled to draw only the subsistence atlowance of his rank.

It is not provided that in cases in which the full period of two years absence is composed of accumulated leaves, the intervals of time passed in the performance of duty shall be reckoned in part of the three years which must expire before a servant is eligible to a new series of leave.

But if this were not allowed, the operation of the Rule might be unintentionally severe on a servant, whose health should compel him to obtain leave 🐠 absence for a portion of the two years, say for only a month at the extremity of the three years after the date of his return, the same servant having been already absent for 23 months either all at once, or his absence at different times having accumulated to 23 months: it would not have been intended by the Rule that after 35 months of duty being entitled to one month on the account of the old score, a new series of leave or a single instance of leave on sick certificate should not be obtainable for three years from the expiration of that one or 36th month.

The Rules do not prescribe any different rate of deduction from allowances during ab-ence on sick certificate within the Territories of the East India Company and during similar absence at the Cape of Good Hope, or within the limits out of the Territories of the East India Company, declared in section IV. But they fix the computation of the servant's absence beyond the Presidencies to be from the

date of tenving to the date of returning to the Port of his Presidency.

The Rules provide sufficiently for the audit of his allowances after two year's absence beyond Sea, until the servant resjoins his station, but they do not specify what rate of deduction is to be made from the Absentee's allowance for the time elapsing after departure from station and before embarkation. This therefore has required to be provided for by a new Regulation, or by some exposition of the

existing rules.

The Rule that admits of an absence of two years, enables a sick servant to reside sufficiently long in another climate under ordinary circumstances to re-establish his health; for which object that protracted absence is permitted, when certified to be necessary. Forfeiture of appointment therefore, does not take place tilla full two years have transpired between embarkation and return to Port the latter part of the section VI. be taken to computation of absence as respects appointment, the course of the audit will be easy : For two years reckoning from the departure from station, to return to station, the deduction will be as laid down at the commencement of the section, and for any excess whether occasioned by the time clapsing before embarkation or after return to port until return to station, the servant will be entitled to subsistence allowance without loosing his appointment. Vide Resolution of the Govt.of India, dated 14th April 1843.

Sec. IX Military Officers employed in the Civil Department and drawing a Civil allowance may obtain leave under medical certificate on precisely the same conditions as Civil Servants, except as to allowances. Such officers in common with those holding staff situations in the Military Department will draw the Military Pay and Allowances of their rank while absent on leave under medical certificate, in the form and manner prescribed in General Orders in the Mulitary Department, and likewise one-half of the difference between such allowances and the

civil pay of the offices to which they stand appointed.

Sec. X. Civil or Military Servants holding civil appointments who may desire to avail themselves of the benefit of the Act 1. Vic. Cap. 47. and to draw their allowances while absent on account of sickness under the above rules, will be required to give security in such amount and form as may be fixed by the Government for the refund of any excess that may be drawn, either by the Agents at the Presidency or by themselves, in case of their proceeding to Europe on

Furlough or otherwise coming under retrenchment.

Sec. XI. The Government of each Presidency may granted to Civil or Military Servants holding civil appointments leave of absence for one month in each year without deduction from the salaries and encoluments drawn by such Servants. Such leave however will only be granted when the Government is satisfied that no inconvenience will arise from the departure of the Officers seeking it. No second leave can be granted under this rule until the completion of eleven months from the expiration of the last leave, but Servents, not availing themselves of the indulgence in any one year may obtain, under the like conditions, leave of absence for two successive months,

The design of this Rule is to grant one month's leave of absence without loss of Salary to the Servant who is present at his duty for the periods specified; vide Resolutions of Govt. of

India, dated 14th April 1844.

It in consequence of sickness a Servant exceeds the leave of absence granted to him under this Section be must be considered absent under the provisions of Chapter 11. for the whole time of such absence, and the orders that would be passed on his Medical certificate application must be in conformity to those provisions and take effect for the whole period of absence; vide Bombay Govt. piration of 33 months from the termination of the last preceding leave. But no leave -hall be granted under this rule for any period exceeding three months. If an Other shall not return at the expiration of the period of leave granted him under this rule, he shall, if absent on private affairs, be subjected to the deduction of one-third of his salary and allowances for the entire term of absence, and if he shall continue absent for more than one month beyond the term granted, his office shall become vacant. If his protracted absence be occasioned by sickness, the case must be determined under the provisions of Chap-

ter II. Vide amended Section passed 17th May 1843 P. 42.

Sec. XII. The Government of each Presidency may, on sufficient cause being shewn, grant to a Civil or Military Officer holding a (ivil Office special leave of absence on private affairs. Provided however that if any Officer to whom such leave shall be granted shall be absent from his Station for any period exceeding that to which under the last rule he may be entitled without deduction, the Absentee, if a Civil Servant, shall for the period in excess draw no more than one-half of his Salary and allowance, and if a Military Officer, only so much of the Salary and Allowances of any Civil Office to which he may stand appointed, as added to the Military Pay and Allowances which he may be entitled to draw shall equal one-half of the emoluments of such civil office. After an absence of three months (exclusive of any period which may be granted under Sec. X1.) any Office held by the Absentee shall become vacant. No second leave under this rule can be granted until after the expiration of five years from the termination of the former leave, and the Government is specially to report each case with all the attendant circumstances to the Court of Directors. Vide amended Section, passed 17th May 1843 P 42.

The sum of Company's Rupees 52,200 per annum having been fixed under the orders of the Court of Directors as the maximum salary of civil office for the Offices of Government under the situation of Member of Council—Civil and Military Servants holding Office in the Political Department, who may draw larger Allowances than this annual sum as a consolidated personal and sumptuary allowance in consideration of the necessary expences of their position, will in all cases of absence be treated in respect to deductions as drawing only the Allowance thus limited, Note.—This rule will equally apply and the excess above the monthly sa- in case of a Political Resident taking

ing only the Allowance thus limited, and the excess above the mouthly salary yielded by that amoual sum, shall remain as a local addition to the usual Deputation Allowance to be drawn by the Officer performing the duties to meet the necessary expense of his position. Vide amended Section passed 17th May 1843. P. 43.

Note.—This rule will equally apply in case of a Political Resident taking a leave of 3 months for which in other cases he would suffer no deduction—The excess above the maximum monthly salary will in that case be enjoyed by the person in charge.

Sec. XIV. Deputation Allowances shall be granted to 'civil servants temporarily performing the duties of an office according to the following scale, and subject to the limitations and conditions hereinafter laid down.

A Civil Servant acting for another will have no claim to Commission or Fees, where any such sources of emolument exist. These will be regarded as forming part of the income of the Officer to be relieved, subject to the prescribed deductions. The grant of special allowances—of allowances to Commissioners, and other Officers of Districts or Assistants when employed on settlement or special police duties, will be regulated by a supplemental set

Note.—Military persons acting for other Military persons holding civil office, will, as in the case of staff, draw half the difference between the incumbent military allowances, and the consolidated civil salary as at present, that is, will draw the amount retrenched from the absentee, but when acting for a Civil Servant they will draw at the rates of this table, and under the same rules as Servants.

will be regulated by a supplemental set of rules. Vide amended, Section passed 17th May 1843. P. 42.

Sec. XX. No Civil Servant temporarily officiating for another shall draw an amount larger than the entire emoluments of the office in which he is officiating, and if the amount of the deputation allowance according to the prescribed scale added to the permanent emolument of the officiating Servant, would exceed the emoluments of the office in which he is temporarily acting, the excess shall not be drawn. But this provision shall not apply to the case of any Officer deputed for special reasons to act in an office of inferior emolument to his own. In cases where an Officer holding two appointments, on being deputed to officiate for another, shall be relieved only from one, he shall receive no deputation, allowance, unless the emoluments of the office in which he is deputed to act exceed the united emoluments of his permanent appointments and in that case the deputation allowance shall he limited to the difference.

Sec. XXI. No Subordinate Officer acting for his Principal or for any other person holding a superior appointment in the same Office or Establishment, at the same Station shall be entitled to any Deputation Allowance, until after the expiration of three months, and then the Allawance is not to be drawn in arrear. But a Servant previously out of employment, or who may be deputed to act from a different Station, shall be entitled to Deputation Allowance from the date at which he may enter upon the discharge of the duties to which he has been temporarily Vide amended Section appointed. passed 17th May 1843. P. 42.

The period of one month required by this section for a subordinate to act for his principal, or for any other person holding a superior appointment in the same Office or Establishment, without being entitled to any Deputation allowance, shall be held to apply to those cases only where the superior Officer is absent with leave under section X1, the President in Council of India having been pleased to allow that the one month without deputation specified in this section shall be held to be designed as an off set against a corresponding leave of one month granted under section XI to a superior Officer. free from deduction of allowances, in

which case his subordinate in the same Office if placed in charge for him must hold that charge without remuneration, officers therefore acting for their superiors absent on sick certificate or on duty will be entitled to extra allowance from the date of receiving charge, vide Bombay Govt. Notification 24th April.

Sec. XXII. A Civil Servant out of employment, if deputed to act at a distance, and civil servants having permanent emoluments, who may be so deputed, and who may be restricted by any provision in those rules to the allowance of their own office, shall be permitted to draw travelling allowances at the rate sanctioned in the case of a first appointment. When the entire sum received as deputation allowance may fall short of the which, according to the distance would be allowed for travelling expenses, the difference may be drawn. In all cases of absence under medical certificate, and in cases of absence on private affairs, when the absent Officer shall not be subject to deduction, such payments shall be made, at that charge of the Government, Vide amended Section passed 17th May 1843. P. 42.

CHAPTER VI.

Rules for Chaptains and Assistant Chaptains.

Sec. XXIII. Chaplains and Assistant Chaplains, may, under medical certificate, obtain leave of absence, subject to all the deductions, conditions and limitations prescribed in the case of civil servants, but no Chaplain or Assistant

Chaplain can be permitted to draw any allowance, when his period of absence

shall have exceeded two years.

Sec XXIV. The Government of each Presidency may grant to Chaplains and Assistant Chaplains special leave of absence on private affairs, but if such absence shall exceed the period to which the Absentee may be entitled under the following Rule, they shall for the period in excess be subject to the deduction of one half of their Allowances, and after an absence of six months (in addition to any leave granted under the succeeding rule) all allowances shall be discontinued. Vide amended Section passed 17th May 1843. P. 42.

Sec. XXV. Leave of absence for one month in each year, or for two or three months as the case may be, under the principle sanctioned in Section XI, may be granted to Chaplains or Assistant Chaplains by the Bishop of the Diocese, or when the Diocese may be vacant (but not otherwise,) by the Archdeacon or other Ecclesiastical functionary performing the duties of an Archdeacon or Commissary: and such leave being consistent with the rule will be recognized by the Civil Auditor after it has been published in the Government Gazette of the Presidency with the authority of Government. Information of every leave so granted by the Bishop or other Ecclesia-tical Officer above mentioned, shall be immediately transmitted to the proper Secretary to Government, for the purpose of notification in the Gazette. Vide amended Section passed 17th May 1843. P. 42,

Sec. XXVI. For embarkation on furlough, or sick leave, or with the intention of retiring from the service, thuplains and Assistant Chaptains are entitled to the benefits of Sec. XIII. on the same conditions on which they are enjoyed by

civil servants. Rescinded vide rules passed 17th May 1843. P. 42.

Sec XXVII. On joining a station in the interior after arrival in India, a Chaplain or Assistant Chaplain will be allowed the same rate of travelling charges, and he subjected to the same rules in respect to joining his station, as a civil servant. On any subsequent transfer from one station to another, the same allowance will be made if the transfer takes place not at the desire of the Chaplain removed, but by order of Government.

OFFICERS OF THE ASSAY DEPARTMENT,

Section XXVIII. The Assay Master and Deputy or Assistant Assay Master of any Mint in India may obtain leave of absence under Sick Certificate, or on private affairs, subject to the conditions in the rules forming Chapters I. to V. The Absence if in the enjoyment of any Military pay or allowance will, during his absence, be subject to the deductions prescribed in the case of Military Officers holding civil employments. It not a Military Officer, the Absentee will be subject to the same deductions as a civil servant under similar circumstances, but no Officer of the Assay Department can be permitted to draw any portion of salary for a longer period than two years, if absent under Sick Certificate, nor for a longer period than three months if absent on private affairs. NOTIFICATION, General Department.

The Hon'ble the Governor in Council is pleased to publish the following letter from the Hon'ble the Court of Directors, dated the 4th September 1840, and directs, that each civil servant returning to Europe under the Absentee Regulations or on Special leave, apply to the Secretary to the Government in the General Department for a copy thereof for his guidance.

Fara. 1. We have to acquaint you that, we have adopted the following Regulations with respect to the grant of extensions of leave to Members of the India Civil establishments repairing to this country under the absentee regulations.

or on special leave of absence, viz.

That civil servants coming to England under the absentee regulations or on

special leave shall immediately on their arrival, report themselves with their address, by letter to our Secretary, forwarding at the same time the certificates

which they received in India.

That in all cases of leave, civil servants be required to join the Establishment to which they belong at the expiration of the term for which leave may have been granted, unless they shall have obtained an extension of it from us six months before the expiration of the said leave.

That extensions of leave will not in future be granted by us except in eases of sickness certified to our satisfaction, or in cases in which it shall be proved that

a further residence in Europe is indispensably necessary.

That when under any such circumstances a civil servant shall have obtained an extension of leave to a given period, he must at the expiration thereof, apply for, and obtain our permission either to return to his duty, or to reside a further time in Europe, failing in which he shall be liable to be struck off the list of civil servants.

That the Act of the 23rd, Geo. 3rd, Chap. 52, Sec. 70, as it respects civil servants applies only to cases of sickness, infirmity or inevitable accident, and that no civil servant be hereafter considered eligible to return to the service after 5 years absence, under that enactment, who has failed to obtain from us, agreeably to the foregoing regulations, an extension of leave under the circumstances referred to in the Act.

2. We desire that the foregoing regulations be published for general information, and that each civil servent returning to this country under the absentee regulations, or on special leave, be furnished with a copy for his guidance.

NOTIFICATION, General Department.

The Hon'ble the Governor in Council is pleased to publish the following Extract, Para: 2nd, from a letter, (No. 19) dated 2nd ultimo, from the Honorable the Court of Directors, for general information.

Extract from a letter from the Honorable the Court of Directors in the Pub-

Lic Department (No. 19) dated the 2nd July 1841.
Para. 2nd. We have to remark, that the Absentee Regulations, sanctioned by our dispatch in this Department dated the 31st December 1824, never intended that a Civil Servant having once drawn the furlough allowances, of £250 per annum should be again allowed, under any circumstances, to receive an allowance from the Company if he should come to this country a second time before completing an actual residence in India of ten years.

GENERAL DEPARTMENT.

The Hon'ble the Governor in Council is pleased to publish for general informa-

tion, the following Extract, from a Resolution passed on the 16th ultimo, by the Right Hon'ble the Governor General of India in Council, on the subject of the allowances of Officers appointed to new situations, but who by the express order of Government may be prevented from entering immediately upon the duties

NOTIFICATION, Fort William, Financial Department, the 16th June 1841. RESOLUTION.

The Governor General in Council remarks, that the Rule referred to No. XVI. of the Regulations of the 29th January 1840, requires in case of a change of Office, when an Officer is appointed to a lugher situation, that he shall not draw the higher salary until he joins.

His Lordship in Council considers it expedient strictly to maintain this Rule as one of general practice, and that no exception ought to be allowed otherwise

than under special circumstances and exigencies of the public service.

His Lordship in Council is further of opinion, that as a general rule, Officers ought not to be appointed to situations for the duties of which they are not im-

mediately available.

When an Officer for the convenience of the public service has been detained by an order of the Government in a situation of inferior emolument after he has been promoted, in such case the practice under the Bengal Presidency is to pass to him the higher salary of his new appointment, during the period of his being so detained. This exception to the Rule XVI corresponds with the exception provided for in Rule XX under the Chapter for Deputation Allowances, in which it is declared that no Civil Servant temporarily officiating for another shall draw an amount larger than the entire emoluments of the office in which he is officiating, but that the probibition does not apply to the case of an Officer who may be deputed for special reasons to act in an office of inferior emoluments to his own.

In order to ensure uniformity of practice at all the Presidenices in the application of Rules XIV, XVI and XVII, it is hereby explained that Rule XIV refers to the appointment of Civil Servants previously not appointed to a fixed

situation after their return from furlough.

These Servants are entitled under Kule XIV to the allowances of their new office from the day of appointment, provided they do not come under forfeiture, by exceeding the time prescribed for joining their station.

And Rules XVI and XVII are to be construed as applying to cases where there is a change of office, with increase of salary, a special course being preacribed with regard to Junior Civil Servants; they under Rule XVI are authorized to draw the salary of Assistant from the date of their being reported qualified for the public service, unless forfeited through delay in joining the station to which they have been appointed.

By order of the Hen'ble the Governor in Council, Bombay Castle, 15th July 1841. W. R. MORRIS. Successful Council, W. R. MORRIS, Secy. to Govt. and those Junior to him, who have not passed an examination in a second language, will have no claim to promotion beyond their present appointments, until they have passed the requisite examination.

By order of the Honorable the Governor in Council.

Bombay Castle, 22nd February 1842. W. R. MORRIS, Secy. to Govt.

NOTIFICATION, General Department.

The Hon'ble the Governor requests that, when any Civil or Military Officer may have occasion to address him either direct or through any Member of his Personal Staff, on any official matter, the regular form of an Official commumication may be adopted.

This rule is intended to extend to all Correspondence relating to Military or

Civil Appointments, or to any question connected with them.

By order of the Honorable the Governor in Council, Bombay Castle, 24th August 1842. W. R. MORRIS, Secy. to Govt. NOTIFICATION, General Department.

The Hon'ble the Governor in Council is pleased particularly to enjoin the attention of Civil Servants and others, coming under the same Absentes Regulations, to the Orders of the 9th August 1831, and 23rd November 1835, and in accordance with those Orders to lay down, the following Form of a Letter to be observed in all applications for Leave of Absence —Parties not conforming to these instructions will be liable to have their Letters returned unanswered.

The Honorable the Governor in Council is pleased to re-publish the following

Rules passed by the Government of India; to have effect within the limits of

this Presidency from this date;—

FORT WILLIAM, FINANCIAL DEPARTMENT.

17th May 1843.

The Hon'ble the President in Council, with the concurrence of the Right Hon'ble the Governor General, has revised the Itules published on 29th January 1600 for to grant of leave of absence, and for regulating deductions from Salaries and Deputation Allowances. The following Rules will have effect from this date for regulating Deputation Allowances, and the terms on which leave of absence will be given to places situated within the limits of the respective Presidencies, to which the Applicants are attached.

Sec. VI. (Amended.) Civil Servants absent from their Stations under Medical Certificate, within the limits of their respective Presidencies, shall be entitled to the Salaries of their Offices for the period of two years, subject to a deduction of for the whole term of such absence, save and excepted that for the first year, if the Salary be not more than 500 Rupees per mensem, no deduction shall be made, and if it be only so much more than 500 Rupees that the prescribed deduction of I would reduce the allowance below that sum, only the excess beyond Rupees 500 thall be deducted, but for the second year, the full deduction shall be in force. An absent Servant, whether Civil or Military, shall in no case retain any Civil Office or employment, nor be permitted to draw any portion of Official Salary for a longer period than two years, but a Civil Servant who may, on account of sickness duly certified, obtain an extension of leave beyond two years shall, if his period of actual residence be less than 12 years, be allowed to draw the second rate of subsistence allowance, and if the period of such actual residence be 12 years, the highest rate of subsistence allowance, but if he continue absent in disobedience of an order to return, or without sufficient cause shewn, that allowance also shall be forfeited. The period of absence shall be computed from the date of his quitting his Station to the date of his return thereto.

Sec. XI. (Amended.)' The Government of each Presidency may grant to Civil or Military Servants holding Civil appointments leave of absence for one month in each year without deduction from the Saluries and Empluments drawn by such Servants, such leave however will only be granted when the Government is satisfied that no inconvenience or expence will arise from the departure of the Officer seeking it. No second leave can be granted under this rule until the completion of eleven months from the expiration of the last leave. See also notification of 18th Sept. 1841. Page 53.

Sec. XII. (Amended.) The Government of each Presidency may, on sufficient cause being shewn, grant to a Civil or Military Officer holding a Civil Office, special leave of absence on private affairs. Provided however that if any Officer to whom such leave shall he granted shall be absent from his Station for any period exceeding that to which under the last rule he may be en titled without deduction the absentee, if a Civil Servant, shall for the period in excess draw no more than one-half of his Salary and Allowances of any Civil Officer to which he may stand appointed as added to the Military Pay and Allowances which he may be entitled to draw shall equal to one-half of his entire Military and Civil emplument. After an absence of three mouths, exclusive of any period which may be granted under sec. XI. any Office held by the Absentee shall become vacant.

Sec. XIII. is rescinded.

Sec. XVIII. (Amended.) The sum of Company's Rupees 52,200 per annum having been fixed under the orders of the Court of Directors as the Maximum Salary of Civil Office for the Offices of Government under the situation of Member of Council-Civil and Military Servants holding Office in the Political Department, who may draw larger Allowances than this annual sum as a consolidated

personal and sumptuary allowance, in consideration of the necessary expenses of their position, will in all cases of absence be treated in respect to deductions as drawing only the Allowance thus limited, and the excess above the sum, shall remain as a local addition charge.

Note.—This rule will equally apply in case of a Political Resident taken a leave of one month for which in other cases he would suffer no deduction. - The excess above the maximum monthly salary will monthly salary yielded by that annual in that case be enjoyed by the person in to the usual Deputation Allowance to be drawn by the Officer performing the duties to meet the necessary expenses of his position.

Sec XIX. (Amended) Deputation Allowances shall be granted to Civil Servants temporarily performing the duties of an Office according to the following rates, and subject to the limitations and conditions hereinafter laid down.

Note.— Military persons acting for other Military persons Civil Office will, as in the case of Staff, draw half the difference between the incumbant's Military Allowances and the consolidated Civil salary as at present, that is, will draw the amount retrenched from the Absentee, but when acting for a Civil Servant, they will draw at the rates and under the same rules as Civil Servants.

To Civil Servants not holding any substantive Appointment.

At the rate of 25 per cent. on the monthly Salary of the appointment officiated in; such Deputation Allowance being in addition to the subsistence allowance of their respective ranks.

To Civil Servants holding an Office of Inferior emolument when Officiating for a Supprior.

At the rate of 10 per cent, upon the monthly Salary of the appointment officiating in; all cases in which the Salary of such appointment shall not exceed Co's Rs. 2,000 per mensem, and in respect to all appointments of which the Salary shall be more than Co.'s Rs. 2,000 per mensem, at the rate of 10 per cent, upon Co.'s Rs. 2,000 and of 5 per cent, on the amount in which the monthly Salary may exceed Co.'s Rs. 2,000: provided however, that no lower rate of Deputation Allowance shall be given than 100 Rupees per mensem.

The Deputation Allowance shall in all cases be in addition to the Salary of the

substantive appointment held by the Officer on deputation.

A Civil Servant acting for another shall have no claim to Commission or Fees, where any such sources of emolument exist. These shall be regarded as forming part of the income of the Officer to be relieved, subject to the prescribed deductions.

Sec. XXI. (Amended) No Subordinate Officer acting for his Principal or for any other person holding a superior appointment in the same Office or Establishment, at the same Station shall be entitled to any Deputation Allowance until after the expiration of one month, and then the Allowance is not be drawn in arrear. But a Servant previously out of employment, or who may be deputed to act from a different Station shall be entitled to Deputation Allowance from the date at which he may enter upon the discharge of the duties to which he has been temporarily appointed.

Sec. XXII. (Amended) Civil Servants, if deputed to act at a distance from the stations where they are employed, or Military Officers holding Civil Office who may be so deputed, or who may be ordered by Government on Special duty, shall be permitted to draw travelling allowances as the rate sanctioned in the case

of a first appointment.

Sec. XXIV. (Amended) The Government of each Presidency may grant to Chaplains and Assistant Chaplains special leave of absence on private affairs, but if such absence shall exceed the period to which the Absentees may be entitled under the following Rules, they shall for the period in excess be subject to the deduction of one-half of their Allowances, and after an absence of four months all Allowances shall be discontinued.

Sec XXV. (Amended) Leave of absence for one month in each year, under the principle sanctioned in Sec. XI. may be granted to Chaplains or Assistant Chaplains by the Bishop of the Diocese, or when the Diocese may be vacant (but not otherwise) by the Archdeacon or other Ecclesiastical functionary performing the duties of an Archdeacon or Commissary: and such leave be consistent with the rule will be recognized by the Civil Additor after it has been published in the Government Gazette of the Presidency with the authority of Government. Information of every leave so grant by the Bishop or other Ecclesiastical Officer above mentioned, shall be immediately transmitted to the proper Secretary to Government, for the purpose of notification in the Gazette.

Sec. XXVI. Is rescinded,

Section XXVIII. (Amended.) The Mint Master, the Assay Master and Deputy of Assistant Assay Master of any Mint in India, may obtain leave of absence under sick certificate, or ou private affairs, subject to the conditions in the rules forming Chapters I. to V. The absentee if in the enjoyment of any Military pay or allowance shall, during his absence, he subject to the deductions prescribed in the case of Military Officers holding Civil employments. If not a Military Officer, the Absentee shall be subject to the same deductions as a Civil Servant under similar circumstances, but no Officer of the Mint or Assay Department can be permitted to draw any portion of Salary for a longer period, than two years if absent under Sick Certificate, nor for a longer period than four months if absent on private affairs.

The Rules published on the 29th of January 1840, not effected by the above al-

terations, remain in force.

# Abstract of Parliamentary Acts.

RELATING TO THE EAST INDIA CIVIL SERVICE.

ACT XXXIII, OF GEORGE III, CHAPTER LII.

DEPARTURE FROM INDIA OF ANY GOVERNOR GENERAL, GOVERNOR, COUNCILLOR, OR COMMANDER-IN-CHIEF, WITH INTEST TO RETURN TO EUROPE, DEEMED A RESIGNATION, &C.

XXXVII. And he it further enacted that the departure from India of any Governor General, Governor, Councillor, or Commander in Chief, with intent to return to Europe, shall be deemed in law a resignation and avoidance of his office or employment; and that the arrival in any part of Europe of any such Governor General, Governor, Councillor, or Commander in Chief, shall be sufficient indication of such intent; and that no act or declaration of any Governor General, Governor, Councillor, or Commander in Chief, during his continuance in

46

the presidency whereof he was Governor General, Governor, Councillor or Commander in Chief, except hy some deed or instrument in writing under his hand and seal, delivered to the Secretary, in the Public Department of the same presidency, in order to its being recorded, shall be deemed or held as a resignation, or surrender of iris said office; and that the salary and other allowances of say Governor General, or other Officers respectively, shall cease from the day of his departure, resignation or surrender, and that if any such Governor General, or any other Officer whatever, in the service of the Company, shall quit or leave the presidency for settlement to which he shall belong, other that in the known actual service of the said Company, the salary, and allowances appertaining to the Office shall not be paid or payable during his absence to any agent or other person for his use, and in the event of his returning back to his station at such presidency or settlement, or of his coming to Enrope, his salary and allowances shall be deemed to have ceased from the quitting such presidency or settlement, apy law or usage to the contrary notwithstanding.

FILLING UP VACANCIES IN THE CIVIL LINE. LVII. And be it further enacted, that all vacancies happening in any of the office, places, or employments in the Civil line of the Company's Service in India (being under the degree of Councillor,) shall be from time to time filled up and supplied from amongst the Civil Servants of the said Company, belonging to the presidency wherein such vacancies shall respectively happen, subject only to the restrictions in this act contained, and not otherwise (that is to say,) that in the filling up and supplying such vacancies, no office, places, or employment. the salary, perquisites, and emoluments whereof shall exceed five hundred pounds per annum, shall be conferred upon or granted to any of the said servants who shall have not been actually resident in India as covenanted servant of the said Company for the space of three years at the least in the whole, antecedent to such vacancy, and if the salary, perquisites and emoluments of any office, place, or employment, shall exceed three thousand pounds per annum, the same shall not be granted to or conferred upon any of the said servants who shall not have been actually resident in India in the said service for the space of nine years at the least in the whole, untecedent to such vacancy; and if the salary, perquisites, and emoluments of any office, place, or employment shall exceed three thousand pounds per annum, the same shall not be granted to or conferred upon any of the said servants, who shall not have been actually resident in India in the said Company's Service for the space of nine years at the least in the whole; and if the salary, perquisites, and emolument of any office, place, or employment shall exceed four thousand pounds per annum, the same shall not be granted to or conferred upon any of the said servants, who shall not have been actually resident in India in the Company's Service for the space of twelve years at the least in the whole, antecedent to such vecancy; and that all appointments, advancements and promotions which shall be made for supplying any such vacancies, other than as aforesaid, shall be null and void.

EXTRACT FROM A PUBLIC GENERAL LETTER FROM THE HONORA-BLE COURT OF DIRECTORS, DATED THE 12th OF JUNE, 1816.

PARA. 20. We perceive by the abstract of Act LIII. of his present Majesty chapter 155, annexed to your list of the Civil Servants, dated the 31st of May 1814, that according to your construction of that Act, a Civil Servant may upon his arrival, in India, receive £1,500 a year, but this is most assuredly a mistake. The Act above mentioned, has shortened the period to two years which it was required previously to the passing of that Act, for a servant to have resided in India, to enable him to receive more then £1,506, 3,000, or 4,000 a year, but it has not shortened the period which it was required, previously thereto, for a servant to have resided as above mentioned, to enable him to receive more than £500 a year, consequently that remains the same as it was before the said Act was passed, namely; three years, allowing with respect to the Servants educated at Hertfort College, the time not exceeding two years passed in that institution, after they were seventeen to be considered as time passed in India; and this will be your future guidance.

ACT LIII. OF GEORGE III, CHAPTER CLV.

LXXXII. And whereas a strict adherence to the Provisions contained in the

-said Act made in the thirty third year of his present Majesty's reign in respect to the filling up and supplying vacancies in the Civil Seivice of the said company has been found impracticable without detriment to the public service, or injury to the just claims and meritorious exertions of individuals; and whereas a modification of the said Act has been in part, adopted in the Act of the forty seventh year of his present Majesty relative to the scholars educated at Hertford College; be it therefore enacted, that from and after the passing of this Act any office, place, or employment, the salary and perquisites whereof shall exceed the sum of fiftren hundred pounds, may be granted to and conferred upon the said servants who shall have been actually resident in India in the said Company's Service for the space of four years at the Reast in the whole, antecedent to such vacancy, and if the salary, perquisites, and emoluments of any office, place, or employment shall exceed the sum of three thousand pounds per annum, such office may be conferred upon any of the said servants who shall have been actually resident in India seven years at the least in the whole; and if the salary, perquisites and emoluments of any office, place or employment, shall exceed four thousand pourds per annum, such office, including that of the Council, may be granted to or conferred upon any of the said servants who shall have been actually resident in India in the Company's Service for the space of ten years at least in the whole.

## RANKOF CIVIL SERVANTS RETURNING TO INDIA AFTER FIVE YEARS ABSENCE IN EUROPE.

LXXXV. And be it further enacted, that when and as often any person having sheld any Civil situation in India, in the service of the said Company, and having departed from India by leave of the Governor General in Council, shall be restored to the Company's service after an absence of five years from the time of such departure, such person from and after such restoration shall take rank and precedence on according to the time he shall have passed in the service of the said Company at the period of his departure from India, and on his return to India, if any other Civil Servant or Servants at the settlement to which he shall belong, shall have then passed a greater or the like length of time in the service of the said Company, as the person so restored had passed when he left India, the person so restored shall be placed and take rank immediately below such other Civil servant or servants; any matter or thing, to the contrary notewithstanding.

PRECEDENCE IN THE CIVIL SERVICE IN INDIA.

LXXXVI. And whereas by the said Act of the Parliament of Great Britain of the thirty-third year of his present Majesty's Reign it is enacted that all the Civil servants of the said United Company in India, under the rank or degree of Member of Council shall have and be entitled to precedence in the service of the said Company at their respective stations according to the seniority of their appointment. And whereas the several Governments of the said Company are often prevented from appointing meritorious servants of the said Company to be Members of Courts, Boards, and other official establishments, where office or employments are exercised by several servants of the said Company collectively lest by such appointment one of more Members of such Court, Board, or other establishment should be superceded; be it therefore enacted that it shall and may be lawful for any Governor General in Council of the said Company it he shall think

proper, upon application in writing for that propose by any Civil servant of the said Company desirous of being appointed a Member of any such Court, Board; on Satablishment, by special order to direct that such servant of the said Company on being appointed to any office or employment in any such Court, or other establishment, although such Civil servant, in respect of whom such order shall be made, may hereby not take precedence at or in such Court, board, or other establishment, according to the seniority of his appointment to the service of the said Company; and such civil servant shall thereupon take precedence at such Court, Board, or other establishment accordingly, the said Act or any other matter or thing to the contrary notwithstanding.

ACT VII. OF GEORGE IV. CHAPTER LVI.

Extract from an Act to suspend the provisions of an Act of His late Majesty respecting the appointment of Writers in the service of the East India Company, and to authorize the gay ment of the allowance of the Civil and Military Officers of the said Company dying while absent from India. [26th May 1826.]

the said Company dying while absent from India. [26th May 1826.] III. And whereas by an Act passed in the thirty-third year of the reizn of His late Majesty King George the Third, Intitaled an Act for continuing in the East India Company for a further term the possession of British territories in India, together with their exclusive trade, under certain limitations; for establishing further regulations for the Government of the said territories, and the better administration of justice within the same for appropriating to certain uses the revenues and profits of the said Company, and for making provision for the good order and Government of the Towns of Culcutta, Madras and Bombay; 4t was enacted, that if any Clovernor General, or any other officer whatever in the service of the Company, should quit or leave the presidency or settlement to which he should belong, other than in the known actual service of the said Company, the salary and allowance appertaining to his office should not be paid or payable during his absence to any agent or other person for his use; and in the event of his not returning back to his station at such presidency or settlement, or his coming to Europe, his salary and allowances should be deemed to have ceased from the day of his quitting such presidency or settlement, any law or usage to the contrary notwithstanding. And whereas it hath happened that officers, well Civil as Military, in the service of the said Company, who have quitted the presidencies or settlements to which they respectively belonged in consequence of ill health with the intention of returning to their stations at such presidencies or settlements without proceeding to Europe, have died during such temporary absence within the limits of the said Company's charter, or at the Cape of Good Hope; and whereas it is just and reasonable that the representatives of such officers should be entitled to the salaries and allowances of such officers from the time of quitting their stations; be it therefore enacted, that it shall and may be lawful to and for the said Company to cause payment to be made to the representatives of officers in their service Civil or Military, who having quitted or left their stations, and not having proceeded or intended to. proceed to Europe, but intending to return to their stations, have died, or may hereafter happen to die, during their temporary absence within the limits of the said Company's charter, or at the Cape of Good Hope, of such salaries and allowances, or such portion of salaries and allowances, as the officers so dying would have been entitled to, if they had returned to their stations.

IV. And whereas certain payments have heretofore been made under the circumstances aforesaid, be it further enacted, that all such payments so made shall be deemed and taken to have been legally made; any thing in the said recited Act of Parliament to the contrary notwithstanding, provided always, that nothing herein contained shall extend to authorize the said Company to make any such payment to the representatives of any such officer who shall have quitted or left his station prior to the second day of May, One Thousand Eight

Handred and Twenty One.

ACT X. OF GEORGE IV. CHAPTER XVI.

An Act to continue the operation of an Act of the seventh year of His present Majesty for suspending the provisions of an Act of His late Majesty respecting the appeintment of writers in the service of the East India Company, and to amend the provisions of an Act of the forty-seventh year of his late Majesty, so far as they relate to the period of residence at Hertford College as a quali fication for certain offices.

[14th May, 1829.] Whereas an Act was passed in the seventh year of the reign of His present Majesty intituled an Act to suspend the provisions of an Act of His late Majesty respecting the appointmentiof writers in the Service of the East India Company, and to authorize the payment of the allowances of the Civil and Military Officers of the said Company dying while absent from India. And whereas it is expedient to continue, for a time to be limited, the provisions of the said Act of the seventh year of His Majesty, so far as the same relate to the appointment of writers in the service of the East India Company, and to the establishment of rules and regulations respecting their qualifications. May it therefore please your Majesty that it may be enacted; and be it enacted by the King's Most Excellent Majesty, by and with the advice and consent of the Lords Spiritual, Temporal and Commons in this present Parliament assembled, and by the authority of the same, that the provisions of the above-mentioned Act of the seventh year of His present Majesty, so far as the same relate to the appointment of Writers in the service of the East India Company, and to the establishment of proper rules and regulations, respecting the qualifications of such writers, shall continue and be in force until the tenth day of April, one thousand eight hundred and thirty-four.

And whereas by virtue of an Act passed in the forty seventh year of the Reign of His said late Majesty, all such time as shall be bona fide spent in the College established in England by the East India Company for the education of their Civil servants, by any persons after they shall respectively have attained the age of seventeen years is accounted as to certain offices, places and employments which such persons are entitled to hold in India, as so much time actually spent in Is dia, provided that such persons shall either before or after seventeen years of age have spent two years at the least in the said College. And whereas it is expedient that the privileges so granted should under certain circumstances, be extended to young men who may have spent less time than two years in the regular course of education at the said College; be it therefore enacted, that all such time not exceeding two years as shall have been or shall be bonafid e spent in the said College in the regular course of such education as aforesaid by any person after they shall respectively have attained the age of seventeen years who shall have proceeded or shall hereafter proceed to India in the Civil Service of the Company, shall be accounted as to all offices, places and employments to which such persons are entitled to be as pointed and to hold, the salary, perquisites and emoluments whereof shall not exceed the sum of one thousand five hundred pounds, per annum, as so much time actually spent in India; any law or usage to the contrary thereof in any wise not withstanding.

All receipts, issues, exchanges and payments of money, shall be made and signed by the Treasurer, who shall only be accountable for such monies and Securities as shall actually come into his immediate possession.

SEC. 9th. The Committee of Managers shall decide in the first instance, upon all matters relating to the receipt and disbursement of money, upon all applications for the benefit of the Fund, and upon all subjects relating to the Fund and the Institution in any wise; except such as are expressly reserved to the decision

of a General Meeting of the Institution.

SEC. 10th. The Committee shall regularly report their proceedings to the next General Meeting of the Institution, and their proceedings and decisions shall be subject to the revision and control of the general body of the Members of the Institution,

SEC 11th. In case of any one or more Members of the Committee refusing or neglecting to act in or take upon himself or themselves the execution of the duties of Trustee, or removing from the Presidency, including Tannah without the intention of returning before the day of annual election, his or their removal or omission to act shall be communicated to the next General Meeting, and a new election shall be had of a Member to supply the vacancy for the unexpired part of the current year.

### ARTICLE III.

AGENTS.

SEC. 1st. The Committee of Management and Trustees shall from time to time, nominate and appoint proper persons to act as Agents for the Fund in England, and, if need be, shall execute and transmit to them, such legal instruments as may be needful for them to act in any matter, effectually, in behalf of the Fund.

SEC. 2d. The Agents for the time being shall be furnished with a copy of these present Rules and Regulations, and others which may be hereafter made, and with such other documents and information as may enable them to act best for the interests of the Institution, and to pay attention to the wants and rights of Members and these entitled to the benefits of the Fund, who may be resident in England, or other parts of Europe.

SEC. 3rd. The Agents shall from time to time receive such advances from the Hon'ble Court of Directors in England as they may require to meet the demands of the Fund, the adjustment of which shall be made in due course and agreeably

to the terms prescribed by the Hon'ble Court.

SEC. 4th. The Agents shall be instructed not on any occasion to pay money without taking a receipt in triplicate, one of which they shall retain themselves, and the other two they shall transmit by different conveyances to the committee of Managers and Trustees.

#### ARTICLE IV.

General Meetings of the Members.

SEC. 1st. There shall be General Meetings of the Members of the Institution held quarterly, on the 1st day of May, the 1st day of August, the 1st day of November, and the 1st day of February in each year, or some day as early as possible after each, if those days should not be convenient, a public notification of the day on which the Meeting is to be held being given in the Government Newspaper.

SEC. 2nd. At these Meetings, the Committee shall make except of all matters relating to the affairs of the institution and Fund, which have occurred since the last General Meeting, and shall once in each year submit an account of the state of the Fund, and of the probable claims upon it for the ensuing year, together with a statement of the Extra charges which may necessarily have been incurred on account of the management and concerns of the said Fund. But no matter not brought forward by the Committee in their Report, or directly arising out of it, shall be agitated or discussed at such General Meetings unless sufficient notice thereof has been given to the Committee to enable, them to com-

municate the same to every Member resident at the Presidency, and such com-

munication shall have been made.

Suc. 3rd. The unanimous vote of the Members present shall decide all propositions connected with the Bombay Civil Fund brougt forward at a General, Meeting, unless the subject he of sufficient importance to require a reference for the opinion and votes of the Members at subordinate stations, but the concurrent, voice of, at least, nine Members shall be requisite to determine upon any question whatever.

SEC. 4th. It shall not be competent for a General Meeting to decide without reference to the Subscribers at large on any questions involving an alteration in the rates of contribution to the Fund, in the rates or grant of Pensions or Annuities, or any addition to or change of the Rules and Regulations of the Institu-

tion.

SEC. 5th: If any one Member present at a General Meeting shall consider any proposition of sufficient importance to be referred to the subscribers at large, and shall vote to the effect, it shall be so referred, and the further discussion of the sobject shall be renewed at the first Quarterly General Meeting which may be held after the receipt of the opinions and votes by letter or proxy of the Members at subordinate stations.

SEC. 6th. All amendments to propositions so referred shall be transmitted with the propositions themselves for the votes of the Members at subordinate staslows as well as any observations which may be offered in writing upon such questions, either by the proposer or by any other Members, in support of or in opposition to the same, those from Members at subordinate stations, in cases of importance, being called for by the trustees and circulated for the general information of the Members before this collection of their votes.

SEC. 7th. Any Member intending to submit any suggestion or amendment to a proposition, must give timely information thereof to the Secretary in order

to prevent confusion, or prejudice to absent Members.

SEC.8th. All propositions so referred shall be considered to be, and shall be negatived; that is, the Rule of the Fund as it previously existed shall not be changed, unless supported by a majority of three fourths of the collective votes given either in person at the Presidency, or by letter or proxy from subordinate.

stations at such General Meeting as may be convened for that purpose.

SEC. 9th. The Committee or any nine Members of the Institution may, if occasion require, convene a special General Meeting at the Presidency by pablic notice in the Government Paper, provided that the day fixed for holding such special General Meeting be advertised, and the object or objects for which it is convened be communicated to the Committee in sufficient time to enable them to give full information thereof to every Member resident at the Presidency.

SEC. 10th. At all General Meetings of the Members of the Fund, the Senior

Member in the service there present, shall preside.

SEC. 11th. No Member while resident at Bombay or beyond the Company's limits, shall at any time be allowed to vote by proxy or letter at any General Meeting of the Fund, except in case of ill health, when he is resident in Bombay, and then his proxy shall be notified by letter to the Secretary to the Fund.

SEC. 12th. As general inconvenience and injury might arise from the delay attending a reference of questions to subscribers holding situations or residing up the Persian Gulf or Red Sea, or beyond the regular course of the Dawk, intimation of questions referred for the votes of Subscribers is not to be communicated to Members so situated, but they are at liberty to vote at General Meetings by proxy.

SEC. 13th. Every Member who shall have been appointed and duly authorized to act as proxy, for anytone or more absent Members, shall before he is allowed to act as such proxy, signify to the Meeting at the commencement thereof his intention of so doing, and shall produce the required authorities to act as proxy, and the same shall be registered with names of the Members present.

SEC. 14th. No one Member shall, at such General Meeting, be allowed to vote

as proxy for more than these absent Members.

SEC. 15th. No decision upon general questions or upon any other question affecting the resources or the expenditure of the Fund shall be final until sanctioned and approved by the Court of Directors of the East India Company, to whom all parties considering themselves aggrieved by such decision shall have a right of appeal, and the decision of the Honorable the Court of Directors shall in all cases ARTICLE V. be final.

FUND.

SEC 1. The object of the Institution and Fund are fourfold:
1st. To provide for those Members who are obliged by ill health to leave indistfor a time the means of doing so, in case their furlough allowance and passage money, when entitled to them from Government, or their private fortunes.

are inadequate to the expense.
2ndly. To provide for those Members who, by unavoidable accident or mistor-

tune, are compelled to renounce the service.

Srdly. To provide for the Widows and children of deceased Members. And 4thly. To give all those Members who have served in the Civil Service 25 years, and actually resided 22 years of that period in India, or if compelled by ill health to quit India before completing that period, after a residence of fifteen or ten years as the case may be, Annuities on their retiring from the Service.

SEC. 2nd In order to secure to each its proper attention, the Fund shall be divided into two branches-the Provident Branch and the Annuity Branchand the Accountant shall separate and keep the accounts under these two dis-

tinct heads.

SEC. 3rd. In addition to the monthly contributions of the Subscribers, the Provident Branch shall be credited with the remainder of the balance of the Old Fund as it stood on the 1st May 1825, after deducting the sum of Rupees 5,33,335 to be transferred from that date to the Annulty Branch, together with the difference between 8 and 6 per cent interest on the capital of the Annuity Branch of Rupees 5,33,333-and with interest at 8 per cent, per annum as allowed by the Honorable Court of Directors.

SEC. 4th. The Provident Branch shall be applicable to the payment of all demands arising from the three first objects of the Institution, as likewise for the payment of all extra charges of management, Establishment, Printing, &c., an annual credit of Rupees 4,500 being on that account given to the Provident

Branch by a debit to the Annuity Branch.

SEC. 5th. The Annuity Branch from the 1st May 1825 is to be credited with the sum of Rupees 5,33,333, together with the total amount of the Honorable Company's annual donation of £2,800 and an annual contribution from the Honourable Company for the present of one. Lac of Rupees, in addition to the monthly contribution of subscribers, and the interest on the bulances at the rate

of 6 per cent. per annum.

SEC. 6th. The Annuity Branch shall be made applicable for the payment to retired servants, of all Annuities of £1,000, £500, and £250 us well as that of £400, with a distinct understanding that the capital transferred on account of the Annuities of the old Fund is finally to merge in the New Fund ; that the number of Annuities of £400 shall at no time exceed eighteen; and that so soon as all claims upon the Old Fund are satisfied, the contribution from the Honorable Company of £2,800 per annum shall entirely cease. ARTICLE VI.

ADMISSION OF MEMBERS.

SEC 1st. No person shall be admitted a Member of the Institution but who is a

Covenanted Civil Servant on the Bombay Establishment.

SEC. 2nd. Every person appointed to the Civil Service on the Bombay establishment after the 1st of May 1825, shall, agreeably to his covenant, become a Member of the Institution on his arrival within the limits of the Presidency, from which date, his subscriptions to the Fund shall commence

SEC. 3rd. Upon the arrival of any person appointed to the Civil Service, the Secretary shall transmit to him a copy of the Laws of the Institution, and high name shall be enrolled upon the list of Members.

SEC. 4th. Any member of the Civil Service who shall have been in India paevious to the 1st May 1825, shall have the option of becoming a subscriber to the New Fund or continuing a Member of the Old Fund-and having once signified his intention he cannot be allowed to alter it—but a member having assented to join the New Fund, and being prevented by ill health from completing the period of service prescribed by the Regulations, may revert to the old Fund.

SEC. 51h. Subscribers, who have remained on the Old Fund, shall be consi-

dered in respect to their personal privileges and those, of their Widows and Children as Members of the Fund under the Regulations that were in force on the 30th April 1825, but subscribers, who have reverted to the Old Fund under the concluding clause of the preceding section, will, in the settlement to be effected for their personal privileges, only he entitled to credit for the contributions made to the Annuity Branch of the Fund, the Subscriptions paid to the Provident Branch being reserved for the claims of the Widows and Children, and being further increased by the adoption of the course prescribed in Article VIII, of the Regulations.

In case of an equivalent amount of the foregoing Annuities, with-in the limits prescribed by the Honorable Court, remaining unappropriated, Annuities will be granted at the following rates of Members, who, after a residence in India as therein stated, shall previously to completing the prescribed term of twenty two years' residence, but compelled by illness to leave India with 'the intention of quitting the Service, such illness to be certified by the Medical Attendant of the Subscriber, and countersigned by a Member of the Medical Board, and confirmed in each instance of retirement by the Examining Physician to the Honorable Company, after the Member shall have completed a subscribent residence in England of 'at least twelve months.

SEC. 3rd. The period of Service commences with the date of appointment as a Writer, or the date of the Covenant, whichever is prior. The period of resi-

dence from the dute of arrival at the Presidency.

SEC. 4th A Member of the Service, who, being in England or on the way to England when the new Regulations were assented to at Bombay, and not having therefore yet assented to them, and who shall not be in India or on the way thither on or before the first day of March, 1827, shall not be entitled to hold an Annulty until he shall have resided five years in India after his return to the Service.

SEC. 5th. Any Subscriber who may accept the tender of an Annuity of £1000, or who may apply for one of the smaller Annuities, shall be required to entitle him to such Annuity to pay to the Institution previous to the date at which the Annuity is to commerce, the difference between one half (temporatily one fourth in the case of the Annuity of £1000 as sanctioned in the Honorable Court's Disputches of the 27th May 1835, and 20th March 1838) of the actual value of the Annuity on his life, in Sicca Rupees, and the accumulated value of his contributions, with interest at 6 per cent. per annum, in case the latter quantity shall be less than the former, but should the contributions be in excess, such excess shall be refunded. Such Annuity, if required may be made payable either to the date of decease only, or quarterly and to the date of decease, the benefit of the quarterly issue of the Annuity not being available singly, upon the payment of the full value, of the increased advantage, as shewn in the annexed Table.

SEC. Oth. Any Member so choosing, may decline paying the difference defined in the foregoing rule, and shall in such case be entitled to an Annuity diminished in propotion to the sum by which the accumulated value of tributions is less than one half (temporarily one fourth) of the actual value of

an Annuity on his life.

SEC. 7th. The declaration of the willingness of any subscriber to accept an Annuity must be stated "on hopor," and a subscriber so accepting the Annuity shall at the same time furnish the Secretary and Accountant to the Fund with

his Baptismal Certificate or a declaration "upon honor" of his age

SEC 8th. The resignation of the Honorable Company's Service is an essential condition to entitle an individual to an Annuity from the Institution, and Annuitants will not be permitted to return to the Service It is therefore provided that when a Member accepting an Annuity shall resign the Service after the first day of May of the year within which the said Annuity is made to commence, he shall in such case at the close of that year only draw the Annuity from the date of his resignation, a sum proportionate to the time intervening between the first day of May and that date, being deducted for the benefit of the Matitution, and the premium which was due on the first day of May preceding being paid.

SEC. 9th The Annuities are fixed at Ropecs 10,000, Rupecs 5,000, and Rupecs 2,500, payable in England at 2s. the Rupec being respectively, unless made paya-

ble quarterly, and to the day of death, £1,000, £500, and £250 Sterling.

Sic. 10th. The number of Annuities offered shall not be more than may complete affree (3) per annum from the 1st May 1826, which number is also to include any of £400 to persons, who on the 1st of May 1825, had not retired from the Bervice, either by resignation or by an absence of more than five years from India; but this number is not intended to include the smaller Annuities granted to invalid.

SEC. 11th. The Annulties shall commence on the first of May in each year, beginning with the year 1826, that is to say, shall tall due at the end of the said official years, and in like manner the succeeding Annuities shall commence on the 1st day of the following official year, and full due at the close of each year respectively. The quarterly payments will be made on the 1st days of February, May, August, and November in each year.

SEC. 12th. No Annuity shall be tendered for acceptance to any Member who may be at the time of its falling vacant, under temporary suspension by order of the Government or the Court of Directors, but in such case it shall pass on to the

mext Member in succession who may be entitled to the acceptance of it, unless such Member shall have been restored to the Service before it shall come to his

turn to have it tendered to him for his acceptance,

SEC. 13th. At a convenient period before the close of each year the Trustees of the Fund shall require, according to seniority, a sufficient number of Subscribers to signify their willingness or otherwise to retire on the Annuity to be granted by the Fund, and in case of the absence from India of Members, such requisition shall be made to their constituted Agents in Bombay. It will of course be incumbent on the Members duly qualified to become Annuitants previous to leaving India to empower one or more persons in Bombay to act on their behalf, and to communicate to the Trustees the names of such Agents, Such Members previous to quitting India must leave informatiom of their age either in the Civil Fund Office or with their Agents, agreeably to Section 7 of this Article, and should likewise intimate in what manner they wish to draw their Annuities, whether annually, annually and to the day of death, or quarterly and to the day of death, to enable the amount of fine chargeable to them on their accepting Annuities to be calculated.

SEC. 14th. Those Members, to whom a requisition may be made as above provided, and on whose part no reply may be received on or before the 1st day of November of the year preceding that in which the Annuities intended to be granted may commence, and those who may have quitted India and failed to empower any resident in Bombay to act for them during their absence, shall be regarded as

Annuity.

SEC. 15th. Should any Subscriber, having resided in India in the Civil Service not less than 22 years, and been a Member of it, the full period of 25 years, retire from the Service before the option of an Annuity may devolve on him, he shall be entitled to the same in his proper turn without any payment to the Fund, save what may be claimable from him to complete the fine of one half (on one fourth) of the actual value of the Annuity on his life, on taking up such Annuity.

SEC. 16th. The right of an Annuitant to receive the Annuity for any particular year shall depend on his having survived that year unless the same has been secured to the date of decease, as provided for in Section 5th of their Article.

SEC. 17th. The actual value of Annuities, tendered and accepted as above, shall be passed to a separate account on the books of the Institution, under the head of Appropriated Funds," and to the debit of this account shall be entered all

payments in satisfaction of Annuities.

SEC 18th. at the close of every third year the Managers shall, according to the Annexed Tables, G. H. and I. calculated the actual values of the pending Annuities, and shall then compare the total of their values with the assets belonging to the appropriated bunds of the Institution. Should those assets exceed in value the said total, the difference shall be carried to the credit of the unappropriated Funds of the Annuity Fund, and be available for the purpose of the Institution; on the other hand, should the value of the said assets be less than the total aforesaid, the deficiency shall be supplied by transfer from the latter Fund to the former.

SEC. 19th. In discharge of each Annuity of Rupees 10,000 Rupees 5,000, or Rupees 2,500, granted by the Fund, the sums of £1,000, £500 or £250 as the case may be, shall be puid to the Annuitant through the Company's treasury in London at the close of the year in which the Annuity may commence or according as the instalments may full due, in the case of quarterly payments the Trustees of the Fund undertaking at the like periods to pay over to the Givernment of Bombay the equivalent sums for each Annuity so payable under the principles upon which the Company's contribution is to be regulated - including the payments for the quarterly issues and for the payments to the date of decease.

SEC. 20th. The actual value of an Annuity of any Subscriber, as well as the additional payments for its continuance to the date of decease, or for its quarterly issue and continuance to the date of decease, shall be determined by the annex-

ed Table.

SEC. 21st. In computing the amount of fire to be paid into the Treasury by a Subscriber previous to his becoming an Annuitant, credit shall be given him for the total amount of his Subscriptions to the New Fund since the 1st of May 1825, with compound interest at the rate of 6 per cent, together with his subscrip-

tions to the Old Fund without interest up to the 1st May 1825, in the same proportion as the Capital transferred to meet the Annuities hears to the whole Capital of the Fund.

SEC. 22nd. To determine the accumulated value of the contributions of any Subscriber, the Accountant shall keep separate accounts of each Member, and these accounts shall be annually made up with the rate of interest allowed by the

Company.

SEC. 23rd. A Member upon becoming an Annuitant, and expressing his wish to receive his armaity in England, shall be furnished with a formal cartificate declaratory of his admission to the Annuity, and of the manner in which it is to be drawn by him under the hands of not less than five Members of the Committee of which the Secretary shall be one. A duplicate of this Certificate shall be furnished to the Government for transmission to the Honorable Court of Directors in Loudon.

		{ K H.	Knight of ditto. ditto.

The letters C. G. H. M. OV P. affixed to efficer's names, significs that they have passed on examination in the Canarese, Guzeratte, Hindoostance, Mahratta and Persian languages.

Officer's marked thus (†) have passed the colloquial examination in Hindostanee.

Medical Officers marked thus\* have passed the prescribed examination as to
their proficiency in the Native Languages, to entitle them to permanent appointments.

The luce of the Cavalry is Silver and the Infantry Gold.

All Officers accounted for in their respective Regiments, and the absence of Stuff Officers is more particularly explained in the Departments to which they belong.

The Dates prefixed to the Han'ble Company's Military and Medical Officers in their respective Gradation Lists, denote the season of appointments.

No. 300. The pay of the European Troops at the three Presidencies having been assimilated, and the Government of India having authorized the issuer of the same in arrear, agreeably to the practice observed under the Bengal Presidency, the following rules are laid down for the gradual accomplishment of that

object.
The pay of the Ruropean Commissioned officers of the Company's Service will be paid in arrear in comformly with instructions issued, to Pay-master under the decision of Government, dated the 8th February 1838, namely- All officers entering or returning to the service from Europe and all the se promoted, will not be allowed to draw net pay in advance. The period fixed for the commencement of this arrangement was the lat February 1838, a reference to the date of the Officer arrival in, or return to this country, or to that of the General Order announcing his promotion will enable the pay and audit departments to ascertain readily whether the pay of any Officer has or has not been thrown into arrear.

The pay of the European Soldiers of the Company's service arriving from Europe after the 1st May 1841, will be paid in arrear, and of the Non-Commanissioned Officers and Soldiers previously in the service, (though actually paid in advance) will be considered as paid in arrear from the above date and lasued in every respect in the same manner as the pay of the Men drawing pay, in arrear, with this exception, namely, --- That when such men become casualties the pay overdrawn shall be deducted from the abstract us at present.

Her Majesty's Troops, both Officers and men of Regiments now on this establishment, and all who may hereafter join those Heglinents from Europe or elsewhere will continue to draw pay in advance as at present, but those belonging to Regiments placed on this Establishment after the 1st May 1841, will draw pay in arrear.

The augregate monthly amount of the pay and allowances of the Officers of the relieving Regiments will be precisely the same as that drawn by Company's Officars of corresponding ranks, the following Table shews the item included in the aggretate sum,

No. 436.—The Right Honorable the Godfrior in Council, with a view to a more complete assimilation of the rules of the three Presidencies regarding the Regimental Pay and Allowances of the European Commissioned Officers of the Honorable Company's Service, is pleased to direct that from the 1st day of October next, they shall be drawn at the rates laid down in the following Tables, in which the total receipts in each rank correspond exactly with those now existing, the calculations having been made for a period of four years, in order to embrace

In drawing arrears for broken periods for any month, there are to be calculated with reference to the number of days in the month, and agreeably to the monthly

Tates now laid down.

In abstracts for Garrison Pay and Allowances the different items composing the consolidated cum shewn in the Table A need not be stated but for Officers not entitled to Tentage, or for these entitled to only Half Tentage, the total of each

in the abstract must be reduced accordingly.

The House Rent of Officers living in Public Quarters and not entitled to that allowance, innevertheless to be included in the found, but the amount must be deducted on the face of the Abstract, and Paymasters will give credit for the same in their Cash Accounts under the proper head. Separate Abstract for additional Half Batta when in the Field, at a Full Batta station, or marching must us heretofore, invariably be made, and the amount drawn at the rate laid down in the second column in the Field Fable B; and Staff Officers who receive it in virtue of their Staff appointments, will draw it in their Staff Abstract.

Officers individually detached from Garrison Station on Court Martial, or their

temporary duties which entitled them to both House Rent and Tentage, will, as

heretofore, charge the full amount of half Butta in their Field Abstract.

Adjutants and Quarter Mastersof Troops of Horse Artillery at Bombay, will be abolished as vacancies occur, and a Brivade Adjutant and Quarter Muster in one person, appointed in the allowances above specified.

The Staff to the Brigade of Horse and Battalions of European Foot Artillery at Fort Saint George, and to the European Foot Artillery at Bombay, will prospectively, as vacuncies occur, merge into one Officer for each European Brigade and Battalion, (in conformity with the practice in Bengal) who will draw the allowances above specified.

The duties and empluments of the Regimental Staffalluded to in the two preceding paragraphs, will remain unaffected until opportunities occur for effecting the proposed consolidation of their appointments.

the proposal consolidation of their appointments.

The separate office of interpreter to the European Regiment at Bombay, will also be abelished prospectively, and as at the other Presidencies, a Quarter Master and Interpreter will be appointed on the scale of allowances here indicated for the Office. In the meantime, the Quarter Master will continue to draw the same aggregate of emoluments heretofore, but the same will in future be passed under the new heads herein detailed.

The additional Staff allowance of 30 Rupees a month, now granted at Rombay, to Quarter Musters and Interpreters of Native Infantry, and Native Artillery, when Interpreters of both the Hindoostance and Mahratta Languages, will also be abolished prospectively, and in all future appointments, the nomines will draw at a figure at the new rate per animod of 60 Research.

draw staff pay at the new rate now assigned of 62 Rs. a month.

The present duties and emoluments of Interpreters of Her Majesty's Regiment of Dragoous and Intantry will both remain unaffected, but as vacancies occusthe separate Interpreterships, whenever existing in each Language, Hindousta-nes and Mahratta, will merge into one for both Languages, on the allowances here stated. This rule will apply equally to the Interpreter of the European

Regiment.
The allowance of 21 Rupees a month, granted at Port Saint George, to the Adjutants of Corps, European and Native while in the field or marching; for the carriage of Regimental Books of their own, and the Quarter Muster's Department, will like wise be prospectively abolished, and the bont fide expenses incurred for those purposes, will be drawn when actually marching, as in Bengal.

(Signed) Wm. CASEMENT, Major Genl. Secy. to the Govt. of India, Mily. Department.

The following General order by the Government of India is pub-No. 673 Jished.

No. 254 of 1842.

GENERAL ORDER BY THE HON'BLE THE PRESIDENT IN COUNCIL. Fort William, 7th October 1842.

1. The Hon'ble the President in Council is pleased to direct the publication of the annexed Table, exhibiting the Pay, Batta, and Superannution allowances of Warrant Officers of the Subordinate Medical Department, to have effect at the three Presidencies, from this date.

2. To entitle Apothecaries and Hospital Stewards to retire in Europe, on the Pension of their rank, they must have served in India and the Department for the periods laid down for Warrant Officers of the Ordnance Department in Government General Orders 17th July 1819, No. 187, the rules contained in paragraphs 5 to 9 inclusive of which regulation, will continue to be applicable to all Warrant Officers of the Medical Establishment.

3. Full, or Half batta, is to be drawn for Medical Warrant Officers as well as for those of the Ordnence and Commissariat Departments at all Garrisons and Stations where either rate of Batta is admissible to European Commissioned

4. Although it has not been deemed necessary to admit Assistant Apothecuries and Assistant Stewards to the benefits of Furlough, or to retire on a l'ension in Europe, yet should any individual of those classes establish a fair claim to the indulgence, the Government will be prepared to give the circumstances of each case, a favorable consideration on their being brought under its notice by the Commander in Chief.

#### WARRANT REGULATING THE GRANTS OF UNATTACHED PAY, RETIRED PAY, AND HALF PAY.

Dated 1st October 1810.

VICTORIA R .- Whereas we have judged it expedient to revise, amend, and consolidate the Rules, Orders and Regulations which have from time to time been establishing for granting unattached pay and other rates of pay to General Officers, and retired full pay and half pay to Officers of our Army; Our will and pleasure is, that from and after the date hereof, this Our Warrant shall be considered the sole authority upon this subject.

Unaltucked Pay and other Rates of Pay to General Officers.

The number of General Officers upon unattached pay of one pound, five shillings a day, not being in command of regiments, is limited to an establishment. of 120 General officers.

2. The vacancies which may from time to time occur in this limited establishment, will be filled up by General Officers recommended to us by the General

Communding-in-Chief.

3. General Officers, being Colonels of Regiments in the event of their Regiments being reduced, may be placed, in the first instance, as Supernumeraries in the said establishments, but are to full into the vacancies that may occur

4. All Officers promoted to be General Officers shall whether on full pay or half pay at the time of promotion receive unattached pay at the rate of four hundred pounds per annum, or if Lieut. Colonels of Cavalry the net full pay of that rank, until elected to the establishment of mattached pay, at one pound five shillings a day or appointed to be Colonels of regiments; - provided such Officers shall have actually rerved upwards of six years with the rank of Regimented Major or Lieut. Colonel, either with a regiment or in some other Military capacity in the public service or having obtained the rank of Regimental Field Officers had been obliged to go upon half pay on account of reduction, or in consequence of ill health contracted in the service, as established by the Report of a Board of Medical officers, or in consequence of -

the Brevet rank of Lieut. Colonel; nor to any officer who went upon half pay at his own request in time of peace before he had served aix years with the rank of Regimental Field Officer.

Officers thus situated shall continue to receive the half pay only of which they

were in the receipt at the time of their promotion to be General Officers.

6 Officers removed from their Commissions as Field Officers, in Regiments of Poot Guards, in consequence of being promoted to be General Officers, shall receive unattached pay according to the following scale viz :--

Major.....550*l*·

RETIRED FULL PAY: A limited establishment of retired full pay shall be formed and kept up according to the following scale :--

20 Lieut. Colonels at 17s. a day each.

20 Majors, ,, 16s. 115. Captains, whereof a number, nor exceeding 45, may be Brevet Field Officers at 13s.7d? a day each and the remainder Captains at 11s. 7d. a day each. Captains on the Retired List, at a lower-rate of pay, are not to be transferred to the new scale, except on special recommendation of the General Commanding in chief.

8. The officers to be selected for this retired establishment shall be recommended to us by the General commanding in chief, and they shall be appointed thereto according to the Regimental, and not exceeding to their Brevet rank, but they shall not thereby obtain any additional rank nor can they be further

9. Officers hereafter appointed to veteran battalions shall not, on their retirement there iron, acquire any claim to full retired pay, but upon reduction shall be liable to be placed upon half pay under the same regulations as Officers roduced from regiments of the Line.

HALP PAY.

10. The half pay of the Army is a renumeration for past Military services, and also an obligation on the part of the Officers to return to his Military duties whenever called upon, and any Officer not obeying the calls is liable to forfelt his

half pay.

- 11. No officer shall be entitled to be placed on the half-pay establishment on reduction from full pay, unless he shall have actually done duty in some other Military capacity in the public service, for a period of at least six years, excepting he shall have been compelled to retire upon half pay, by wounds received in action; or by ill besith contracted on duty in our colonies after three years' Service.
- 12. An Officer having served more than three and less than six years, will however if reduced, be placed upon halt pay, until recalled to active service.

13. An Officer having served less than three years, will if reduced, receive only a temporary allowance of half pay, according to the following scale: ---

Under l year......for l year.

cited periods, or previously, if the officers shall have been previously replaced on full pay.

15. But an officer on temporary half pay shall be eligible to be appointed to a full pay commission either by exchange or otherwise, provided his appointment shall take place within five years after he has ceased to receive temporary half pay, in which case his former service shall be allowed to reckon.

16. The exchange to full pay under the preceding article may be made with

a full pay officer entitled to half pay.

17. If an officer receiving the temporary allowance shall have purchased his commission, he may receive the regulation price thereof from the public through the Secretary at War, and the sum thus advanced shall be refunded to the public by the sale of a first full pay commission, provided that not more than one first commission out of two be thus sold for refunding to the public the regulated price of the commission so advanced.

ld. If a Subaltern Officer having a claim to half pay is desirous of selling or

commuting his half pays the following Rule shall he about

his commission, the regulated price may be given (whether meeting half payor temporary allowance) with the usual precaution of a medical certificate as to his being in a good state of bealth.

If he did not purchase his commission, he may receive the new price of that commission, if a Lieut, with seven years full-pay service in the Army, or with six years' if a Cornet or Ensign; and the old price of the commission is under

those periods, and shove four years' full pay pervice.
If he did not purchase his commission and should refire after less than four years' and more than three years' service, at his own request, and not on account of ill health or wounds, he shall only receive half the price of the .commission at

the new rate.

19. But in the cases included in the two preceding Anticles, no officer on half pay shall of right, have a claim to sell or commute his half pay—the permission shall be governed by such a consideration of the individual case as the General commending-in-Chief and Secretary at War may think proper to recommend to

20. No Garrison!Commission or Appointment shall give an officer any diame

ato half pay on retirement.

21. An officer who applies to retire upon half pay on the ground of ill health, must, if stationed in near London or Dublin, be examined by the principal officers of the Army Medical Departments in those cities, and if stationed elsewhere by a board of Medical Officers, agreeably to the provisions of the sticles of War; the result of such examination to be forwarded to the General Commanding-in-Chief and Secretary at War. If such examination shall not take place the officer will be considered to have retired upon half pay for his own convenience.

22. Every Quarter the residence of the half pay officer is to be stated in his

colaration, whether his half pay be received by an agent or by himself.

23. If an officer of any of the undermentioned ranks shall have entered the Service since the termination of the war in 1815, and shall, after the date of this warrant, be permitted to exchange to halfpay, not on account of ill health, but for his private convenience, before he has served seven years on full pay, he shall be allowed only the old rate of half pay specified in the following schedule; if the retirement should be for the public convenience by reduction or otherwise, or inconsequence of ill health as certified by a Medical Board, the officer will be allowed the new rate of half pay.

No. 199 of 1842.

GREERAL ORDER BY THE HONORABLE THE PRESIDENT IN COUNCIL. Fort William, 1st July 1842.

In shedience to the orders of the Hon'ble the Court of Directors, in their Military Letter to the Government of India, No. 6 under dute the 4th May 1842, the following Regulations are to have effect in the Medical Department of the three Presidencies, from the 18th instant.

The situation of Superintending Surgeon to be considered a Staff Appointment, to which only those fitted for it by a zealous and able discharge of their Professional Daties, shall be deemed eligible, and the appointment to future vacancies will be made without reference to the order of succession, whenever it may be the opinion of Government, that such departure from Seniority is required for the maintenance of the Public Interests.

The present system, by which all Pensions in the Medical Service superior to these of Surgeon. (Captain's full pay after 17 year's Service in India,) are dependent on promotion to the Staff Appointment of Superintending Surgeons is abeliabed, and in its stead the principle of granting those Pensions according to

length of service established upon the following scale, vizt.

The Present Regulations by which Superintending Surgeons are entitled as such to, retifing Pensions of £300 and £365 a year, and Members of the medical Board to Pensions of £500, and £700 a year, according to period of service in those ranks respectively, will cease to be the rule of the Service for Medical Officers, after the date of the introduction of the new arrangements; but individuals then in the Service, and who may be appointed to the Offices of Superintending Sargeon and Member of the Hoard, within ten years from that date will be allowed the option of retiring upon Pensions upon the Old Scale of length of Service in India.

The designation of lat, and and and Members of the Medical Board is aboltshed,

and the following Titles are substituted.

1

7 8

Physician General lat Member.
Surgeon General 2nd ditto.
Inspector General 3rd ditto.

The Regulation which fixes the rank of Brigadier General, as the relative Army rank of Members of the medical Board, will equally apply to those Members under the new Titles now established.

All Surgeons of 30 years' Service, to be designated "Senior Surgeons' and their relative rank with Officers of the Army to be that of Major. This arrangement, like all others having reference only to the rank and designation of Medical Officers, conters no claim whatever to superfor allowances, and will make the charge whatever in the nature of their employment.

· GENERAL ORDERS BY THE HONORABLE THE PRESIDENT IN COUNCIL.

Port William, 9th December 1837.

The Honovable the President in Council, has much pleasure in publishing to the Army, the following Extract. Paras. 2 to 5, of a Letter from the Court of Directors, to the Government of India, No. 5. dated 20th September 1837, announcing the grant of additional advantages to the Senior Officers of the Army, in respect of Retiring Pension.

In our letter of the 23d December 1835 we announced to you, that as we considered it hopeless to expect, that any military retiring fund could be successfully formed, we had thought it right, so far as we could feel justified in doing so, to provide for the object contemplated in schemes of that nature, by an enlargement of the Retiring Regulations, and that we had in consequence, resolved to grant the full pay of Captain to every Officer who should have served in India 23 years (3 years furlough), where he had attained that rank Regimentally or not, and the full pay of each of the superior ranks of Major, Lieutenant Colonel, after the completion of an additional period of five years service for each of those ranks in succession viz.

2. Being now of opinion, that some additional advantage in respect to the perlods of retirement, may properly be granted to the senior officers who would have been more especially the immediate objects of benefit from a retiring fund, qualify an officer of the pay of enchadvanced rank after that of Captain, shall be reduced from five to four years : the periods of service in India, required for each rank, being consequently hereafter as follows, vizt:

Rvery Officer who shall have served 23 years (3 years furlough included) shall be allowed to retire on the pay of Captain, whether he shall have attained that

rank, Regimentally or not

Every Officer who shall have served St years (3 years forlough included,) shall be allowed to retire on the pay of a Major, whether he shall have attained that runk or not.

Every officer who shall have served 35 years, (3 years furlough included,) shall be allowed, to retite on the pay of a Lieutenant Colonel, whether he shall have attained that rank or note

4th. These arrangements to have effect without priudice to any claims aris-

ing out of the Retiring Regulations as established in the year 1796.

5th. We desire that it may be distinctly understood, that the present is a man Meagure. You will accordingly decline to forward to us any application which may have in view a turther extension of the Megulations now established with regard to the retirement of our military servants.

Weare, &c. (Signed) J. STURT, Lieut. Col. Offg. Secy. to the Govt. of India, Mil. Dept.

**L**undon, **20th** Sept. 1837.

Officers coming to England on furlough, are immediately to report their arrival by letter to the Secretary, stating the name of the ship in which they came and their address, forwarding at the same time the certificates they received in India.

The period of furlough is three years, reckoning from its date to the day of the return of the Officer to his Presidency.

Officers are required to join the establishment to which they belong at the expiration of three years furlough, onless they shall have obtained an extension of leave from the Court, six months before the expiration of that period. No furlough will be extended, except in cases of sickness, certified in the manner hereafter mentioned, or in cases which it shall be proved to the Court that a further residence in Europe is indispensably necessary.

All officers finding it necessary to solicit a further leave of absence on account of sickness must, if resident in London or its vicinity, appear before the Company's examining physician who will report to the Court of Directors his opinion on the state of such officer's health. And if resident in the Country in any part of the United Kingdom, they must transmit, with their letter of application for such leave a certificate of the following form, signed by at least two gentlemen, eminent in the medical profession:—

I hereby certify, that I have carefully examined (state the nature of the case as well as the name of the party) and I decluse, upon my honor, that, according to the best of my judgement and belief is at present unfit for Military duty, and it is absolutely necessary for the recovery of his health, that he should remain at least longer in this Country.

Also, previously to such extension of furlough being granted, such further proof shall be adduced by personal examination, or by such other evidence as shall be deemed satisfactory.

Officers abroad in any part of Europe applying to remain a further time from their duty, on account of wickness, are to furnish a certificate of two emisent, physicians, in the above form with the attestation of a Magistrate that the persons who signed the certificate are physicians

Officers having obtained an extension of furlough to a given period, must, at its expiration, apply for permission, either to return to their duty, or to reside a fur ther time in England

No Officer who has failed to obtain an extension of furlough will be considered eligible to return to the service after five years absence, under the Act of the Geo. III. cap. 52, sec. 70.

Every Officer upon leaving India will receive a printed copy of the General Orders on this subject, published agreeably to the Court's instructions, and the plea of ignorance of the regulations will not be admitted as any justification of the breach of them: officers, therefore, who shall come home on furiough and who shall not in due time apply, as to effect their return to the Presidency to which they belong within the period of three years, from the commencement of their furiough will subject themselves to the loss of the service, unless they shall be permitted by the Court to remain a further time in Europe.

No officer on furlough can receive pay for more than two years and half from the period of his quitting India, excepting Colonels of Regiments, and those of the rank of Lieutenant Colonels regimentally, when promoted to that of Major Gen, they are then allowed to draw the pay of their rank beyond the above period.

All Officers who quit India on furlough, shall, for the period during which by existing regulations they receive pay, be allowed at the following rates.

Per diem.	Cavalry.	Infantry.	Artillery and Infantry.

### Revised Passage Warant.

War-Office, May, 6, 1844.

SIR,—I have the honor to inclose Her Majesty's Warrant of this date revising the Warrant of the 19th Oct., 1842, for Regulating the Passages and Passage Allowances of Officers of the Army.

1. The alterations which have been made do not affect the principle which governed the former Warrant—that an Officer should pay for his own messing at sea that sum only to which he was subjected for his ordinary messing on

shore.

2. By the Warrant of 19th Oct., 1842, Officers messed on board Queen's ships, whether at the table of the Captsin or at the mass of the Lieutenants, and Officers messed under the contract, at the table of the Master of a ves-el chartened or hired by the public, were liable to prescribed contributions from their pay for their own messing, and for that of each member of their family, which contributions where to be stopped from their pay by the secretary-at-War.

3. The Warrant of the 6th May, 1844 has stublished that -

A Field Officer, messed at the table of a Captain of the Navy, will have to contribute the sum of 3s 6d. a day for his own messing, and the daily sums prescribed, in the 13th Article of the Instruction, for the messing of each member of his tamily. This contribution will be deducted from his pay by the Secretary-at-War; and the Lords Commissioners of the Admiralty will issue the prescribed allowances to the Captain of the Navy

4 A Field Officer has, however, the option of joining with his family, the

ward room mass.

5. Officers messed at the table of the Lieutenant commanding, or at the table of the Lieutenant of a ship of war, will receive from the S cretary at-War 4s a day, in aid of the expense of their own messing, in advance for the same number of days as the pay is issued in advance on embarkation, but will be required to pay to the Officers of the ship the actual share of the expense of the mess, equally with the officers of the ship, and will also pay to the Officers of the ships the proportions of that actual extense prescribed by the 13th Article of the Instructions for their wives and children permitted to an bark with them. Such proportion of the payment is to be made in advance, as may be considered by the Navel Officers necessary for providing the meta for the passage.

6 Others messed in vessels hired or chartered by the public, in which a proper table is under the contract, to be provided by the Master, will be liable to a deduction of Ps. 6d a day from their pay by the Secretary-at-War for their own messing, but must themselves pay to the Master, the sums prescribed in the 14th Art. of the Instructions for the messing of each member of their

family.

7. Officers povided with passages in the contract steam-vessels are to be subjected to the prescribed contribution of 3s 6d. a day the meets, and must pay to the owners the contract rate for the accommodation and messing of their families.

8. Officers entitled to a free passage, and providing their own messon board ships, will be allowed 4s. a day, to be paid to them by the Secretary-at-War, but are not entitled to any allowance whatever for the messing of their families.

9. I have to request that you will caution Officers to be particularly careful that the prescribed certificates are in every instance obtained, to enable them to receive the liberal allowances which Her Majesty has been graciously pleased to exaction.---I have, &c.

H. HANDING.
The Officer commanding---Regiment.

8. It is imperative upon all Parents of children born from and after the 1st January 1839, to pay within one year after birth by regular monthly Instalments, a Donation of Rupees 100 for each son, and 200 for each daughter. The Parents or Guardians of Children born previous to the 1st January 1839 were allowed to secure for them the increased benefits by paying the additional donation; but the children of such Subscribers as may not have availed themselves of this opportunity agreeably to the terms of the Circular No. 74, will not be entitled under any circumstances hereafter to receive the highest scale of benefits.

9. But although a period of one year is allowed for completing the above donation, notice of the intention of the parent to discharge it must be given to the Secretary in India or to the Agents in London within the month subsequent to that, in which the child was born. In failure of such intimation and unless it shall have been proved to the satisfaction of the Directors that the delay arose from unavoidable circumstances, no child shall be admitted to the benefits above specified, although the donation may have been paid on its account.

The following Table of rates has been established, at which additional, Donations for children can be received whose parents have not made the necessary intimation to the Secretary within the month following that of birth

10. Persons being Members of the Fund and having Children, for whom they may desire to pay the additional donation shull, on giving immediate information thereof be required to pay the prescribed sums with compound interest, at 9 per cent. calculated from one year after the date of birth of each child or from the establishment of the original regulations on this subject in September 1843; and in the event of their having lost any children by death between either of the above dates, and that of their becaming members, they shall also pay the additional donations with similar interest on their account.

11. Subscribers on being promoted shall pay the difference of Subscription and Donation between their former and increased ranks, as married or unmurried subscribers, agreeably to the rates specified in the 4th and 5th articles of this

section.

12. The Donations payable by unmarried Subscribers may be paid either at once, or by instalments not exceeding eighteen. Those by married Subscribers on promotion, or by single members on marriage, by instalment not exceeding

twenty-four.

13. An unmarried Subscriber shall, in case of contracting marriage, make the Secretary acquainted with the circumstance within six mouths after such marriage, and shall pay the difference between the Donation of a married and unmarried Subscriber, and mouthly subscription as a married Subscriber, from the date of his marriage.

14. Widowers, on re-marriage, shall pay the difference of donation between married and widowers with or without offspring, notwithstanding that they may have discharged the amount required of them in virtue of a former marriage.

15. Widowers with offspring shall, on making known their wishes to contribute at the unmarried rates, be allowed to do so, provided at the same time they

relinquish all claim to the benefits of the Fund on behalf of their chadren.

16. Persons becoming Subscribers to the Military Fund on entering the Service shall, if married or widowers, and having legitimate offspring, be required to pay, in addition to the prescribed Donation and Subscription, an extra Donation equal to the amount of the Subscription of their rank, calculated from the date of birth of the eldest surviving child, or from the date of birth of the eldest of the children to whom, in case of the father's death, it is wished that the benefits of the Fund should be extended.

17. But if such information be not given, the Subscribers shall pay double the amount of the difference between Donation as a married shift unmarried Subscriber, with interest at 8 per cent. added half yearly; and if he does not pay this amount, and his subscription as a married subscriber from the date of his marriage, his widow and children shall forfeit all claims to the benefits derivable from the Fund; but such benefits as are personal, shall continue to be available to him as an unmarried Subscriber.

- 20. Subscribers who have been dismissed, and afterwards restored to the Service, shall be re-admitted to the benefits of the Fund on their recommencing their subscriptions from the date on which they shall again receive pay, and on paying back the amount of subscription which may have been returned to them in conformity to section 111, article 27.

21. All Subscribers, above the rank of Subaltern, who may proceed to England on sick certificate, shall pay their subscription in the same manner as those who proceed on Furlough.

22. Subscribers who may be prevented by any temporary cause from drawing tray, shall be exempted, during such period, from the payment of monthly subscription, but upon the removal of such incapacity, the amount of arrests due to the fund shall be made good either at once, by instalment not exceeding eighteen.

23. Comets and Ensigns shall be required to commence payment of their 10onations from the month succeeding that of their arrival in the country, by 30 regular monthly instalments

24. If a Subscriber talls in arrear with his Donation or Subscription of instalments for six months, he shall pay double the amount of the arrears, unless he makes it appear to the satisfaction of the Directors that such arrear was occasioned by unavoidable circumstances.

25. In all cases when a Subscriber dies in arrears to the Fund in consequence of his paying the sums due by him by instalments, agreeably to the regulations, whether on account of loans, or from any other cause, such arrears must be paid up, or otherwise his widow and children will be deprived of all claims to the benefits derivable from the Fund. But in the adjustment of such arrears, it shall be optional with the parties, to pay up the sum at once, or by a d-duction from the benefits of one half, until the amount be liquidated; no extra deduction being made on account of minimum until the arrears are paid up with interest.

# Pabal Regulations.

ERGULATIONS FOR PUBLOUGH AND BETTEBMENT OF OFFICERS OF THE INDIAN NAVY.

### FURLOUGH.

lst. A certain proportion of the Auvai officers (to be determined by the Government with a due regard to the exigencies of the service) are allowed to go home on furlough for three years, with the pay only of their rank.
2d. No officer under the rank of Captain, who has not actually served ten years

in the Indian Navy, is permitted to go home on furlough, unless in case of ill bealth, under the like certificates as required from military officers.

The regulations for drawing pay on furlough and retirement by the officers are, as far as circumstances will admit, the same as for the military officers.

### RETIRING FROM THE SERVICE.

The retiring pay to Naval Officers retiring from the service who have actually served in India twenty two years and upwards, is as follows, viz : Commanders 220 Naval officers retiring from ill health after ten years' service, and before they

have completed that of twenty-two years, are granted the following retiring allowance.

Captains, ........ 200 Commanders...... 170 Lieutenants and Pursers...... 125

### SHIPPING REGULATIONS.

A RULE, ORDINANCE and REGULATION for establishing an effective control over the shipping resorting to the Port of Hombay, for preventing the desertion. of the Crews of ships; the European soldiers of the Carrison offering themselves as Seamen; and for the better security of the Harbour and Dock Yard of Bornly.-Passed by the flororable the Governor in Council of Bombay, on the That of May 18:4; and registered in the Court of the Lionorable the Recorder ( of Bombay on the eleventh day of July 1820.

Whereas, by the statute passed in the forty-seventh year of his inte Minjesty King George the third, entitled 'an act for the better Government of the settlements of Fort St. George and Bembag," it is enacted that it shall be lawful for the Governor in Council to make and issue Rules for the good order and civil government of this Island, subject to the previous condition of being duly registered and published in the court of Recorder of Bombay, and to such other conditions as are imposed by the statute of the thirteenth, thirty-minth, fortieth, of his late Majesty, upon the exercise of a like power at Fort William in Bengal by the Governor General in Council, and whereas it is expedient that certain provisions and rules contained in Regulation II. A. D. 1810 entitled " a Regulation for the Port of Bombay, passed by the Governor in Council, on the Soth September, 1819," &c. should be amended and modified, and together with other new rules and provisions for the better government of the Port of Bomtay, be promulgated in due form, and receive undisputed legal authority.

Be it therefore ordained by the authority of the Honourable the Governor in Council now assembled, and in virtue of the power by the said statute conferred. that from and after the due register and publication of this Rule, Ordinance, and Regulation, consisting of the article hereinaf er stated, shall have the full force of law within this island and shall be atrictly obeyed as such by all His Majorty's subjects and other persons inhabiting, residing or being in the same.

ARTICLE 3d. - Before any European seamen or other European or American is discharged from any ship in the harbour and sent on shore, previous notice shall be given at the Office of the Senior Magistrate of the Police when such European or American is to be sent to the Police for Registry; and in all cases of desertion; immediate notice thereof is to be given to the Senior Magistrate of Police with the name and particular description of the person or persons deserted in order that he or they may be apprehended, and returned to their ship. # REGULATIONS FOR THE DOCK YARDS OF THE PRESIDENCY OF BOMBAY.

### General Rules.

ist. No building or repair is to be effected without the sanction of Government except in emergent cases, when a report is to be made, without delay, to Government in each instance. A statement of all work showing in a condensed form the description of work done, and the gross amount expended in each case, is to be submitted monthly for the information of Government.

2nd. No work is to be entered on in the dock yard, on account of Government except in cases of emergency without a survey, the report of which is to specify every description of alteration or repair required, and in the event of other work being ascertained to be necessary, in the progress of repairs, the Controller is to apply to the Superintendent for additional survey.

3rd. The Controller or one of his assistants with an assistant builder is to inspect and measure the quantity of plank expended, and to see that the is work and stores mentioned in the survey report, have been properly replaced and repaired.

4th. While ship or vessel is in Dock, nothing is to be put on board of her

. without permission of the Master Attendant.

5th When the Superintendent orders repairs on emergent service, the Controller is to inspect the work, and to see that the entries of expenditure of materials and labourers are correctly made in the day book.

Oth. The Controller, or his necistant, is to inspect all timber expended, and see that the logs are as nearly as possible the size of the moulds, in order that the cost loss in wastage may be sustained.

7th. When timber, plank, or spars, are there received or delivered, the Controller or one of his assistants is to attend with the storekeeper and matter builder, or their assistants, to inspect the measurement of the length and girth, so so is prevent an incorrect classification of the logs.

8th. When timber is required by the master builder's department the naval storekeeper will (on requisition being made) direct a trustworthy person to attend with one from the Controller's office to take the number and dimension of such timber, in order that it may be brought to account on the office books.

9th. The storekeeper is to have charge of all boats, masts, yards, care, or other

stores, after the master builder bas either made or repaired them.

10th. All explanations required by the storekeeper, in the adjustment of his office books referred to in various articles under that head, are to be applied for, in the first instance, to the controller.

11th. The value of all stores, such as masts, yards, boats &c. which it is not usual to sell by suction, is to be fixed by the controller and builders, before they
